 Mrs. Kate Austin, 40 Jenny Lind Ave., Somerville, Mass., says:

 "A friend recommended Dr. Greene's Nervura. I started to take it. After taking the Nervura I never had a pain in my side, nor any headache, and I sleep well and have a good appetite. I don't believe there is any medicine in the world so good as Dr. Greene's Nervura. It did me good right off, and I have had no return of my womb trouble.  "I feel strong and last summer was able to do the work for fourteen in family and I weigh 163 pounds. I recommend Dr. Greene's Nervura blood and nerve remedy to everyone."

**MAXIMITE IS MAXIMITE**  
 Explosive That Will Revolutionize Modern Warfare  
 MORE POWERFUL THAN LYDDITE  
 Its Inventor Says, as a Result, Ponderous Battleships Must Go.  
 New York, June 3.—Maximite, the new explosive invented by Maxim, has been adopted by this country after a series of successful tests at the Sandy Hook proving grounds. The secret of the explosive has been sold to the government by the inventor, and the explosive, it is thought, may revolutionize warfare. It is said to be more deadly in its character than lyddite, yet so safely can it be handled that the danger of its use is less than that incurred in transporting ordinary black powder. The tests indicate that the explosive will pierce a 12-inch armor plate with a red-hot iron plate, and, having passed through it, will explode on the other side with sufficient power to destroy everything with which it comes in contact. Never before has a plate of this strength and thickness been pierced.  
 The tests have been made by the Ordnance Department at Sandy Hook, and by experts that maximite may revolutionize the building of battleships and fortifications. The insensitiveness of this explosive is so great that a red-hot iron may be thrown into a mass of it without causing an explosion. The explosion of the compound after passing through the armor plate is accomplished by means of a fuse. Shells filled with lyddite, the high explosive adopted by the British government, exploded on impact where the maximite shells passed through the steel plates a foot in thickness. These tests of maximite are regarded as having demonstrated that there is no warship or navy capable of withstanding its destructive effects. Mr. Maxim conducted these experiments in person, there being no one present except the ordnance and engineering experts representing the government. In an interview Mr. Maxim said:  
 "Should the United States now become involved in war with any other power, it will be able to throw high explosive projectiles through the thickest armor of our enemies, to explode inside their warships, while they are in the water, and to penetrate their armor with solid shot, or at least, carry no bursting charge whatever.  
 He thought the moral of these new developments is that the ponderous battleship must go, and be replaced by the small, swift torpedo boat or torpedo gunboat and cruiser.

**SSS and OLD PEOPLE**  
 Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.  
 S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.  
 Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.  
 Don't let your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.
