GEORGE W. SWEENEY, Proprietor.

CUBAN TARIFF CHANGES

NEW RULES AND MODIFICATIONS

Executive Order From Washington

Which Takes Effect Tuesday Next.

Washington, Sept. 28.—The war department has made public the text of the executive order containing modifications of the Cuban tariff promulgated March 31, 1900. The principal changes made have been noted heretofore, viz:

A reduction of from 10 to 5 per cent ad valorem in the duty on equipment stock; of from 10 to 5 per cent on sugar making machinery and the cancellation of the special concession relating to Porto Rican coffee. The features of the order as they differ from the existing schedule are as follows:

For the classification of parts of machinery the following rules must be observed:

"A separate piece of a machine is understood to be any object which is not expressly specified by a name under some heading of the tariff and which by its shape and by the manner in which it is presented for clearance in the custom house is not completely finished, may be considered as exclusively belonging to a machine and can have no other application. If it is imported completely finished, it must pay under one of the headings of the tariff referring to machinery."

"Tubes, bars, axes, screws, bolts, sheets, plates, boiler bottoms, wire, and other articles expressly taxed in the tariff must pay duty accordingly, though they be destined to machinery."

"Tools, instruments and utensils employed in the arts, agriculture and industry cannot be considered as parts of machinery for the application of duty, and must pay according to the materials of which composed."

"Machinery and apparatus for making sugar and molasses now pays a duty of 10 per cent ad valorem. The new tariff provides that articles of this character imported within twelve months from the date of the promulgation of this order shall be entitled to a rebate of 50 per cent of the duty specified."

"Agricultural machinery and apparatus now pays a duty of 10 per cent ad valorem. The modification provides that articles included in the paragraph relating to the manufactures imported within twelve months from the date of this order shall be entitled to a rebate of 50 per cent of the duty specified."

Under the head of paragraphs 218 and 219 covering marine engines and boilers, etc., now dutiable at 2 per cent ad valorem, it is provided that articles corresponding to those mentioned in paragraphs 218 and 219 expressly imported by ship owners intended for use in the repair of registered steam vessels, will be dutiable at the rate of 8 per cent ad valorem."

Coffee in the bean or ground, chicory roots and chicory, \$12.15 per 100 kilograms. The modification provides that the existing tariff except that it cancels the special concession heretofore granted to Porto Rican coffee of \$3.40 per 100 kilograms and established at a time when the latter island was suffering from the effects of a severe hurricane of several years ago.

The following special provision is made: "The following articles, when imported direct by a steam or railroad company of the island of Cuba, for the exclusive use of said railroad, within twelve calendar months from the promulgation of this order, shall be entitled to entry at 5 per cent ad valorem under such conditions and guarantees as the chief of the customs service may exact or direct."

This order is to take effect on Oct. 1.

FAVORS BEER HALLS

Their Effect Upon Soldiers' Homes Pronounced Wholesome.

Chicago, Sept. 28.—The examining board of soldiers' homes in Chicago and less for Milwaukee to-day to complete its annual tour of inspection. The members of the board now here are: General M. T. McMahon, Colonel George W. Steris, General T. B. Henderson of Princeton, Ill.; Col. Sydney G. Cook, Major W. H. Roushall and General Patrick. The president, the secretary of war and General Anderson are the other members. In an interview General McMahon, president of the board, is quoted as saying:

"If the beer halls were abolished it would mean the ruin of the homes. In only one of the homes, that at Marion, Ind., is there no beer hall, and I believe that one will be established there soon. In Dayton, Ohio, there has been erected from the profits of the beer halls a clubhouse that would do credit to any city. There is much less drunkenness there than before the establishment of the canteen system and the pensioned soldiers send home again as much money as before. In other homes it is about the same."

GALLANT ABDUCTOR

Miss Stone's Stock of Photograph Films Arduously Replenished.

DEATH OR MARRIAGE STIPULATED

What the Non-Forthcoming of \$150,000 Ransom Will Bring About.

Paris, Sept. 28.—A correspondent of the Figaro says that he has just returned from a visit to Miss Ellen M. Stone of the American board of foreign missions, who is held by brigands in a mountainous region of Turkey. The correspondent wires that she succeeded in locating Miss Stone in an almost inaccessible mountain dell where the chief of the outlaws permitted her to see her and talk with her. Miss Stone told her visitor that she had been treated with exceeding courtesy ever since her capture. Two brigands were detailed to act as her personal servants, to bring her with good food and showing her every attention. The brigands had instructions to obey her merest wish, and to show what degree of consideration she was treated she told the newspaper man that having exhausted all the films for her kodak she had said that she wished she had more. The desire was repeated to the chief of the bandits, who promised to come off to Constantinople to secure a supply for her. This meant a week of steady traveling by mule over dangerous and rocky mountain paths.

The leader of the brigands told the correspondent that unless a ransom of \$150,000 was forthcoming within thirty days Miss Stone would either be put to death or compelled to marry one of the bandits. It is believed that the bandit will keep his word.

The situation recalls the capture by these same brigands, in same region, six years ago of Mme. Gerard de Trinville, a beautiful French belle, who is now in a Carmelite nun. Through the dishonesty of a Turkish official by whom the ransom was negotiated, the money failed to reach the bandits. The lovely French girl was therefore forced to become the wife of a member of the outlaw gang. She was rescued several months later in a battle in which her father killed her bandit husband.

Boston, Sept. 28.—The American Board of Commissioners of Foreign Missions will resist the demand of \$100,000 ransom for the release of Miss Helen M. Stone, of Chelsea, Mass., the American missionary held by Bulgarian brigands.

When shown statements by Dr. Cregan, New York secretary of the American board that the ransom would be a dangerous precedent, the Rev. Dr. Judson Smith, secretary of the American board expressed his hearty approval. He said:

"The board would never consider such a proposition. The rescue of Miss Stone is in the hands of the government. We are missionaries in Turkey for two generations, but never a case like this. Should we offer a ransom, missionaries never would be safe from capture."

ON PERSIAN GULF

Further Light on the Anglo-Turkish Crisis.

DECKS ARE CLEARED FOR ACTION

The British Frustrate a Determined Attempt to Land Turkish Troops.

London, Sept. 28.—A dispatch to the Times from Bombay gives additional details of an alleged Anglo-Turkish crisis in southern Arabia. The dispatch, these latest dispatches, the Turks again attempted to land troops at Koweik. The British cruiser Perseus, noticing the movements of a Turkish vessel, steamed up and demanded the object of the visit. The reply was that the vessel had been instructed to land 500 men. The captain of the Perseus advised the Turkish commander to return to Busra. The Turkish vessel, instead of doing this, entered the harbor and prepared to land the troops. The Perseus cleared decks for action and played her search light on the Turk all night. In the morning the Turkish commander visited the Perseus and intimated his intention of returning to Busra, and telegraphing to Constantinople for instructions. The vessel went to Fao and is still there.

Meantime Turkish troops are massing at Busra and are reported to be under the command of Edehem Pasha. The Sheikh Maburakh reports that the Vahid of Busra has asked him to discourage the calls of British warships and mail steamers. He has refused to do so. A British protectorate has not yet been established.

Bombay, Sept. 28.—A British naval force is concentrating in the Persian Gulf. Three warships are already on the spot, and they will be augmented by the gunboat Assaye, which already has left Kurrachee, and the flagship, the second-class cruiser Highflyer. The third-class cruiser Pomone will sail for the Persian Gulf as soon as she has coaled. It is believed that fresh trouble is impending at Koweik. According to a report, Turkey has 30,000 troops at Busra. The British fleet, seventy miles from its mouth in the Persian Gulf, commanded by Edehem Pasha, with the object of seizing Koweik, though the Turks assert that the troops are intended to traverse Arabia with the object of suppressing dissatisfaction in Yemen.

INSUBORDINATE

Men on German Cruiser Resent Harsh Treatment.

Berlin, Sept. 28.—According to accounts received here, serious acts of insubordination were recently committed on the German cruiser Gazelle, which was engaged in the maneuvers at Dantzig. The men were somewhat harshly treated and short rations were served to them. A spirit of silent discontent began to prevail and finally the men threw overboard the breech blocks of the guns and a quantity of manila hemp rope. The Gazette was reported placed "under arrest" in Dantzig harbor and communication between the vessel and the rest of the fleet was cut off.

AMERICAN IMPRISONED

Venezuelans Guilty of One More Mean Action.

Willemstad, Island of Curaco, Sept. 28.—Senator Bruzual, who for the New York and Bermuda company in the suit against the Warner-Quinlan syndicate for the control of Pelican asphalt lake, has been sent to prison in Caracas, Venezuela, because of his refusal to sign a statement for the action. He disclaims any political connections.

ABOLISH NAVY

A Radical Suggestion Regarding Spain's Warships.

Madrid, Sept. 28.—Admiral Valcargal prepared a report for presentation to the queen regent asking for the necessary funds for naval defenses and proposing, in the event of their being refused that the Spanish navy be abolished.

Sheet Music
At Metropolitan Music Co., 41-43 6th St. S.

Prune Crop in Great Danger

Portland, Ore., Sept. 28.—Unless good weather comes soon the prune crop of Oregon will be ruined in a great part, if not altogether. Reports received from the Willamette, where most of the prunes are grown, state that the fruit is cracking badly and shows signs of brown rot. Another week of wet weather will cut down the yield to a large extent.

Black Bear Killed in Town

Special to The Journal.
Marshfield, Wis., Sept. 28.—H. L. Klemme of Stratford killed a black bear, which weighed 300 pounds dressed, within the village limits this week. The animal was caught in a trap and succeeded in dragging the trap and weights several miles before tracked to his death.

Hunter Killed by a Bear

Vancouver, B. C., Sept. 28.—News has just reached this city of the killing by a bear of Dan MacNeilson, B. C., a well known hunter. Rice and George Adams went out hunting and separated according to an agreement by which every westerner line will practically do away with passes except to employees. It is stated that the agreement shortly will be submitted and signed and become operative at the end of this year. This step, it is stated, is but the beginning of a reform that will do away with passes even to railroad employees.

TUNNEL TO LONG ISLAND

FIRST STEPS FOR IT ARE TAKEN

It Looks Toward Establishment of Ship Terminal at Montauk Point.

New York Sun Special Service

New York, Sept. 28.—President Baldwin, of the Long Island railroad, has made application to and filed plans with the Rapid Transit commission in behalf of the Long Island railroad extension company for a tunnel from a point in this city in the vicinity of Long Acre Square (Broadway and Forty-fifth street) under Seventh avenue to Montauk Point, thence to East River and under it to Long Island City. The plans represent an outlay of \$5,000,000 and call for a tunnel with double track, the western end carrying of both freight and passengers.

The applicants state that they are willing to pay the city 3 per cent of the gross earnings of the road.

This proposed tunnel is a necessity to the system which the Pennsylvania decided to use when it obtained control of the Long Island road in establishing a great ship terminal at Montauk Point.

MILWAUKEE ANNUAL

Changes in the Directorate One of the Possibilities.

The annual meeting of the Chicago, Milwaukee and St. Paul railroad company takes place in Milwaukee to-day. The retiring board of directors held a meeting at 10 o'clock. A successor to A. Van Santwoold as director will be elected and other changes are probable owing to the upheaval in the western railway world since the last annual meeting.

The present director, J. Ogden Armour, August Belmont, Frank G. Bond, A. J. Barling, Peter Geddes, Charles W. Harkness, Frederick Layton, Joseph Millbank, Roswell Miller, William Rockefeller and Samuel Spencer.

In this group are representatives of the powerful groups of railway magnates, the Vanderbilts, Rockefellers, Harrimans and Morgans. The retiring board, however, is not a party to the election. The retiring board, however, is not a party to the election. The retiring board, however, is not a party to the election.

IS HILL IN CONTROL?

A Straw That Seems to Show That He Is.

President Hill has had attached to the annual report of the Great Northern a map showing the "lines owned jointly by the Northern and Northern Pacific" as well as the lines of those systems. Railway officials believe this is significant of the fact that Hill is in control of the situation as it prescribes, and it is believed that had the Northern Pacific been in control this map would have been attached to the Northern Pacific report by President Melrose.

STEAMSHIP DEAL

Santa Fe and Harriman Interests Get Together.

Chicago, Sept. 28.—Community of interest between the Atchison, Topeka & Santa Fe and the Harriman interests has just been established in so far as the Pacific coast of the Santa Fe is concerned, says the Tribune. Instead of the Santa Fe establishing an independent Pacific coast line from San Francisco or making an arrangement with the Hamburg-American steamship company as has heretofore been reported, negotiations have just been completed whereby it will discontinue its San Diego ocean line Feb. 1, 1902, and join, jointly with the Southern Pacific, use the Pacific Mail Steamship company for its trans-Pacific outlet. Under the new arrangement with the Pacific Mail Steamship company the Santa Fe is given equal rights with the Southern Pacific railroad, and is guaranteed a certain percentage of the oriental traffic.

DENIED BY MR. HILL

Talk of Differences-Rockefeller Stated for a Director.

New York, Sept. 28.—Wall street is interested in the report that William Rockefeller and two associates will be chosen directors of Union Pacific on Oct. 8, the date of the annual meeting. William Rockefeller and J. P. Morgan, as is known generally, have been co-operating in many ventures. Rockefeller's selection therefore confirms the reports that Morgan and Rockefeller representatives will be chosen to the board of directors as part of the compromise agreement made to settle the controversy that caused the Northern Pacific corner.

Dog Adopts Pigs and Kittens

New York Sun Special Service

Greenwich, Conn., Sept. 28.—Peter Stelner, a Kink street farmer, has on his farm a wonderful dog. It is a big Newfoundland. A short time ago the dog gave birth to five little puppies but they all died with the exception of one. About the same time a pig on the farm had a litter of pigs and a cat had kittens. The dog did not grieve over her loss long. She entered four of the kittens and three of the little pigs for her kennel and adopted them as her own. The old dog is taking the best care of her mixed family. The happy family has been seen by all the neighbors and several Portchester people and they declare that it is the greatest curiosity that they have ever seen.

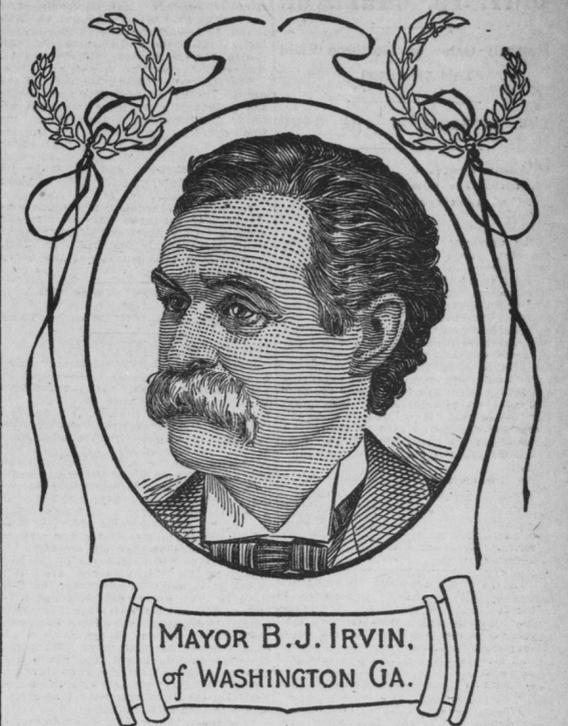

Sleeping Cars on Electric Line

Special to The Journal.

Cleveland, Ohio, Sept. 28.—The Lake Shore Electric company is planning to equip its line with sleeping cars between this city and Detroit and perhaps Toledo. It is the intention to extend the line to Pittsburg from Detroit, making the longest electric line in the world. The company promises to send through trains, equipped with sleepers, between Cleveland and Detroit by Christmas.

THE PUBLIC LIFE

Use and Recommend Pe-ru-na, the Catarrh Tonic for Exhaustion.

MAYOR B. J. IRVIN, of WASHINGTON GA.

Hon. B. J. Irvin, Mayor of Washington, Ga., in a recent letter to the Peruna Medicine Co., of Columbus, O., says:

"I have frequently used Peruna in my family and have found it an excellent remedy for colds and as a tonic. I often recommend it to my friends."
—B. J. IRVIN.

The politician of all men must needs be in good health and splendid spirits. There is nothing so exhaustive to body and mind as to conduct a political campaign with the spirit and will, courage and intellect that characterize a political campaign in the United States.

Sometimes these campaigns require the speakers and managers to sleep in a different bed every night, eat at different hotels every day, travel by day and speak at night for many months at a time.

No one can endure this strain without some remedy to protect them from the vicissitudes of the climate. Something to insure good digestion and sound sleep, something to give nerve and brain the vigor and energy which are needed to campaign work.

Peruna is the remedy to meet each one of these conditions. Perhaps it would be going too far to say that it is the only remedy that will do this, but at least it is the best known remedy and the best tried remedy and the remedy recommended by the most people as exactly adapted to campaign work.

Not only does the politician find it exactly the remedy that suits his needs, but the farmer, the housewife, the clergyman, the clerk, the schoolroom woman and the day-laborer all alike find Peruna to be not only the curative but preventative.

In this climate where everybody is liable to catarrh and everybody has it in some form or other, Peruna has become a fixture and, like the telephone and the electric light, could hardly be spared from civilization.

Hal P. Denton, Chief National Export Exposition, Philadelphia, Pa., writes: "I was completely run down from overwork and the responsibility naturally connected with the exploitation of a great

LATE BOAT FROM SAGUAY

City of Seattle Brings Down 314 Passengers and Much Dust.

Vancouver, B. C., Sept. 28.—The steamer City of Seattle has arrived from Skaguay bringing in 314 passengers, the record for the season. Crowds of people are now coming out from Dawson and 200 more were to have arrived in Skaguay on the day the Seattle left for the south. The steamer had \$200,000 worth of gold. Among her passengers was Consul McCook, of Dawson, who is on his way to Washington on government business. He will stay out probably the whole winter.

Much excitement is reported in the Atlin district on account of the discovery of what is believed to be the "mother lode" of the district.

A BONE-SETTER AT WEST SUPERIOR

Who Cures Cripples and Deformities in Every Way Crippled and Deformed.

YOU SHOULD SEE HIS WONDERFUL WORK

"A Bone-Setter is one who sets dislocated bones, and rights all irregular bones."—Webster.

An eminent writer once said that if a book was properly named, it needed no preface. This "ad" is properly named. The heading at once suggests what the body is, which conveys the whole meaning. To complete the advertisement requires only a word of explanation. It is this that we want to place before the thousands of readers of the "Minneapolis Journal." This Bone-Setter, in West Superior, is a graduated physician and surgeon, who some twenty-seven years ago took up the study and practice of bone-setting, as a specialty. He originated his method of operating and perfected his system of work to a positive science and a high art, as the whole work is based upon the exact principles of human anatomy. No knife is used; no cutting; no blood drawn; no scars left—he does the work with his naked hands, and the results are little less than miraculous. The work is done so quickly that the element of pain in every case. Now you are interested and you are anxious to know what he does. He straightens club or crooked feet, bent, bowed or crooked legs and arms; straightens curved or crooked spines; removes all irregularities caused by spinal deformities; cures all spinal affections and their results; sets dislocated necks, shoulders, elbows, wrists, hips, knees and ankles; removes the cause of stiff joints, from rheumatism, and rights all wrong bones in the human body, which cause every conceivable cripple and deformity in the human family. Cripples and deformities are coming to him from every state in the union, of all ages, babies, children, men and women; coming on crutches, wheel chairs, in wheel chairs, wearing all kinds of shoes, of every kind of brace and attachment. The relief and restoration he gives causes many scenes of mingled joy and gladness in his offices. A residence of twelve rooms are all devoted to his reputation and offices. Wondrous work! If you are a cripple or you have a relative or friend who is, make haste to see the Bone-Setter. He can change your whole life for you. Fill your cup with joy to runny eveners of mingled joy for so many hundreds of others at the head of the lakes. If you can come now, do so by all means. If you cannot come, write and describe as nearly as you can your condition. Address, Bone-Setter, 1810 Fourteenth street, West Superior, Wisconsin. Enclose stamp, for reply.
