

We Cure Stay-Cured

Varicocele, Stricture, Contagious Blood Poison, Nervous Debility and all Reflex Complications and Associate Diseases and Weaknesses of Men by Our Electro-Medical Treatment, Which Combines all the Curative Powers of Both Medicine and Electricity.

MASTER SPECIALIST.

We want every man thus afflicted to honestly investigate our special Electro-Medical system of treatment. We invite in particular all who have tried elsewhere without success, and all those whose cases have been abandoned by family physicians and so-called experts. We will explain to you why such treatment has not cured you, and will demonstrate to your entire satisfaction that we can cure you safely, quickly and permanently. Our counsel will cost you nothing, and our charges for a perfect cure will be not more than you will be willing to pay for the benefits conferred. We will do by you as we would want you to do by us if our cases were reversed. Certainty of cure is what you want. We can, and will cure you, by permission, to some of the best citizens of this city, whom we have cured and made happy and perfectly well by our financial as well as professional standing. WHAT WE HAVE DONE FOR THEM WE CAN DO FOR YOU.

VARICOCELE Under our Electro-Medical treatment this invidious disease rapidly disappears. Pain ceases almost instantly. The pools of stagnant blood are driven from the dilated veins and all soreness and swelling quickly subside. Every indication of Varicocele soon vanishes, and in its stead comes the pride, the power and the pleasure of PERFECT HEALTH AND RESTORED MANHOOD.

STRIGTURE Our Electro-Medical treatment dissolves the stricture completely and removes every obstruction from the urinary passage, allays all inflammation, restores the normal discharge, reduces the prostate gland, cleanses and heals the bladder and kidneys, invigorates the sexual organs and restores health and soundness to every PART OF THE BODY AFFECTED BY THE DISEASE.

CONTAGIOUS BLOOD POISON Our special form of Electro-Medical treatment of our life work, and is endorsed by the best physicians of this and foreign countries. It contains no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. Soon every sign and symptom disappears completely and forever. The blood, the tissue, the flesh, the bones and the whole system are cleansed, purified and restored to perfect health, and the patient prepared anew for the DUTIES AND PLEASURES OF LIFE.

NERVOUS DEBILITY Men, many of you are now reaping the result of your best less than you do something for yourself. There is no time to be lost. Impotency, like all sexual diseases, is never on the standstill. With it you can make no compromise. Either you must master it or it will master you, and fill your whole future with misery and indescribable woe. We have treated so many cases of this kind that we are as familiar with them as you are with the very daylight. Once cured by us, you will never again be bothered with emissions, drains, prematureness, small or weak organs, nervousness, fall of memory, loss of ambition, or similar symptoms, which rob you of your manhood and absolutely unfit you for study, business, pleasure or marriage. Our treatment for weak men will correct all these evils and restore you to what nature intended—healthy, happy man, with PHYSICAL, MENTAL AND SEXUAL POWERS COMPLETE.

REFLEX DISEASES Many ailments are reflex, originating from other diseases. Varicocele or Stricture; innumerable blood and bone diseases often result from contagious blood taints in the system, or physical and mental decline frequently follow impotency. In treating diseases of any kind, we always remove the origin—we cure the cause.

We Also Cure to Stay Cured, by Our Combined Electro-Medical Treatment,

Kidney and Urinary Diseases, Rheumatism, Paralysis, Piles, Private Diseases, Contagious Blood Poison, Rupture, Stricture, Varicocele, Nervous Sexual Debility and

ALL ALLIED AND ASSOCIATE DISEASES OF MEN.

CORRESPONDENCE One personal visit is always preferred; but if you cannot treat by correspondence, we will call at your office, write your symptoms fully, and all patients to hold for our agreement. Do not hesitate. If you cannot call to-day, write and describe your trouble. Successful treatment by mail.

CABLE FLASHES

IN A NUTSHELL

London—The Daily Mail says that King Edward has decided to reduce his ecclesiastical establishment from thirty-six paid chaplains to twelve.

London—Lord George Hamilton, in response to an attack by Sir Asquith, has written a letter to the House of Commons, has written a letter in praise of American locomotives.

Rome—Pozzan, an anarchist who attempted to commit suicide yesterday, is now under medical observation. He persists in asserting that an anarchist plot exists, the object of which is to kill the Kaiser, the czar, President Loubet of France and the Queen of Italy.

Madrid—The result of the Goodell court of inquiry is that both Lieutenant Colonel Manoli C. Goodell and Colonel Henry C. Cochran have been severely reprimanded. Rear Admiral Rodgers, Goodell has been ordered to command the marine brigade and Cochran has been ordered to the United States.

St. Petersburg—The conflict at Alexanderovsk between the strikers at the Douchoff ironworks and the authorities, May 20, when about 3,500 rioters attacked the police, had much more serious results than was admitted in the police report. The relatives of the strikers declare that forty of the men were killed and that 150 others were wounded.

Great Northern Summer Train Service to Lake Minnetonka.

Full service effective Saturday, June 1. Time cards at City Ticket Office, 300 Nicollet av.

RED, WHITE AND BLUE

CASCARINE.

What's the use of denying the fact that your bowels are not in as good shape as they might be and that you feel mean, cross and out of sorts? We repeat it again, that you are sick. You need a tonic for your system; you need a tonic that will stimulate the liver and create an appetite; a tonic that will drive away that depression that you have; that will rid you of that headache; that will make you feel fit for business and pleasure. Hundreds of people wake up in the morning with a bad taste in the mouth, their tongue coated and a horrible and uncomfortable feeling in the stomach and abdomen. If these people only knew what the matter was and how little trouble they could get well, we believe, they would consider themselves fortunate. If you will go to your druggist and buy a bottle of Cascarine and follow the directions on the bottle, you will be pleased to find after two days' use a decided improvement; that bad taste in your mouth will disappear, your headaches will appear less frequently, your appetite will be restored and you will enjoy your meals immensely. Cascarine changes your life, making simply because it is nature's true remedy, being made from roots, barks, herbs, plants and berries. It will not irritate the most delicate stomach and it never gripes. Do not allow some druggist to sell you tablets or pills because he makes a little more money of them, but when you ask for Cascarine, be sure that you get Cascarine, which comes in blue and white wrappers. There is only one Cascarine on the market and there can be only one. All other imitations are fakes and are worthless. Price per bottle, 50 cents.

SOUTH DAKOTA

TYNDALL—Workmen on the artesian well are making slow progress in cleaning it out. The bottom is still being to have caved in and the pipe is probably crushed.

REDFIELD—George Sosocoker, a laborer from Aberdeen, became demented here and endeavored to drown himself in Turtle creek. He was rescued by the section crew of the North-Western railroad.

IOWA

CEDAR FALLS—Abraham Sillmer, a retired banker of Waverly, has donated \$70,000 to the Home for Aged Jews in Chicago.

DAVENPORT—While seeking the cause of the death of Algerius Agersopoulos, a Greek section hand, Coroner Lambach found a parasite ten inches long wriggling about in the dead man's vermiform appendix.

More cases of sick headache, biliousness, constipation, can be cured in less time, with less medicine, and for less money, by using Carter's Little Liver Pills, than by any other means.

GRAIN NEEDS RAIN

This is the Unfavorable Feature of the Northwest Crop Situation.

NO SERIOUS DAMAGE TO DATE

Good Rains Soon Will Save the Day but There is Much Fear of Drought.

Reports from the northwest, covering the present condition of the growing wheat, show that rain is needed and that a part of the country is very dry. To date, there has been no serious damage, and nothing on the whole serious enough to cause alarm, but the lack of good rains gives rise to much apprehension. The wheat has a firm stand and the outlook shows a firm stand, but the lack of moisture in some districts, which is the unfavorable feature of the present situation.

Through the Red River valley conditions are favorable. The ground froze last season with abundant moisture in it, and while it is now very dry on the surface, the soil is still moist and the moisture. The most serious reports of dry weather come from North Dakota, especially from the north and west central portions. Up to the middle of May, soil conditions were nearly uniform, and there was practically an even distribution of moisture over the entire spring wheat territory, but the rains of May 15 were not equally distributed. The wheat in the districts received a heavy downpour, other large areas were passed over, North Dakota and especially central North Dakota received little or no benefit at that time. The situation, in this writing, does not warrant fear of serious damage from the lack of rain to date. In some places where it is very dry, wheat is being sown and apparently can stand several days of it.

The state of Minnesota, on the whole, is in good condition and will stand constant dry weather. The same structure of general conditions in South Dakota. Interest for the present centers principally in the prospects for central and northern North Dakota. Much depends upon weather conditions for the immediate future.

WHEAT CROP REPORTS

From Points in Minnesota and the Dakotas.

Specials to The Journal.
Breckenridge, Minn., June 1.—Your correspondent was through the country today looking over the crop conditions and prospects. The wheat in this vicinity has commenced to show the effect of dry weather and is turning yellow in places. It will be getting rain very soon, the crop will be considerably better, and the weather at this time is very dry, and no prospect of rain is in sight. On account of the cold weather the early part of May grain has a good, heavy stand, and well stood. If we get a good rain within a week, the chances are for a good crop.

Bismarck, N. D., June 1.—Wheat on the Missouri river and through the western part of the state has a long, good stand, but because of dry weather, but will afford a partial crop with favorable weather during the early part of June. Since June 1 the precipitation has been only one inch and a half and there has been but a half inch of rainfall in the past two months. While wheat and other grains secured good stands, the soil is very dry, and the supply is exhausted and rainfall is needed generally. At present, wheat is not burned much, its growth is not so good as it should be. Weather conditions are not otherwise damaged would have been greater.

Valley City, N. D., June 1.—Crops are at a standstill. The wheat is looking well and seems to be holding its own notwithstanding the dry weather. It is deeply rooted and heavily stood, and every way looks much better than it did at this time last year, when some grain was beginning to head out. The difference is attributed to the fact that there were many rains last fall and the ground froze it was full of moisture. This is undoubtedly sustaining the crop now, but it is not advancing any and a continuation of the present conditions soon make a noticeable change for the worse. Rain is needed and to do any good it should come soon.

Grand Forks, N. D., June 1.—The need of rain in this section of the state is just beginning to be felt. Competent judges say that up to date no serious damage has been done, with the exception of a few isolated spots where the crop is being blown early in the season, but it is thought that even in these places a good rain soon will revive the grain so that a crop may be secured. The weather of the last week resulted in better crops throughout this section and they are all looking above the average. This is the result of the heavy rains of last fall, which left a heavy spring, and the lack of rain this spring has not retarded the growth of the crops to any great extent. The wheat in the northern part of the state will stand a dry spell of at least a month, and the crop will without material damage, except in a few places where the soil is very sandy. Some of the grain on spring plowing will not start, or the part of the crop will not start until a shower falls. What some of the farmers are getting apprehensive over the outlook, this to a great extent is the result of the dry weather the early part of last season, and the operation of the local grain men who covered the entire northern part of the state recently, a rain very soon will insure a good crop.

Elmore, Minn., June 1.—Reports from various sections of the state indicate that early sown grain is generally in good shape, but that that sown later was seriously affected by the frosts on Friday and last night, but the rain in this immediate vicinity there are some fields that are actually brown from the combined efforts of sun and frost and there are in no condition to withstand drought. The grain that was sown out well and plenty of moisture would bring on a fine stand, but the dry weather is already checking growth everywhere, and the earlier sown grain, which got the benefit of the first spring rains, and was not so seriously affected by the frost as was the smaller and more tender wheat, can withstand drought for any length of time. In this immediate vicinity, about half of the grain can be classed as early sown. Farmers are beginning to be alarmed over the outlook.

Halsell, Minn., June 1.—The weather during the week was dry, with cool breezes, and not as hot as last week. Before the rain of May 15 many pieces of crop were in bad condition from light frost and dirt storms, but the rain the 15th brought out the crop nicely. There is no indication at present of immediate rain and, although the soil is somewhat dry, it does not seem that the crop as yet. Much of the crop in Anthony, Heggen, and eastern Hendrum was very much damaged by the too heavy rainfall of May 15.

Aberdeen, S. D., June 1.—While the grain is not making a very good start, a limited degree in isolated localities, farmers are beginning to be uneasy over the prolonged absence of good, soaking rains. Farmers as a rule report crops growing finely.

Ellendale, N. D., June 1.—In this immediate vicinity the condition of the wheat crop is fairly good. Owing to the drought the weeds are getting the start at some fields, but the wheat stalk is still healthy and of a good color. Local rains have helped out here somewhat, but it is reported from different parts of the county that the crop is badly in need of rain.

Ipswich, June 1.—Crops in general are not seriously suffering and the outlook now is that they will stand a dry spell if not prolonged beyond a week. Corn is up and growing fast.

Devils Lake, N. D., June 1.—The crop is doing nicely with no damage as yet from dry weather. A heavy shower in the next ten days will insure a good crop.

Wahpeton, June 1.—Early sown wheat is looking very well, but late grain shows the effect of dry weather. The early sown

TOP PRICES GIVEN

No. 3 Boards Sold at Duluth for \$18 a Thousand.

EASTERN MEN ON THE MARKET

Drives in the Cloquet Are Moving Finely—Duluth Daily Delivery Large.

Special to The Journal.
Duluth, Minn., June 1.—There has been a good deal of stir to the lumber market the past few days, and many eastern buyers have been here. Some are still here waiting to make purchases. The top prices of the year have been paid for what has been sold. The Red Cliff Lumber company sold 2,100,000 feet of No. 3 and No. 4 lumber at \$18, which is a remarkable price. This lumber is noted for softness and quality. Some 3,000,000 feet of Kehl stock on the Leasure docks has been sold and the 2,800,000 feet of Bates & McDonald stock has been sold to the American Lumber company for working down at Superior.

A large dock has been built at Two Harbors for the shipment of pulpwood, and several cargoes have already gone to the Hammermill Paper company at Erie. Masons are busy laying the foundations for the proposed paper mill at Grand Rapids, and the work is being pushed along rapidly.

The St. Louis Lumber company has taken a contract to saw 8,000,000 feet of logs for W. H. Gilbert for shipment, and they will be brought in at once. These are south shore logs and are in addition to the big contract Mr. Gilbert has with Murray & Armstrong, which will give the St. Louis mill a day run for the season.

Logs are coming in rapidly from points along the shore; the rivers are high and running freely, and the tugs engaged in towing are all hard at work. The daily delivery at mills is large.

Powers & Simpson are now hauling from their headquarters near Hibbing to the mill to him. They are hauling 10,000,000 feet of logs to put in and will be about two months at the job.

The Sturgeon River Lumber company has reopened one of its camps at Colby, on the east end of the Partridge dam, and improve the Partridge river dam during the summer.

Cloquet river below Island lake is running high and fast, and all the drives of the jobbers, the lumber companies and the Duluth & Northeastern road are commencing along finely.

Doyle & Armstrong have taken a contract at Iron River to log about 800,000 feet of the Iron Lumber company, which will be sawn at Iron River.

RATE WAR AT AN END

Warring Alaskan Steamship Companies Restore Old Prices.

Seattle, Wash., June 1.—The Alaskan steamship rate war is at an end, temporarily at least. An agreement was entered into by managers of the recently warring companies, that the former passenger rates of \$25 first class and \$16 second class. The agreement is to be in force for sixty days, and it is thought will then be extended.

The rate war, which brought transportation to southeastern Alaska as low as \$5, was forced by Canadian lines, which insisted on American steamers keeping away from Vancouver on north-bound trips. The agreement provides that only steamers of the Pacific coast company may call at Vancouver.

HEIRESS TO A THRONE

Queen of Italy Has a Daughter—Wealth for the Nurse.

Rome, June 1.—Queen Helena was accompanied of a daughter at 9 o'clock this morning. The princess will be named Yolanda Margherita.

Amidst general congratulations there is considerable disappointment at the fact that the sex of the princess was not revealed. The princess will be named Yolanda Margherita.

Amidst general congratulations there is considerable disappointment at the fact that the sex of the princess was not revealed. The princess will be named Yolanda Margherita.

BANKERS' BANK

New Idea in the Line of Broad-Gauge Finance.

Chicago, June 1.—Plans are being perfected for the establishment of a gigantic bank in Chicago, which will be known as the National American Trust company of New York. The stock will be issued only to banks, one share each to \$100 of the largest banks in the country. It will be necessary for a bank to own a sharehold in the new institution in order to make deposits with it. The headquarters will be in New York.

CREED REVISION

Jan MacLaren Sends a Message to American Presbyterians.

London, June 1.—The Rev. Dr. John Watson (Jan MacLaren), who last year was moderator of the English Presbyterian synod, has written a paper on the American decision to revise the confession. He writes:

Many on this side of the Atlantic are glad to know that the Presbyterian brethren in the United States propose to revise the confession. It is an intellectual work, but would be improved by a reduction in size and an infusion of love.

WISCONSIN

BAFFIELD—A corps of government engineers in a few days will commence making a government survey of the Apostle Islands.

HUDSON—Herbert Russ of Willow River was arrested, charged with raising a check from \$245 to \$295. He was taken to Pine City, Minn.

KENOSHA—Mrs. Benjamin Pinder was terribly burned in an effort to rescue her two little boys from a burning building. The burns are serious.

HAYWARD—Under the caption of "The Hayward What," a writer in the paper has made his first appearance. It will be published and edited by W. E. Shel.

BELOIT—It is understood that Dr. Edward D. Eaton, who resigned the presidency of Beloit college to accept a pastorate at Milford, Mass., has been induced to reconsider his resignation.

ASHLAND—The blast furnace of the Ashland Iron and Steel company has changed hands and the new owners are making their property and making plans for spending a quarter of a million dollars in improvements.

WEST SUPERIOR—A trace seems to have been declared by the city and the street car company and it is expected nothing will be done by either party until after a conference is had between Thomas Lowry and the city officials.

BLACK RIVER FALLS—The extra term of circuit court has closed. The cases against the Omaha Railway company for an increase of damages for right of way across land were won by the plaintiff in two cases and the third one was settled to the satisfaction of the plaintiff.

NEW PATENTS

Washington, D. C., June 1.—(Special.)—The following patents were issued this week to Minnesota and Dakota inventors, as reported by William H. Mearns, Patent Attorney, 929-935 Guaranty Building, Minneapolis, Minn.—Henry Clemon, Morrivtown, Minn., cloth-holding pin. Charles D. Higgins, Aberdeen, S. D., device for cleaning the rollers of a mangle. Fred E. Parsons, Marshall, Minn., journal-roller. Peterson Pierce, Hudson, S. D., vehicle-tender. Kelly Mallender, Minneapolis, Minn., fire-alarm device. Wesley St. Paul, Minn., cigar and tobacco molder. Walter Thexton, Minneapolis, Minn., copying-press.

TO SUCCEED CONGER

John Barrett Wants the Place If It Becomes Vacant.

Special to The Journal.

Seattle, Wash., June 1.—John Barrett, former minister to Siam, and now minister to the Philippines, is making a hot campaign on the Pacific coast for the endorsement of the chambers of commerce in the larger cities for the position of minister to China, in case Mr. Conger resigns. His chief opponent is ex-Minister Denby.

Barrett claims to have President McKinley's promise of the position, provided he obtain sufficient endorsements from the coast. He has been endorsed by the chambers of commerce of Seattle and Tacoma.

LOGS TO BE RE-SCALED

DEMANDS OF INDIANS GRANTED

Special Government Sealer Now at Work on the White Earth Reservation.

White Earth, Minn., June 1.—Through the earnest efforts of Special Agent Eugene McComas of the Indian department at Washington a re-scale of all dead and down timber cut on the White Earth district has been ordered by the Indian office and J. F. Farr, special government sealer, is now engaged in a re-scale of the logs cut in the different sections of the reservation during the winter. Mr. Farr, being assisted by a crew of competent scalers.

This move on the part of the government has pacified the manifest turbulence and unrest lately prevailing among the Indians.

ACCOUNTS DISALLOWED

Jones and His Agents Will Have to Appeal to Congress.

A dispatch from Washington announces that Special Agents McComas and J. R. Farr, who were sent to Minnesota to re-scale the logs cut by government contractors, have returned to the Indian office at Tracwell, of the treasury. He claims that the Indian department acted without authority in ordering a re-scale at government contractors. Their combined accounts amount to \$1,500, and Commissioner Jones has expressed his opinion well satisfied with the work of the special agents.

The re-scale of logs showed that serious mistakes had been made in the letting of certain contracts. Captain Mercer had closed his contracts with the dead and the special agents before the special agents began their work. Only one re-scale against the contractors. Congress will be asked to reimburse Commissioner Jones and his special agents next winter.

WILL NOT GO BACK

Mr. Loomis' Successor as Minister to Venezuela Will Be Named.

Washington, June 1.—William W. Russell, United States chargé d'affaires at Caracas, has been named as the successor of Mr. Loomis as minister to Venezuela. The American government unreservedly indorses the actions of Minister Francis as a standstill. The questions pending between the two countries, which have already been carried out these instructions.

Minister Loomis will not return to Venezuela as the diplomatic representative of the United States. The president and Secretary Hay of the desirability of assigning another diplomat to Caracas and giving his post to Loomis.

It also has been decided not to take official notice of Castro's reflections upon Mr. Loomis, which are characterized as "a gross breach of international procedure."

In criticizing Loomis, President Castro really criticized President McKinley, and officials consequently are deeply incensed. It is hoped the sending of a new minister to Caracas will bring about the resumption of cordial diplomatic relations, but he has been directed to insist upon the protection of American interests, it is not probable any change will occur.

SOUTH DAKOTA MACCABEES

C. K. Haw of Aberdeen Elected State Commander.

Special to The Journal.

Aberdeen, S. D., June 1.—The state conference of the Maccabees terminated last night with a banquet and delegates and visitors left for their homes this morning. The following officers were elected, the present meeting being the first ever held in the state. State commander, C. K. Haw of Aberdeen; past commander, C. K. O'Connor of Heron; lieutenant commander, A. G. Silver of Ipswich; finance keeper, J. P. Putnam of Aberdeen; chaplain, E. R. Dawson of Parker; physician, J. G. Parsons; master-at-arms, C. E. Arnold of Watertown; sergeant, S. S. Lusk of Aberdeen; secretary, W. M. Parrott of Langford; picket, Peer McDonald of Tyndall.

DANISH LUTHERANS

Evangelical Church of the United States to Meet at Albert Lea.

Special to The Journal.

Albert Lea, Minn., June 1.—The general conference of the Danish Lutheran Evangelical church of the United States will begin here next Thursday and continue one week. Already 311 delegates are on the lists to attend and there are expected to be many more. The church will erect a large dining-hall where the crowds will be met up for consideration. The pastor of the local church, Rev. J. J. Kildsig, has one of the largest congregations in the United States.

MINNESOTA

ST. JAMES—Commencement exercises of the St. James high school were held yesterday.

RUSH CITY—The first commencement exercises of Rush City high school took place last evening.

NORTHFIELD—A meeting of the teachers of Rice county will be held in this city, Saturday, June 8.

BRainerd—The contract for the erection of the Harrison school was let to George E. Kretz for \$3,335.55.

APPLETON—The board of education has reviewed the school year and has decided to award certificates of assistants with one exception.

BUFFALO—Judge Giddings of Anoka will open the June term of court here Monday. There are thirty-seven civil and fourteen criminal cases.

BEMIDJI—Conductor Cox had a leg broken yesterday while watching logs being hoisted at the B. and S. N. M. roundhouse. He was struck by a flying pulley.

HENDRUM—The question of incorporation is still a vital one. It is believed that, as an incorporated village, Hendrum could obtain more improvements than it now has.

FARIBAULT—Mrs. Bassett died yesterday. She leaves three children, Mrs. Ella Bassett, of Minneapolis; Mrs. Annie Abbott, of Faribault; and Mrs. Mary Bassett, of Faribault.

WALNUT GROVE—Frank Bowles of Waseca, a brakeman, accidentally fell between two cars yesterday and had both legs crushed, besides receiving internal injuries. He died almost instantly.

BENSON—Mrs. Rebecca Stone died this week at the residence of her son-in-law, ex-Senator A. N. Johnson, at an advanced age. Four children survive, Laura K. Stone, H. W. Stone, E. E. Stone and Mrs. A. N. Johnson.

MOORHEAD—John Bolt fell from the third-story window of the Columbia Hotel and broke his back. He was walking in his sleep.—Senator Clapp delivered an address at the high school commencement exercises last night.

DULUTH—The Bivank mine has received the largest tonnage of rock crushed in the ever put in any mine.—Steps are being taken to make arrangements, if possible, for the disbanding of the third regiment of the National Guard at Duluth after the practices march.

WINONA—The Winona County W. C. T. U. will hold its annual meeting at Almont on Thursday and Friday.—Much excitement prevails across the river in Wisconsin owing to extensive operations that are to be carried on there prospecting for iron. A large company has been organized, with ex-Mayor Truelson, of Duluth, at its head. Options have been secured on all the farms in the vicinity of the Kowalewski farm, where plying ore was found in sinking a well.

Additional Minnetonka Service via "The Milwaukee."

In addition to the cottagers' train on the Minnetonka Line, the "Milwaukee" will run one train daily Minneapolis to Minnetonka and return, leaving Minneapolis 9:30 a. m. and returning leaving Minnetonka 4:00 p. m., beginning Sunday, June 24.

of all ages, who are unhappy, who are afflicted with a secret, delicate, Private Disease, young and middle-aged men, who do not consider themselves the equals of other strong, vigorous and happy appearing men, who are suffering from the effects of a secret, delicate, Private Disease, should call, without delay, at, or if living at a distance, write to the Minnetonka Medical Institute, 47-49 Washington Avenue South, Minneapolis, Minn. Address letters, M. I., Box 225.

WOMEN

FEMALE BEANS—A new discovery in the treatment of female weakness, which has been called by the various doctors she has consulted by as many different names. These women have been treated and have taken medicines with no relief, simply because the remedies are not adapted to the catarrh. It is through a mistaken notion as to the real nature of the diseases that these medicines have been recommended to
