BURNED TO A CRISP

Three Threshers Perish in a Barn Fire Near Pipestone. SIX OTHERS WERE RESCUED. Pipestone, Minn., Oct. 2.—Three men lost their lives, and six others had a narrow escape in a burning barn near here.

BULL DOG IS THE HINZ MEDICAL INSTITUTE

CONSULT DR. FARNSWORTH Medical Director at the Hinz Medical Institute, who examines and treats all patients personally, and who has no substitutes. NOTICE The Hinz Medical Institute is the only Institute of this kind in Minneapolis that has at all times published, and that publishes in its announcements in the newspapers, the picture and the name of the Doctor who treats its patients, and of no other person—it is important for the public to know who the person is on whose shoulders the professional responsibility rests.

RESULTS OF THE "GOTHENBURG SYSTEM"

This Plan of Regulation of the Liquor Traffic Proves Practical in Scandinavia—Vice and Crime Are Said to Be Checked.

In his letter dated Stockholm, Sept. 2, W. E. Curtis writes the Chicago Record-Herald as follows: The so-called Gothenburg system of regulating the liquor traffic, which prevails in Sweden and with some modifications in Norway and Finland, is based upon the theory that the evil of intemperance cannot be entirely eradicated, but can be reduced to a minimum by practical regulations. It does not attempt to prevent the use of intoxicating liquors, but to prevent the abuse of them.

THE SLUMP IN POTATOES

MANY WHO LOADED UP NOW LOSE Country Merchants and Traveling Buyers Caught for Many Thousands of Dollars. Special to The Journal. St. Cloud, Minn., Oct. 2.—It is estimated that thousands of dollars have been lost in the last ten days to country merchants and potato buyers in the potato growing section of Minnesota through the great slump in the price of the vegetable in the Chicago, Kansas City and St. Louis markets.

THE WORLD'S GREATEST THROAT SPECIALIST

Who Discovered the Most Successful Cure for Coughs, Colds and All Throat Affections. DR. JOHN W. BULL. Dr. John W. Bull, who discovered Dr. BULL'S COUGH SYRUP 50 years ago, is the most successful doctor of throat and lung diseases during his lifetime. He had a national reputation on account of the wonderful cures he made in cases of chronic throat trouble and so-called incurable consumption.

DR. BULL'S COUGH SYRUP

No other doctor or chemist has ever been able to compound any preparation containing the curative qualities of DR. BULL'S COUGH SYRUP. No other formula has ever been discovered that so effectively cures all diseases of the throat and lungs as DR. BULL'S COUGH SYRUP. There is no case of hoarseness, cough, catarrh, asthma, bronchitis, quinsy, whooping cough, croup, measles' cough, grip or consumption that cannot be cured speedily by the proper use of DR. BULL'S COUGH SYRUP.

ORIGIN OF THE SYSTEM

No country has suffered so much in the past from the unrestricted manufacture, sale and use of intoxicating liquors. Fifty years ago there was an average of 172,151 distilleries in every cottage, and 172,151 distilleries of spirits from potatoes and corn. Every landholder had the right of distilling, and so terrible were the effects that in 1854 parliament passed a law prohibiting private distilling, taxing public distilleries so heavily that most of them were compelled to close their doors, and giving local option to cities, towns and parishes.

NEW BROOMS SWEEP CLEAN

Madison, Wis., Oct. 2.—The activity of the new state wardens is shown in the large increase of licenses issued this year, both in counties throughout the state and to non-residents. Up to Oct. 1 more licenses were issued than the total last year, and the whole number this year will be about 50,000, as against 35,000 in 1900. This means better protection to the game, as all the money received for licenses is used in employing deputy wardens.

IN THE SAMAR MASSACRE

CAPTAIN THOMAS W. CONNELL, Commanding Officer of the 11th-Fated Company First U. S. Ninth Infantry. EDWARD A. BUMPUS, 11th Infantry, United States Army. The Louisville, Ky., Post publishes a halftone picture of Colonel H. G. Rising and Mrs. Rising, and says some very complimentary things about the work being done by Colonel Rising in the establishment of rural free delivery routes in Samar. Rising is his secretary and assistant, and accompanies him on all his trips.

BATTLE WITH STRIKERS

Non-Union Miners in Kentucky in Self-Defense. Hopkinsville, Ky., Oct. 2.—Cottages of employees at the Empire mines in North Christian were attacked last night by about twenty-five persons, supposed to be union men from the camps broken up this week in Hopkins county. A battle between the occupants and assailants followed, over 100 shots being exchanged.

CAN'T KEEP HIM OUT

South Dakota Man Who Has a Penchant for Serving Time. Special to The Journal. Sioux Falls, S. D., Oct. 2.—A term in the Sioux Falls penitentiary and a term in the county jail apparently have not served to prevail upon Sam Rosenberg, a former resident of Centerville, S. D., to reform his ways. A few years ago he was arrested by the federal authorities for being in league with a gang of counterfeiters who had their headquarters at Centerville. He was convicted and sentenced to a term in the penitentiary. He was released a few weeks ago, and was immediately arrested by the county authorities on the charge of petty larceny. He was convicted, and again he was placed behind prison walls. He was liberated this week, when he was once more arrested by the United States authorities on the charge of stealing a badge belonging to a mail carrier. His preliminary examination will be held next Monday.

LEAD TRUST IN SIGHT

Philadelphia, Oct. 2.—The Evening Telegraph to-day prints a story that a combination of all the lead interests of the country into one large company with a capital of about \$150,000,000 is a probability of the near future. Such a combination, it is said, has been attempted in the past, but was always blocked by the attitude of the firm of Wetherill & Bor., of this city, who have steadfastly refused to put their plant into any combination. Recently business conditions have been such as to produce a change in the attitude of the Wetherills, and a member of the firm is quoted as favoring the combination under certain conditions.

TWO S. D. CHILDREN ELOPE

Groton, S. D., Oct. 2.—Paul Voy, aged 17, and a 14-year-old daughter of Charles Pernie, eloped Friday night. They took a train to Aberdeen, and then went to Oakes, N. D., where they registered as man and wife. The fathers of both young people are in pursuit and believe they have located the runaways at La Moure.

DID NOT KNOW NECK WAS BROKEN

Aberdeen, S. D., Oct. 2.—Owen D. Shevlin of this city, 30 years of age, broke his neck by a fall from a wagon about 11 o'clock last night, while climbing in to return to his work in the country. His companion, thinking he was only intoxicated, loaded him into the wagon, drove out ten miles, and left him in the thrasher's cockshanty all night. Next morning, upon discovering that there was something wrong with the man, but not knowing what the trouble was, his employer granted his request to take him to town. On the way in he died. Examination showed the vertebrae of the neck to be separated so far that the physician could lay his finger in the space.

SAVES FLOUR BUTTER EGGS ROYAL Baking Powder And makes the cake lighter, finer-flavored, more slightly.
