# RIPANS

Ripans Tabules are the greatest medicine I know. When I would go to the table before I used R.I.P.A.N.S I would have to loosen my clothes. Now I eat heartily and take a Ripans after each meal and have no trouble. I am never troubled with constipation since using Ripans.

## RESCALING

### Special Agent McComas on Indian Timber and Smallpox.

From The Journal Bureau, Room 45, Post Building, Washington, Oct. 3.—Special Indian Agent O. L. McComas, who has been working with Agent O'Neill in rescaling illegal dead-and-down timber cut on White Earth reservation, reached Washington today. Mr. McComas has brought material for his and O'Neill's reports on their investigation and refuses to give any intimation of what he found as between Agent Farr's investigations and theirs. He will await Commissioner Jones' return before submitting his report. Agent McComas saw Commissioner Jones at White Earth last Friday and discussed the report with him. The commissioner was on his way to Mandan, N. D., to inspect the site for the new school at that place, whence he was going to Chicago and then to Washington. He should be here in a day or two.

Agent McComas says that the report of a smallpox outbreak on the line on the Mille Lacs reservation, telegraphed from St. Paul last night, was exaggerated. He was at White Earth agency when the disease made its appearance, and says Agent Michelé immediately dispatched one of the agency physicians to the Mille Lacs reservation with instructions to quarantine infected Indians and to vaccinate others. Michelé left White Earth for Mille Lacs late last week and reached there Saturday. He says that nearly all Indians who have come into the agency have been vaccinated and that it is hardly probable that there will be any spread of the disease.

As to the prospect of trouble, he says that there is always had feeling between one faction of Indians and whites and the smallpox outbreak can be considered only an excuse for one or other party to make trouble. McComas does not anticipate anything serious. However, Agent Michelé has not made any report on recent developments at Mille Lacs.

It is said at the Interior department that Secretary Hitchcock will not act on the case of Agent Harding at Yankton, S. D., until Commissioner Jones returns to Washington.

One of the officials of the department has prepared a digest of the case which sets forth the charges against Captain Harding and his answer and the secretary will give both sides careful consideration before he takes final action.

## ROOT TO SUCCEED HAY

### LATEST CABINET SPECULATION

Gen. Francis V. Greene of New York Said to Be Stated for the War Portfolio.

New York Sun Special Service

Washington, Oct. 3.—Approvers of the nomination of Secretary of the Treasury Gage that Secretary Hay would resign before President Roosevelt took the oath of office at Buffalo, it was universally believed that Secretary of War Elihu Root would succeed Hay as secretary of state. There are reasons for believing that the president made an actual tender of the state department to Mr. Root within an hour after he was sworn in. After the cabinet meeting held at the conclusion of the inauguration ceremony President Roosevelt surprised the other members of the cabinet by cordially urging Secretary Root to remain with him. That night it was stated with an air of authority that Mr. Root would be his secretary of state.

### BEVERIDGE BACK TO U. S.

Commerce with the Orient America Will Be in First Place—Northwest Assured of Greater Prosperity.

Seattle, Wash., Oct. 3.—"American commerce with the Orient must in time take the first place, because we are nearer the Orient than is any other nation." Senator Beveridge of Indiana, who arrived here yesterday from a two-months' trip to the Orient, which was devoted to Manchuria, China, and the Philippines, a trip made for the purpose of acquiring greater familiarity with the latest phases of the commerce with the Orient, made the above statement.

Senator Beveridge had little to say concerning Marquis Ito, who accompanied him. On the voyage across the Pacific the senator was asked to give an opinion on the desirability of the American people already feel a very keen interest. It is a question of the greatest importance to us, because our markets are involved.

### YOUNG LIFE CLOSED.

Special to The Journal. Gratton N. D., Oct. 3.—The funeral of Clarence Peterson who died Tuesday evening of consumption, took place this afternoon at the Hague Lutheran church. He was 20 years of age and would have graduated from the high school next spring. The funeral was held at 2 o'clock and was attended by a large number of friends. The casket was borne by the young men of the church, which had been undergoing extensive repairs since the 1st of August. The service was held by Rev. Dr. Brown, synodical missionary of the state, who conducted the services at the residence. The funeral home and barn have been sold by Thomas Foley to J. B. Sweezey, H. M. Sweezey and W. McKenzie. Consideration, \$5,500.—The Dominical Fathers of Minneapolis will hold a mission on several days during St. John's Catholic church, beginning next Sunday.

### GREAT LIBERAL VICTORY.

### BIG LIFE INSURANCE.

Peavey's Million-Dollar Policy in the Mutual Life of New York is Still the World's Record.

New York, Oct. 3.—The tendency of policies of life insurance is becoming general as to protect their buildings by policies of fire insurance. Since George Peavey of Minneapolis each took policies for \$1,000,000 a few years since in the Mutual Life insurance company of New York, there has been no equally large sum written on one individual. Those remain the record figures for the world, but policies of \$500,000 and \$100,000 and even \$200,000 are so frequent as to cause little comment, and even \$50,000. A. Witherspoon, of Detroit, took \$300,000 in 5 per cent gold bond insurance from the Mutual Life, early in this year, it passed almost as a matter of course. It is significant when a business man's estate is settled these days, life insurance is generally found to be a very important part of it, often all there is of it. Life insurance in one of the great companies yields a good rate of interest as an investment apart from the protection it affords.

### Controlling World's Salt

New York, Oct. 3.—The International Salt company, which expects to obtain control of the salt mines of the entire world, has been incorporated in New Jersey with a capital of \$30,000,000, and will issue bonds to the amount of \$12,000,000. The new international trust is the outgrowth of the National Salt company, which is interested in the salt producing plants in the United States. The new company will acquire the International Salt company, the Betsworth Mining company, the English Salt company, and all the principal salt-producing properties in Canada and Great Britain.

### Papa-in-law Will Not Forgive

Special to The Journal. Fargo, N. D., Oct. 3.—Amos Wetmer of France, Minn., seems to have an unforgiving disposition. About a year ago his favorite daughter eloped with the hired man and they were married at Valley City, in this state. The girl was under age, and the groom is alleged to have sworn she was 18. Mr. and Mrs. Long then returned to Fargo, and have resided here since, hoping for parental forgiveness, but it was like the letter that never came. Instead, Wetmer went to Valley City and had a warrant issued for the arrest of his son-in-law on a perjury charge, and Long was taken there yesterday.

### CAUSES A STR

Application of Mrs. Fannie Wisner Crockett for a Divorce. Special to The Journal. Iowa Falls, Iowa, Oct. 3.—Owing to the prominence of the principals, the petition of Mrs. Fannie Wisner Crockett of this county for a divorce from her husband, Frank W. Crockett, has created a sensation. Mr. Crockett was formerly clerk of the district court, but prior to that time principal of the schools at Williams, Iowa. In 1895 he was married to Mrs. Fannie Wisner. She is the daughter of C. C. Gilman, prominent a few years ago in railway and terra cotta circles. The petition filed by Mrs. Crockett alleges incompatibility of temper and asks the custody of the child, 5 years old.

The death last evening of Mrs. James Lane places the charge of murder in the first degree against her husband, James Lane, who shot her with a shotgun, Monday night. The other victim of the enraged man's assault, John Barthe, will survive unless blood poisoning should set in. The murder was one of the most cold-blooded in the history of this part of the state. Lane is an old G. A. R. veteran, and has always been regarded as an inoffensive man except when under the influence of liquor. He is a man about 60 years old.

### MRS. KING IS DEAD

Pioneer Widely Known About Anoka as "Aunt Serena." Special to The Journal. Anoka, Minn., Oct. 3.—Mrs. Charles King, widely known in this section of the country as "Aunt Serena," died this morning at 7 o'clock at the unusual age of 95 years. She was born at Sutton, Mass., in 1806, and came to Anoka in 1854, when there was but one house in the place. Her only surviving relative is a grandson, Edward P. King of Massachusetts, and arrangements for the funeral will not be made until he can be communicated with. She was a member of the Baptist church for over sixty years. Her husband died years ago, and of late she had lived entirely alone.

### STRIKERS DISCOURAGED

Bay View Owners Secure Rollers for Their Nine-Inch Mill. Special to The Journal. Milwaukee, Oct. 3.—As a union plant the Bay View mill is lost to the Amalgamated association. The company has secured two rollers from the ranks of the strikers, paying them the Amalgamated scale, and is now in a position to operate the nine-inch mill. The return of the two men has discouraged the strikers, and they have little hopes of creating further trouble.

### A NEW DEPARTURE

A New, Effectual and Convenient Cure for Catarrh. Of catarrh remedies there is no end, but of catarrh cures, there has always been a great scarcity. There are many remedies to relieve, but very few that really cure. The old practice of snuffing salt water through the nose would often relieve and

the washes, douches, powders and inhalers in common use are very little, if any, better than the old fashioned salt water douche. The use of Inhalers and the application of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism and it cannot be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat or stomach, an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan and the remarkable success of Stuart's Catarrh Tablets is because being used internally it drives out catarrhal infection through action upon stomach, liver and bowels. William Zimmerman of St. Joseph relates an experience with catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it gradually extended to my throat and bronchial tubes and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position, as I was clerk and my hearing was absolutely necessary. "Some of my friends recommended an inhaler, another catarrh saline, but they were no good in my case, nor was anything else until I heard of Stuart's Catarrh Tablets and bought a package at my drug store. They benefited me from the start and in less than four months I was completely cured of catarrh, although I had suffered nearly all my life from it. "They are pleasant to take and so much more convenient to use than other catarrh remedies that I feel I cannot say enough in favor of Stuart's Catarrh Tablets."
