SHINGLES COST MONEY
 The Pacific Coast Article Sees a Boom in Prices.
 Red cedar shingles seem to be as good as sold just now. The Mississippi Valley Lumberman says regarding the market:
 During the past two weeks the red cedar shingle market has been advancing rapidly and the end is not yet. The west coast mills have had all they could do since the opening of the season to keep up with their orders. During the past two months they have been gradually falling behind, and as trade has been increasing rapidly they have not been able to make any gains. The season is here when the retailer wants his shingles, and this has led to a situation that is making money for the wholesalers who are not so far behind on orders as to make it impossible to furnish stock within a reasonable time.

PLEADED GUILTY
 Mary Scholtz Admits Having "Lifted" Articles of Clothing.
 Mary Scholtz, 45 years old and for many years a resident of Minneapolis, pleaded guilty to shoplifting in police court this morning. She was detected taking a pair of socks at Olson's yesterday, by the special store officer, P. Scholtz, and was placed under arrest. She had in her possession at that time a shirt and collar which she admitted this morning she had taken from one of the big clothing stores. When the charge was read the accused broke down and wept, protesting that she did not know why she had taken the goods, which are worth only about \$1. She was fined \$20, which she paid. Mrs. Scholtz has never been in the police court before. Her home is on Fourteenth avenue N.

PATTON'S Sun Proof PAINTS
 Make the House Beautiful
 and preserve it from the decaying effects of sun and storm twice as long as pure lead paint. Guaranteed to wear well five years.
 PATTON PAINT CO.,
 Pittsburgh Plate Glass Co.,
 500 to 510 S. 4th St.,
 Minneapolis, Minn.

A full stock of Patton's Sun Proof Paints can be had at the following places:

Hirschfeld, 243 20th St. N.; M. Rose, 1100 Hennepin Ave.; Tramp, Robbinsdale; G. E. Woehler & Co., 2021 Crystal Lake Ave.; G. E. Woehler, 4126 Washington Ave.

Send 97c
 Ladies' or Gents' Bicycle is desired, light of frame and gear wanted and we will send you one for 97c. If you want a new one, we can estimate the cost of a new one and we can guarantee that our estimate is not over 10% above the actual cost. If you ever saw a good bicycle, you know that a \$10.00 bicycle is a good one. We can sell it for \$10.00. If you want a new one, we can sell it for \$12.00. If you want a new one, we can sell it for \$12.00. If you want a new one, we can sell it for \$12.00.

TOWN TALK
 Four per cent paid on six months' deposits. Title Insurance and Trust Company.
 Fix a lawn, power does not sharpen it. Fred Rose, 412 Hennepin.
 The pastor will occupy the pulpit at Westminster to-morrow. In the evening his theme is "The Young Man and His Conscience."
 The Minneapolis branch of the National Association of Railway Postal Clerks will have a picnic at Minneapolis June 28.
 Subject for all magazines, papers, etc., and get your binding done at the Century News Store, 3 Third street S., near Hennepin Ave.
 Subscribe for all magazines, papers, etc., and get your binding done at the Century News Store, 3 Third street S., near Hennepin Ave.
 Deposit silverware, jewels and valuable papers in safe deposit vaults of Minnesota Loan and Trust company, 313 Nicollet avenue. Only 45 per year.
 Dr. Charles Bayard Mitchell delivers the third in the series of addresses to young men in Hennepin Avenue church to-morrow night. His subject is "The Young Man and His Conscience."
 Two weeks ago Mark Whitney, employed in the factory of the Minneapolis Bedding company, was stricken with smallpox. Last night the other employees were vaccinated by the health department officials.
 Rev. George P. Merrill of Marshall, Minn., son of Dr. George R. Merrill of this city, will occupy the pulpit of the First Congregational church, 1st street and Eighth avenue SE, to-morrow morning.
 Patrolmen were last night ordered by their chief, Mrs. Margaret Blair of the state agricultural college will give a course in domestic science which will enable the teacher to teach the subject of domestic science and to teach sewing. This course will continue over the entire season and will consist of the winter and summer sessions, but not taking other work at the summer school.
 An old wooden house at 741 Washington avenue N., which was partially destroyed yesterday, is badly cracked as the result of the blaze. The fire was confined to the upper part of the building, but the stilt upon which the upper story rested. After the fire department left it began to tumble. It had not been for an abutting building.
 The barn belonging to Alderman Peter McCoy of the ninth ward was partially destroyed by fire this morning. The barn, Mr. McCoy's home, at 610 Johnson avenue NE, is some distance from any fire department, and the blaze had secured a good headway in the upper part of the building before the apparatus arrived. The fire was confined to the upper part of the building, but the stilt upon which the upper story rested. After the fire department left it began to tumble. It had not been for an abutting building.

THE WEATHER
 The Predictions.
 Minnesota—Generally fair to-night and Sunday; warmer in northeast portion to-night; variable winds. Iowa and Wisconsin—Generally fair and continued warm to-night and Sunday; southerly winds. The Dakotas—Fair to-night; Sunday partly cloudy with cooler in west portion; variable winds. Montana—Generally fair to-night and Sunday; westerly winds.
 For Minneapolis and vicinity—Fair to-night and Sunday.
 Weather Conditions.
 The pressure is highest on the north Pacific and south Atlantic coasts, and lowest in northern Michigan, though in all the central portion of the country the pressure is below normal. This morning's temperatures are about 80 degrees in the middle Mississippi valley, and 70 degrees or higher in far north as Dubuque, Milwaukee, Detroit and Buffalo. Yesterday's temperatures were above 90 degrees in the middle and lower Mississippi valley, 100 degrees at Dodge City, and 100 degrees at El Paso and Fort Worth. Rains have fallen during the past twenty-four hours from Tennessee and southern Ohio northward to the New England coast, in North Dakota, northern and eastern Minnesota, Wisconsin, eastern Iowa and upper Michigan.
 T. S. Outram, Section Director.

ORGANIZATION ELECTION
 Democrats Say They Will Demand One.
 Since their attention has been called to it by the Journal, a leading local democrat says that in due time they will take the matter in hand and see to it that a new democratic county organization is formed and the alleged action of the old organization in extending its own lease of power for one year repudiated by the rank and file.
 "There is no hurry in this matter," said one of them in discussing the subject. "It is a long time before the next election, but we do not intend to put off the selection of the committee until the campaign is under way. As soon as the hot weather period has passed, we will lay the question before the organization and ask that a date be set and primaries for the election of committee members called. If the present organization should refuse to do as we ask we shall proceed to call our own primaries and trust to the courts to sustain us in the contention that the present organization has not the right to vote itself an additional year of life."

WANT TO BE PLACED
 Many Candidates for Places Under Board of C. and C.
 The board of corrections and charities will be reorganized at the next regular meeting, which will be held on July 9, in anticipation of a general change in the force of employees under the board, numerous applications have been received from parties anxious to be placed in some of the capacities. Notwithstanding the frequently published statement that Dr. H. G. Nelson has Mayor Ames' promise as the position of city physician, others are making efforts to be placed in the position. Dr. H. G. Nelson, Dr. J. H. Lewis, W. B. Linton and Alfred Lind. Dr. E. J. Clark, receiving physician at the hospital, will have the support of the rank and file in his position to be created for his benefit as an assistant city physician. In connection with this work, Dr. Clark will be associated in the private practice with the mayor. The applicants for assistant city physician include Dr. R. A. Campbell, one of the present incumbents, Dr. C. J. Bevan, Dr. Thomas J. Reid, Dr. John Campbell, Dr. H. L. Wood, Dr. L. Staples, Dr. H. Wang, Dr. H. A. Cohen and about a dozen others.
 Dr. H. Hove, Luke Carroll, P. B. Rhoads and Al McDonald are anxious to fill Superintendent Hagman's shoes at the workhouse. McDonald has the promise of the place. Truant Officer G. D. Holt is an applicant for the position of superintendent of the poor. Al Stringer desires to have the job if his and that he can't possibly miss it. R. P. Pratt, the present superintendent, is heavily backed for the place, but is handicapped by his party affiliations.

OPPOSE FEDERAL AUTHORITY
 Unintelligible Reports Are Received From Cape Nome.
 Seattle dispatches say that the steamer Jeanie which arrived at that port from Nome yesterday brought the information that of a big stampede from Nome to the Arctic regions where big strikes had been made in progress. A fight against the federal authorities at Nome is reported, with a promise of serious results. Local people familiar with the Nome situation and the recent trouble there, do not understand the exact nature of the opposition to federal authority. Among the passengers returning from Nome was Mrs. R. N. Stevens, of Bismarck, N. D. It is understood that she was appointed federal commissioner at Nome and who has figured quite prominently in the McKenzie-Lane controversy, is to return to the city.
 Hugh Madden, one of the passengers of the Jeanie, brought down \$40,000 in gold. William Small, Thomas Capwell, Thomas Jones and Abe Appel are reported drowned at the mouth of the Kuskokwim river this spring.
 Join the "Buffaloes"
 In an excursion to Carver, Minn., June 23. Trains leave Minneapolis & St. Louis station at 9:55 a. m. and 1:30 p. m. Leave Carver 8:00 p. m.
 This Is Your Chance
 To visit the Pan-American Exposition, many attractive routes to choose from, rates are the lowest. Particular at Soo line ticket office, 119 S Third street.
 Lake Park Hotel Opening.
 Account of the above the Minneapolis & St. Louis R. R. will have special train leaving Tonka Bay 11:30 p. m., Saturday, June 22.
 \$20 to Buffalo and Return.
 Delightful lake trip in connection. Soo line ticket office, 119 S Third street.

NEW SUBURBAN TRAIN
 The Milwaukee has greatly increased the efficiency of its service on the Hastings & Dakota division by putting on a fast local train between Minneapolis and Hutchinson, Minn. The new train leaves Hutchinson at 7:30 a. m. and arrives in Minneapolis at 9:45 a. m. Returning the train leaves Minneapolis at 4:40 p. m. and arrives at Hutchinson at 7:00 p. m. This change is greatly appreciated by the people of Hutchinson and intermediate points, as it enables them to leave for Minneapolis at a reasonable hour in the morning and gives them practically the whole day in the city.
 The distance from Minneapolis to Hutchinson is sixty-five miles and the scheduled time of the new train, two hours and fifteen minutes, will be made if a speed of sixty miles an hour is required to do it. Superintendent Fox of the H. & D. division, said the new train would be pretty fast but its addition to the service had become absolutely necessary to the accommodation of patrons living along the line. The new train will also run to St. Paul but not until it has deposited freight and passengers in Minneapolis.

EDSALL'S SUCCESSOR
 He Must Be a Man Equal to a Growing Field.
 The successor to Bishop Edsall of North Dakota will be elected at the October general meeting of the Episcopal church at St. Paul. He may come from any part of the United States, but he must have qualifications for the arduous work of a bishop. The diocese of North Dakota is sure to grow rapidly within the next few years, and the man to be elected bishop must be capable of expansion along with his charge. As soon as the self-supporting Episcopal church is formed in the state the jurisdiction will be erected into a diocese. Bishop Walker, afterward made bishop of western New York, was the first missionary bishop of North Dakota. He served in that position for more years, and was succeeded by Bishop Edsall. Minnesota men have an opportunity for election to this district, but no candidate has yet been named. It is possible that the next bishop may be an eastern man, as was Bishop Walker.
 The standing committee of every diocese of the church will vote upon the desirability of electing a bishop to North Dakota. The majority will approve the proposed transfer, which will insure the approval of the house of bishops.

FOR A BIG MEETING
 Commercial Club's Public Affairs Committee Plans Many Subjects for Discussion.
 Various Committees Will Have Interesting Matters to Present—A Large Attendance.
 The public affairs committee of the Commercial Club is making active preparations for the mass meeting of business men to be held in the rooms of the club next Tuesday evening. This will be the first big rally of Minneapolis business men in several years. The club expects to have in attendance many of the men who have done good work for Minneapolis in public way in past years as well as a thorough representation of the younger business men. The public affairs committee has a plan of work which it expects will benefit the city generally. One object of the meeting is to secure the endorsement of the business men in general to this plan.
 The meeting will deal with topics in which nearly every business man in the city is interested. Minneapolis wants more conveniences, and business men will be enlightened on the club program. The real estate and investment committee of the club have been investigating and are ready with some interesting information.
 Among these is the public health committee which has made a very thorough study of the question of water supply. The real estate and investment committee which endeavors to promote the interests of the city along the right lines, and guard its reputation against the work of fraudulent concerns. In this connection it is said that could the Guaranty Loan failure have been averted, Minneapolis would have been a city of dollars better off in a general way than she is today and that a public body working along right lines could have saved the city financially.
 The railroad committee has been one of the most active. It desires to bring to the attention of the business men the necessity of Minneapolis making a stand for her own interests as distributing and railway center. Every member of the club has constituted himself a committee of one to see that all business men who can will be at the meeting.

DON'T NEED THEM
 Why Europeans Don't Have Many Elevators.
 SACKS SUIT ALL REQUIREMENTS
 But Elevators Are Coming in Where Grain Is Handled in Bulk.
 Leith, Scotland, has never had a grain elevator. Although the importation of grain has been going on for several years, last year 14,000,000 bushels, it has been handled with steam windlasses and wagons. The contract for building the first one has been let to a firm in Port Huron, Mich. The design of material and construction will be American. It is a private enterprise, authorized by the dock commission. By using the latest methods and devices in handling grain, 8,000 bushels will be discharged every hour. The warehouse will have a capacity of 1,000,000 bushels. The cost will be \$200,000.
 Commenting on the above, Frank T. Heflinger of F. H. Peavey & Co., who not long ago took a trip of inspection of foreign methods of handling grain, says that his first impression was of their crudity, but investigation showed that these methods were suited to the requirements. The foreign trucks do not hold as much as the big American cars. The millers simply have little storehouses. They want several different kinds of grain, Roumanian, American, Russian and others, and the method of handling and piling in sacks is very convenient throughout the land. In fact, the present methods are sufficient. As the conditions change the elevators may come into use. They are already beginning to build regular grain storehouses such as we have. Said Mr. Heflinger:
 Some Foreign Elevators.
 An American cribbed elevator is in operation at Manchester, England. There are some very good brick warehouses at Liverpool belonging to the Liverpool Grain, Storage and Warehouse company. They are hexagonal and the company uses the same method of elevator legs and conveyors that Americans do. They do not require the same regular methods of handling grain as we have. They are already beginning to build regular grain storehouses such as we have. Said Mr. Heflinger:

 An American cribbed elevator is in operation at Manchester, England. There are some very good brick warehouses at Liverpool belonging to the Liverpool Grain, Storage and Warehouse company. They are hexagonal and the company uses the same method of elevator legs and conveyors that Americans do. They do not require the same regular methods of handling grain as we have. They are already beginning to build regular grain storehouses such as we have. Said Mr. Heflinger:
 Some Foreign Elevators.
