

Matrimonial Snags.

"She wasn't like this before we married," muses Mr. Younghusband disconsolately. And he is quite right. If he would only carry the idea of change in his wife far enough he would be able to understand her feelings and sympathies with her condition.

There is no time when young women stand so much in need of good motherly advice as in the early days of married life, and there is perhaps no time when, as a rule, the young wife is left so entirely alone to grope her own way to happiness in doubt and uncertainty. Of the laws governing her womanly health she knows nothing. She becomes nerv-

ous, irritable, sleepless, dejected. She frets, already, marriage is a failure. She sees long unhappy years before her, and shrinks from them.

THE HELP SHE NEEDS. Evidently in such a case a woman needs help, and the help she needs will be found in Dr. Pierce's Favorite Prescription.

Doctor Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration, restores the system, and builds up the system. It will cure nervousness, sleeplessness and irritability, encourage the falling appetite, and bring back the physical buoyancy which has been lost.

When I wrote to you some time ago asking for advice I was in very poor health," writes Mrs. Ethel Trepo, Merrill (West Merrill), Wis., Box 54, "suffering continually with severe pains and terrible headaches, and confined to my bed the greater part of the time. I thought I was in a delicate condition, and thinking that something must be wrong I consulted three different doctors. None could tell me what my case was. One said that in no way could I be helped except by having an operation. Every woman dreads the thought of an operation, and so did I. After reading one of Dr. Pierce's pamphlets I decided to write to him. I did so, and was told my case resulted from catching cold and not properly caring for my health at the time of my confinement. My kidneys were in bad condition. My back was fairly sore from continual aching, and sometimes when I would lie down some one had to rub my back for nearly an hour before I could get any rest. I had a bad cough all the time, and my friends thought I was dying. After taking three bottles of Dr. Pierce's Favorite Prescription and two of the 'Golden Medical Discovery' and two vials of Dr. Pierce's Pellets I am able to say truly that I am cured. I thank God and Dr. Pierce so much for being in as good health as I am to-day."

A GREAT RECORD.

Doctor Pierce's Favorite Prescription makes weak women strong, sick women well. In seven little words is summed up the cure of hundreds of thousands of weak and sick women. But it would take volumes to tell the story of these cures; for they cover every variety of womanly disease curable by medicine. Often the cure has passed the border line where the use of medicine ends and surgery begins, and in not a few cases where the ailing woman had been told

there was no help for her except in an operation, the use of Dr. Pierce's Favorite Prescription has restored her to perfect and permanent health.

"I cannot express my joy and happiness, not only enough for all the good your medicines have done for me," writes Mrs. Anna Russell, of Harrison, Maine, Box 102. "When I began taking your medicine my weight was 105 pounds, now it is 120. I was troubled with female weakness and had severe backache, ovarian trouble, and ulceration. Left lung was swollen nearly all the time and pained me very much so that at times it was all I could do to take my breath. For six years I suffered dreadfully all over and had many different medicines but with very little help, if any at all. I couldn't eat anything except it hurt me very much. I had bloated bowels and have much pain. Had no appetite. A year ago last November I decided to write to Dr. Pierce, and received his kind advice, free. By following his instructions and taking the medicine carefully I began to improve at once, and, although I have not taken a drop of medicine since last August, I feel perfectly well—better than I have for the last eight years. I believe that Dr. Pierce's medicines are a God-send to all suffering women. They saved me an operation, for three doctors told me I would never get well without going to hospital and having an operation performed."

TO SUFFERING WOMEN. This message comes to you from hundreds of thousands of women who were once sick and suffering; Dr. Pierce's Favorite Prescription has completely cured us of disease and made us well and happy women. Can you afford if you are sick to neglect such an opportunity of cure? Other medicines may have failed you. Local physicians may have said you could not be cured. But if you have not tried Dr. Pierce's Favorite Prescription you have neglected the use of the medicine which has cured when all other medicines failed, and doctors proclaimed a cure to be impossible.

Doctor Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration, restores the system, and builds up the system. It will cure nervousness, sleeplessness and irritability, encourage the falling appetite, and bring back the physical buoyancy which has been lost.

REASON IN HIS FLIGHT

Canney Was in Debt and Had Cashed Another Man's Check. Des Moines, Iowa, Oct. 15.—The mystery surrounding the disappearance of J. W. Canney, a furnace maker, from his home in University place, last week, has been solved by his discovery in Chicago. He returned from his office last week with \$300 in his possession which he displayed to his wife in the form of a check. It happened to be outside. Twenty minutes later he started for the barn to feed his horse. His wife became alarmed at his absence, visited the barn and found his lantern, badly battered, his hat caved in as by a blow, his keys and a piece of his coat. No other trace of him could be found.

The disappearance has been a seemingly unaccountable mystery. Murder and kidnaping were the popular theories. Some \$800 was subscribed as a reward for his return dead or alive. H. B. Jolly, a former neighbor, saw him in Chicago yesterday and had a chat of a half hour with him. It now transpires that he owed a heating company \$200 and had cashed a check that was not made payable to him.

PREPARING FOR P. CROWE

COUNCIL TAKES DOWN REWARD Judge, However, May Hold Out for a Big Bond—Chief Donahue Active. Omaha, Neb., Oct. 15.—Chief of Police Donahue is making arrangements by which he hopes to be able to accept the condition laid down in Pat Crowe's letter for the latter's surrender.

The judge before whom Crowe must appear, however, refuses to bind himself to the proposition of putting the alleged kidnaper under a \$500 bond. Speaking of the matter to-day, Judge Vonsenthaler explained his position as follows: "If Pat Crowe appears before me I shall treat him in the matter of bonds and in every other way as I should treat any other criminal. I certainly shall not bind myself in advance to fix his bond at any certain amount. Of course, if he comes in and surrenders himself voluntarily, that will be a circumstance that will be taken into consideration in the fixing of the bond."

At last night's meeting of the city council the following resolution was adopted: "That the resolution adopted by this council on Dec. 31, 1900, authorizing the mayor to offer a reward of \$25,000 for the arrest and conviction of the kidnappers of Edward Guldah, Jr., be and the same is hereby rescinded, and the reward so offered is hereby withdrawn and all action under said resolution is hereby revoked."

Honesty vs. Dishonesty

An honest dealer will sell an honest remedy when it is called for by a customer, will use honest drugs and chemicals in compounding prescriptions, and can be safely trusted as a family druggist. A dishonest dealer who will try to sell a customer some cheap substitute of his own which is not a safe remedy, will not hesitate to use impure and injurious drugs and chemicals in compounding his prescriptions. He will take no pains to guard against cheap, so-called good medicine that is offered at a low price by dealers. Insist on getting the OLD RELIABLE.

ROCKHILL ON THE KING

United States Commissioner in the Chinese Negotiations.

A BATCH OF NEWS ORIENTAL

Court Soon to Return to Peking—A Pitched Battle Fought With Insurgents.

Victoria, B. C., Oct. 15.—W. W. Rockhill, the commissioner who represented the United States in the negotiations between the allies and China, arrived yesterday by the steamer from London and is on his way to Washington. He has with him a copy of the protocol between China and the powers which was recently signed by representatives of the various nations interested.

Affairs in China have resumed their normal state, the commissioner said in an interview. He did not anticipate any further outbreak, but there was no telling what would happen in China. The so-called insurrections in Kan Su and Manchuria, he said, were simply local uprisings which had been very much exaggerated. Three hundred Chinese troops entered Peking on Sept. 17 and the keys of the gates were handed over to Prince Ching with elaborate and brilliant ceremonies. All the foreign troops were withdrawn with the exception of the legation guards and guards at the railway stations.

Since the Tientsin affair there has been no trouble over the railway from the coast of Peking which is controlled by the British, in fact the commercial interests seemed to be taking charge of the country and a commission was being organized to conduct commercial negotiations with China. This commission will revise the treaties on the subject of the opening of more ports. The commission will bring about a much better state of affairs.

Peking in the Hands of Its Own.

Before Mr. Rockhill left Peking the Chinese troops had commenced to pollute the city. The people, he said, had been benefited by the occupation, they having been given work rebuilding the legations and on other works at wages they had never dreamed of. On the other hand, a number of those who were well off before the occupation had been rendered destitute. The legation concessions had been greatly increased in the number and territory built in the form of a fort with a moat and guns mounted.

Mr. Rockhill said he expected to hear very shortly of the return of the court to Peking.

While missionaries were murdered and tortured in other parts of China, Roman Catholic missionaries had lived under the protection of the court. British officers and missionaries since had visited the court and were very warmly received.

Mr. Rockhill says many people are starving in the district in which Hsiang Fu is situated, but the reports of famine in other parts of the empire sent out to the press are exaggerated. He said that the famine is the result of the failure of crops.

Mr. Rockhill said that while Li Hung Chang retains his present vigor, his breaking down would be a disaster. He has a splendid appetite, but suffers much from indigestion and high fever.

The Russians are having difficulty on the Chinese coast, and are afraid of the floods. They do not allow officers of other nations into the country, but have no objections to civilians traveling through the country. Mr. Rockhill has a boom when conditions in China are again settled, but says the trade will be enormous.

More Rebellions.

News was received by the Empress of Japan of further rebellions in China. A rebellion took place on Sept. 30 between the imperial Chinese forces and General Tsien and a force of 7,000 insurrectionary troops near Hsin Ho in Chi Li sixty miles south of Peking. Thirty rebels were killed, many were wounded and the remainder fled. Several villages were taken by the troops.

The North China Daily News reports the military activity by Russia in the north and states that troops have been sent south, where it is believed they will be massed on the Korean frontier. The Chinese minister to Peking, Mr. Komora, has returned to Peking and in an interview he says there are 40,000 Russian troops in Manchuria. He says as soon as the Chinese coast is established, the question of the evacuation will be taken up.

ARMY JUST AS LARGE

Forces in the Philippines Not to be Reduced. New York Sun Special Service. Washington, Oct. 15.—It is stated upon what is regarded as reliable authority that President Roosevelt will not reduce the present army force in the Philippines. The enrollment of 20,000 men will expire next summer and 20,000 men of the regular establishment will be sent to replace them. Before the disaster in Samar it had been thought that a reduction in the army could take place during the coming spring and it was proposed to make this reduction by not filling the vacancies caused by the termination of enlistments. This plan seems to have been practically abandoned.

THREE MEN SHOT AT BUTTE

All Kinds of Trouble in the Tough Tenderloin District. Seattle, Wash., Oct. 15.—L. L. Bales an Alaskan mail carrier and guide, has returned from a summer spent in exploring the Alaskan coast between the mouths of the Kuskokwim and Yukon rivers. He has returned with a large quantity of valuable curios and much geographical data. The object of his trip was to locate salmon cannery sites.

BODIES FROZEN IN TUNDRA

Ghostly Tale Told by Returning Alaskan Mail Carrier. Butte, Mont., Oct. 15.—At an early hour this morning a shooting affray in the tenderloin district resulted in the serious injury of John Hennrich, a miner, by Alfred Ackorn, a stranger in town.

RELAND AND YALE

Strange View of the Honor Retained for the Archbishop. New Haven, Oct. 15.—The New Haven Register gives publication to a communication signed by Edward Walsh, Jr., of Milford, Conn., that has aroused the friends of Yale and has stirred up the Catholics of this city. It is about Archbishop Ireland and the degree he is to receive from Yale next Wednesday.

HOW MANY APPLES WE GET.

New York, Oct. 15.—The commercial apple crop of 1901 according to the final report of the American Agriculturist, is placed at 23,000,000 barrels, against 48,000,000 barrels one year ago, and nearly 70,000,000 in the bumper crop year of 1898.

HEALTH OF THE KING

SCARE REPORTS NOT WARRANTED

Increased Irritability the Only Change in King Edward's Manner of Late.

London, Oct. 15.—There has been a marked revival of the unfavorable reports regarding the king's condition, but it is irresponsible gossip, based on hearsay evidence. The court's functions and hospital visits cannot learn from any authoritative source that the king is materially worse than he was before he left London for Germany. There has been a complete cessation of the pessimistic talk in the London clubs, but the facts relating to the king's condition have not altered and the ailments reported from Balmoral are not serious.

Preparations for the coronation are in progress and the king is taking a direct and hearty interest in every detail. Those who have been in consultation with him report that his voice is strong and that he shows no symptoms of any incurable malady. His mind is clear, his orders are explicit and, except for a perceptible increase of irritability, his manner is the same as it was during the early months of his reign. Current reports respecting the king's declining health are without doubt premature and unauthorized. The king will shortly return to London and will confer the return of the Duke of Cornwall and York from Canada into an imperial function.
