

Peru-Sexual Debility!

Master Specialist.

I do not treat all diseases, but cure all I treat. I treat MEN ONLY, and cure them to stay cured. Men, many of you are reaping the result of your former folly. Your manhood is falling and will soon be lost unless you do something for yourself. There is no time to lose. Impotency, like all sexual diseases, is never at a standstill. With it you can make no compromise. Either you must master it or it will master you and fill your whole future with misery and indescribable woe. We have treated so many cases of this kind that we are as familiar with them as you are with the very daylight. Once cured by us, you will never again be bothered with emissions, drains, prematureness, small or weak organs, nervousness, failing memory, loss of ambition or similar symptoms which rob you of your manhood and absolutely unfit you for study, business, pleasure or marriage. Our combined Electro-Medical treatment for weak men, which combines all of the curative powers of both medicine and electricity, will correct all these evils and restore you to what nature intended—a hale, healthy, happy man, with physical, mental, and sexual powers complete. We also cure to stay cured by our combined Electro-Medical treatment: Varicocele, Stricture, Syphilitic Blood Poison, Nerve-Sexual Debility, Rupture, Kidney and Urinary Diseases. And all associate diseases and weaknesses of men. We charge nothing for private counsel and give to each patient a LEGAL CONTRACT to hold for our promise. Is it not worth your while to investigate a cure that has made life anew to multitudes of men? If you cannot call at our office, write your symptoms fully. SCHOOL DEBILITY!

Principal at Council Bluffs, Iowa, Enjoined. BOYS APPLIED FOR THE ORDER Interference With the Affairs of the Athletic Association Hotly Resented.

Special to The Journal. Omaha, June 15.—A rebellion of Council Bluffs high school students came to a head yesterday, when Albert Treynor, son of the postmaster, applied to the superior court for an injunction against Principal Ensign. The principal was ordered not to interfere in the election of the athletic association. Treynor and several of his classmates had been suspended by the principal for alleged insubordination. "The junior class has suffered from the principal's tyranny for two years," said the young American, "and we have finally found that schoolboys have some rights. The athletic association is not a part of the school and the principal has no authority over it." Principal Ensign was present when the athletic association was called to order, and informed Treynor and James McCrae that they could not take part in the election. He pointed out that they were not members of the high school according to the constitution of the association's constitution. The boys then proposed to amend the constitution so that all who expected to attend school next year might participate. The principal objected, and the association's constitution must be over one meeting, under the rules. Not to be outdone, the young athletes adjourned and called another meeting. The outwitted principal then exercised his arbitrary authority and forbade the young men to proceed. The injunction was the result and the election has been held, Charles Campbell, a suspended student, being elected president. The petition was filed by young Treynor with his father, the postmaster, as surety. It sets forth that the principal is about to deprive the association of its own management. The association is said to be a separate organization with no connection whatever with the high school. The order was issued as desired.

COLER FOR PAESIDENT

DAVE HILL HAS HIM IN HAND Would Make Him Candidate for Governor and Then, Possibly, for President.

New York Sun Special Service. New York, June 15.—It was asserted to-day by some of Controller Coler's warmest supporters that he would get the democratic nomination for governor in 1902. These friends say that his political pathfinder, David B. Hill, will control the next democratic state convention, nominating Coler for governor and, later, if Mr. Hill sees that he cannot get the democratic nomination for president himself, will put Coler forward as New York's candidate for president. When this little plan was discussed to-day it was pointed out that Mr. Hill might be interested in the labor movement which Mr. Croker has started through the agency of the Blaine and a superior independent of the outdoor poor. Mr. Blair is striving to unite all the labor unions on an eight-hour-day-prevailing - rate-of-wages platform, and it was asserted tonight that Coler would be a strong supporter of the movement. Mr. Blair would swing it around to work in the interests of Tammany Hall against the efforts of the American Union, his former agency in the democratic affairs of the state.

CHINESE WOULD COME IN

REPEAL OF GEARY ACT SOUGHT Yellow Men in All Parts of the United States Will Memorialize Congress.

New York, June 15.—The Chinese in the United States are preparing for an organized fight to obtain the absolute repeal of the Geary exclusion act at the coming session of congress. The movement was started in this city early in the week, and it is expected to spread rapidly to Philadelphia, Chicago, Portland, Seattle, San Francisco and other cities having large Chinese populations. A powerful organization has been effected among the Chinese merchants of this city. Within the next two weeks every one of the 15,000 Chinese here will be asked to sign a carefully prepared memorial to the United States government asking that the exclusion act be repealed. The memorial will protest against the act, and possible terms against having the act extended for twenty years from the date of its expiration in 1902. It will be forwarded to the government, along with similar memorials from other cities, through Wu Ting Fang, the Chinese minister at Washington. An effort will also be made to obtain the support of the Chinese fighting supporters in the senate and house of representatives. Another thing which has given the Chinese hope that their cause will be successful is about to turn in their favor is the stand which the United States has taken in dealing with the allies in the Chinese crisis. The memorial to congress will demand the absolute repeal of the exclusion act on the grounds of fair play and as a sort of reciprocity for the opening of Chinese ports. The memorial will also demand that the United States derive from granting free communication with the Chinese will be a point strongly pressed. Love and Politics. A Social Romance of a Prominent Orator and a Society Queen, is the title of a book just placed on the market. The author is Nellie Evers, otherwise Nellie B. Van Eltingland, who claims that her book was plagiarized while she was battling in the courts of New Orleans, and that many of the "love letters" which she has had are the real love letters contained in "Love and Politics." The book purports to relate secrets of political life in Washington. The romance is partly told in letters between "John Bingham" and "Helen NeSmith." The book contains a great many poems classified under the headings of "passion," "jealousy," "political." Some of the titles are "AU Revoir," "Love's Anchor," "1890-1897," "The Brass Inkstand," and "Despair."

HE WAS A "CAUL" MAN

BUT THIS DIDN'T SAVE HIS LIFE John E. Rensdy Was Drowned After Escaping Many Perils.

New York Sun Special Service. New York, June 15.—John E. Rensdy, who was drowned at Rockaway beach, "caul" man, was a "caul" man. A "caul" man is one who at birth has a thin membranous mask, which, being removed by the nurse, is carefully treasured by the mother because it is supposed to bring good luck to the child in after years. To-day, when the father brought her to Rockaway beach, he was shown the clothes that were found in a boat that the mysterious man had jumped from when he was swimming a mile off shore the day before. "They look like his clothes," said the brother, "but the only thing he always carried that I could surely identify him by was his 'caul.' He had worn it in a leather case about his neck all his life. It will be found on his body. It has saved his life a thousand times. I don't see how he was drowned if he had it on his neck in the water." The brother had been searching the pockets, and suddenly started up with an emotion that he had never felt before. "God help him," he said. "He took it off before he went in swimming." And the man began to sob. He kissed the leather case over and over. He exclaimed: "Why, I carried that caul constantly all my life. Once when he was a boy he fell into a well. The well was only two feet wide and he went down head first and could not get out. In his pocket was this caul and he pulled it in the well and he held him till he was saved. He was in a railroad accident. They were nearly killed and he was saved without a scratch. A Fourth of July celebration once he was examining a balloon which suddenly broke loose and sailed off. He had five miles in a thunder shower and landed in an elm tree. The caul saved him again. Once he was at work on the tower of a church when he fell off and landed on the ground. On the way down he caught on a tree top and fell from that upon a log of hay. And all because he had the lucky caul."

"BIKES" FROM A MAD DOG

THRILLING ESCAPE OF A WOMAN Mrs. James Tuley of Chicago No Doubt Thankful That She Is a Cyclist.

New York Sun Special Service. Chicago, June 15.—A mad dog on a bicycle and with a mad dog pursuing her, Mrs. James Tuley, 5461 Ridgewood Court, a sister-in-law of Judge Murray F. Tuley of the circuit court, rode desperately to escape from the rabid animal. Mrs. Tuley pedaled with all her strength, but in her excitement and terror she ran into a heavy express wagon which was coming from the opposite direction and was thrown to the ground. Before she had a chance to escape the vehicle had crushed her wheel to pieces and she fell beneath the wreckage. The dog sprang upon her, but pedestrians and police officers attacked the animal and drove it down the street before it had injured Mrs. Tuley. The dog was chased several blocks, and then killed. Mrs. Tuley was taken to her home. With the exception of the nervous shock caused by fright, she is unhurt. Mrs. Tuley's exciting race with the dog began at Fifty-fourth street and Washington avenue. She had just left her home in Ridgewood Court, and was on Fifty-fourth street just to Washington avenue when she heard growls, and a dog sprang out from a yard. Foam was dripping from its mouth. The dog was leaping straight for her, and she realized that she must ride for her life. Gathering all her strength she pedaled desperately. Despite her efforts the dog kept snapping and almost caught up with her when she collided with the wagon.

FIGHT WITH AN EAGLE

ANIMAL KEEPER BADLY INJURED Bird Drives One of Its Talons Through the Man's Wrist. Special to The Journal. Chicago, June 15.—C. W. McCurrin, head animal keeper at Lincoln park, was severely injured in a fight with an eagle. Edwin Franklin Brown, Esq., has long kept a pair of golden eagles in a private aviary. They are unusually large specimens of their kind and Mr. Brown presented them to Lincoln park. Mr. McCurrin went to Lincoln park to catch them to Lincoln park. He entered the big cage, captured the female eagle and handed it to an assistant on the outside. When he turned to return to the eagle, the bird attacked him savagely. As it swooped upon him, McCurrin caught it by a leg in his left hand and held it until it had finished with its disengaged claws the eagle clutched the man's arm and sank its long, sharp talons into his flesh. By the wonderful strength of grip on the bird's foot, one of its talons became imbedded so that its point showed for half an inch through the skin. The eagle continued to belabor its captor with its pinions until an attendant rushed in, clasping the bird in his arms. Mr. McCurrin has an opportunity to withdraw the talons. Mr. McCurrin's injury was a painful one and was dressed by a physician. It has resulted in temporary paralysis of the hand.

FAIR PLAY ASSURED

American Registered Mines Now in Canada Will Be Protected. Special to The Journal. Vancouver, B. C., June 15.—Some mining sharks have been "jump" and register as their own claims the Canadian portions of two American-owned mining properties in the Mount Baker district of British Columbia. The properties concerned are the Golden Chariot and Gold Star claims, originally located and registered bona fide as apparently wholly American properties in the state of Washington. For one of these a large working capital has been obtained, provisionally from New York. The claim jumpers think that as the properties are now in Canada, they are international territory to be in Canada were and are up to now only American registered, and may be possible to out the owners. But this the provisional government will not permit. The government has been shown by the full recognition of American mining titles in a like case at Forcupine Creek, Ariz., and as further stated in semi-official authority in Premier Dunsmuir's own organ, the Colonist of Victoria. The precedent of the American claims on Forcupine Creek will assuredly be followed, and as a result the claim-jumpers will have their trouble for their pains and gain nothing by their morally fraudulent endeavor.

NORTH DAKOTA CONVOCATION

Episcopal Church Meeting at Fargo—Minneapolisians Visit Edsall. Special to The Journal. Fargo, N. D., June 15.—The Episcopal convocation assembled here to-day for four days' session. The forenoon was devoted to perfecting the organization and listening to the reports of the various committees. This afternoon the bishop read his annual address and the clergy made annual reports on their parishes. This evening there will be a reception to the visiting delegates at the Episcopal residence. To-morrow there will be special services at the cathedral in which the bishop and many prominent clergymen will participate. There will be two candidates for ordination—Rev. A. S. Steele, now of Warren, Ill., who was held secretary of the Fargo Congregational church in this state. He was a regularly ordained minister of the Congregational church and has been associated with the Episcopalians about a year.

Third Will Visit the Expo If Rates Are Secured. WILL ACCOMPANY THE GOVERNOR Camp at Brainerd Now Deserted—Splendid Success of the Practice March.

Special to The Journal. Brainerd, Minn., June 15.—The Third regiment, properly outfitted and equipped, are in every way equal to the regular arm of the service when called upon for active work involving hardships as long marches. In fact, the Third regiment made a much better record in the practice march just completed than did the picked body of regulars which made a similar march some three years ago. The average distance covered by the latter being but little over eleven miles a day, whereas the Third averaged nearly fourteen miles a day, two days of which were made through heavy rain and mud, and that without other injurious effect upon the men than soot feet. In fact, the general health of the regiment was so perfect that the hospital corps had not a single case of sickness to care for. The range work at Brainerd was not as satisfactory as that of former years, owing to the heavy cross wind of the last day and the rain of the last morning, but the making of the range but little better than a bog. Up to the time of breaking camp, Captain Pratt, of company B, had made the highest score, his total being 108 points out of a possible 250. Company F of Brainerd is running the range to-day and may qualify a sharpshooter with a higher score than this. Before breaking camp it was voted to take the entire company to the Pan-American exposition, providing satisfactory rates could be secured. Governor Van Sant expressed an earnest desire that the command should accompany him at that time on his second visit to the Pan-American exposition. It was further decided to make the trip to St. Louis in 1903, going by boat from St. Paul. These prospective pleasure trips and other desirable success scored in the practice march just completed have put enthusiasm into the command that has not been equalled since the days of the Spanish war, when the Third marched away under the name of the Fourteenth Minnesota Volunteers.

VERDICT BY CHANCE

Deadlock Jurors Resort to Games of Seven Up. New York Sun Special Service. Indianapolis, Ind., June 15.—The case of Eliza Amch against the city, the New telephone company and the Indiana Bermudez Asphalt company for \$25,000 damages for injuries received by the plaintiff through the negligence of the city, was before the jury for six days in the superior court, and for sixty hours the jury was deliberating. It developed this morning that the jurors had sent out for a pack of cards and were then engaged in a game of seven-up to decide the case. The jurors being six and six on a side and the game being the best two of three. Judge Carter learned what was going on while the first game was being played and decided to decide the case by the jury that the court might inquire into the method adopted to reach a verdict the game was abandoned and this afternoon the jury was discharged without having reached a verdict.

SOME OF THE LADIES GIVE THEIR EXPERIENCE WITH PERU-NA

Prominent Ladies All Over United States Are Using Peru-na.

Miss Janet Wilson Gaire, President the Ohio Musical Club, Kansas City, Mo., writes: "Gentlemen—For the past few years I have tried several kinds of medicines when I was feeling badly, but I am free to admit that I never found anything to equal Peru-na." "Last fall I contracted a severe cold which seemed to settle in my joints and made me very uncomfortable for a couple of weeks, until I tried Peru-na. Before a week was passed, the soreness was gone and before I had used two bottles I was completely restored." Yours very truly, —J. Wilson Gaire.

There is no other remedy that medical science can furnish, so reliable and quick in its action as Peru-na. Miss Mattie L. Guild, President Illinois Young People's Christian Temperance Union, in a recent letter from Chicago, Ill., says: "I doubt if Peru-na has a rival in all the remedies recommended to-day for catarrh of the system. I have found it the best remedy I have ever tried for catarrh, and believing it worthy of my endorsement, I gladly accord it." Yours truly, —Mattie L. Guild.

For diseases peculiar to women, Peru-na is a specific. Peru-na never fails. It has in its many thousands of cases of female weakness. Dr. Hartman advises all women free. Miss Bertha Fischer, a popular young woman of Appleton, Wis., writes of Peru-na: "I have found Peru-na a wonderful remedy for catarrh of the respiratory organs which I had for several months, and which nothing else I tried seemed to cure. My general health has been unusually good this entire winter, due I firmly believe, to the health-giving qualities of Peru-na." Yours, sincerely, —Miss Bertha Fischer.

Mrs. Colonel E. L. Gresham, Herndon, Va., Treasurer Daughters of the Confederacy, also President Herndon Village Improvement Association, writes: "I cannot speak too highly of the value of Peru-na. I believe that I owe my life to its wonderful merits. I suffered with catarrh of the head and lungs in its worst form, and my doctors finally gave me up, and I despaired of ever getting well again. It took six bottles of Peru-na to cure me, but they were worth a king's ransom to me. I talk Peru-na to all my friends and am a true believer in its worth." —Mrs. Col. E. L. Gresham.

People who have suffered from catarrh during the winter, generally suffer from nervous depression. Mrs. A. C. Jackson, Democratic Member Board of Lady Managers, World's Columbian Exposition, in a letter from the Sherman House, Chicago, Ill., says: "Peru-na seems to be of great value where nerve filaments are in disorder, digestion deranged or disturbances created either in the pelvic or respiratory organs. Several cases have come under my personal observation and I have been highly gratified to see the patient cured in every instance. I have tried it myself and find it a very valuable tonic. Cordially yours, —Mrs. A. C. Jackson.

Men and women are subject to catarrh. Women are even more subject to catarrh than men. This is due to many causes. The chief cause is the weakness of her organism, as compared to man. The extreme sensitiveness of the mucous lining of every organ of a woman's body is well known to physicians. This explains the fact that at least 50 per cent of women are entirely free from catarrh. A vast multitude of women have found Peru-na an indispensable remedy.

Everywhere the people, especially the women, are praising Peru-na as a remedy for all forms of catarrh. Write for free catarrh book written especially for women by a renowned specialist on the pelvic catarrh diseases of women. Address Dr. Hartman, President The Hartman Sanitarium, Columbus, Ohio.

TO SAVE HIS SOUL COUP D'ETAT FOR BEER Ingenious Method of a Chicagoan to Quench His Thirst. New York Sun Special Service. Chicago, June 15.—Because Frank R. Mayton wanted beer, and a lot of it, to-day he stopped the plant of the Monarch Brewing company at No. 1092 West Twenty-first street, and the factory of the Art Wall Paper company at No. 1085 West Twenty-first street. Several hundred men and women in both establishments were badly scared, and the officers of the law were successful in entering and pretending to be a health officer, declared that owing to the existence of smallpox among the employes of the Monarch, they would have to be quarantined. The scheme was successful. Mayton got his beer before he was found out. Mr. Stein, vice president of the company, treated the supposed officer to several glasses of the beverage and then Mayton declared that police officers would not be necessary to close up the brewery. His arrest followed.

Resigns Because an Alderman Can't Be a Christian. New York Sun Special Service. McKeesport, Pa., June 15.—Harry L. Abbott, member of McKeesport common council from the Eleventh ward, resigned his seat in that body to-day because he does not believe in God as a Christian and he is a member of council at the same time. To serve his constituents he must stifle his conscience. Abbott is a printer employed on the McKeesport Daily News. He says: "My resignation is purely a matter of conscience. It is my determination to live a life of virtue to God and man. To do so it becomes necessary to obey the divine injunction, 'Come ye out from among them and be ye separate.' I have found that in order to be of use to my constituents to secure needed improvements for my district I must stifle my conscience, enter into cliques and schemes and become a local politician. I cannot do that, and have resigned. Politics is the most corrupt thing I have ever been mixed up with. I am out of it forever. I have separated myself, and my conscience is satisfied. Others may not agree with me, but I know that no Christian can sit in McKeesport council and save his soul."

FAIR PLAY ASSURED American Registered Mines Now in Canada Will Be Protected. Special to The Journal. Vancouver, B. C., June 15.—Some mining sharks have been "jump" and register as their own claims the Canadian portions of two American-owned mining properties in the Mount Baker district of British Columbia. The properties concerned are the Golden Chariot and Gold Star claims, originally located and registered bona fide as apparently wholly American properties in the state of Washington. For one of these a large working capital has been obtained, provisionally from New York. The claim jumpers think that as the properties are now in Canada, they are international territory to be in Canada were and are up to now only American registered, and may be possible to out the owners. But this the provisional government will not permit. The government has been shown by the full recognition of American mining titles in a like case at Forcupine Creek, Ariz., and as further stated in semi-official authority in Premier Dunsmuir's own organ, the Colonist of Victoria.
