Market Stubborn Against Heavy Receipts, Easy Cables and a Visible Increase.

MPLS., 1251 CARS: DULUTH, 819

The Market Quiet and Steady All Day-Cash Market Was Very Active.

Minneapolis Chamber of Commerce, Sept. 3. -Wheat was remarkably steady this morning in the face of news and statistics that was almost entirely bearish. December opened a shade under Saturday's close, at 68% 668%, and sold to 68c, but rallied to the opening and held the price up to noon. The market fell into duliness. The selling pressure was less than had been looked for. There was no disposition to buy in the face of the depress-ing figures given out, and the market dragged sing figures given out, and the market dragged along with only an occasional trade. As was expected, the receipts were heavy, the northwest showing 2,135 cars of wheat, against 1,079 cars for the corresponding days last year. Primary receipts were in round figures 500,000 bu larger than last year. The visible supply increased 1,783,000 bu, making the total now 27,790,000 bu. Liverpool was ½d lower and Antwerp unchanged. Broomhal cabled that the weak tone in that market for the past week was due principally to heavy receipts from America, and that importers preferred to shade prices rather than put cargoes into store. World's shipments were 9,336,000 bu, against 9,748,000 bu last week, and 6,648,000 bu ayear ago. Of the week's total, 6,608,000 bushess at 3,240,000 bushels and carease of 1,824,000 bushels. The English visible supply increased 1,197,000 bushels, against a decrease of 49,300 bushels show an increase of 64,000 bushels. The English visible supply increased 1,197,000 bushels, against 2,642,900 bushels against 124 cars. Total primary receipts were 3,134,672 bushels, against 2,642,906 bushels last year, and shipments 1,182,606 bushels last year, and shipments along with only an occasional trade. As was

THE FLOUR MARKET

Good Domestic Demand and Some Foreign Inquiry.

New York, Sept. 3.—The rise in the London market over the holidays helped prices of stocks here at the opening. There was a notable demand for the Denver & Rio Grande stocks, the common selling 3 and the preferred, 50½ points over Friday's price. A thousand shares of United States Steel sold at 45% 645%, compared with 45% on Friday. Otherwise there was no notable feature in the London parity.

Profit-taking in the Denver & Rio Grande issues and selling of Atchisons, St. Paul and Amalgamated Copper lowered them a point and caused general selling elsewhere. Prominent stocks fell below Friday's close on quite liberal offerings of the western, Pacific and coal stocks fell below Friday's close on quite liberal offerings of the western, Pacific and coal stocks fell below Friday's close on quite liberal offerings of the western, Pacific and coal stocks. Fears of a tightening of money rates, in consequence of the large shrinkage in cash reserves of banks, discouraged long buying.

Prices worked downward steadily, the absence of Inside support encouraging short.
