

ONCE MORE A HAPPY WOMAN.

Completely Cured of Catarrh by Peruna. General Health Also Improved.

Miss Ida Murray writes from 2537 Polk street, Minneapolis, Minn., as follows: "I had chronic catarrh of the head, which made the slightest cold so much worse. I am completely cured of my catarrh after four months' faithful use of Peruna, and my general health is greatly improved. I always speak a good word for Peruna."—Ida Murray.

Miss Anna Bryan, a favorite cousin of William Jennings Bryan, writes from 1459 Florida avenue, Washington, D. C. "At the solicitation of a friend I began some weeks ago to take your Peruna and I now feel like a new person. I take pleasure in recommending it to all who want a good tonic, and a permanent cure for catarrh."—Anna Bryan.

Catarrh Generally Thought to be a Disease of The Head Only.

Whenever there is a mucous membrane there catarrh may exist. The only reason that catarrh is more frequent in the passages of the nose and throat is because these passages are more exposed to cold than the other portions of the mucous membrane. But one is liable to have catarrh of the lungs, or kidneys, or stomach, or liver, or bowels, and especially the bladder and other pelvic organs. Peruna is a specific in cases of female weakness or pelvic catarrh and is heartily endorsed by all the women. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a

BRING IN NEW MEN

Non-Unionists Imported to Wage a Milwaukee Strike.

CLASH OF FORCES IMMINENT

Policy of Manufacturers Generally Condemned by the City's Business Men.

Special to The Journal. Milwaukee, Wis., June 18.—Twelve non-union men from Kansas City, who arrived in Milwaukee this morning, are now lodged inside the plant of the Vitor Manufacturing company. Here they will work, sleep, eat, read, and enjoy themselves. If they can, in an effort to defeat the plans of the union men who went on a strike a month ago for an advance in wages and shorter hours of work. The men were brought to Milwaukee by the local association of manufacturers, which has decided to break the ranks of the strikers, if possible, and force them to return to work, not at the old wages and agreements, but under conditions better suited to the desires of the employers.

Milwaukee business men, although unanimously of the opinion that the manufacturers have acted unwisely in importing men to take the places of the strikers, without first trying to effect a compromise. The strikers are peaceful, and have shown no disposition to be otherwise, but it would not be at all surprising now if there was a collision between the non-unionists and the unionists, although the latter say they intend to use nothing but moral suasion with the newcomers.

The absolute refusal of the employers to treat with their former employees, as union men, has created sympathy for the latter among outsiders, who care nothing about the merits of the dispute. A compromise could, no doubt, be brought about and the trouble might have been adjusted long ago if the employers had not refused and insisted that if the men returned they would be received under conditions much less encouraging than ever.

MAN HUNT IN TEXAS

MEXICAN OUTLAWS THE PURSUED

Three Murders Sent Five Hundred Determined Men on the Chase.

San Antonio, Texas, June 18.—Five hundred citizens of southwest Texas are engaged in a man hunt, a party of Mexican outlaws being the quarry. Already there has been a fight between Texans and Mexicans, in which the latter were slain and one wounded. The one who was hanged in an effort to make him divulge the whereabouts of the leaders of the band of Mexican outlaws. The man hunt is the result of three murders within the last few days. The victims were Sheriff W. L. Morris of Kansas county, Sheriff Robert M. Glover of Gonzales county, and Tony Schnabel, a wealthy ranchman.

Large posses of determined men headed by the sheriffs of Travis, Hays, Bell, Falls, Bexar, Kerr, Kendall, Starr, Atascosa, Webb and a number of other counties are out hunting for the murderers. In addition to these numerous sheriffs' posses a number of citizens' posses have been organized and are scouring the country for the fugitives. The man hunt is being conducted in the field with a large posse. Governor Sayers to-day directed a detachment of state rangers to join in the pursuit, and altogether there are over 500 men out searching for the Mexican murderers.

IS IT AN EPIDEMIC?

Vital Statistics Show an Alarming Increase in an Already Prevailing Disease—Are Any Exempt.

At no time in the history of disease has there been such an alarming increase in the number of cases of any particular malady as that of kidney and bladder troubles now prevailing upon the people of this country. To-day we see a relative, a friend or an acquaintance apparently well, and in a few days we may be grieved to learn of their serious illness or sudden death, caused by that fatal type of kidney trouble—Bright's disease.

Kidney trouble often becomes advanced into acute stages before the afflicted is aware of its presence; that is why we read of so many sudden deaths of prominent business and professional men, physicians and others. They have neglected to stop the leak in time.

While scientists are puzzling their brains to find out the cause, each individual can, by a little precaution, avoid the danger of kidney and bladder trouble, and dangerous kidney trouble, or eradicate it completely from their system if already afflicted. Many precious lives might have been saved, and many more saved by being prevented to the kidneys.

It is the mission of this company to benefit people at every opportunity, and therefore advise all who have any symptoms of kidney and bladder trouble to write to-day to Dr. Kilmer & Co., Birmingham, N. Y., for a free sample bottle of Swamp-Root, the celebrated specific which is having such a great demand and remarkable success in the cure of the most distressing kidney and bladder troubles. With the sample bottle of Swamp-Root will also be sent a pamphlet and treatise of valuable information.

Chicago, June 18.—Grier Campbell, wanted in Chicago on a charge of swindling on a prodigious scale, was arrested at the Hotel Alms, Cincinnati, by local detectives, yesterday. The arrest was made upon information given to the authorities by Raymond R. Carew, formerly a Chicago broker, who is now living in Cincinnati. Carew declares that while in Chicago he was victimized for \$150,000, and some of his friends for \$100,000 more, by Campbell.

Campbell, according to Carew, first appeared in Chicago about three years ago. At that time Carew was a promoter and broker. Campbell called upon him and showed a contract that he had with George D. Burton of Boston. Burton is an expert electrician and the inventor of over 200 patents. The contract was by Campbell called for an interest in all these patents. One—the most valuable—was a system to smelt ore by electricity, reducing the cost of reduction to about one-tenth of what it is now, and the price Burton demanded in royalty in each one. The amounts ranged from \$30,000 to \$80,000 a state. Campbell would sell one-third interest in his contract for \$25,000 and an interest in the profits. He presented letters from the governor of California and other leading men on the coast.

The company began to negotiate for the sale of state rights. Collis P. Huntington of the Southern Pacific bought the right for the state of Wyoming for \$50,000. J. D. Rockefeller gave \$50,000 for the state of Michigan. Several persons were negotiating for Missouri when the fraud was discovered.

AFRICAN WONDERS

Game Too Tame to Run and Musical Ape-Men.

London, June 18.—Sir Harry Hamilton Johnston, special commissioner for the East African protectorate, has returned to London after an absence of two years. He brings stories of Uganda rivaling Henry M. Stanley's description of "Darkest Africa."

Harry relates that the country surrounding Mount Elgon is totally depopulated as a result of inter-tribal wars and is consequently marvellously stocked with big game that are as tame as English game. In the scene and several persons are approaching to within ten yards and there is no sport in killing them.

Elephants and rhinoceros are found also according to Harry. In Uganda animals are too busy eating to notice a passing caravan.

The commissioner proposes to retain the region referred to as a national park. He proposes a capture of one member in the Congo forest differing entirely from Stanley's pigmies, and secured phonograph records of their language and music. Sir Harry says that twelve varieties of rubber trees are found in this country in inexhaustible supply.

MAD MULLAH BEATEN

British Expedition Captures a Chief and 5,000 Cattle.

London, June 18.—A dispatch to the foreign office from the consul general of Somaliland, says Mad Mullah expedition has been beaten. The flying column of mounted infantry under Captain Merewether struck the Mullah's supply camp during a night march and captured 5,000 head of cattle, killed one important member of the camp, another, covered 100 miles, fought a sharp action and returned to its base all in twenty-four hours. The main force of the British expedition, led by Major Swayne, departed for El-Baidia June 15, leaving McNell with 300 men to guard against Mullah's base. Meantime the Mullah with 3,000 followers attacked Zariba three times. He was finally driven off by Captain Merewether with a loss of 500 men. The British had ten men killed and nine wounded. The Mullah is now cut off from his base and a decisive action is imminent.

DEBATE ON IMMORTALITY

Clergymen Begin a Five-Day Debate at Boston.

Boston, June 18.—A five days' debate on the immortality of the soul was begun yesterday at Park Street church. The disputants are Elder Miles Grant of this city and Rev. Hubert C. Parson of New Orleans. For three days Elder Grant is to defend the position that both the Bible and science teach that man is wholly mortal and is totally unconscious between death and resurrection, while Mr. Browne is to defend the negative.

Then for three days Mr. Browne is to affirm immortality, while Elder Grant takes the negative. Mr. Grant, in his "chopping" lecture, and quoted the original Hebrew for "life," "soul," etc., but hardly got clear of the first two chapters of Genesis, although David, Isaiah and Solomon were quoted incidentally.

A Hint to Pale People. Stop Starving Your Blood. When you starve your Blood you starve your Body, your Nerves, and your Brain. The stomach supplies the strength for every department of your system, and if your face is pale it shows clearly that there is an imperfect circulation of the blood. It shows also that the blood is thin and watery and weak. How can you expect to have a healthy color when only a small portion of your food is assimilated? If pale people would take the genuine Johann Hoff's Malt Extract with their meals their faces would presently take on the hue of health. Johann Hoff's Malt Extract is called a Maker of Blood. This is because it combines with the food to make blood. It aids the processes of the stomach, gives Nature a helping hand, and gets the food's nutritive elements into the blood and into the body. It corrects the digestive process and keeps food from going to waste. How easy it is for every pale person to put this simple thing to the test! Every druggist has the genuine Johann Hoff's Malt Extract, and though you may not know that your stomach is not doing its proper work, you will find a marked difference in your flesh tints and in your general health after a few days' use of Johann Hoff's Malt Extract.
