MAYOR ACQUIRES POPULARITY

President Shaffer Likely to Put His Plan of Strike Extension into Effect.

Pittsburg, July 25.—Steel-strike developments of the last 24 hours indicate that the company's force at Wellsville is slowly accomplishing the intention of operating the plant with non-union men.

While he has not divulged his reasons for his sudden journey, it is believed his mission was to prevent any possible cause for interference by the courts by impressing on the strikers the importance of remaining orderly.

At McKeesport all remains as quiet as heretofore. The fact that many of the officials of the mills have left for their summer vacations, has caused the strikers to relax their vigilance in the vicinity of the Dewees Wood plant.

The declaration of Mayor Black last night that he will not permit deputies in the idle mills or allow the city police to guard the company's property has caused a sensation, and the mayor is expected to make any attempt to start the mills until this has been finished.

The first witness was Miss Estelle Chapin, a sister of Mrs. Shepardson, whose home is near that of the Fosburghs. Her sister came into the room and together they knelt before a window and listened. They heard a woman say: "She is gone."

SCOLEY COURT OPPOSE IT

The Association Objects to the Younger Parole.

BAD PRECEDENT IS SET

Which Is Likely to Be Injurious to Good Order.

OFFICERS ARE ELECTED TO-DAY

J. R. Mitchell of Winona Is President—Trip to the Mesaba To-morrow.

Special to The Journal.

Duluth, Minn., July 25.—At the session of the Minnesota Bankers' association this morning a resolution was passed dis-

approving of the parole of the Youngers. It was as follows:

Resolved, That the stability of government, the well being and good morals of the people and respect for the rights of others, demand equitable and firm execution of law, and the infliction of penalty for its violation. In the parole of the Youngers, we believe a precedent has been set injurious to the well being and order of society and one that may cause attempted reparation by sympathizers and criminal admirers, and we deprecate the notoriety given them.

It was offered by Mr. Ward of Fairmont, Minn., who championed it vigorously.

There was no direct opposition, but A. D. Stephens thought it was not a matter upon which the convention should act. The parole had been made already and such action could do no good.

The following officers were elected:

President, J. R. Mitchell of Winona; secretary, J. W. Wheeler of Crookston; treasurer, Joseph Chapman, Jr.; of Duluth; D. A. Burke of Two Harbors; for the eighth, D. A. Stephens of Crookston.

A paper on "Asset Currency" was read by William B. Dean of St. Paul. It was a comprehensive discussion of the financial question, the work of the Indianapolis convention being reviewed, and the bankers urged to do all in their power to continue the reformation of the currency system.

David R. Forgan of Chicago spoke on "A Decade of Financial Progress."

To-morrow the members will go to the Mesaba range to view the iron mines, and to-morrow evening will leave on the Pan-American exposition trip.

THE JURY IS SECURED

BARRY TRIAL ON NI EARNEST

The State's Attorney Combats the Insanity Plea—The First Witness Called.

Special to The Journal.

Langdon, N. D., July 25.—The trial of William Barry for murder opened this morning. The twelfth jury was secured last night. It took eight days of hard work to get a jury. The sheriff subpoenaed over eighty men before securing a panel.

The feature of this morning's session was State Attorney Dickson's vivid portrayal of the crime and the circumstances connected with the murder of Mellen by Barry. The refute the idea of partial insanity and how that Barry's act was a premeditated murder.

Justice Norgaard was the first witness the state called. Barry gave himself into the custody of Norgaard an hour after having killed Mellen. The witness related how Barry handed him the knife, stating the Mellen died two minutes after he struck the blow. When Norgaard reached Barry's farm the body of Mellen was still warm, and was lying in a pool of blood.

SCOLEY COURT IS ANNOUNCED

Admiral Dewey and Rear Admirals Kimberley and Benham Investigators of Santiago Battle.

Beau Brummel Sampson Takes Occasion to Say Unpleasant Things About Admiral Schley.

Washington, July 25.—The board of inquiry which is to investigate the controversial points in connection with Admiral Schley's conduct during the Spanish war will be composed of Admiral Dewey, president of the court, and Rear Admirals Lewis A. Kimberly and Andrew E. K. Benham. The court will meet at the navy department in Washington, Sept. 12.

Secretary Long announced these facts to-day. The precept to the court, which is being prepared by Captain Lemley, judge advocate general, has not yet been completed.

The scope of the inquiry will not be known until the precept and order for the convening of the court are issued. It is expected they will be promulgated by the department to-morrow. Secretary Long says, however, that the proceedings of the court will be open, that the widest latitude will be permitted in the matter of witnesses and that Rear Admiral Schley will be allowed to be represented by counsel.

The secretary had nothing to say about the composition of the court except that he thought it spoke for itself and to express the hope that the members chosen would be satisfactory to all concerned. He pointed out that none of the officers chosen had, so far as he knew, expressed an opinion concerning what is known as the Sampson-Schley controversy and it was therefore to be presumed that they would enter upon their work in an impartial and unprejudiced spirit.

Court of Fighting Men.

The members of the court are distinguished fighting men. Each has been connected with a celebrated event in naval annals.

Of Admiral Dewey, the hero of the battle of Manila, it is unnecessary to speak. His record is familiar to all. His assistant, Rear Admiral Kimberly, and Rear Admiral Benham are both retired officers. The former was retired in 1892 and the latter in 1894. Admiral Kimberly is 71 years of age, and Admiral Benham 63 years. Each saw over forty-five years of active service. Both had fine records during the civil war. The great event of which Admiral Kimberly's name is associated is the destruction of the American fleet in the harbor of Apia, Samoa, during the terrific hurricane which occurred there in 1889.

Admiral Kimberly had been sent to Samoa at the head of an American squadron during the trying period of our negotiations with Germany there, and had conducted himself before the storm with marked dignity and ability. When the hurricane occurred, his entire squadron was wrecked. The Vandalla and Trenton were completely destroyed and the Nipisic was lost ashore. The story of the great disaster is the history of the American fleet in the harbor of Apia, Samoa, during the terrific hurricane which occurred there in 1889.

Admiral Benham played an important part at Rio de Janeiro during the Brazilian revolution in 1844.

Judge Advocate.

The court was completed by the selection of Commander John E. Pillsbury as judge advocate. Commander Pillsbury is now equipment officer at the Boston navy yard, which is under command of Rear Admiral Sampson. He is considered an exceptionally capable officer. During the Spanish war he was commander of the dynamite cruiser Vesuvius, which was attached to the North Atlantic squadron, under command of Admiral Sampson. He will, therefore, be the only officer connected with the court who was a participant in the maneuvers of the Boston navy yard, which is under command of Rear Admiral Sampson.

While the sessions of the court will be open, the court will exercise the right, which it has, of closing the doors for consultation, and for the discussion of disputed evidence.

Pillsbury Appointment Withdrawn.

Late this afternoon Secretary Long reconsidered his decision to appoint Commander Pillsbury as judge advocate of the Schley court of inquiry. A final decision in the matter has not yet been reached.
