CANADA'S SETBACK

Increase of Marine Insurance for St. Lawrence Route.

WHERE THE HANDICAP LIES U. S. Routes Escape the Dangers—Canada to Investigate the Matter.

Quebec, Aug. 30.—There is consternation in trade and shipping circles in Canada over the largely increased rates of marine insurance imposed by the underwriters upon both vessels and cargoes using the St. Lawrence route, rates which threaten to nip in the bud the ambitious schemes of the Canadians for the employment of this northern route for the shipment to Europe of the grain crop and fast cattle of the great west.

Canada realizes that these increased rates are fully warranted by the character of marine disasters that have occurred since the opening of the present shipping season on the St. Lawrence route, and quite understand her modern dream of depriving American north Atlantic ports of their grain export trade must remain unfulfilled while the navigation of the St. Lawrence route is so heavily handicapped as it is at present.

Strenuous efforts are being put forth for the removal of the dangers attending this route, but the task is a herculean one, and is increased by the fact that several of the disasters to vessels this summer, though coming to those engaged in the Canadian trade, occurred as far from the Canadian coast line as the southeast shore of Newfoundland.

While the Canadian government is not to blame for the lack of more suitable warnings to navigators on the rocky cliffs of the island colony, it is nevertheless quite true that these wrecks would not have occurred there if the ships in question had been running to some of the American north Atlantic ports instead of to some of those of the St. Lawrence.

Therefore it is quite natural that the St. Lawrence route has the blame for these disasters, and that the Dominion government was obliged to go to the enormous expense of protecting the approaches to the St. Lawrence as far east as the eastern coast line of Newfoundland.

In fact, experience has abundantly demonstrated that the greatest dangers attending the navigation of the St. Lawrence route are not those met in the gulf or the river from which the route is named, but those others which await navigators passing in or out of the Gulf of St. Lawrence, either to the north or to the south of the island of Newfoundland.

The government of the island has prepared a chart showing the number of wrecks that have taken place on and around Cape Race, the southeastern point of Newfoundland.

It is estimated that hundreds of lives have been lost and \$20,000,000 worth of property destroyed on this coast during the last few years, while this season the frequency of disasters has been greater here than ever before.

Of the total losses, five ocean steamships and one big bark have been destroyed there this year.

The chief cause of the wrecks occurring off the southeastern coast of Newfoundland is the northerly current created by the gulf stream.

The government has, therefore, invited Sir Wilfrid Laurier to visit the colony in October, when the Duke and Duchess of York will close their empire-embracing tour with a stop at St. Johns, and after the meeting of the royal party, Sir Wilfrid's visit will be availed of to discuss propositions for combined action by the colony and the Dominion towards the remedy of some of the chief existing drawbacks to the navigation of the St. Lawrence route.

DOUGLASSON'S

Special Saturday Bargains. Store Opens at 8 o'clock a. m. Store Closes at 10 o'clock p. m.

CLOAK AND SUIT DEPARTMENT.

Second Floor. Special for Saturday in New Fall Suits.

GLASS BLOCK

was arrested near Grand Meadow. He was untraceable for \$500 ball and will remain in jail.—The 4-months-old son of Mrs. W. E. Durgin is dead.

A new military band of twenty-five pieces has been organized. The lads have received new instruments and are working hard.—E. Thomas had the second finger of her left hand cut off by the collapse of a camp chair. The finger was cut with a knife.

WOULD DISBAR COOPER Government Moves Against a Rapid City Attorney.

Special to The Journal. Rapid City, S. D., Aug. 30.—Proceedings have been commenced for disbarment against O. L. Cooper, an attorney of this city. Instructions have been sent the officers of the United States land office here by the general land office at Washington to this end. The charges against Cooper are that he has perjured himself, has threatened the lives of the government officials, has secured illegal homeestead entries, and has done other unlawful things. His hearing will be on Sept. 23 before the local land office officials.

Holroyd's Goats Pay. Special to The Journal. Charles City, Iowa, Aug. 30.—Judson Holroyd, a farmer living five miles west, has a large tract of land which is thickly covered with hazel brush, and he purchased 50 head

CENTER PIECES. Fancy Goods Department in Annex.

For Baby's Sake

Baby never looks sweeter nor feels better than fresh from its bath with

Woodbury's Facial Soap

Medicated and antiseptic, it soothes and heals the tender skin, giving quick relief from itching of hives, rash, chafes and all irritations.

Loaned to a Newspaper Man.

Special to The Journal. Lead, S. D., Aug. 30.—The newspaper plant of the defunct World, which was owned by Theodore Gesky, was sold to Rev. Mr. Quilliam of this city for \$500. Rev. Mr. Quilliam loaned Gesky nearly \$5,000 with which to buy a corner lot in this city, and upon which Gesky intended to build a brick block. Gesky skipped out and left the clerkman in the lurch. The plant of the World was seized by him and it will be sold to newspaper men of the Hills.

Mayville Mention.

Special to The Journal. Mayville, N. D., Aug. 30.—Colonel William H. Robinson will attend the dinner to be given in honor of Vice President Roosevelt at the Minneapolis Club on Monday night.

Child Dies on a Train.

Special to The Journal. Calumet, Mich., Aug. 30.—The funeral of the infant daughter of Mrs. Ignatious Gassue was held this week. A few months ago the mother went east with the child to visit relatives. While returning the child died on the train near Champlain. The mother, who recently arrived from Poland, knew little of the ways of this country, and thinking that the trainmen would object to carrying a corpse, attended the child as though it were living.

Disappointed in Wheat Crop.

Special to The Journal. Mayville, N. D., Aug. 30.—The harvest in this vicinity is about over, and threshing has begun, though the rains have prevented much from being done. Very little grain has, as yet, come into town, but what has is disappointing. The yield will be much below what was expected. The rains have caused a good deal of bleaching and some of the wheat has started to grow.

Fingers Amputated.

Appleton, Minn., Aug. 30.—Henry Connelly had his left hand badly mangled in the gearing of a threshing machine yesterday, necessitating amputation of three fingers. He came here a few weeks ago from Eau Claire, Wis.—A threshing engine set fire to a setting of wheat belonging to John Beyer yesterday and seven stack were burned, together with a large quantity of fodder.

Buy Minnesota Lands.

Special to The Journal. Willmar, Minn., Aug. 30.—Iowa men are still making heavy investments in Kandiyohi county lands. About 500 acres have recently been purchased in the town of Burbank.—A petition in bankruptcy has been filed with the United States district court by A. W. Alden of the Cash Store.—Among the street attractions for the Willmar carnival will be the famous Suwanee river quartet, which will furnish music during the three days. Negotiations are about completed for several other attractions.

Hornberger Leaves the Hills.

Special to The Journal. Deadwood, S. D., Aug. 30.—E. A. Hornberger, one of the pioneers of the Black Hills, left this morning for Pittsburgh to reside permanently. He was a member of the city council for years and it was through his efforts mainly that the recent quarter-centennial carnival was made a success.—James Schmoher, a well-known miner, was crushed to death in the Portland mine Tuesday. He was one of the palbearers at the funeral of his friend, Harry Campbell, who was killed a few days ago in an adjoining mine.

Station Moved.

Special to The Journal. Grantsburg, Wis., Aug. 30.—The Northern Pacific Railroad company has moved its station one block to the east and has added some new rooms.—Late potatoes in this county are very promising. Recent rains have brought them out in fine shape and if there is not an early frost a large crop will be harvested.

TWAS IN SELF-DEFENSE

SHOOTING OF DAILY IN SO. DAK. White Armed and Hunting for Glover He Was Shot Through the Head.

Special to The Journal. Gettysburg, S. D., Aug. 30.—The coroner's jury in the case of Home Glover brought in a verdict that Glover shot and killed Abner Daily at Forest City in self-defense and the sheriff was ordered by the coroner to set Glover at liberty.

The testimony showed that Daily made an attack on Glover the evening before in Glover's place, knocking him on the head with a chair and striking him on the head with a revolver after he was down. He also told Glover to leave town or he would kill him. On Sunday morning Daily boasted to everyone he met he would kill Glover on sight, and went around hunting for him. A man named Stewart showed his revolver, and said: "This is the gun that will kill Glover."

Glover went upstairs in his house, armed with a Winchester, having been notified that Daily was looking for him. One window was up and while Daily was standing on the street looking up at the window, Glover fired and the bullet struck Daily just below the right eye and came out below the left ear.

The Daily boys are known as a hard lot. Jack was killed by a negro in North Dakota a few years ago. Dan was shot about a year ago at Pierre, and "Sandy" has been in the penitentiary at Bismarck for stealing.

A man calling himself Bobby Burns was arrested near Forest City yesterday charged with stealing horses from one of the La Beaus on the reservation. Two of the horses were found in Burns' possession. He is in jail here.

The artesian well is now down 1,780 feet and has not reached the sandstone strata.

GIRL'S STRANGE DEATH

Was Probably Killed by Lightning Though No Others Were Shocked.

Special to The Journal. Cass Lake, Minn., Aug. 30.—One of the strangest deaths in the history of Cass Lake occurred late Wednesday afternoon. Mabel, the 4-year-old daughter of Mr. and Mrs. C. E. Leeman had been playing in the yard in front of her parents' house, when a severe storm broke. She went into the house and reclined on the sofa. Following a severe flash of lightning and peal of thunder she jumped to her feet and grabbed a chair and ran to the room, timing out from her mouth.

After she had passed away, the remains were examined and the flesh covering the spine was found to be black and blue. There were no symptoms of poisoning or anything of that kind, and it now supposed she succumbed as a result of shock by lightning, which struck and shattered a tree in the rear of the house. However, no other person in the room felt any bad effects from the flash. How the lightning could have been communicated to the body of the girl is a mystery.

PROMINENT MASON DEAD

Joel O. Jewett Long Identified With Fargo Orders.

Special to The Journal. Fargo, N. D., Aug. 30.—Joel O. Jewett, a prominent member of the Masonic body, and the Shrine, died Thursday of heart failure. Wednesday evening he was apparently as well as ever when he left his office at the usual time for supper. He retired as usual, but in the morning complained that he was not feeling well and that he had had a bad night. Two doctors were called, but despite all efforts he expired shortly before noon. He leaves a wife and daughter, Miss Minnie Jewett, of St. Paul, who happened to be at home visiting her parents.

Mr. Jewett was born at Concord, N. H., Jan. 15, 1838, and moved to Fargo, from Missouri, nearly eighteen years ago. He was a member of all the Masonic bodies he joined, and he held the office of recorder for the Knights Templar, Scottish Rite and the Shrine. He was also a member of the A. O. U. W. The funeral will be held Sunday afternoon, from the Masonic Temple.

Sever and Stone Walks.

Special to The Journal. Fergus Falls, Minn., Aug. 30.—The city council awarded the contract for the Bismarck-Whitford-Hampden avenue sewer to P. O. Halvorsen, the contract price being \$244. The bids ranged as high as \$350. The council also ordered a block of stone sidewalk on Lincoln avenue. About eight blocks of stone walk have been ordered the present summer, and the business section of the city is beginning to look metropolitan.

WYOMING OIL

Black Hills Men Take Land and Will Sink Wells.

Special to The Journal. Deadwood, S. D., Aug. 30.—Indications are that there will be much excitement in the Black Hills of Wyoming, next to the line of the Black Hills. In the past few days several prominent mining men from Lawrence county have been making investigations and have taken up land and are preparing to sink wells. The surface in the district is just right for oil, the sandstone and shales being impregnated with it. The oil makes an excellent quality of lubricants. The best district is near New Castle and Cambria.

CHATFIELD MILLS SOLD

Plant to Be Newly Fitted Up—An Arrest for Forgery.

Special to The Journal. Chatfield, Minn., Aug. 30.—J. A. Ross has sold the Nonpareil mills to J. M. Cussons, proprietor of the Elmira mills. Consideration, \$5,025. Mr. Cussons intends fitting up his new property in first-class shape.

Bert Clark of Orion township was yesterday bound over to the fall term of the grand jury on a charge of forgery. He obtained a harness from A. C. Hood, a harness-maker in this city, about two months ago for forging the name of J. F. Smith. The forgery was not discovered until a few days ago, when the lad

WOULD DISBAR COOPER

Government Moves Against a Rapid City Attorney.

Special to The Journal. Rapid City, S. D., Aug. 30.—Proceedings have been commenced for disbarment against O. L. Cooper, an attorney of this city. Instructions have been sent the officers of the United States land office here by the general land office at Washington to this end. The charges against Cooper are that he has perjured himself, has threatened the lives of the government officials, has secured illegal homeestead entries, and has done other unlawful things. His hearing will be on Sept. 23 before the local land office officials.

of Angora goats to clear the land. They are doing the job and are a paying investment as well. Holroyd sold some 1,500 pounds of fleece the past season. The fleece is from sixty to ten inches in length and of a very fine, silky nature.

BURIED BY EARTH AND ROCK First Fatality in Years at Lake Superior Hard Ore Mine.

Special to The Journal. Ishpeming, Mich., Aug. 30.—Edward Liberty, a laborer employed at the Lake Superior hard ore mine, was instantly killed here this morning by a surface cave-in. He was removing the section cross bars from the pulley poles when the ground under him gave way. His body was buried under 100 feet of earth and rock, and it will be impossible to recover it for at least a week. He is survived by a wife and five small children. The accident was the first fatality at this mine in seven years.

APPLETON'S SCHOOL Able Faculty for Next Year—Another Warrant for George.

Special to The Journal. Appleton, Minn., Aug. 30.—The Appleton public schools will open next Tuesday with the strongest faculty ever chosen. Professor J. M. Powers and Miss Elizabeth Woods, alumni respectively of the Wisconsin and Minnesota state univer-

sities, will have charge of the high school and the other departments will be taught by the Misses Hankinson, Jacobson, Brustun, Michel, Hammond and Starr.

William Mehigan, landlord of the St. James hotel, went to Ortonville yesterday with a warrant for the arrest of E. E. George, the man who is said to have worked several clever swindles through his directory schemes. His only Appleton creditors are Mr. Mehigan, who has a board bill against him and a young man who assisted him in numbering the streets.

DRILLING FOR COAL Land Eight Miles From Escanaba to Be Explored.

Special to The Journal. Escanaba, Mich., Aug. 30.—Ten professional miners and drillers arrived here from Pittsburgh this morning and will sink a drill 2,000 feet on land eight miles from here in search of coal, of which there are indications.

A. F. Young, who has lived in Delta county forty years and was 80 years old died Tuesday. He was unmarried.

Successor to Dr. Scott. Special to The Journal. Sioux Falls, S. D., Aug. 30.—Rev. Dr. J. E. Herman, of Millport, N. H., has arrived to enter upon his duties as pastor of the Congregational church. He succeeds Dr. D. B. Scott, a well-known clergyman, who resigned some weeks ago. Dr. Herman is a

graduate of Yale and Leipzig universities. The degrees of M. A. and Ph. D. were conferred upon him at the latter institution. At the parliament of religions, held in Chicago in 1892, he was one of the advisory members.
