TOUGH ON "TOMMY"

British Soldier in South Africa Prophesies Mutiny.

"SNOBS OF OFFICERS" THE CAUSE

The Burglers "Seem to Be Increasing and Snipe at Us Every Day."

New York Sun Special Service

London, Aug. 25.—"Before another three months you will hear of mutiny in the ranks," writes a private in a British (Leinster) regiment stationed at Arrow Smith, Orange River Colony, under date of July 6 to Reynolds' Newspaper. The letter goes on:

I am still in the same place; but I escaped having to go on the trek only by the merest chance. It was well I got out of it, as they are again issuing flour (commandered) to the troops, which is scandalous, considering the tons of biscuits there are in the station.

The brigade came in last week, but halted and camped four miles from town in order to prevent the troops from buying tea, sugar or bread. We were not even allowed into the town on pass, and, instead of getting bread, we were doled out an allowance of flour. But a good many of the South Staffords and Leinsters went into the town on their own hook and returned in the evening with as much bread and groceries as they could possibly carry. They also drew their ration of flour and collected it all together. Next morning, when I had been sent near coming out of his tent, he went very nearly up to his neck in flour, all the troops that could afford it having thrown their flour there.

They give the men no chance at all now, and, instead of the Boers diminishing, they seem to be increasing, and snipe at us every day along the line of march, getting bolder and bolder. They apparently have tons of provisions, as we come on caves literally packed with flour and potatoes and forage. I'm thinking more than Boers will suffer before they return. The men are getting completely disheartened, and no wonder, considering what they have put up with from those snobs of officers who, after the day's march is out, can have their tent pitched for two, while from twenty to twenty-four Tommies have to fit into one.

LEICHE'S 'MOVING' POWER

YOUNG DANE'S CURIOUS FEAT

By Sheer Force of Will He Causes Inanimate Objects to Move.

Special to The Journal. Alto Pass, Ill., Aug. 25.—The power to move inanimate objects by sheer force of will is generally discredited by people who have not seen the performance with their own eyes. Viggo Leiche is a Dane 23 years old. He arrived here recently from Copenhagen to visit his uncle, C. Jensen, a fruit package manufacturer here.

Leiche had been here only a short time when his weird mental powers began to "astonish the natives." He first performed in a drug store down town. His uncle heard of it and scouted the idea of its reality. A few evenings later he repeated his "show" in his uncle's home and completely routed that worthy man's skepticism regarding his powers.

In performing at his uncle's home, he used an iron poker several feet long and quite heavy. Standing it against the wall at an angle of 45 degrees, he seated himself a few feet distant, focused his eyes on the top of the poker, and within a few seconds it began trembling, then gradually rose to a perpendicular position. After standing still a moment, it moved toward him in short jumps. He can affect any wood or metal object, such as umbrellas, canes, etc., in the same way. A short time before going to bed is the only time he can be induced to practice his strange power, as he says it makes him deathly sick unless he can go to sleep a short time afterward.

RED WING'S PUBLIC BATHS

They're Assured by the Liberality of Mayor Rich.

Special to The Journal. Red Wing, Minn., Aug. 25.—Though the season is getting late, Red Wing intends to at least get its public baths started. Mayor Rich has made an offer that if \$500 is raised by popular subscription he will see that the remainder is forthcoming. Dr. B. Jaehrig, who brought the matter before the public, has plans for a \$1,000 public bath—a series of dressing-rooms on a floating platform 125 feet, with a row of piles at each end to extend into the river fifty feet. A board walk will be placed on the piles, thus giving an enclosure for timid bathers and diving places for the more daring. The location will be off the Milwaukee station, where a sandy bottom shelves slowly to a depth of twelve feet about 130 feet out.

W. C. Krise has tendered his resignation as county commissioner, but the board has refused to accept it. Mr. Krise gives as his reason the press of private business since assuming the management of the new Red Wing Milling company.

The county commissioners have voted \$50 for an exhibit of Goodhue county agricultural products at the Minnesota state fair.

MINNESOTA

FARBIAULT—Lightning struck the spire of the Church of the Sacred Heart, doing much damage.

DEADWOOD—Patrick C. Carberry, David R. Summers and Corah A. Whitford, convicted of perjury, were sentenced to four years each in the Sioux Falls penitentiary.

CHAMBERLAIN—A new town named Candon has been established in the southern part of Lyman county. It already has several stores, M. W. A. hall and several other business institutions.

ENTERVILLE—The Western Land and Cattle company has been formed by business men of this place and Modale, Iowa. The capital is \$500,000. It is the purpose to lease and purchase ranch lands, which will be stocked with cattle.

SIoux FALLS—The doors of the penitentiary have just closed behind George Moody, of Sanborn county. Moody pleaded guilty to the charge of stealing horses and was sentenced to four years and six months.

Only \$50 to California and Return. Sept. 19 to 27 the Minneapolis & St. Louis railroad will place on sale the cheap tickets for the Episcopal convention at San Francisco. Call at M. & St. L. ticket office, No. 1 Washington avenue S.

"HUMAN BOMB" EXPLODES

New York, Aug. 25.—By the explosion of what is known as the "human bomb" three men were somewhat badly injured and a panic was created in which a number of women and children were crushed at Schuetzen Park, Union Hill, N. J., last night. The "human bomb" is a device which the aeronaut employed in making ascensions at the park, and he had stored the bomb in a house preparatory to shipping it to Buffalo for use at the exposition. The bomb contained dynamite.
