THE DOCTORS' ULTIMATUM

ETERNAL WARFARE DECLARED

Sherman Hospital Staff at Elgin Organizes to Defend Itself Against Women's Dictation.

Special to The Journal.

Elgin, Ill., Aug. 27.—The physicians' committee of the Sherman hospital staff has made its report at a meeting of the doctors who compose the staff. The report was in the nature of a ultimatum which speaks nothing but eternal warfare on the "defenseless women." as the report justly terms them. The final paragraph of the report, and the one which intimates to the women the real feeling which reposes in the breasts of the doctors, reads as follows:

"The members of the medical staff have always stood loyally by the institution in the past, but have freely given their time and have encouraged their patients to patronize the institution, and if at any time in the future we are not able to do as much for the institution as we have done in the past, we wish it distinctly understood that the only reason is because the board of managers has deemed it advisable to limit our power and responsibility in the matter."

Not only did the doctors deliver this ultimatum emphasized by that "little word" "if" as a quest threat, but they strengthened their position by organizing into a permanent body and selecting officers.
