

HAUGDAHL IS BUSY AFTER TEN YEARS

State Dairy Inspector Undertakes to Enforce the Law.

ARRESTS IN NEW ULM COUNTRY

Careless Creamery Men Neglect Their Plants and Make Themselves Amenable.

Special to The Journal.

New Ulm, Minn., Oct. 14.—Sam Haugdahl, the state dairy and food inspector, has been around the county the past week and has stirred things up in a general way.

In the first place, any one that has more than one cow and offers for sale any milk must, on May 1 of each year, take out a license of \$1 for each cow, which is the price of the privilege to sell milk.

Mr. Haugdahl has visited several creameries in this neighborhood lately, and says that he is much disappointed in the condition of many of them.

THOSE DIAMOND RINGS

Pepe Case to Be Decided in Favor of the Government.

Washington, Oct. 14.—From trustworthiness information it appears safe to say that the "Pepe" "fourteen diamond ring" case, involving the legality of the collection of duties on goods imported from the Philippines into the United States after the ratification of the Paris treaty of peace and before the passage of the Spooner act, will be decided by the supreme court in favor of the government.

This is the famous case which the supreme court failed to decide when it disposed of the other insular cases last May. The Pepe case differs materially from the De Lima case, which was decided against the government in the spring.

The most important difference between the Pepe and De Lima cases is found in the fact, as pointed out by Justice Brown, who held the balance of power in the court when the other insular cases were decided, that the United States did not have actual possession of the Philippines, and the government there was being conducted under the war power of the nation, while in the case of Porto Rico, the United States was in actual possession of the island.

A further distinction just pointed out by Solicitor General Richards was that immediately after the ratification of the treaty of peace, the senate adopted a resolution declaring "it is not intended to incorporate the inhabitants of the Philippine islands into citizenship of the United States, nor permanently annex them as an integral part of the territory of the United States."

The Age of a Fish.

One of the problems that interest both the sportsmen and the naturalist is how to tell the age of a fish. According to Professor Henshaw, a great German authority, the rings on the ear, or hearing stones, afford the only sure clue to the fish's age.

Chicago Man Finds a Lost Sister in North Dakota.

GIRL OF 16 YEARS ILL TREATED

Made to Plow and Do Heavy Farm Work—Scattered Family Reunited.

Special to The Journal.

Chicago, Oct. 14.—Ten years of searching for a sister whom he had not seen since she was three years old has rewarded Michael E. Ryan with success.

Elizabeth Ryan was brought by her brother from North Dakota, where it is alleged she had been compelled to labor in the fields from sunrise until dark.

Michael Ryan and his sister arrived in Chicago yesterday from Rogers, N. D., and last night there was a family reunion at the Ryan house on the South side.

Not until three years ago, Elizabeth says, did she learn her real name, and until told by her brother she did not know she had a relative on earth.

I had several schoolbooks with the name "Bessie Scoville" written in them. Mrs. Scoville tore away the names and wrote instead "Bessie Ryan."

Michael Ryan made many trips to various parts of the country and spent much money searching for his sister. Finally, in the records of the Kansas City W. C. T. U. he found that she had been given to the Scovilles, and he thus obtained the clue that enabled him to find the girl.

NOT AFTER SUPPORT

President Names the Principle That Guides His Appointments.

Washington, Oct. 14.—To P. V. Clayton, the recently appointed internal revenue collector for South Carolina, President Roosevelt said:

"I have three years which I have yet to serve as president. I will make no appointments to please any particular clique or faction. I will select men solely for the good of the service."

Daylight Traveling.

This is the delightful time of the year for daytime traveling. No dust, cool, fine weather and a beautiful view of the changing scenery may be enjoyed in the elegant observation club cars, with cafe service, in the car and luxurious parlor cars of the Twin City and Omaha Day Express, daily between Minneapolis-St. Paul, Sioux City and Omaha and on the Badger State Express, daily between Minneapolis, St. Paul, Madison, Milwaukee and Chicago. Both day trains.

All information and tickets at City Offices, 412 Nicollet avenue, Minneapolis; 382 Robert street, St. Paul, Minn.

All disorders caused by a bilious state of the system can be cured by using Carter's Little Liver Pills. No pain, griping or discomfort attending their use. Try them.

Millinery Dept.

TRUST REGULATION

Three Diverse Recommendations From Industrial Commission

Washington, Oct. 14.—A wide division of opinion in the industrial commission will be shown in its report to congress on trusts. There will be at least three diverse recommendations, as follows:

First—Stricter anti-trust legislation by the several states and by congress, without altering the present relations between their respective jurisdictions.

Second—A delegation by congress to the states of its interstate commerce jurisdiction, so as to allow the states to regulate manufacturing or trading corporations engaged in interstate commerce.

Third—Assumption by the national government of larger and perhaps exclusive control of such corporations, and their regulation by action of congress.

agreements under which the constituent corporations are operating.

The commission will urge the establishment of a system of inspection of all emigrants embarking at ports in Europe, with a view to detecting persons of anarchistic tendencies, who intend to sail for the United States, where they may have more freedom in advancing their propaganda of assassination. This system, if it is proposed, shall be operated in conjunction with the governments of Europe.

If it's a "Garland" That's All

You need to know about a stove or range.

The Nickel Plate Road

will sell tickets each Tuesday, Thursday and Saturday during October to Buffalo Pan-American exposition and return, at \$6, good in coaches, return limit five days from date of sale. Tickets with longer limit at slightly increased rates. Three through daily trains. Chicago Passenger station, Van Buren street and Pacific ave. City ticket office, 111 Adams St., Chicago.

We Are the First and Only Firm in This Country to Sell Groceries Direct to Consumers at Wholesale Prices!

Our store will be ready about the twenty-first or twenty-second of this month. See what Boston Traveler has to say regarding our system. Watch the papers for complete price list.

The following appeared, unsolicited by us, in the BOSTON TRAVELER, May 27th, 1898:

"Half a Million to Be Divided." "It is just two years ago since the Ginter Grocery and Produce Company inaugurated their system of selling groceries to the consumer at wholesale prices. This company was the first, and is the only strictly wholesale company in New England, conducting the grocery business upon that basis. The saving to the consumer by this system is estimated to be on the average about 40 per cent from the ordinary retail prices. That is, \$10 will go as far at the Ginter stores as \$14 will at ordinary retail groceries. The success which attended the announcement of this departure from the old methods was phenomenal. It has necessitated enlargements, more salesmen and additional floor space about every three months during the two years. The business passed the \$100,000 a month limit some time ago, and since they began this business they have sold over \$2,000,000 worth of groceries. "Now, what does this mean to the consumer? It means that the Ginter Company has saved to its customers the great sum of \$800,000 in two years. Does it not pay to be a customer of such a concern? Will it not pay to look into this question? Suppose it was announced that \$500,000 would be given away annually among a certain number of families in New England, and to get into line for a share was as simple as it is to get into line for a share of this amount from the Ginter Company—how many of you would be found out of the line? Why, for entertainments in Boston, where only one or two dollars at most can be saved, long lines of people have been known to stand nearly all night so as to be at the box office early. You have no such fatiguing work to get into line for your share of the half million annually distributed by this company. Look at the rush for bargains at dry goods stores. It will pay just as well to make a business of shopping for groceries as for dry goods. Who thinks of shopping in dry goods at the small stores scattered over the city? "It may be urged that perhaps the quality may not be as good, but there is really no force in this, for aside from the goods being fully guaranteed by the Ginter Company, your reason will tell you it would be absolutely impossible to run stores of this magnitude on off-color goods. The fact is, the groceries and provisions the Ginter Company sell are of the same make and brand—unless you are specially told to the contrary—as those sold by the so-called first-class stores, while the tea and coffee they sell comes direct from the plantations where grown. So their customers pay only a reasonable profit to one firm, with the consequent saving of about one-half of the usual retail price."

The Ginter Grocery Co., 25 Sixth St. S. NEXT TO ST. MARK'S CHURCH
