THE CITY

TOWN TALK

Flowers for funerals and all other purposes shipped to all parts of the northwest. Mendenhall, florist, 37 Sixth street S.

Subscribe for all magazines, papers, etc., and get your binding done at Century News Store, 8 Third street S; near Hennepin av.

An attempt was made to burglarize the home of Lawrence Koll, 715 Eighth avenue S, Wednesday night, but the men were frightened away.

Emil Seifer was brought in from Excelsior to-day, charged with the recent robbery of the house of J. S. Hooper in this city. Seifer was arrested last night by Marshal John Powers at Excelsior.

The recent advance of $1 per box in the price of lemons has finally brought the price to $6.50 and $7 per box. Another advance is expected if the hot weather continues. The price is now about $2 per box higher than at this time last year.

Professor A. M. Haggard, dean of the Bible school and vice chancellor of Drake university, Des Moines, Iowa, and brother of Dr. George D. Haggard, of this city, will preach at the Portland Avenue Church of Christ Sunday, morning and evening.

Harry Savage, 7 years old, son of M. W. Savage, fell into the lake while fishing off the dock at Gideon's bay, Lake Minnetonka, Monday. Nellie Stevens, a 12-year-old girl, grabbed the little fellow when he rose the second time and held him till assistance came.

J. W. Lick, an agent for the Singer Sewing Machine company, was arraigned in police court this morning charged with the unlawful conversion of a sewing machine, the property of the company. He entered a plea of not guilty and will have his examination next Monday, bail being fixed at $500.

Residents of Washington street NE have reported their fear that the burglars who entered eight houses in the New Boston district last Sunday morning are at large in their neighborhood and they desire police protection. Four men, the same number that did the burglarizing Sunday, were seen acting in a suspicious manner in a grocery store in that section.

The iceman believes that, notwithstanding the inroads on the ice stock made during the heat of the last few days, there will be no shortage. Last year this important article of household economy was secured in large amounts from other cities, owing to a shortage. The ice companies put up an unusually large stock last winter, and are able to withstand any reasonable sort of run.

William Weller and Charles Wallace, arrested yesterday afternoon for alleged criminal assault upon the 14-year-old daughter of Mrs. Thomas H. White, 209 Nicollet, entered pleas of not guilty in municipal court this morning, and their examination has been set for Tuesday, July 23. The two men came to this city about three months ago and have since been running a jewelry store at 211 Nicollet.

John R. Anderson was held to the grand jury by Judge Dickinson this morning on a charge of grand larceny in the first degree, and his bail fixed at $500. Anderson is alleged to have stolen a silver watch valued at $12 and about $16 in money from the clothing of Arthur Crapo while the latter was asleep in his boarding-house. The watch was discovered in a Western avenue pawn shop and the prisoner located and arrested by Detective Norbeck.

THE WEATHER

The Predictions.

Minnesota—Generally fair to-night and Saturday, except possibly local thunderstorms in northeast; warmer in northeast Saturday; variable winds mostly southerly.

Wisconsin—Generally fair to-night and Saturday; slight changes in temperature; variable winds.

Iowa—Generally fair to-night and Saturday; slight changes in temperature; east to south winds.

North Dakota—Generally fair to-night; Saturday partly cloudy with possible showers in north portion; continued warm; east to south winds.

South Dakota—Generally fair to-night and Saturday; continued warm southerly winds.

Montana—Generally fair to-night and Saturday; cooler to-night except in extreme northwest; variable winds becoming westerly.

For Minneapolis and Vicinity—Fair to-night and Saturday.

Weather Conditions.

There have been showers during the past twenty-four hours on the east Gulf coast and in Manitoba, with 1.88 inches reported at New Orleans; there has been no rain in the central portion of the country at the weather bureau stations. It is slightly warmer than it was yesterday morning in western Minnesota, North Dakota, Manitoba, Montana and the western parts of South Dakota and Nebraska. Yesterday's temperature continued high in the whole country, except on the Pacific coast and in the lake region, with 104 degrees at Miles City and 100 degrees at Shreveport and Kansas City. The pressure conditions have not changed since yesterday morning.

—T. S. Outram,
Section Director.

Maximum Temperature.

AN AMBITIOUS INDIAN

Becomes a Wiper on Great Northern "Fire Wagon."

Bearing recommendations from Governor Van Sant and from James J. Hill's private secretary, Simon Bonga, a full blood Chippewa Indian, appeared before Superintendent Devereaux, at the Great Northern shops in St. Paul yesterday and applied for work. After sizing him up, the superintendent offered to engage him as engine wiper, and in that capacity Bonga is to-day working. Bonga was born on the Leech Lake reservation and is the son of William Bonga, the well known interpreter. He graduated about two weeks ago from the government school for Indians at Flandreau, S. D., where he had been a scholar for the past seven years. It is his ambition to become a locomotive fireman and finally a locomotive engineer.

Excursion to Ste. Anne de Beaupre by the Soo. $30.

Pilgrimmage to the great feast of Ste. Anne leaves Minneapolis and St. Paul, July 21, via Soo Line. Round trip rate only $30. Return limit Aug. 31. Make your reservations early. Ticket office, 119 3d st S.

DUE TO JEALOUSY

Dr. Huxmann Discusses the Attitude of German Dentists.

AMERICANS ARE LEADING THEM

Their Present Plan to Handicap American Practitioners in Germany Can Hardly Succeed.

Dr. Ferdinand A. Humann, dentist at 228 Plymouth avenue, is thoroughly conversant with the facts in connection with the knockout which the Association of German Dentists is planning for the American dentist in Germany. The tooth repairers at Frankfort-on-the-Main, as reported in the dispatches, will ask the assistance of the regular physicians to secure the passage of a bill through the reichstag prohibiting German medical men from administering anaesthetics to patients being treated by American "mechanical" dentists.

Dr. Huxmann, a German by birth, is a thorough American by education and preference; he concedes the superiority of the American dentists and does not believe the German physicians will offer any aid to the dentists in their dilemma. The opprobrious term "mechanical dentist" always used in reference to the Yankee fraternity in Germany he believes to arise from the fact that the American dentist is handy in using and devising mechanical apparatus. In fact, he believed that unless a man who intended to take up dentistry had this turn of mind, he had better give the profession no further attention. He recalled the story of how Dr. Evans, the most famous American dentist on the continent, made a silver tube for the German crown prince, who was afflicted with cancer of the throat. Although it was entirely out of Evans' line, he afforded relief that the clumsy contrivance of the German doctors did not give. Said Doctor Huxmann:

Our style of dentistry in America is altogether ahead of anything else. The number of American dentists in Germany at first was small. There were a few on the continent, at Paris, Vienna, Frankfort, Berlin and Hanover. When the success of the first American was assured, his work was so superior to that of the Germans that they found it advantageous to swing to the breeze the sign of "American Dentist." This is not legal, however, the laws being very strict in the matter of false pretenses, although such a sign was worth a good deal to any one.

I have read of the trouble which this telegram indicates, and have no doubt that the German dentists are trying to do something of the kind. The trouble in Germany is that they have good colleges for everything but dentistry. Dentistry in Germany is considered an inferior branch of the medical profession. In Austria it is even worse, for a man must be a physician first before he can become a dentist.

We may see something of this prejudice against dentistry even to-day in this country. In Germany dentistry is not considered a profession, but sort of a trade. The surgical part of it is considered as belonging to the medical profession.

The Germans have come to this country for the last twenty years to study dentistry, not alone the young men, but those who have been in practice. My brother, F. W. Huxmann of Chicago, lectured many years on this subject to the Germans in their own country. He had twenty or thirty students for every term, and most of them were German dentists, who simply took the lectures so as to be able to compete with the American dentists. He discovered that his countrymen who came to America experienced great difficulty in grasping information in the lectures because of their ignorance of English. This gave him a clue, and he established a German-American dental college, where the American system is taught, but the lectures are given in the German language.

I think it is a very small move if the dentists do this. I hardly think they will succeed. The Americans have made dentistry a real profession all over the world; before that it was a good deal of a trade and nothing else. The trouble is that all the crowned heads in Europe for the last fifty years have not had anything but American dentists, at least a dentist who had studied in America. Of course, if the German emperor gets his teeth fixed by an American dentist they cannot oust him.

Dr. Huxmann said also that fifty years ago the German dentist used to get $150 for a set of false teeth, and naturally did not sell many because of the expense. The American comes in and makes a much better and cheaper set. The dentists from this country surpass the Germans principally in gold fillings. The Germans have the power drill and other instruments, as in America, but are either too lazy or too careless to use them advantageously, and it is the same with bridge work.

The expense of studying dentistry in Germany is too great to allow of much advancement. It is cheaper for a prospective dentist to come to this country for his education. Dr. Huxmann believed that the diploma of a reputable American college would serve in Germany, as it would be sort of an international insult for that country to refuse to recognize the sheepskin obtained in Yankeeland.

The skill of the German physicians and the excellence of their methods of study and hospital work was highly praised by Dr. Huxmann, but in the matter of dentistry, where one tutor was provided in a medical college of 8,000 students, for those taking the dental course, this country surpasses his fatherland.

MUSIC OF THE GAULS

This Will Be French Night at Lake Harriet.

To-night will be French night at Lake Harriet and the Banda Rossa will give a fine program, the first half of which is entirely made up of compositions by noted French writers, Gounod, Massenet, Thomas and Ganne. The Massenet number is a selection from his beautiful opera, "The King of Lahore." The last half of the program includes the world-famous "Narcissus," the beautiful composition of the lamented American composer, Ethelbert Nevin, who recently died in the flower of his promise. The same number will also be played to-morrow afternoon. Another novelty for the Saturday matinee will be two characteristic Hungarian dances by Brahms. The programs follow:

FRIDAY EVENING—FRENCH NIGHT.
March, "Le Pere et la Victoire".....Ganne
Overture, "Raymonde" ..... Thomas
Romance for trumpet, "Ave Maria"..Gounod
Solo by Signor Bottega.
Grand fantasie from "Il Re di Lahore" (by request) .....Massenet
Solos by Signori Bottega and Febbo.
Souvenir Mazurka ..... Sorrentino
"Cupid's Pleadings," intermezzo.....Voelker
"Narcissus" ..... Nevins
Selection from "L'Africaine" ....Meyerbeer

SATURDAY AFTERNOON.
March, "General Miles" .....Heed
Overture, "Fra Diavalo" .....Auber
Ungarische Tanze, No. 1.....Brahms
Ungarische Tanze, No. 6.....Brahms
Poema Sinfonic ..... Bizet
Selections from Offenbacchiana.....Boettger
"Narcissus" ..... Nevin
Grand selection from "Faust".....Gounod

You hardly realize that it is a medicine, when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use.

Half Rate to Milwaukee and Return via "The Milwaukee."

July 21, 22 and 23, C., M. & St. P. Ry. will sell round trip tickets to Milwaukee at $9.70, account meeting of Benevolent and Protective Order of Elks, tickets good to return until July 27th. Extension to Aug. 10th may be obtained by deposit of ticket and payment of 50c.

Four splendid passenger trains daily to Milwaukee (without change of cars) from Twin Cities.

These tickets are good on celebrated Pioneer Limited.

Remember Saturday is the day of the Walton Park auction.

PORTER FOR MAYOR

Friends Begin to "Talk" the Eighth Ward Democrat.

BUT HE SO FAR REMAINS SILENT

It Is Intimated, However, That He Would Prefer to Try to Go to Congress.

George F. Porter, the eighth ward democrat and during the past two or three campaigns one of the "angels" of the local campaign committee, will probably be a strong factor in the next contest for the democratic nomination for mayor. Mr. Porter has been apprised of a strong sentiment among the home unterrified in his favor and has been approached by some of the leaders to learn his views on the question. But, thus far, he has refused to take the matter seriously enough to give any definite answer.

His Qualifications.

Mr. Porter has many of the qualifications of an ideal candidate under the conditions that are likely to be present in the next campaign, his friends say.

He is young enough to inspire the best efforts of the active, bustling workers in the party, is plentifully supplied with the commodity that can hold workers steadfastly to their tasks, is possessed of an agreeable personality and has no handicap in the way of an official record.

The only possible fault that can be found with him as a candidate, they say, is that he is not the best "mixer" in the world, but it is thought that a little effort on his part and wise direction by the party jolliers will remedy this difficulty. Many of the party workers who might naturally be in favor of the renomination of James Gray, but for fear of the further dominance of Michael Breslauer in local party affairs, are said to be among those behind Mr. Porter's candidacy.

Hasn't Committed Himself.

Mr. Porter has thus far refused to commit himself in the matter. He insists that it is too early in the game to consider candidates for next year. His friends declare, however, that they have reason to believe that at the proper time he will announce his candidacy. Others insist that it is congress he is looking forward to rather than a term at the local helm, and that he will hesitate long before assuming any such difficult role as that of mayor of Minneapolis with its past record as an effectual stopper on further political preferment for the man who plays it.

Mr. Porter has never been an active worker in the party. He has helped various candidates generously with his money at times and contributed liberally toward the party fund. He was one of the alternates to the Kansas City convention last year, and he stood ready to plunk down his dollars in aid of a local party organ and undoubtedly would have financed such an undertaking if Mr. Rosing had not headed him off with the ill-fated Star.

NORTHWEST IN LUCK

Capt. Snider Convinced of It After Visiting Illinois.

The people of the northwest hardly appreciate how fortunate they are this year, according to Captain S. P. Snider, who has just returned from an extended visit in southern Illinois.

"The farmers in southern Illinois," says Captain Snider, "have been afflicted this year with one of the worst droughts ever known. It has been practically two months since they have had a rainstorm and crops are practically ruined. It is possible that rain at this time would serve to give them a small yield of corn, but even that grain is terribly far gone. I have just received a letter from a friend at Springfield, Mo., in which the conditions described are even worse than in Illinois. Rain has not fallen there since April 17. The apple crop is utterly destroyed, the fruit having dried up completely. Berry bushes have been killed by the dry heat and small grains completely destroyed. Corn is yet a possibility, but can only be a small crop at best."

HAD SET THE HOUR

W. J. Woodbury's Suicide Was According to His Schedule.

It was Warren J. Woodbury who leaped to his death from the high bridge at St. Paul yesterday afternoon. He was the publisher of the White Ribboner, the official organ of the W. C. T. U. Mr. Woodbury left several letters which tell that despondency due to domestic and business troubles was the cause. In a note to his brother he expressed his determination to jump from the bridge between 1:30 and 2 o'clock. He made the leap on schedule time. To the wife whom he left alone in the world Woodbury had penned this note:

Cynthia: You will find all my keys and valuables in the chiffonnier at home. Have Mrs. Rogers and Mrs. Soule stay with you. Keep up the White Ribboner. That will help you and keep your mind busy on something. Good-by forever. —Warren.

ALREADY SCRATCHED

Guy Wilcox Refused to Be Vaccinated Twice.

A certificate of vaccination dated July 18 is all that saved Guy Wilcox from paying a fine of $10 in Judge Dickinson's court this morning. Yesterday morning members of the health office staff vaccinated the employes of the Paris-Murton company, with the exception of Wilcox, who refused to submit to the operation. He was arrested for violation of the health laws and pleaded guilty this morning. The court imposed a fine of $10, but remitted the same upon production of the certificate of vaccination.

WORSE THAN SIOUX

The Hero of Fort Ridgley Beaten by Hornets.

A swarm of hornets flew amuck in the back yard of the home of Deputy United States Marshal Sheehan, St. Paul, yesterday afternoon, and the veteran Indian fighter had a hand-to-hand encounter with the winged insects. In the melee one of the hornets alighted on the colonel's hand and in a trice he had got in its deadly work. It was feared that blood poison would set in, but poultices were an effective antidote.

PRESIDENT BRIDGMAN REPORTS.

Dr. G. H. Bridgman, president of Hamline university, who recently visited the Pan-American exposition, at the request of Governor Van Sant, as the special representative of this state, has written the governor his impressions of the exposition. The Minnesota commissioners, says Dr. Bridgman, have shown great wisdom in their selection of a site for the state building and tireless energy in completing the structure in so short a time. It is a handsome building and a credit to the commissioners and to the state.

TO BE NEARER HOME.

The removal of George Dixon of Wheaton, this state, from the government insane asylum at Washington, D. C., is now being arranged for by his mother, Mrs. A. Dixon, who has been in St. Paul upon that mission for several days. If removed from Washington, Dixon will be placed in the Fergus Falls hospital.

TRAINING SCHOOL PAID FOR.

The last certificate of indebtedness issued by the state for the cost of constructing the training school at Red Wing has been paid. The total original indebtedness was $115,000, of which $100,000 was held by the Mutual Life Association of New York, $10,000 by Lucy Kendig and $5,000 by A. Zegnege.

If You Are Going

To Pan-American inquire about the delightful routes the Soo Line offers. Rates are the lowest. Ticket office 119 Third street S.

RAILROAD RUMBLES.

MAY RESIGN

Room May Be Made Soon for Mr. Morgan's Men.

It is reported in New York that the present board of directors of the Northern Pacific railroad will probably resign soon in order to make room for the nominations of Mr. Morgan. It is said in the same connection that of those resigning Robert Bacon, George F. Baker, R. M. Gallway, John C. Kennedy, Daniel Lamont, Samuel Spencer, James Stillman and Charles S. Mellen, it is said, will be requested to withdraw their resignations, and, with the newly appointed five, to constitute the new directorate.

An official of the Northern Pacific in discussing the proposed new directorate, says:

It is very probable that some of the methods of the Northern Pacific will be modified and minor changes made where economy can be accomplished, but none that would not follow naturally upon the completion of a harmonious understanding between the Burlington, the Great Northern and our system. I have been advised within a few days that the appointment of a general traffic supervisor over all three, or over even the Northern Pacific and Great Northern, is extremely improbable.

The first aim of Mr. Hill and Mr. Morgan and their associates in the interests controlling our road, will be to maintain the highest values of its securities and to produce the greatest amount of revenue.

NEW TRANSCONTINENTAL

The Canadian Northern Being Pushed—Its Objective.

Duluth, Minn., July 19.—Daniel Mann of the firm of McKenzie & Mann, contractors for the building of the Canadian Northern road, and in reality the men back of that vast enterprise has been in the city looking over terminal improvements here.

"The Canadian Northern," he said, "is to be another transcontinental line, and by the coming autumn we shall have more than 1,400 miles in operation. This will be from the northwest, through Manitoba, clear to Lake Superior at Port Arthur, and from the eastern end of the lakes toward Montreal and Quebec. The line will be put through to the Pacific as fast as possible, and in less than five years will be there. It has the backing of the Canadian government and is assisted by the feeling that Canada should not be dependent upon the Canadian Pacific alone for through transportation. It will run through a vast and fertile country considerably to the north of the Canadian Pacific and will open a region that is abundantly able to support a line well. The terminals now being put on Lake Superior at Port Arthur will be important and costly, and we are working about 4,000 men between that point and the Lake of the Woods."

Stony Brook Cut-off.

West Superior, July 19.—The Eastern Minnesota Railway company expects to complete the Stony Brook cutoff to this city from the ore regions very soon. In fact it is thought that by the end of this week or the first of next week the first ore trains will be running here. For some time past the company has had a great many steam shovels at work getting out gravel for work on the road. The Stony Brook cutoff means a shortening of forty miles in coming to this city with iron ore from the ranges.

Break in the Flour Rates.

The expected break in flour rates has come and blame is placed upon the Michigan port lake and rail lines. Since the adoption of the new tariffs on July 1 the Chicago lines were so successful in getting away each day with the bulk of the business that suspicion was aroused. The northern lines have been carrying about one-third of their usual allowance. The cutting has not been done openly, but sufficient has been learned to call for inquiry.

New Method.

During the Baptist Young People's union meeting in Chicago, from July 25 to 28, a new method of depositing round-trip excursion tickets will be followed. The conductor on each train entering the city will take up the tickets and issue a certificate, directing the passenger where to obtain the other part of the ticket when he wants to return. The visitor will present the certificate to the officials on the return trip and get the ticket.

Rate for Knights Templar.

Cleveland, July 19.—A. J. Smith, general passenger agent of the Lake Shore, has requested that Knights Templar be ticketed from Chicago to the national conclave at Louisville, Ky., and return to Chicago by way of Buffalo at virtually the same rate now charged for the round trip over a single route. The Central Passenger Association will vote on the propositions by mail.

Railroad Notes.

The Burlington will run a personally conducted excursion to the Yellowstone National Park, leaving Kansas City Aug. 20.

The Central Passenger association has made a rate of one fare plus $2 for the International Live Stock exposition at Chicago, from Nov. 30 to Dec. 7.

The Wabash has introduced a new feature in its dining-car service by having each of its new dining cars provided with private rooms where meals can be served.

Information based on inquiries by freight officials is to the effect that Minnesota will furnish a bumper potato crop this season. This news is highly significant in view of the reported failure of the potato crop in other states.

The state railroad commission returned yesterday from Duluth, where it inquired into the Northern Pacific depot question. The road has announced that it will close the Twentieth avenue depot, but the people of Duluth object. The commission went to St. Hilaire, on the Eastern Minnesota, where a passenger train service is asked; to Wiley, where a larger depot is wanted, and to Eldred, where both a depot and an agent are desired. To-day the commission went to Austin to investigate an interlocking system.

ROLLED DOWN A BANK

Driver, Team and Wagon in a Bad Tangle.

Jesse Hudson, colored, driver of a wagon on the railroad grading work on Nicollet island, fell over an embankment with his team this morning and was severely hurt in the mixup. Hudson drove too near the edge of the declivity and the next moment horses, wagon and men were rolling down the steep slope in a tangled mass. When removed from the wreckage, Hudson was badly used up and was hurried to the hospital in the patrol wagon. His injuries, a bad cut on the leg and a severe contusion on the head, were dressed at the city hospital. The police officers who accompany the patrol wagon say it was a miracle that Hudson did not receive fatal injuries.

GOADED TO DESPERATION

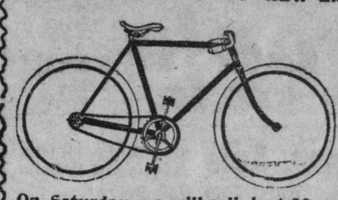
A South Side Tailor Says Children Teased Him.

Another neighborhood row was aired in police court this morning when W. A. Mechlenberg, a tailor at 2110 Fourth street S, was brought before the court accused of threatening the life of the 12-year-old daughter of Mrs. Davis and conducting himself in a generally disorderly manner. The trouble culminating in his arres tis alleged to have started when the Davis girl, with her bicycle, ran over the small son of the defendant. Mechlenberg, however, asserts that this is but one of a long series of persecutions by the boys and girls of the neighborhood. The court imposed a fine of $10, from which decision Mechlenberg says he will appeal.

Enjoy a Lake Trip

While going to the Pan-American Exposition. Steamship "Miami" sails twice a week from Duluth for Mackinac Island and the east. Tickets 300 Nicollet avenue, Minneapolis, Minn.

NEW ENGLAND



A Remarkable Bicycle Offer.

HEALY IS ARRAIGNED.

Edward Healy, who shot and killed Ed Rooney on the Jackson street wharf, St. Paul, last Friday, has been charged with manslaughter. Through his attorney he waived preliminary examination yesterday, and was committed to jail to await the action of the grand jury.

Telephone your want ads to No. 9, either line. You will be told the price and you can send the money in.

Two Kinds of Economy

You can economize in Piano buying in two widely different ways. You can buy a Piano that looks pretty, but concerning which neither you nor your friends know anything, and probably get it for a comparatively small sum of money; or you can buy a Piano of established reputation, a Piano that all musicians will unhesitatingly and unreservedly praise—at a MONE -SAV NG PIANO STORE.

You don't need to be told which is the foolish economy and which the wise. There are no better Pianos t their grade than t e McPhail, the Cr wn, the Sterling or the Huntington; and we can absolutely and positively save you money on any of them.
