RACE ON LAKE ERIE

Steamers Erie and Tashmoo on a Great Dash.

FROM CLEVELAND TO ERIE

The Distance Is 100 Miles—The Steamers Are of Different Types.

Cleveland, June 4.—Stripped of everything that would unnecessarily catch the wind, the two modern side-wheel passenger steamers, City of Erie of Cleveland and the Tashmoo of Detroit lined up this morning for their great hundred-mile dash from Cleveland to Erie to decide the speed championship of the great lakes. Steamboat men from many ports gathered to see the contest. Special excursion boats from Cleveland, Toledo, Erie, Buffalo and smaller ports took large loads of passengers to points along the course. Throngs of curious people also gathered along the lake shore to catch a glimpse of the racers.

The day dawned bright and clear with a light southwesterly breeze stirring a gentle swell. Long before starting time Cleveland harbor was alive with crafts and the wharves were black with people. Thousands of whistles and bells sounded as the two racers steamed up to the stake boat. They apparently were evenly matched. The Erie is 324 feet over all and 78 feet beam, against the Tashmoo's 320 feet length and 70 feet width. The Erie was built to make fast schedules between Cleveland and Buffalo under all conditions, and has twice the power of her rival. The Tashmoo was made for river work, draws much less water than the Erie and is built like a cigar, with a sharp, tapering prow. It is estimated that over \$100,000 will change hands as a result of the race. The betting is at even.

A Surprise. Just before the boats started the wind veered around to the north and the racers had a seven mile breeze against their quarter bows. When the starter gave the signal, the steamers were at a dead stop and on even terms. Much to the surprise of the spectators the Erie was the first to gain headway and crossed the stake boat line fully two lengths ahead of the Tashmoo. The Detroit boat, however, gradually drew up on the Erie, and as they disappeared in the haze three or four miles eastward the Tashmoo had overtaken the Cleveland steamer.

Mrs. Nation Attacks Apollo

Chicago, June 4.—Mrs. Nation cut loose here again yesterday. It was "editor's day" at the manufacturers' exhibition of goods made in Kansas City, which has been in progress for a week at Convention hall. Some two hundred editors of country papers all over this section were the guests of the management, and among them Mrs. Nation, as "editress of the Smasher's Mail." There is an art gallery in one division of the exposition. Mrs. Nation visited it. She had a hatchet in her hand, borne as a sort of "aid" for her paper. About the first work of art she espied was an Apollo statue. Apollo had no trousers on. With uplifted hatchet and a whoop Mrs. Nation made a dash for Apollo. Bystanders saved the marble god. But the next minute Mrs. Nation caught sight of a defenseless water color picture—Psyche in the altogether. It took two policemen to get the smasher away from this. They arrested her, but recalling the unpleasant experiences of a few weeks ago did not take her to the station. Directly she was released the indefatigable old woman mounted a platform and addressed a crowd of several thousand on morality and temperance.
