

Woman's World ART METAL COURSE

Pratt Institute Recently Opened a Class for Women.

FEW AMERICAN GOLDSMITHS

Art Value for Home Decoration an Attractive Feature—Designs in Brass.

Some branch of art has long formed an element of woman's accomplishment that it is not surprising when opportunity is offered, to find women entering readily into a new phase of artistic work.

The goldsmith's craft is probably one of the oldest in the world, for every nation since its earliest days has had its skilled workers in the precious metals.

But the thorough nature of the course would hardly permit a student to enter it solely for the pleasure of an additional accomplishment, characterizing engraving, die-sinking, and enameling are the subjects to be taken up during the three years of study necessary for a full certificate.

A PARADISE FOR SPINSTERS. Queensland has been not inaptly described as a paradise for spinsters. The last census taken there showed 57,000 more single men than single women, and the efforts of the colonial government in the way of immigration are now chiefly devoted to making up the deficiency.

The Cuban watermelon recently put on the New York market differs materially in appearance from the common Georgia variety, which is supposed to be supreme in the watermelon line.

VACATION SCHOOL WORK

Their Successful Development a Problem of the Day. New York city has sixteen vacation schools, in which the classes are graded by ages and sizes and the instruction is given by the nurses' class first aid to the injured and the care of babies and young children is taught by four trained nurses, this class being an innovation this year.

More industrial classes will be introduced into the vacation schools this year than before, two occupations being furnished at each school. For the boys they will comprise the vacuuming, Venetian ironwork, joinery and cabinetmaking, fret sawing, carving and whittling; for girls, raffia weaving, dressmaking, doll dressing, sewing, paper flower making, millinery, embroidery, knitting, crocheting, cooking, and bookbinding.

In addition to the sixteen vacation schools, five summer kindergartens, twenty-eight playgrounds and eight evening classes were opened for the season the other day in Manhattan and The Bronx. In Brooklyn twelve vacation schools and eighteen playgrounds began their summer work yesterday.

The committee on vacation schools in concluding its report recommending these schools said: "We do not feel that the playground problem has been solved or that real success has been attained, but we are encouraged in the belief that a good beginning has been made."

Children Beautify Carthage. Carthage claims to be the prettiest town in Missouri, and gives the credit thereof to the school children. Last year W. J. Stevens, superintendent of the schools in the town, offered twenty-four prizes to be awarded to those pupils who made the best showing in vine planting and in raising flowers and vegetables.

The Eighth Ward W. C. T. U. At the annual meeting of the Eighth Ward W. C. T. U. last night, the departments were reported by Mrs. W. S. Welch, Mrs. Pulver, Worrall, Hoover, McCurdy, Hendrix, Misses Mattie Francis and Etta Decker. The quarterly letter from the county president, Mrs. Frances Neal, was read and the mission superintendent, Miss Decker, 2719 Nicollet avenue, was given charge of arrangements for prison Sunday and will receive the flowers for the week to-morrow.

Old South Annual Lectures. The valuable annual series of Old South lectures in Boston for the people were established through the bequest of Mrs. Mary Hemenway. The Funeral of Mrs. Adams. The Daughters of the American Revolution in Minnesota are invited to attend the funeral services of the vice president general, Mrs. John Quincy Adams, in Christian church, Fourth and Franklin streets, St. Paul, to-morrow afternoon at 3:30 o'clock. Seats will be reserved for Daughters of the American Revolution.

Club Jottings. One of the most interesting clubhouses belonging to women's clubs in the west is that of the Scott club, of South Haven, Mich. The club, which at first held its meetings in the home of its members, outgrew these accommodations so rapidly that the building of a separate house became a necessity.

The National Society of New England Women has established a registry office at the Pan-American exposition, and the office will furnish information in regard to rooms and board at hotels and boarding-houses for all women of New England ancestry. Special

Helena, Mont., July 26.—Attorney General Donovan has commenced proceedings in the courts against Sheriff Connelly and County Attorney Duffy of Deer Lodge county, to have them removed from office on the ground of willful neglect in failing to arrest and prosecute violators of the gambling law. Duffy and Connelly deny that they had knowledge that the law was being violated, and claim that they cannot carry on a detective bureau. It is a notorious fact that gambling has been going on in Anaconda almost uninterruptedly since the new law went into effect. The attorney general claims to have strong evidence and will push the case against the two officers. He will commence similar proceedings against officers in two other counties.
