CHANGE FOR BETTER

Red River Valley Cereals Have Picked Up Wonderfully.

WEATHER'S BEEN ALMOST IDEAL

Chinch Bugs Work Injury in Wisconsin—South Dakota's Stand is Excellent.

Special to The Journal.

Fargo, N. D., July 12.—The crop conditions in this part of the state have been improved by the weather of the past week. There has been a cessation of the big rains and the dry showers have not added to the damage. The dry warm weather has aided in drying up the ground and the wheat is in magnificent condition except at a few points along the Great Northern road north of Fargo. Around Gardner and Argusville the water stood on the wheat so long that the grain turned yellow on some thousands of acres. Similar damage has done a few miles west. This area is a comparatively small percentage and the crop in other sections of the county is so much improved that the total will not be materially affected. It is difficult to see how the crop could look better on the medium high land in the valley.

Flax continues to look badly, and will be even a poorer crop than was estimated a week ago. Oats and barley are both short crops and some oats will be ready for harvest within ten days.

Corn is making a struggle to come to the front, but it will require lots of hot weather to make the crop.

Thousands of acres of potatoes have been drowned and the tubers will be scarce this fall. All grass crops are practically perfect.

SPLENDID DRYING WEATHER

Crops Around Grand Forks Have Had a Good Week.

Special to The Journal.

Grand Forks, N. D., July 12.—The crop situation in this part of the Red River valley has improved wonderfully during the past week. The weather has been ideal, being warm with good breezes for drying without any scorching heat or withering winds. The crops are maturing in fine shape and the improvement within the week will easily reach 15 or 20 per cent. The only wheat that is hurt at all is that on the low land, and even in many places it is recovering wonderfully every day. Most of the wheat will be ready to cut in a short time.

The only crop that will be heavy is flax. The rains did the flax more harm than any other crop, and the reports received to-day are to the effect that it is very spotted. In a few places it has been entirely lost, and in others the yield will be phenomenal. Some damage has been done to many fields by rain and in addition to this the high spots not injured by the rain are suffering from a sort of rot which is making a clean sweep wherever it appears. Thus far reports of damage from the worm are not very general, but it has appeared in a great many localities.

The general feeling is much better than it was a week ago and all lines of business are responding to the improved conditions.

RAINS HAVE SUBSIDED

Conditions Around Crookston Have Steadily Improved.

Special to The Journal.

Crookston, Minn., July 12.—Crop conditions in this part of the Red River valley have improved during the past week. The rains have abated, and there have been but two severe showers. Much of the excess of water has drained off and if no more rain falls the wheat will still improve.

The low lands are still in bad shape, and a percentage of the wheat is damaged, but there is a large amount of excellent crop that will under favorable circumstances give a big yield. Much of the flax is ruined. This was sown late, and has not had time to be hoppers have subsided to a great extent. The rains are partially accountable for this, and the parasite has also helped. In places the hoppers have taken flight and gone to other localities where they will show up another year. An estimate of the percentage of loss is difficult to make as the conditions vary so widely in the same township.

IMPROVEMENT 25 PER CENT

Wonderful Change Noted in the Grafton, N. D., Country.

Special to The Journal.

Grafton, N. D., July 12.—The crop conditions in the eastern half of Walsh county have improved 25 per cent during the past week. No rain fell during a week and the wheat in the lowlands east of here has materially improved. The prospect at present was never better. Most of the wheat is well headed out, and a month from now grain binders in full swing. The flax has improved, but the poor seed which was sown will prevent the recovery of much that was damaged. Oats and barley are a good crop, while hay will be simply immense. The rainfall during June was 7.45 inches and for July up to date 4 inches, a total of 11.45 inches, or more than half the average yearly rainfall.

CENTRAL SOUTH DAKOTA

Ten Big Counties Report a First-Class Stand.

Special to The Journal.

Huron, S. D., July 12.—Hand, Beadle, Kingsbury, Brookings, Sanborn, Jerauld, Moody, Lake, Spink and Paulk counties—the ten big counties in the middle eastern portion of the state—report all crops in good condition; the progress made the past week was especially gratifying. Wheat is filling reasonably fast, and the heading is well advanced. Straw is long and in many fields stands straight and even. Where the proper amount of seed was sown, the yield is very promising. The oats are heavy, which bid fair to be unusually heavy. Rye and barley are up to the standard. Winter rye is being harvested; the quality is above the average, and the yield in excess of early predictions. Flax is growing rapidly and is of good color, but most fields would be benefited by rain.

WHEAT CUT FOR HAY

Western Wisconsin Crops Ravaged by Chinch Bugs.

Special to The Journal.

New Richmond, Wis., July 12.—Chinch bugs are becoming an event every day. Vague rumors of their progress have been in circulation for some time, and are now revolving themselves into some damage has resulted. The bugs have shown up in rye and wheat crops in county asylum farm northwest of the city and also to the south. The Cedar Lake district towns of St. Joseph and Try also report chinch bugs at work.

FIFTEEN BUSHELS, PERHAPS

A Guess at the Average Wheat Yield in the Willmar County.

Special to The Journal.

Willmar, Minn., July 12.—The prospects are good for an abundant harvest. Reports from the surrounding country are that there is very heavy and fast ripening wheat. The heads in some fields are exceptionally large. A slight rust on wheat in low lands is reported from the towns of Edwards and St. John. The danger of too much

A BOLT IN JACKSON

Tactics of Machine Men to Make Trouble for Cummins.

REGULAR CONVENTION FOR HIM

Unexpected Gain in Howard Where the Des Moines Man is the Second Choice.

Special to The Journal.

Des Moines, Iowa, July 12.—At the close of the bitterest political struggle known in the history of Jackson county, the county convention there to-day instructed for Cummins by a vote of two to one. The anti-Cummins men, to the number of thirty, left the convention. The outcome of the contest is of much political importance, as it removes the probability of an uprising against Cummins in the second district.

The methods taken by the machine men in Jackson to select an anti-Cummins delegate were unique and shrewd in the extreme. In Maquoketa and townships where anti-Cummins delegates were chosen, the machine men professed their friendliness for Cummins, but objected to selecting the list of delegates favored by the Cummins leaders in the county on the ground that they wanted to deliver the county to Cummins themselves and not allow the credit to go to a local ring, headed by Charles Phillips, secretary of the state pharmacy commission. By following this plan, they succeeded in getting about a third of the delegates of their choice, and opponents of Cummins, elected. The Cummins men were in the dark until several caucuses had been held, and then began a desperate fight to retain control of the county.

The bolting delegates held a rump convention and chose an unopposed anti-Cummins delegation. In Howard county, in the fourth district, where Trewin lives, the county convention yesterday instructed for Trewin for first choice and for Cummins for second choice. This was an unexpected gain for Cummins and one that is likely to have much effect on the outcome. It gives to Cummins a greater choice following in the fourth district than had expected, and insures him much of Trewin's strength in case the anti-Cummins forces make an attempt to center on Harriman.

The Howard county convention selected an unopposed, anti-Cummins delegation. The Cummins men stand no chance of getting more than two or three of the delegates from Monona, except they accomplish it by pressure from the remainder of the eleventh district, which is strongly Cummins.

BADGER'S CHARGE

Woman Arrester on Accusation of a Confidence Game.

Special to The Journal.

Chicago, July 12.—Mamie Lassard, for whom the Chicago police have been searching since April 16, on charges of swindling a woman in a game made by Frank Wallen, a wealthy resident of Lannon, Wis., was locked up at the Harrison street police station late last night. The woman was living in St. Louis when arrested. It is charged she secured \$2,500 from Wallen.

According to her story, Wallen wished to marry her and gave her \$1,000 to fit up a house. She was to be married in many cases, though she never asked for money. Wallen even sent her a revolver with which she claims, he urged her to shoot during the hot winds that over the state have been severely damaged. Only a change in the weather will save it from total destruction.

BRANT AFTER MERRIAM

Iowa Editor Calls Upon the State Auditor to Resign.

Special to The Journal.

Des Moines, Iowa, July 12.—Editor David Brant of the Clinton Herald, candidate for lieutenant governor, has stirred up a sensation by demanding through his columns, that Auditor of State F. F. Merriam resign. The reasons given relate to Merriam's private conduct, and facts that have been given a new prominence in view of the Merriam divorce proceedings. However, the auditor has no intention of resigning. He is seeking a third term instead of conferring with politicians for the purpose of getting their aid. Brant alleges that the republican convention will be called on to consider a resolution asking the auditor to resign.

Low Rates to Buffalo Exposition

Via the Nickel Plate Road. Also special reduced rates Chicago to New York and return. Three through daily trains with vestibule sleeping cars and excellent dining car service, meals being served on the American Club Meals plan, ranging in price from 35 cents to \$1.00. EPWORTH LEAGUES GATHER.

San Francisco, July 12.—Already about 2,000 eastern delegates to the Epworth League convention, which opens next Tuesday, have reached this city and are now enjoying side trips to various parts of the state. It is estimated from railroad reports of incoming trains that 5,000 delegates will reach San Francisco by Sunday night, and 40,000 more by the following Thursday morning.

Take a ride over Walton Park. Free carriage will meet you at Washington and Thirty-sixth avenue N. all day.

VAST SHIPMENTS OF PETROLEUM.

Philadelphia, July 12.—Shipments of refined petroleum from this port to Europe were never before as heavy or as frequent as they have been within the last ten days. From the first of the year up to last Saturday, 175,550,883 gallons had been shipped abroad, against 155,828,718 gallons for the corresponding period of last year.

Don't Keep Things You Don't Use

Somebody wants them. Advertise them in the Journal want columns and you'll get money for them.

SEWARD'S EASY THING

No Opposition to His Nomination in the Watertown Circuit.

Special to The Journal.

Brookings, S. D., July 12.—The republican judicial convention for the third district convened in this city yesterday afternoon with a good representation from each county. From the start there were only two candidates mentioned, C. X. Seward of Watertown and G. A. Whitliff of De Smet. When the time came for presenting names to the convention, Case of Watertown placed in nomination Seward of the same place. Among those who seconded the nomination was Mr. Whitliff, of De Smet who pledged his party support and also the support of his friends to Seward.

After every county present had endorsed the nomination, the rules were suspended and Mr. Seward was declared the unanimous choice of the convention by acclamation. Absolute harmony prevailed.

SSS and OLD PEOPLE

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chills, sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; some begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
