

FOR SYSTEMIC CATARRH

Peculiar to Summer Pe-ru-na Gives Prompt and Permanent Relief.

Clem G. Moore, Editor of the Advocate-Democrat of Crawfordsville, Ga., writes the Peruna Medicine Company as follows:

Gentlemen—"After four years of intense suffering, caused by systemic catarrh, which I contracted while editing, and traveling for my paper, I have been greatly relieved by the use of Peruna. I gave up work during those years of torture, tried various remedies and many doctors, but all the permanent relief came from the use of Peruna. My trouble was called indigestion, but it was catarrh all through my system, and a few bottles of Peruna made me feel like another person, noting the improvement after I had used the first bottle. Peruna is undoubtedly the best catarrh remedy ever compounded."—Clem G. Moore.

Captain Percy W. Moss, Paragould, Ark., says: "I think Peruna is undoubtedly the finest and surest catarrh cure ever prepared, and it has taken but two bottles to convince me of this fact." Judge William T. Zeno, of Washington, D. C., writes from 213 N. Capital street, Washington, D. C. "I take pleasure in saying that I can cheerfully recommend the use of Peruna as a remedy for catarrhal trouble and a most excellent tonic for general conditions."—Wm. T. Zeno.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice. Address Dr. Hartman, president of The Hartman Sanitarium, Columbus, Ohio.

THE OUTLOOK

For a woman's happiness in the married state depends less, as a rule, upon the man she is to marry than upon her own health. The woman who enters upon marriage, suffering from womanly weakness, is "heaping up trouble against the day of trouble." Weak women are made strong and sick women are made well by the use of Dr. Pierce's Favorite Prescription. It is the one reliable regulator. It dries encrusting humors, heals inflammation and ulceration and cures female weakness. It nourishes the nerves and invigorates the entire womanly organism. It makes the baby's advent practically painless, and gives strength to nursing mothers.

"I suffered for twelve years with female trouble," writes Mrs. Milton Grimes, of Adair, Adair Co., Iowa, "which brought on other diseases—heart trouble, Bright's disease, nervousness, and at times would be nearly paralyzed. Had neuralgia of stomach. I can't say my medicines (sine bottles in all five of 'Favorite Prescription,' four of 'Golden Medical Discovery,' and two vials of Dr. Pierce's Pellets) have cured me. I can work with comfort now, but before I would be tired all the time and have a dizzy headache, and my nerves would be all unstrung so I could not sleep. Now I can sleep and do a big day's work, something I had not done for over eleven years before." Dr. Pierce's Common Sense Medical Adviser, in paper covers, sent free on receipt of 21 cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

RED WING SEMINARY

Question of Removal Before Norwegian Lutheran Hague Synod.

BIG MEETING AT JEWELL, IOWA

The Chinese Mission Another Important Subject—Delegates From Nine States.

Special to The Journal. Jewell, Iowa, June 4.—The Norwegian Lutheran Hague's synod will convene here to-morrow morning and continue for one week. Several pastors and delegates have already arrived and many more will come to-night and to-morrow. In all, more than three hundred visitors are expected.

The synod's field of labor comprises the states of Minnesota, Iowa, North and South Dakota, Michigan, Wisconsin, Illinois and parts of Kansas and Nebraska. A good representation is expected, especially from the southern part of this territory, as the meeting is held so far south.

Last year the synod decided to set aside one day of this meeting in which to conduct work in the English language. The synod is fully aware of the fact that the rising generation are adopting the English language more and more, and that it is necessary to prepare to meet their requirements. The pastors of the large cities are especially interested in this movement and several will read interesting papers at this session.

One subject, which promises to bring on some discussion is the future location of Red Wing seminary. At the annual meeting at Gratton, N. D., last year it was decided to erect a \$40,000 building at the school's present location, Red Wing. Recently a movement has been started to move the school to some other place. Several of the younger patrons are at the head of this and indications are that Red Wing will lose the school unless it is alert to its interests.

It is not probable that definite action will be taken this year. An effort will be made to reconsider the resolution passed last year, and then appoint a committee to confer with different cities, in order that a final decision may be made next year.

One of the important subjects for consideration at the Chinese mission. Hague's synod has had missionaries in China for about ten years but during the recent troubles all of them left that country. While some of them are still in China, returned to China of their own accord. Plans for reopening the mission stations will be carefully considered. Missionary Ronning, who at present resides in Jewell, has been in China several years and his knowledge of the country will be valuable in aiding the delegates to determine upon future plans for the mission.

As Hague's synod is particularly strong in Jewell and neighboring towns, large numbers of people are expected to attend the meetings. Jewell college, which is supported by the synod, it has been successfully operated for several years, and has an efficient corps of instructors. During the meeting, meals will be served in the dining halls of the college.

B. C. LUMBERMEN LIKE IT

Law Prohibiting Export of Timber to U. S. in Certain Cases.

Special to The Journal. Vancouver, B. C., June 4.—Under the recent provincial legislation forbidding the export of shingle bolt and lumber logs from timber limits here, an important government restriction is in effect. It is understood that some allowance will be made for actually existing contracts with United States buyers in force at the time of the passing of the provincial legislation. Those who own timber land and do not merely hold it on provincial license cannot and will not be restrained from exporting logs. The British Columbia legislation follows that of Ontario. It will materially reduce the supplies of some of the shingle mills on the Washington state side of the international boundary. The legislation is popular with British Columbian lumbermen, while loggers are divided in opinion on the subject.
