

TORN BY TORNADO

Seven People Killed in Nebraska, Including a Whole Family. MAGGIE GREENING, aged 9, killed. MARGARET GREENING, aged 7, killed. JOHN GREENING, aged 4, killed. JACOB GREENING, aged 2, killed. Grace Greening, aged 14, seriously injured.

UTTER RUIN IN STORM'S TRACK

Tornado Visits Other Parts of the State With Fatal Consequences. Omaha, June 22.—Special dispatches to the World-Herald from Naper, Neb., tell of the frightful work of a tornado, which visited that vicinity Thursday night. The storm struck Keosauqua river.

The family killed were: JACOB GREENING, father, aged 40. MRS. JACOB GREENING, mother, still living, but not expected to survive. MAGGIE GREENING, aged 9, killed. MARGARET GREENING, aged 7, killed. JOHN GREENING, aged 4, killed. JACOB GREENING, aged 2, killed. Grace Greening, aged 14, seriously injured.

Out of the Anderson family of six, two children, Ida and Clara, aged respectively 7 and 8, were killed, and the mother and her daughter, Berta and Theodore, aged respectively 10 and 12, were seriously injured.

August Anderson, the father, was away from home at the time. No other casualties have been reported. The families of Jacob Berg and Metz were injured somewhat, when their houses were demolished, but not seriously.

Where once stood fine dwellings and other buildings there was nothing to be seen except kindling wood. The father of the Greening family was found a quarter of a mile from the house, badly mangled. There is no chance for his life.

Little Maggie and Jacob Greening were found 600 yards from where the house stood. They were not injured, and their clothing, but were not disfigured. The other two children were close to their mother and were in full view of their mother and older sister, who were both fatally injured and who could see them but render no assistance.

The tornado was preceded by a severe hail storm. Stones fell that measured ten inches in circumference. The Keosauqua river is a raging torrent and impassable. Everything in the track of the storm was destroyed. Trees were blown down and the smaller ones were stripped of leaves, and barb wire fences were carried 600 yards. The furniture that was in the homes of the Andersons and Greenings cannot be found. A trunk and pieces of the table were picked up a half-mile away.

A revised list of the dead brings the total up to eight. Five were injured, one of whom may die. Dead: JACOB GREENING, SR., JACOB GREENING, JR., MAGGIE GREENING, MARY GREENING, OLGA ANDERSON, IDA ANDERSON, BERTHA ANDERSON.

Injured: Mrs. August Anderson, will die. Mrs. Jacob Greening, serious. Theodore Anderson. Otto Metz, Henry Metz.

Died of Fright. Special to the Journal. Butte, Neb., June 22.—A small hurricane struck Lynch in the early part of the night and blew over several buildings. No one was hurt. Southwest of Lynch three farm houses were blown to pieces and two persons were badly injured. Everett Rickard's brick house was blown down and a child badly injured. Farmers along the south side of the Niobrara were hailed out.

Mrs. James Parsons, wife of the proprietor of the Badger roller mills, at Badger, Holt county, died at 6 p. m. as the result of fright caused by the tornado.

MENACING MINERS

Prospects Favor Another Battle in West Virginia. Matewan, W. Va., June 22.—Striking miners are marching to-day toward the Lok Park mines, and, regardless of the injunction issued yesterday by Federal Judge Dixon forbidding encroachment on the mine property, it is believed serious trouble is imminent. A skirmish occurred last evening in which at least 100 shots were exchanged between the guards and strikers. It is reported a few men were wounded, but no one was killed. Sheriff Hatfield and a posse are now on duty at the mines, where it is believed that, owing to the temper of the strikers, who are armed almost to the teeth, a battle may be precipitated. No attempt was made to operate the collieries to-day, but work will be resumed Monday with non-union men.

Huntington, W. Va., June 22.—Another outbreak occurred at the Lok Park mines in the Thacker and Matewan fields last night. A number of stones were fired and several persons were reported injured, but it is impossible to secure names. Ex-Archbishop General Thacker, attorney for the coal companies, was at the scene and a dozen shots were fired at him, but he took shelter behind a rock pile and escaped injury. The strikers are determined that all non-union men shall quit work in these fields and Winchester as evidence everywhere. The national guard may be called upon to assist the sheriff in keeping down a riot.

RIGHT OF WAY GIVEN

Mankato's Council Grants Concessions to the Milwaukee. Special to the Journal. Mankato, Minn., June 22.—The city council after a long session until early this morning, passed an ordinance granting the Chicago, Milwaukee & St. Paul road the right of way through the city from its present terminus to the terminus of the Chicago Great Western road for the Farmington extension. The city gets \$800 for the right of way across the pumping station lot and the road is held liable for any damage the city pumps from jarring.

The surveying corps of the Milwaukee is near Washington lake. The Milwaukee will go out of the city by the new route of the Great Western track and the Great Western will extend into the center of the city on the Milwaukee track and the two roads are expected to unite in building a station.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest food as it ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted. Among the signs of a weak stomach are uneasiness after eating, fits of nervous headache, and disagreeable belching. I have taken Hood's Sarsaparilla at different times for stomach troubles and a run-down condition of the system, and have been greatly benefited by its use, and I would not without it in my family. I am enabled, especially in summer, with weak stomach, nausea, and find Hood's Sarsaparilla invaluable.—E. B. Hickman, West Chester, Pa.

Hood's Sarsaparilla

Strengthens and tones the stomach and the whole digestive system. Hood's Sarsaparilla is a powerful purgative and blood purifier. It is made of the most delicate and purest ingredients, and is entirely free from any harmful or objectionable ingredients. It is a most valuable medicine for all cases of indigestion, constipation, and general debility. It is sold by all druggists and is also available in bottles of 50 cents and \$1.00.

NOBILITY AND BIGAMY

EARL RUSSELL'S CASE IN COURT The Nevada Divorce—Committed for Trial at the Criminal Court. London, June 22.—Earl Russell appeared in the Bow street police court to-day on the charge of bigamy, and was committed for trial. The court was crowded. Among those present was Mrs. Somerville, whom the earl claims as his wife, and to whom he was married in 1899, after he had obtained a divorce from his first wife. The register of his first marriage was produced. Mr. Brown, assistant director of public prosecution, testified that the present proceedings were taken by the public prosecutor, independently of any other person, thus confirming the first countess' statement that she is not a party to the suit.

Mr. Brown gave details of his investigation at Reno, and B. F. Currier, county clerk of Washoe county, Nevada, testified that he had issued a license to Earl Russell at the Riverside hotel, Reno. The defendant called himself Mr. Russell and the witness was not aware of his rank.

After telling the Nevada law on divorce, Mr. Currier said that in Earl Russell's divorce the law was not complied with in two respects, and, therefore, the decree annulling the earl's marriage was null and void. Earl Russell's counsel had protested that Earl Russell had not been given adequate time to prepare his defense, the earl was committed for trial at the next session of the central criminal court, the same bill (£2,000) being allowed.

Special to the Journal. Duluth, Minn., June 22.—The week has been monotonous in the lumber trade. Mills all busy, most of them day and night, ships arriving constantly for large cargoes, no change in prices, no slackening of inquiry, no sales of consequence, large arrivals of logs by steam lake, many losses by winds that broke rats, a more pronounced scarcity of good men for woods operations—that expresses the situation in the lumber trade.

Water shipments for the week have been fairly large, amounting to 11,235,000 feet. For the present month they have been about 25,000,000 feet. There is no change in the vessel rate for the week. There is a sharp demand for all large boats in the ore trade, and there have been more of the smaller class of lumber hookers in the vessel trade. The week has been a sharp demand for all large boats in the ore trade, and there have been more of the smaller class of lumber hookers in the vessel trade.

The Duluth Log Salvage association has been examining the buildings at Two Harbors, and has found that the water stealing logs has been very common there, so much so in fact that little precaution has been taken to cover the theft. The association secured evidence enough of this theft to report to the local police. The front people of the place, and will demand settlement from all. The township board has been using these logs for bridge repair, and the city board for similar work. A patrol will be established to watch the logs that come ashore near Two Harbors. A salvage contract for the year has been given by J. O. Smith and a sawing mill for all logs picked up to Peyton, Kimball & Barber.

DECIDES FOR THE CITY

OSHKOSH PUBLIC LIBRARY CASE Request of Mrs. Harris in Issue—Appeal to Supreme Court to Be Taken. Special to the Journal. Oshkosh, Wis., June 22.—Circuit Judge Oshkosh has given down his decision to-day in the case of the heirs of the late Abbie S. Harris against the city of Oshkosh, to recover the value of an estate estimated at \$75,000 bequeathed to Oshkosh for the purpose of founding a public library.

The request was made on condition that an equal amount be raised by the city, which was done by an issue of \$50,000 in bonds and a donation of \$25,000 by the late Senator Sawyer and a \$50,000 library was erected on the Harris homestead site.

The case will now be appealed to the state supreme court. The decision in favor of the city and declares if the amount of money is not raised, the city may technically to divert this benefit bequest from its original purpose it should be done by the court of last resort. The case will now be appealed to the state supreme court.

NEW EPISCOPAL CANONS

J. PIERPONT MORGAN OPPOSES So Do the Belmonts, and the Divorce Question Cuts a Big Figure. Special to the Journal. Milwaukee, Wis., June 22.—J. Pierpont Morgan and the Vanderbilts are members of St. Thomas church, the most fashionable of New York City, and also members of our board of missions. They and the Belmonts and the Vanderbilts are in divorce and remarriage. Mrs. Vanderbilt, mother of Consuelo, duchess of Marlborough, married Belmont and is still a member of the church. This would lead one to infer that that family would use their strongest efforts to defeat any measures calculated to impair their standing in the church. Of course, the New York city board of missions is not a church, but one vote, but there are five dioceses in New York and the family influence extends through them all, especially with the lay delegates. Dr. Duncan has been here all through the country.

"The trouble will be that the opposition will call for a vote by orders, and the clergy will each have to pass the measure. Failure to conciliate means that the amendment will be lost and in that way the opposition lay delegates may be successful in killing the measure."

HERESY AND GOLF

Objections to an Aristocratic Pastor in Tennessee. New York Sun Special Service. Chattanooga, Tenn., June 22.—A serious case of heresy is agitating the aristocratic congregation of the Century Methodist dist. church, South, and its pastor, Rev. J. A. Duncan. Dr. Duncan is a nephew of Bishop Duncan and one of the most eminent divines in the Methodist church. He was transferred here from Knoxville, succeeding Rev. Alonzo Monk. The friends of the latter did not like the change and ever since Dr. Duncan has been here they have waged a persistent war upon him.

It has developed that at the quarterly conference of the new church members were presented concerning Dr. Duncan practically charging him with heresy, things it is said, on a statement he made from the pulpit. He had not believed some of the things uttered by the church members with reference to worldly amusements. These resolutions were not adopted, however, it being decided that the Halston conference was to consider them. Dr. Duncan is also charged with neglect of his pastoral duties in that he plays golf, etc., when he ought to be visiting his flock.

TAWNEY AT HOME

New Rural Routes Promised for His District. Special to the Journal. Winona, Minn., June 22.—Congressman Tawney arrived home from Washington this morning. He reports that after the first of July additional rural free delivery systems will be established at Leveaux and St. Charles in Winona county and two from La Crescent that will run north into Winona county.

While in Washington he laid before the postmaster general complaints made by local merchants at different points in the first district, that the rural mail carriers were taking orders and delivering goods for department stores in large cities. He thinks that in order to protect local merchants the department will soon issue an order requiring carriers to attend to the collection and delivery of mail along their routes.

COL. SCOTT FOR PRESIDENT

Special to the Journal. Iowa Falls, Iowa, June 22.—The biennial reunion of the Thirty-second Iowa volunteers, just closed in this city, selected Des Moines as the place for the reunion in 1903. Colonel John W. Scott, former of 1863, and now a resident of Des Moines, was chosen president and John Reed, also of Des Moines, secretary. Six rural delivery routes will radiate from this city on this fall. Nearly all of the territory within a radius of twelve miles will be covered.

A WEEK UNDER

Good Water Shipments at the Head of the Lakes. LOG THEFTS AT TWO HARBORS No Striking Features in the Trade and Vessel Rates Hold Unchanged. Special to the Journal. Duluth, Minn., June 22.—The week has been monotonous in the lumber trade. Mills all busy, most of them day and night, ships arriving constantly for large cargoes, no change in prices, no slackening of inquiry, no sales of consequence, large arrivals of logs by steam lake, many losses by winds that broke rats, a more pronounced scarcity of good men for woods operations—that expresses the situation in the lumber trade.

Water shipments for the week have been fairly large, amounting to 11,235,000 feet. For the present month they have been about 25,000,000 feet. There is no change in the vessel rate for the week. There is a sharp demand for all large boats in the ore trade, and there have been more of the smaller class of lumber hookers in the vessel trade.

The Duluth Log Salvage association has been examining the buildings at Two Harbors, and has found that the water stealing logs has been very common there, so much so in fact that little precaution has been taken to cover the theft. The association secured evidence enough of this theft to report to the local police. The front people of the place, and will demand settlement from all. The township board has been using these logs for bridge repair, and the city board for similar work. A patrol will be established to watch the logs that come ashore near Two Harbors. A salvage contract for the year has been given by J. O. Smith and a sawing mill for all logs picked up to Peyton, Kimball & Barber.

OUT OF BUSINESS

Affairs of the Chippewa Logging Company Wound Up. Special to the Journal. Winona, Minn., June 22.—William H. Laird and F. S. Bell of this city, have just returned from Chippewa Falls, where they attended to the affairs of the Chippewa Logging company, and the company went out of business. The company disposed of its 150,000 acres of cut pine lands, logging railroads and other property to the Chippewa Lumber company, and the few remaining logs will be brought down and sawed at Chippewa Falls.

In the twenty years of its existence the company has sent down the river close to 7,000,000,000 feet of logs, the heaviest season being that of 1883-4 when 742,000,000 feet were floated. The total output has dwindled down. The majority of the stock was owned by the Mississippi River Logging company, which operates the rafting works at West Newton, Minn.

Mr. Laird says the water continues low on the Chippewa river and so far but few of the logs cut last winter have been brought down. The Winona mills, however, are getting a regular supply of logs from Chippewa for their supply. A large amount is secured from Stillwater, and this year half of the supply comes over the falls of Minneapolis from the upper Mississippi. It is now possible to float over 100,000,000 feet of logs will come over the falls this year for lumber firms in this territory.

RESOURCES OF SOUTH DAKOTA

State Geological Work to Be Pushed by Dr. Todd. Special to the Journal. Rapid City, S. D., June 22.—A bulletin is to be issued this week by the state geological survey on the general resources of South Dakota. Dr. J. E. Todd, the state geologist and professor of mineralogy and geology at the University at Vermillion, assisted by Professor C. L. Lomen, of the department of biology at Vermillion, Professor D. A. Sanders, of the department of botany, at Brookings, and Professor C. O'Hara, of the department of geology at the state school of mines, have already commenced the work.

Owing to the appropriation made by the last legislature, the state geologist is now state geologist to do work that he has had set aside for years. Dr. Todd will look more particularly after the structural geology of the state, and his first examinations will be the supplies of stone, brick, lime, stucco, etc., and the coal districts.

MUNICIPAL LIGHTING

City of Sioux Falls Is About to Undertake It. Special to the Journal. Sioux Falls, S. D., June 22.—The city council recently made an appropriation for the purchase of electric lighting plant. Negotiations for the purchase of seven and one-half miles of wire now in use on the streets of the city have been completed. The electric lighting plant, which for years has had the electric lighting franchise, now about to expire. The mayor and members of the council carefully investigated the matter and ascertained that it would be a matter of economy to install a city lighting plant instead of renewing the franchise of the Cascade electric lighting company, which has been entered into with the lighting company for the use of its poles for a period of five years, and additional poles and wires have been ordered.

Work on the new plant will begin in earnest about July 5. Grounds and a building have been purchased for the central station. It is announced that the council will purchase a new plant for eight and one-half miles, and this will be increased as occasion demands. There are at present thirty street lights in use. Unless some unforeseen delay occurs, the new lighting plant will be in city operation not later than Sept. 1.

HOUGHTON COUNTY SALOONS

Strong Movement for Sunday Closing—War on the Gamblers. Special to the Journal. Houghton, Mich., June 22.—The spasm of moral reform in the copper district is proving more drastic than the sports had anticipated. By the order of Judge Streeter, reinforced by the village authorities, all saloons in Houghton county will be closed on Sunday. Sheriff Willis is leading out in this movement, and persons having no visible means of lawful support. All persons under suspicion are put through the sweat box and if answers are not fully satisfactory they are invited to leave the district in twenty-four hours and instructed not to return under penalty of immediate arrest.

HOTEL UNDER QUARANTINE

Case of Smallpox in the Pfeiffer Hostelry at Houghton. Special to the Journal. Houghton, Mich., June 22.—A well developed case of smallpox was discovered this morning at the Pfeiffer Hotel on Sheldon street in the heart of the business district. The house was promptly quarantined and about forty guests are gazing disconsolately from the windows. There are twenty to thirty cases of the disease in the copper district at present and the county is doing all it can. Fortunately the disease is in exceptionally mild form.

TO WED A QUEEN

Madagascar's Former Monarch May Be Provided For. New York Sun Special Service. Paris, June 22.—The event announced that a well known sportsman, a member of the French parliament, announced officially yesterday that he had offered to marry ex-Queen Ranavalona, who will probably accept. It is a well known fact that Madagascar is a French colony, and the former queen of Madagascar will be no longer be a prisoner.

NOT A BUNGO STEERER

GOTHAM DIVINE'S WIS. BROTHER Rev. J. F. Morgan Exchanges Reminiscences With His Relative. New York Sun Special Service. New York, June 22.—As Rev. J. F. Morgan, pastor of the Park Reformed church of Jersey City, stood on a Jersey dock last evening waiting for the return of his Sunday school pupils from an excursion, a well-dressed stranger came up to him and said, "Excuse me, sir, but you have the advantage of me."

"What, don't you know your own brother?" he asked. "I do not," replied the stranger. "Then the pastor recognized the man as his brother George, whom he had not seen for seventeen years. George Morgan was in Green Bay, Wis., where he has been in business and came east with the intention of living here. He reached Jersey City by the Erie, just at the time when he was expecting the return of the Sunday school to that company's dock. George meant to seek out his brother, but it was unnecessary. The pastor on a dock near his home, where they spent the evening exchanging reminiscences.

A LEGISLATURE'S ERROR

NEW POINT IN SUPREME COURT Record Will Stand and a House Amendment Falls Because of Poor Clerical Work. Special to the Journal. Bismarck, N. D., June 22.—The supreme court has handed down an important decision regarding the importance of the legislative record in determining the validity of bills passed and becoming laws. The decision was filed in the case of State v. Kitching from Steele county, and the case turned upon the question of law which conferred title to real estate upon persons who had held undisputed possession for ten years. The case was decided in favor of the plaintiff, thus hearing the subsequent question of the defective legislative record was brought up. The bill, as reported in the house and amended in the senate, was changed, and was amended in the house. But through some mistake the bill was "messaged" back as having passed the house unchanged and so went to the governor. The supreme court denied the petition for rehearing and holds that considering all the legislative records, the bill in the hands of the governor is the best evidence of the law and the case is decided in favor of the plaintiff. The decision emphasizes the importance of care in the clerical work of the legislature, and a bill introduced by the governor is presumed to be the intention of the legislature.

There has been a remarkable transformation in the western part of North Dakota in the past two weeks. The great cattle ranges that three weeks ago were brown and green with stunted grass are now a rich green. The water is ten inches in height, and the winter's crop is assured. In addition to this, there is ample range feed for all cattle, and beef is being shipped to market in prime condition. The stockmen are in a more dangerous situation from the drought than the farmers in the central and eastern part of the state. The drought their entire sustenance was gone and there would have been forced sales of stock at a sacrifice.

ADMIRAL IN A SCRAP

Evans and ex-Senator Chandler Enjoying a Discussion. New York Sun Special Service. Washington, June 22.—Secretary Long is disgusted with the latest "tempest in a teapot," which is his characterization of the row between ex-Senator Chandler and Admiral Evans. In his book, "A Sailor's Log," Admiral Evans writes of the time Senator Chandler was secretary.

What he says in some ways degenerated to a job lot—at least, in the eyes of those who used it for their own purposes, and was some times let to the lowest bidder. The admiral referred to in this scathing language was his own reduction to half pay because, as he asserts, he would not pass a disreputable political leader for the purpose of securing an appointment in the light service while he was in the navy. In his book, "A Sailor's Log," Admiral Evans writes of the time Senator Chandler was secretary.

WISCONSIN CITIES

State League Meeting to Be Held at Viroqua. Special to the Journal. Madison, Wis., June 22.—The fifth annual conference of the League of Wisconsin Municipalities will be held at Viroqua, Wis., on Wednesday and Thursday. The first session will be held at 2 o'clock Wednesday afternoon, when the visitors will be welcomed by Mayor L. C. Boyle. Mayor Victor P. Richardson of Janesville, president of the league, will then give his annual address. Ex-Mayor W. C. Leitch of Columbus, will speak on "Recent Legislation for Wisconsin Cities," and give his experience with the recent legislation on the bill for biennial municipal terms. Wednesday evening Professor A. A. Bruce of the state university, will give an address on "The Modern Patriarch."

PENROSE PULLS OUT

His County Already Has a Candidate for a State Office. Special to the Journal. Des Moines, Iowa, June 22.—Senator E. C. Penrose has withdrawn from the race for lieutenant governor. Colonel Welcome Mowry of the railroad commission, who is a candidate for re-nomination, has long expected Penrose's withdrawal on the ground that the county could not support both of them and that he (Mowry) was entitled to a second term. Senator Penrose has his experience with the recent legislature withdrawn to avoid the contest that was assured if he remained a candidate.

TO WED A QUEEN

Madagascar's Former Monarch May Be Provided For. New York Sun Special Service. Paris, June 22.—The event announced that a well known sportsman, a member of the French parliament, announced officially yesterday that he had offered to marry ex-Queen Ranavalona, who will probably accept. It is a well known fact that Madagascar is a French colony, and the former queen of Madagascar will be no longer be a prisoner.

500-TON SMELTER

Rapid City in the Hills Gets a Big Plant. Rapid City, S. D., June 22.—The National Mining and Smelting company completed to-day the final arrangements for the erection of a 500-ton smelter east of this city. Dr. H. H. Mugler of Boston, represented the company's interests.

WISCONSIN CITIES

State League Meeting to Be Held at Viroqua. Special to the Journal. Madison, Wis., June 22.—The fifth annual conference of the League of Wisconsin Municipalities will be held at Viroqua, Wis., on Wednesday and Thursday. FATHER LODE MINING CO. LIMITED. TO AGENTS: From and after Tuesday, June 25, at 12 M., the price of treasury stock will be advanced from 10 cents to 15 cents per share. We cannot guarantee the new price for any definite period. Recent developments indicate another pronounced advance. The price has already been made 15c in the east; to protect agents and parties who have planned to buy the notice is given. Do not delay. Mail remittances post-marked Tuesday will be accepted at the present price, 10 cents cash or 12 1/2 cents payable in 12 equal monthly installments.

The Recent Reports From the Coeur D'Alenes. Reports from the Coeur d'Alenes, received Friday, are in confirmation of telegraphic advices to the effect that a great body of ore has been struck in the Hercules mine, immediately to the south of the Father Lode, and a similar big strike made in the Blue Grouse mine, which adjoins the Father Lode on the northwest. Three veins, passing through the Father Lode group of claims, and actually exposed in the tunnels of the Father Lode mine are intersected in both these adjoining mines, just as the mining engineers had predicted. (See the Father Lode prospectus.) The report on the Hercules strike says: "When the smoke drifted out of the mouth of the tunnel and the broken rock had been cleared away, the entire breast of the tunnel was bristling and scintillating with crystalline lead assays of which taken later, showed per cent lead and over 40 ounces of silver to the ton. This was ample reward for their years of struggle and hardships." And speaking of the Blue Grouse, the report says that in its lowest tunnel a large body of ore was discovered, giving ample assurance that another bonanza will be added to the Sunset Group (which surround the Father Lode).

TAUBMAN FOR PRESIDENT WALKED AWAY IN SLEEP. S. D. "WE'S" MEET AT BUFFALO. Midway Attractions Turned Over to the Editors—Excursion to Niagara To-morrow. Buffalo, N. Y., June 22.—Yesterday was a busy day for the members of the South Dakota Press association, now in the city. Midway was taken by the party in a body and the 4:30 train for the city. It was placed on Midway map. Many of the places put on special programs for the benefit of the association. Among those that were noticeable in this respect should be mentioned the national congress and Boston's trained animal exhibitions. The giddy annex to the great exposition was practically turned over to South Dakota people.

PHILIPPINES' NEW DEAL. Text of the Order of the Secretary of War Establishing It. Washington, June 22.—Secretary Root's order establishing civil government in the Philippines is as follows: "On and after the 4th day of July, 1901, until it shall be otherwise ordered, the president of the Philippine commission will exercise the executive authority in all civil affairs in the government of the Philippine islands, and to that end William H. Taft, president of the said commission, is and he is hereby appointed civil governor of the Philippine islands. Such executive authority will be exercised under and in conformity to the instructions to the Philippine commissioners, dated April 7, 1900, and subject to the approval and control of the secretary of war of the United States. The municipal and provincial civil governments, which have been or shall hereafter be established in said islands, and all persons performing duties appertaining to the offices of civil government in said islands, will, in respect of such duties, report, to the said civil governor. The power to appoint civil officers heretofore vested in the Philippine commission, or in the military governor, will be exercised in the civil government with the civil governor. The power to appoint civil officers heretofore vested in the Philippine commission, or in the military governor, will be exercised in the civil government with the civil governor. The power to appoint civil officers heretofore vested in the Philippine commission, or in the military governor, will be exercised in the civil government with the civil governor." Chief Military Governor.

MISS FIFIELD'S TRIP TO CHICAGO. Daughter of a Janesville, Wis., Lumberman Is Lost in the Big City. Chicago, June 22.—Helen Fifield, the 19-year-old daughter of Frank E. Fifield, the wealthy Janesville, Wis., lumberman, left her home early Thursday morning, before any member of the family was up, and took the 4:30 train for the city. It is certain that she arrived here on the 7 o'clock evening train, and engaged a cabman to drive her to a hotel or sanatorium. The day before Miss Fifield left home, she purchased a plain gold band ring, and some of her friends believe that she had intentions of marrying. Others insist that she was a somnambulist, and lay her mysterious disappearance to mental disease. Her father, after taking an inventory of the effects left behind, said that she wore her night dress beneath the waist and skirt, but had not on any other clothing with her. She apparently was even without her stockings. The only man with whom she had a close friendship was Ross King, of Janesville, and she was openly betrothed to him. He came to Chicago last night to search for her.

VOON ROHR'S LONG PASTORATE. Lutheran Synod to Observe an Anniversary at Winona. Winona, Minn., June 2
