

ENDLEAVORERS' WORK

It Goes On in Numerous Branches in Cincinnati.

REGULAR PROGRAMS ARE BEGUN

"Twentieth Century Home" and Junior Endeavor Schools of Methods Are Discussed.

Cincinnati, July 8.—After the business sessions of Saturday and the evangelist and other mass meetings of yesterday, the regular programs of the twentieth international convention of the International Christian Endeavor were begun to-day. Two quiet hour meetings were held from 8 to 9 a. m., conducted by Floyd W. Tompkins of Philadelphia and Cornelius N. Workin of Brooklyn. G. Campbell Morgan of Baltimore conducted a meeting on Bible teaching and J. F. Carson of Brooklyn one on "The Holy Spirit." Miss Margaret Koch of Waterville, Me., conducted a conference on "Bodily and Vocal Development."

At Auditorium Endeavor, President Clark presiding, and B. C. Lincoln, of Philadelphia, as director of music, the Twentieth Century Home was the topic with addresses by Clarence J. Harris, Atlanta; Edwin Forrest Hallenback, Albany; Ira Landrich, Nashville; J. E. Pounds, Cleveland; W. G. Marsh, Adelaide, Australia; and Robert Johnson, London, Ont. At the First English Lutheran church, Secretary Willis Boer presiding, and Percy Foster as musical director, there were addresses on the school of methods for the Junior Christian Endeavor by Miss Nellie F. Whitefield, Kildare, O. T. Mrs. Frances E. Clark, Boston, Mass.; Miss Frances Le. Hager, Chicago, A. J. Turkie, Atlanta; Mrs. I. A. Miss Clara L. Boyer, Dayton; Miss Kate H. Haus, St. Louis; Mrs. M. L. Hagenan, Muncie, Ind.; Miss Ella M. Brown, Eau Claire, Wis.; Field Secretary C. E. Sherman, Boston; Miss Elizabeth M. Olney, Providence; Jenks B. Tolson, Philadelphia; Treasurer William T. Shaw, Boston; George W. Pollock, Buchanan, W. Va.; George B. Grant, Boston.

END OF THE STEEL STRIKE

IT IS EXPECTED IN FIVE DAYS

Assertion That the Main Points at Issue Have Already Been Settled.

New York, July 8.—A plan has been agreed upon which will settle the great steel strike in Cleveland. The matters stand all that remains to be done is to hold a final meeting to formally ratify the plan and announce its terms. The program now is to hold that meeting and make that announcement on Wednesday or Thursday of this week in New York or Pittsburgh. The main points at issue have been settled and there will be no great steel strike as was contemplated a week ago. It may be stated that this morning's settlement is the direct result of J. P. Morgan's efforts.

BUSY SUNDAY

Large Number of Meetings Characterize the Day.

Cincinnati, July 8.—The Endeavorers made Sunday a busy day. From morning till evening and during almost every hour of the day they were serving the going on in some part of the city. The day opened in refreshing contrast to yesterday and the refreshing breezes helped materially to increase the attendance to the various meetings. The day opened with three quiet meetings, of one hour each, held in two of the largest of the city's churches, and conducted by Rev. Floyd W. Tompkins of Philadelphia, and Cornelius Woelke of Brooklyn. A meeting at the Central Presbyterian church was to have been conducted by the Rev. J. P. Morgan, but he was unable to get to the city on Sunday. At the Auditorium, Ohio the children held away led by the new field secretary, Clarence Sherman of Lancaster, Pa. Treasurer William M. Shaw of Boston and Miss Kate Haus of St. Louis addressed the children.

BUCKETE BOBBONS

Rival Platforms Monopolizing Attention in Columbus.

CONSERVATIVE ONE MAY WIN

Tom Johnson Represents the "Radical Reform" Element and McLean the Moderate.

Columbus, Ohio, July 8.—Delegates are assembling here to-day or his democratic state convention which does its preliminary work to-morrow. They are greatly disappointed because John R. McLean of Cincinnati and Mayor Tom L. Johnson of Cleveland, who are most prominently mentioned for the United States senatorship, will not be here. Each of them is numerously represented, however, from the other cities as well as from Hamilton and Cuyahoga counties. It is understood that Charles W. Baker, who presided at the last democratic Ohio convention, is the permanent chairman of the convention. He is a close friend of McLean and chairman of the Hamilton county delegation. Johnson represents what is called the "radical reform" element among platform makers and McLean represents the conservative element. The indications were that the conservative element will control the committee on resolutions and adopt a platform which is the Cleveland platform rather than the Hamilton platform. The platforms are so designated because it is known that two platforms have already been constructed, one in Cleveland and the other in Hamilton. The latter radically changes the system of taxation and puts the burden of taxation on the corporations, especially on railroads, and on this issue is the principal contention between the two platforms. In view of the absence of Mayor Johnson it is thought that there will not be much contest over the platform and there will be no contest for nominations except for minor places on the state ticket, as all concede that Colonel James Kilbourne will be nominated for governor, and that the other candidates will be nominated by the party caucus. It is expected that the platform will be adopted on Wednesday evening.

GRIFFITH DOESN'T GIVE UP

Sheriff Will Hunt the Fugitives as Long as There's a Chance.

Great Falls, Mont., July 8.—A courier arrived in Malta last evening from the sheriff's posse who are in pursuit of the train robbers near the head of the Little Rockies, and there are waiting the time when the chase shall have grown cold and then seize a favorable opportunity to ford the river at a place where a crossing could not be effected by men unfamiliar with the river and its treacherous windings. The officers are still in the field and the opinion of those who are on the ground is that the active pursuit must now be transferred to Yellowstone, Custer or Dawson counties through one or more of which the robbers' next pass to reach the Hole in the Wall.

GOLD SCARE IN CHICAGO

METAL FOUND IN LINCOLN PARK

Extravagant Talk of the City of Plutonium Containing a Real Klondike.

Chicago, July 8.—Gold has been discovered in Lincoln park by a prairie dog. Head Animal Keeper McCurren has a shining nugget about the size of a cherry which he believes to be the precious metal. He will have it tested. If the test is successful and the outlook for "pay dirt" is good Chicago will wake up to find a Klondike within her boundaries, and the park commissioners may be able to reconstruct and beautify the park without trouble or expense to the taxpayers.

Schuetzen Park Troubles Break Out Afters at Madison—Talk of Enjoining.

Madison, Wis., July 8.—Evangelist Frank Duncan and his band, including Frank Dawson, John Beckman, John Mehan, Mrs. Beckman and four other women, made another attempt to hold religious services during the picnic at Schuetzen park, Sunday afternoon, but were prevented from entering. Sheriff E. F. Burmeister and two deputies were at the entrance waiting for the evangelists when they arrived, and stopped them at the gate, informing Duncan and the male members of the band that they could not go in, but that the ladies might do so if they "behaved themselves."

YACHT FOR THE KAISER

AMERICAN-PLANNED AND BUILT

She Will Be Ready to Take the Water Some Time Next Spring.

New York, July 8.—The report that the German emperor had ordered an American yacht was confirmed to-day by Mr. Barbery, naval architect, in this city, in an interview with a representative of the Associated Press. Mr. Barbery said: "We have received orders for plans and specifications of a schooner yacht 120 feet long on the water line for the German emperor. The design and other dimensions have been left to our own ideas, and nothing has been said about the cost. We expect to have the plans and specifications ready in about six weeks. They will be submitted to the naval attaché of the German embassy at Washington. After his approval tenders will be advertised for the regular work. The yacht will be selected from bids submitted by the American design and build. We have the yacht ready for sea about April next."

"HOLE IN THE WALL"

Great Northern Train Robbers Have Distanced Pursuit.

THEORIES OF THE OFFICERS

Bandits Have Either Crossed the Missouri or Are in Hiding Just This Side.

Great Falls, Mont., July 8.—There is now little hope of the sheriff's posse overtaking the men who hid up the Great Northern express train at Wagner. A correspondent who has just returned from the section of country where the posse was expected to find the robbers, says that the pursuers have been outwitted and that the robbers have eluded them.

There are now two theories presented. One is that the outlaw who are better mounted than their pursuers, have already crossed the Missouri river and are well on their way toward the "Hole in the Wall" country in Wyoming. The other theory is that the robbers have gained the intricacies of the Bad Lands along the Missouri river near the Little Rockies, and are there awaiting the time when the chase shall have grown cold and then seize a favorable opportunity to ford the river at a place where a crossing could not be effected by men unfamiliar with the river and its treacherous windings. The officers are still in the field and the opinion of those who are on the ground is that the active pursuit must now be transferred to Yellowstone, Custer or Dawson counties through one or more of which the robbers' next pass to reach the Hole in the Wall.

Special to The Journal. Madison, Wis., July 8.—Property owners along the water front at Superior and Duluth will receive a total of \$40,000 from the United States government for damage to their property through the improvement and extension of the Duluth and Superior harbor. Appraisers fixed the amount of damage somewhat less than this about a year ago, but the owners were not satisfied with the amount. The matter came to trial before Judge Bunn and a jury in the federal court Saturday and a compromise was reached. The \$40,000 representing a "splitting of the difference" between the award of the appraisers and the amount claimed by the owners. It is understood the work of improving the harbor will begin at once.
