98c	\$1

### BACKS IN SOUTH

They Seem Gaining Over the Whites in Number.

#### REVELATIONS OF THE CENSUS

Number of Chinese in This Country Smaller Than Labor Leaders Feared.

From The Journal Bureau, Room 45, Post Building, Washington.

Washington, June 14.—Few questions have attracted the attention of sociologists since the civil war more than the relative increase of the black and white races in the south. By the census of 1880, which by comparison with that of 1870 offered the first real basis for reflective study, the blacks seemed to be gaining in numbers faster than the whites. This created considerable alarm. It was feared that in the course of time the black race would outpopulate the white, or "Africa" in the south, as it was called. Ten years later, the census of 1890 gave quite a different showing; the black race seemed on account of its heavy death rate, to be making less numerical progress than the white, and it was discovered that the sensational showing of ten years before might have been due, in part at least, to an inadequate count of the blacks in 1870. At all events, the returns of 1890 served to quiet apprehension on the part of those who feared that the black race would eventually possess the land. But returns of this character from a recent census were not sufficient to settle the question. Students of the problem have been looking forward eagerly to the count of 1900, whose findings are now in process of tabulation.

The figures for the race have already been made up for two southern states—Alabama and Arkansas. In them for the decade just closed the increase of the colored race was slightly greater than that of the whites. The difference, however, is so slight, running into the fraction of 1 per cent, that any definite conclusion as to the course of events will have to await fuller returns from the states typical of the entire south, the conclusion reached in 1890 will have to be revised and it seems likely that this will be the case. Another factor in the problem to which there has been considerable white migration, and that the blacks should have kept up in ratio of increase is somewhat significant. It is probable that throughout the south the medical facilities at the command of the negroes are improving, so that the death rate is not so startlingly large as it was in the earlier years of freedom.

The Chinese.

Another interesting question which has provoked much speculation in the last ten years is the numerical status of the Chinese population. Labor agitators, bent on the extreme forms of Chinese exclusion, have repeatedly alleged that through the evasion of the law, as many Chinese were now coming into this country as ever. They have said that all along the border, both Canadian and Mexican, the smuggling of Chinamen was going on, oftentimes by connivance with the immigration inspectors.

The census will settle this question, and while the total number of Chinese in the country is not yet available, enough is known to set at rest all alarming reports on this subject. California had in 1890 nearly 73,000 Chinese; it has only about 80 per cent as many now. This is somewhat startling, but it clearly indicates that not only has the supply of new material pretty effectively been cut off, but that those who were there ten years ago have now scattered over the country at large. Connecticut, for example, has more than twice as many Chinamen as in 1890. Colorado, another western state, has less than half as many. The total number of Chinese in 1890—107,000, it is believed, will not be exceeded this time, but their diffusion will be most marked. The Japanese, as was to have been expected, have increased rapidly, as much as ten fold in California since while in Washington state they have begun to form a considerable element of the population. The proportion of foreign-born people lowered in the west and increased in the east. Definite details are not yet available but they will before long be coming.

# THE LAST WEEK

OF OUR

## Factory Loading Sale!

The balance of the surplus stock has been brought here from our factory and must be sold. No misrepresentations, no misstatements of any kind. The prices tell the whole story. Every garment is manufactured under our own supervision and is guaranteed in every respect. Every Suit is new, fresh, and right up to the moment. The prices are uniformly disregarding of qualities and cost.

# A STEINWAY PIANO

IS AS GOOD AS A GOVERNMENT BOND.

There is no fluctuation in the value of a Steinway Piano. The famous name on the fallboard is an absolute guarantee of quality—a quality that is not duplicated under any other name or for any other price. The signature of the government is no more significant on a bond than the name STEINWAY on an instrument.

41-43 SOUTH SIXTH ST., Just Off Nicollet Ave. Minneapolis, Minn.

### LAUDS LOUBET

Speaker Henderson Calls on the President of France.

Paris, June 14.—D. B. Henderson, speaker of the United States house of representatives, was received yesterday, with Representative Gillet, by President Loubet, and came away with the best impressions of his visit. Mr. Henderson said: "The president received me most cordially. We felt as much at home as though calling on President McKinley. We found M. Loubet to be a man of changing manners and of simple, democratic tastes. Our conversation, which lasted some time, convinced me that he is high-minded patriot, devoting his efforts to the best interests of his country. His allusions to the United States showed him to be a sincere admirer of our country and its institutions, and he is inspired with cordial sympathy for President McKinley. I am going to London June 29, and thence to Scotland to revisit my birthplace in Aberdeenshire, which I left when a child. I shall afterward make a tour of the European countries, whose parliamentary institutions I am anxious to study on the spot. I hope to attend a session of one or two parliaments."

### SHAMEFUL INJUSTICE

Woman Made a Convict for a Crime She Did Not Commit.

Poughkeepsie, N. Y., June 14.—Elizabeth Doyle, a young married woman of this city, will be released from the house of refuge at Hudson, after an incarceration of five years for a crime which she did not commit. Her mother, Mrs. Mary Jackson, was in custody of the police recently, and told him that she had learned of her daughter's innocence. In 1896, when Mrs. Mary O'Brien, of Union street, lost a valuable ring, Mrs. Doyle was arrested and sentenced to the house of refuge. Edmund Doyle, father of the convicted woman's husband, on his deathbed confessed that the ring had been stolen by his granddaughter, Maggie Allen. This was two years ago, and Edmund Doyle's widow kept the secret until recently, when she repeated the confession to Mrs. Jackson.

### HAWAIIANS ALL RIGHT

They Are Copying American Methods to Advantage.

Honolulu, June 7, via San Francisco, June 14.—Judge A. C. Humphreys, of the circuit court has ordered the grand jury to investigate the acts of the Home Rule party for the purpose of ascertaining where their campaign funds came from, and for what purpose they were spent. This action was taken as the result of the claim that the Home Rule members of the legislature partook of lunches at a well-known restaurant, and permitted the owner of a street car line which was after a railway franchise to pay for the meals.

### Modern Woodmen

This is your chance to visit the park region of Minnesota and the vast wheat fields of North Dakota. Very low round-trip rates to all points on the Soo Line. Particulars at ticket office, 119 3d St. S.

### Free Honey for the Carters.

A swarm of bees has made a hive of the home of Senator Thomas H. Carter, of Montana, in this city, and packed with honey the entire space between the floors. Hundreds of pounds of the sweets have been taken out within the past week by Mrs. Carter, who says it is the most delicious honey she ever tasted. This honey was taken from a small portion of the store which the bees, to Mrs. Carter's own knowledge, have been accumulating for more than three years. It has all, so far, been taken from one or two sections of space between the joists, while the others are believed to be equally as well packed. All the members of the family, and even the senator himself, have become honey eaters. The bees made a brilliant defense of their stronghold, and were only driven out eventually when the fumes of sulphur were blown upon them. The Carters live in a handsome two-story and basement brick at 1432 Staughton street, and their neighbors have besought Mrs. Carter to let the bees remain and supply them with honey.

### Points on Butter Packing.

A new method of packing butter for long shipment has been invented in Germany, and an American manufacturer has thus written to the state department telling about it.

A light wooden case or box is lined thoroughly at the bottom and sides with a layer of plaster of paris one-fourth of an inch thick, on which common glass slabs, with their edges fastened together by gummed paper, so as to make a perfect fitting box, are placed in but one layer. The plaster, packed in good waterproof paper, in ten-pound packages. The glass top is then put on and sealed carefully with gummed paper bands, so as to make the box air-tight. A one-fourth-inch layer of plaster is then put over this and the wooden cover nailed on. Each of the cases is made to contain about 200 pounds of butter. The plaster of paris is a conductor, very little heat reaches the butter, which arrives at its destination in good condition. The consul is informed that very successful results have been obtained in shipping butter packed in this manner from Melbourne to Kimberley—rather a severe test.

—W. W. Jernama.

### Soo Line Tid Bits.

Sault Ste. Marie and Mackinac and return, \$13.50, June 14 and 15.

Minnesota and North Dakota points, one fare for round trip; maximum rate, \$10.00; June 14 and 15.

Buffalo, N. Y., and return, \$20.00.

The new train will leave Hutchinson 7:30 a. m., arrive Minneapolis 9:45 a. m., returning, leave Minneapolis 4:30 p. m., arrive Hutchinson 6:45 p. m.

### ECCLIASTICAL KISSES

GREENDALE PASTOR DISCIPLINED

Warned to Take His Wife When He Gives Young Ladies Buggy Rides.

New York Sun Special Service

Greendale, Mass., June 14.—Rev. G. F. Wheeler, pastor of the Baptist church here, has been advised by the members of his church to pay less attention to the young ladies and more to his wife; to take these same young ladies driving alone no more, but to take his wife out driving with him instead. The clergyman has been told that his carriage is large enough to admit his wife when he takes young ladies to ride and that he should not neglect to take her again. He has also been accused of kissing and hugging young ladies, and in a meeting before some of the leading members of his church he has admitted that he has kissed, more than on one occasion, Miss Ethel Woodward of Greendale. The church meeting was held June 4, and one of the men present told of the rumors about that Mr. Wheeler had kissed Miss Woodward.

"Did you?" he was asked.

"Well, it was in this way," Mr. Wheeler is said to have replied. "You see, Miss Woodward is placed in the buggy with my church and very intimate with my wife, Miss Woodward. I was going home with them and endeavoring to settle some dispute between the young ladies. They were disputing to such an extent that I tried my best to smooth matters over and finally succeeded, but meanwhile Miss Woodward, as well as Bertha, Miss Wheelodden, said many things they were doubtless sorry for and at the close Bertha said: 'Now, kiss papa and make up with him for all the naughty things you said to him when so angry.'"

### MUST BE CHRISTIANS

Novel Basis for a Builders' Union in Chicago.

Special to The Journal.

Chicago, June 14.—The Christian Builders' union is the latest thing in organized labor. In the form of an advertisement in an afternoon paper the new labor body has entered the local building field. It offers free membership as an attraction and is open to machinists and contractors in every line of the building industry. Its test for membership is that all applicants shall be Christians. It is the general belief that the movement has its inspiration in the recent anti-union fulminations of the members of the Reformed Presbyterian synod and other preachers, who are wroth at labor unions because of the custom of having labor meetings on Sunday.

### IOWA LOCHINVAR

He Gets a Bride on the Eve of Her Wedding to Another.

Special to The Journal.

Leadville, Col., June 14.—When Miss Irene Wood, a pretty school teacher of this city, sent out invitations to her wedding with Jesse Irons, a mine owner of Aspen, she sent one to her old flame in Iowa, C. A. Peterson, a farmer living near Mount Aetna. Instead of writing to congratulate her, Peterson took the next train to Leadville, met Miss Wood, pressed his suit with such success that just before Irons arrived in Leadville to wed his fiancée, this young Lochinvar, who came of the east, and Miss Wood were on their way to Denver, where they were married.

# Schlitz is Old Beer

The beer that causes biliousness is "green beer"—insufficiently aged. It is hurried from the brewery to the market before it is half fermented. Drink it and it ferments in your stomach, and the result is biliousness and headache.

Fermentation is expensive. It requires immense refrigerating rooms (ours hold 265,000 barrels) and an even temperature of 84 degrees. Fermentation is a process of months.

No green beer ever leaves the Schlitz brewery. If you wish to be certain of an aged beer, get Schlitz, the beer that made Milwaukee famous.

Phone Main 707, Schlitz, 1209-11 Fourth St., Minneapolis.

# Poisoned by Absorption

POISON OAK, POISON IVY, BARBER'S ITCH, LEAD AND BRASS POISONING, ETC.

Through the pores of the skin many poisons are absorbed into the blood, the circulation, and affecting the constitution as quickly and seriously as those generated within the system. Just under the skin are innumerable hair-like blood vessels, and connecting these with the skin are millions of small tubes or glands, through which the poison is conveyed to the blood system. During the spring and summer, while the skin is most active and the pores well open, we are much more liable to be affected by Poison Oak and Ivy and other dangerous plants. Workers in brass, copper, lead and zinc have their health impaired and the blood supply poisoned through the absorption of fine particles of these metals and the acids used in polishing and cleaning them. Inhaling the fumes of lead give painters that pallid, wary appearance of the skin. Barber's Itch is another disease that reaches the blood through the skin, and is a most obstinate one when it becomes firmly fixed in the system. After the poison has reached the blood and been disseminated throughout the system it is too late to resort to local applications. In many cases the blood is affected simultaneously with the appearance of the rash or eruption on the skin, and all efforts should be directed to the purification and building up of the blood. Ugly eruptions and sores will continue to break out in spite of salves, washes, soaps or other external treatment.

S. S. S. is especially recommended for poisons of this character. So completely does it destroy the effects of the Oak and Ivy that there is no possibility of its reappearance, and it is equally as efficacious in brass or lead poisoning or Barber's Itch; building up and purifying the blood and driving out of the circulation impurities of every kind, and removing every blemish, sore or eruption from the skin. There is no substitute for S. S. S.; it is the only purely vegetable blood purifier known, and the safest and best in all constitutional or blood diseases.

Our Medical Consultation Department.—If you desire any special information or advice about your case, write our physicians, explaining your condition, and they will carefully consider what you have to say and you will receive a prompt reply. Our physicians have made a study of blood and skin diseases, and you can have the benefit of their experience and skill without any cost to you whatever. Don't hesitate to write fully about yourself, as nothing you say goes beyond our office. We have a very interesting book on Blood and Skin Diseases, which we will be glad to mail free.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

### HANGING TO A RAFTER

Des Moines Agent of the North-Western Commits Suicide.

Des Moines, Iowa, June 14.—Seneca W. Hazzard, city passenger agent of the Chicago & North-Western railway, was found hanging to a rafter in the basement of the city ticket office to-day. To all appearances it was a case of suicide.

### STERN'S DEBTS

St. Paul Man Owed Only Five Thousand Dollars.

Berlin, June 14.—The liabilities of Louis Stern, the former United States commercial agent at Bamberg, Bavaria, who committed suicide at this place June 10, by shooting himself, amount to about \$5,000.

### STEAMER IN FRAGMENTS

St. Johns, N. F., June 14.—The Leyland line steamer Assyrian, ashore off Cape Race, went to pieces during the night and this morning a total wreck. The after part of the vessel is under water and the hull is broken asunder. Little of the cargo was saved. The crew escaped safely to the shore.

### GROVER IN WASHINGTON'S PLACE

Wheeler, Conn., June 14.—Former President Grover Cleveland and his family are now domiciled in their summer residence at Tyngham, in the Berkshire Hills. They will occupy the room which was occupied by George Washington after the battle of Saratoga and from Hutchinson.

For Real Estate Bargains see Saturday Journal.

### LAND DEAL PENDING

Syndicate of Duluth and Outside Men to Invest Millions.

Duluth, Minn., June 14.—In a few days the boundary and to make a special report calling in the assistance of the Canadian authorities. Chinese in large numbers, as well as Italians, have been stopped recently in crossing the boundary.

A lady with just a "kiss" of Satin-Skin Powder to take away that "shiny" look is twice as attractive. 25c. Olson's.

### Nervous Men and Women.

Taking medicine to cure nervousness seldom has good results. Stimulants are the worst things in the world, for they excite and never help. To really help the nerves you have to begin with the stomach and see that the food is properly assimilated, and when you do that it is wonderful how quickly the nerves quiet down. Nervousness upsets the stomach so that the food is not properly digested, the results react upon the nerves, from the nerves back to the stomach again, and so the endless chain goes on.

The genuine Johann Hoff's Malt Extract comes to the relief of the nerves by regulating the digestion. It has been doing this for half a century and is the surest and safest help for a disordered digestion and a run-down condition of the nerves.

PROF. PIETRA SANTA, of Paris, writes: "As a large number of patients lack the necessary power to digest solid food, and would, through the use of stimulants, be merely excited and weakened, therefore I regard it of immense value to the practitioner to bring to his aid a nutritious tonic and remedy like Johann Hoff's Malt Extract, which will act not only as a tonic, but as a nutrient as well."

Be sure to get Johann Hoff's. At all druggists'.

### BORDER SMUGGLING

Inspector Dunn Would Have a Special Commission Investigate.

Vancouver, B. C., June 14.—Pacific Coast Inspector Dunn of the American Chinese Immigration department, has been here for several days investigating alleged border smuggling. He has decided to ask the Washington authorities for the appointment of a special commission to investigate the alleged traffic of Orientals across the boundary and to make a special report calling in the assistance of the Canadian authorities. Chinese in large numbers, as well as Italians, have been stopped recently in crossing the boundary.

A lady with just a "kiss" of Satin-Skin Powder to take away that "shiny" look is twice as attractive. 25c. Olson's.
