NEEDS MONEY FOR A HARBOR

Robberies at the Gold Camp and Preparations for the Fall Exods.

Special to The Journal.

Tacoma, Wash., Sept. 30.—The steamships Oregon and Roanoke bring an interesting budget of news from Nome.

An effort will be made to enlist government aid in the dredging of a harbor for Nome. Engineers who have given the subject considerable thought, express the opinion that with \$2,000,000 a harbor could be made commensurate with the shipping importance of Nome. Others who have examined the plan think it impracticable.

Over \$8,000 in gold dust, bills and silver were stolen by a clever thief from the tent house occupied by Mr. and Mrs. Murray at the Gold Camp, in Sullivan City, on the night of Sept. 5. Mr. and Mrs. Murray gave a free dance for the benefit of the miners not working on the night shifts, and about 100 persons were in attendance. The affair was over at about 1 o'clock on the morning of Sept. 6, and when Mr. and Mrs. Murray retired to their tent they found everything topsy turvy. Trunks opened and contents scattered about, and a large slit in the back of the tent, showing how the thieves made their entrance and exit.

Nome's first brewery is nearly completed. It will have a capacity of thirty barrels a day. Bennett & Kern are the proprietors and expect to have the plant running by Oct. 1.

The city is delighted over the prospect of Nome being lighted by electricity. The Nome Electric Light and Power company expects to have the plant ready within a week.

Charles Clark, who arrived from the Kougak district, brought news of an important discovery of coal there. The vein is 6 feet wide and over 100 yards long. The coal is light and soft, of a dark brown color and can be ignited with a match.

It is expected that there will be at least seven sailings from Nome for the sound during the month of October. The last boat out will probably be the Valencia, on Oct. 25.

STRIKERS AS SHOOTERS

HARD BATTLE WITH POLICEMEN

Unknown Number of Men in San Francisco Wounded, One of Whom Will Die.

San Francisco, Sept. 30.—A pitched battle between strikers and policemen occurred shortly after 1 o'clock this morning in Kearney street between Post and Geary. Seven men are known to have been wounded, one probably fatally, and the strikers are expected to be freed, who escaped arrest were injured.

No less than fifty shots were fired. Several of the injured were innocent passers-by. A number of plate glass windows were broken by flying bullets.

Four special policemen and a recently discharged naval man were made targets for a combined assault by a mob of strikers and sympathizers numbering, according to the declarations of the special policemen, at least 200.

The following are known to have been wounded: William Miller, striking teamster, shot in the left breast, will probably die.

H. P. Beecher, special officer, shot in the leg.

G. Wisel, druggist, shot in the knee.

Eddie Fuller, messenger, shot in the leg.

J. Doyle, lacerated scalp wound inflicted with the butt end of a revolver.

MacDonald, shot in the hand.

Peter Johnson, a boxmaker, shot in the leg.

The party of special policemen were on their way home from a variety theater. When they turned into Market street they were met by a large crowd following, and they asked Policeman John Tillman to accompany them.

Just as the party reached Kearney street a shot was fired. It was followed by a quick succession by several others. A regular fusillade ensued.

The mob scattered in all directions, but not before a number of policemen arrested and succeeded in arresting about thirty of them. Four were identified as striking teamsters. They were heavily armed.

While Officer Tillman was attempting to protect the specials when the first shot was fired one of the men fired at him at short range. The bullet just grazed Tillman's ear.

J. Doyle, who was among the injured, was a nonunion man. Application was made to a number of back men to carry him away but they refused to do so because he was not a union man. Beecher was formerly a member of Company F, of the Fourth United States volunteers. His home is in Elkhardt, Ind.

BANISHMENT OF BOERS

KITCHENER REPORTS PROGRESS

He Tries to Demonstrate That the Burglers are Responsible for the War.

Pretoria, Sept. 30.—A pamphlet has been published here under Lord Kitchener's authority containing a notice of the permanent banishment of several Boer leaders captured since Sept. 15, and also a long letter from Lord Kitchener, replying to a communication from Acting President Schalk-Burger, received Sept. 15. Lord Kitchener promises to send the Schalk-Burger letter to the imperial government, which, he says, reciprocates the Boer statesman's desire for peace.

Lord Kitchener then proceeds to explain that the responsibility for the war rests with the burglers, "whose invasion of unpopulated British territory opened the saddest page in South African history."

He quotes a letter from a member of the volksraad to a member of the Cape Colony assembly, declaring that the time is ripe to drive the British from South Africa.

In conclusion, Lord Kitchener declares that, having annexed the two republics to Great Britain, he cannot break faith with the people who have shown loyalty to the new regime, and, so far as clemency to Cape rebels is concerned, this is the prerogative of the ruler, which must be exercised with unfeigned discretion.

A proclamation has been issued providing for the sale of properties of burglers still in the field, in accordance with the terms of Lord Kitchener's previous proclamation.

Boers Would Fight for Britain.

Oplomb, Sept. 30.—Sir Joseph West Ridge, the governor of the island, has announced that 200 of the Boer prisoners in Ceylon have expressed their willingness to take the oath of allegiance to King Edward. Imprisoned by a Bull

New York Sun Special Service

New Haven, Conn., Sept. 30.—An angry bull taunted by the mischievous boys in the district school at New Fairfield kept the pretty teacher and all the members of her school prisoners all day in the schoolhouse. The bull was grazing in a lot near the school. At recess some of the boys, for fun, waved a red rag at him. The bull broke down the intervening fence. The scholars and teacher took refuge in the school house and barred the doors. The bull hooked angrily at the doors and windows, shaking the building and breaking window panes. The teacher lifted the largest boy up to the trap door into the attic and the remainder of the evening session was spent in that dark retreat. Some of the worried parents appeared at dusk and the exciting session of the school was ended. The teacher and some of the young scholars were so badly frightened that they are still suffering from the nervous shock.
