TEXAS OIL NEWS.

Saratoga Well Again on Its Downward Course—Look Out for a Gusher!

A telegram announces that the Saratoga well got through its obstruction Tuesday and is once more making progress fast. An additional precaution has been taken to prevent any delay at the windup. A new lot of pipe has been purchased and will take the place of that which has been used, upon which the threads may have been worn so as to weaken the joints. The old pipe will be used for pipe lines. We only mention this to show how every human precaution is taken to prevent accidents or delay.

If there is a time when quick action is essential to success, this is one, for those who contemplate buying Saratoga stock and taking advantage of the present low price of 30 cents per share (par value \$1). The price is sure to go to par as soon as the well comes in, and yet we want everybody to join us in the good fortune which is right ahead. The Saratoga company is going into the oil producing and selling business—there is where the profit lies—not a cent of profit is made in the mere sale of stock. Not a cent of salary goes to the officers until the well comes in.

We are practically able to guarantee a gusher, and will talk to you upon this score. Call or write. Saratoga Oil and Pine Line company, 728 Andrew Building, Minneapolis.
