

Liverpool Made a Jump and Our Markets Followed, but Not Without Hesitation.

NEWS WAS BULLISH IN THE MAIN

Visible Increase Was Less Than Expected and the Northwest Receipts Ran Light.

Minneapolis Chamber of Commerce, Oct. 14.—Wheat traders were surprised this morning to find a material advance in Liverpool.

At the opening Liverpool was unchanged, but second cables showed a 1/4 cent higher.

Our market responded at once, December opening 1/4 cent higher, at 74c, and May 1/2 cent, at 74 1/2 c.

At this higher range, however, extreme caution was shown. There was nothing special in sight to account for the strength abroad, and it soon became noted that the market was being due to influence from this side and was the result of manipulation by a large Chicago house.

This operated to check the buying, many deciding to wait for indications of a permanent change of sentiment abroad before taking hold.

Another strengthening factor was the light northwest receipts, the figures showing 185 cars, compared with 170 cars the week before.

Against this there was a general improvement in weather conditions, suggesting a freer movement later.
