LAKE MINNETONKA

The height of the season has been reached at Minnetonka and this beautiful island resort is in the full tide of a prosperity which it has never before known. The hotels scarcely afford sufficient accommodations for the thousands of people who flock to the city and the cottages have multiplied a hundred fold since the so-called palmy days when the hotels were filled with southerners and the great steamers and camps were the chief means of providing lodging for the city folk going to the lake. One steambath man has had a pretty steady midnight run from Excelsior to carry to some of the more distant and larger hotels the overflow of the Excelsior hotels.

The steambath men are busy and as happy as they can be, when they are suffering from a lack of sleep. One of them has had a stretch of thirty-six hours steady running, his late "after the ball" parties overlapping on early fishing parties.

To-night the regular hops at Hotel St. Louis and Lake Park Hotel will furnish opportunity for dancing to large crowds. The Siemanado club will drive out to the St. Louis in a trolley for the hop. The party will number about forty. Another trolley party will come out from Sunnyside for the dance. The Tuesday Limited has planned to attend the informal party in a body Tuesday afternoon.

An informal card party was given yesterday afternoon at the St. Louis, which was attended by a large party of visitors from the beach. The prizes were won by Mrs. Hibbard, Mrs. H. H. Bennett and Miss Scott of the Beach party, and Miss Smith.

This morning Mrs. Noble amused the youngsters by a grab party in which they drew lots from the beach and the boys in her back. She was dressed as a witch and rather inspired fear at first among some of the hottest folks.

The children are happily remembered by the hotel management and a big new building and a supply of new and absorbingly interesting games have made this a red letter week. Another new and attractive addition to the grounds has been the placing of irregular groups of colored incandescent lights high up in several of the trees near the house. These give a very pretty effect in giving several affairs for her friends during her visit.

Both country clubs will entertain their members and guests charmingly to-night. The tennis courts at Excelsior are in the full tide of a prosperity of all the lake social affairs. The decorations of flags, pennants, rackets and draperies arranged by Miss Idabelle Buell, the tennis ball of last Monday evening, are still in place, and these will be supplemented by handsome floral decorations that will add an effective setting for the stunning summer gowns which the feminine guests will wear to grace the occasion. The decision as to who will lead the game has been left to the last, but it will be one of the most interesting events have been prepared by the young women of the club and most of the figures have been arranged by them. The opening ball on Monday night will be a most successful and large club party ever given at the lake and it is anticipated that the game will be equally notable in its way.

The arrangements for the tournament have been almost wholly in the hands of Ward Burton, and he has been a conspicuous figure about the courts in his pink coat. Every-thing has been arranged to the satisfaction of the club members and the warm friends by his skillful management of all the numerous details of the tournament and its train of social affairs. The Chicago men are especially gratified by the attentions received at his hands and with the very hospitable way in which they have been entertained. They regard the week as a conspicuous event in their lives and will work hard to work hard and become a tennis player for the sake of the delightful social opportunities afforded by the associations of the game, as well as for the good of the sport.

At Lafayette Club the golf match this afternoon will be followed by the regular Saturday evening hop. The club members are especially gratified by the way in which they approach in social distinction this very enjoyable series of parties and will yield the palm to no other claims. It is quite certain that the club members are greatly enjoying the occasional and are attending in large numbers.

The Friday night hop at Hotel del Otero attracted a very large crowd which was from the lower lake. Nearly every young lake colony was represented. Shady side was almost if not quite deserted last night and the party at the top making a trip to the lower lake on the Fanny L. while the hop was in progress.

Mrs. J. C. Woodworth gave a very pretty party on her porch yesterday at her cottage on the Beach to twelve of her friends living at the lake. The decorations were in pink, the unique centerpiece being a raffia and rattan affair with a basket of fruit, and a row of wide pink ribbon. At each place were tiny baskets to match, the handles being run and tied with ribbons. These were filled with nuts and were the souvenirs of the dinner.

The baskets used by Mrs. Woodworth were of her own manufacture and greatly interested the other guests when they saw the attractive results of the work. Mrs. F. P. Dodge is responsible for the introduction of this infectious pick-up work, although wholly innocent of any intention of starting a fad. Mrs. Dodge is an enthusiast in all kinds of work requiring neat, dexterous fingers and artistic taste. She became much interested in the basket making through her admiration of the exhibit of school work shown at the Arts and Crafts society exhibition the winter. She at once sought a teacher for this fascinating and useful new art of basket weaving. None could be found, but a school principal to whom she applied for information offered to give her such help as she could simply through friendly suggestions. She was able to teach her eager pupil a few of the ordinary stitches and the more important ones.

From this foundation Mrs. Dodge has gone on herself and has made a number of beautiful baskets in attractive shapes and patterns.

The work gives much scope for individuality both in form and design and the introduction of color in the patterns. The baskets are very substantial and give a great variety of uses. The fascination of the art is shown by the fact that everyone who sees the work is at once seized with a great desire to try it. Among those who have become the most ardent of the art are Mrs. J. E. H. H. Mmes. Dodge, Woodworth, Henry Schurmeier, Frank Plant, Baring-Gould and Frank Bovey. Mrs. J. T. Morris at the Lafayette club was equally seized with the work of the teachers in town, and she often joins the Beach basket weavers at their work and is able from her longer experience to help them with their suggestions.

The women have the true art-craftman's W. idea and do their own dyeing, buying nothing but the raw material. Basket-makers' porch parties are among the informal social affairs planned for August, and they will probably quite eclipse the thimble bees which have been for so long pretty excuses for getting together for an afternoon's chat.

Mrs. John Bigelow of the Beach gave a small luncheon yesterday in honor of Mrs. Adal Steadson.

Miss Sadie Fulton of Zumbra gave a porch luncheon yesterday to twenty guests that was an unusually pretty affair. Small tables were placed on the porch and decorated with deep red roses. The guests were from town and about the lake.

Rev. William Wilkinson will preach tomorrow at Camp Chapel. Mrs. Wilkinson will be the soloist. The guests of Mrs. Wilkinson are Mrs. J. E. H. H. Mmes. Dodge, Woodworth, Henry Schurmeier, Frank Plant, Baring-Gould and Frank Bovey. Mrs. J. T. Morris at the Lafayette club was equally seized with the work of the teachers in town, and she often joins the Beach basket weavers at their work and is able from her longer experience to help them with their suggestions.
