## Fine Clothes for MEN

Ready-to-wear, and Not Costly.

What do you say to getting for \$15 as fine a suit as you've been paying your tailor \$25 or \$30 for?

For \$20 a suit that would cost \$30 or \$35 to-measure? For \$25 and \$30 as rich looking and luxurious clothes as a tailor makes for \$40?

You can do it here today and have your new suit for tomorrow, and there will be no trouble of being measured and fitted and perhaps finally disappointed.

Tailors are human; they make mistakes; you never know how a to-measure suit is coming out till it's finished.

In ready-made you have the finished garment before you—you can see how the pattern looks made up, how the suit fits, how it feels—you can get in ten minutes what it takes weeks to get the other way.

And we'd like to see the man who, after looking over the hundred-odd styles of new suits here, and the seventy new shapes in overcoats, would dare say that "Plymouth" ready-made patterns aren't as fine or as rich as you see in any tailor shop.

Autumn colors glow in nearly all the suits—subdued yet rich—not loud, but distinguished.

The \$8.50 suit is good; the \$10 patterns are rich; among the \$12 are some suits with hand-made collars and lapels, from our best makers.

But the rich, luxurious clothes begin at \$15 suits and overcoats.

Young Men's Suits, \$8 to \$20, are bought along with the men's—same rich patterns, same careful making—but they are bought in smaller sizes. Where the boys haven't filled out yet the clothes are made smaller—they fit, that's all.

### MUELLER AT HALF

Stardling Change in Varsity Team Talked Of.

#### IOWANS PREPARE FOR STRUGGLE

Illini Developing a Very Fast Team This Year—Hoping to Defeat Chicago.

Edward L. Rogers' eligibility to a place on the varsity football team having been settled, the makeup of the team for the remainder of the season is being developed to the filling of two places, right tackle and left half back. There is talk of settling the half back problem in a way that would be rather surprising as surprising as it was the way it was settled a year ago when Van Valkenberg was taken out of the line and placed at the half back position. The talk is unofficial; still there may be considerable basis for it.

It is simply this—to take Mueller from the right guard position and put him at left half back. This would leave the guard position open, but it is said that Ricker could be placed there.

The only question that arises is whether Ricker is good enough for the place of right guard. He is heavy and heavy, and though a young player, he is developing rapidly. There is no doubt but that Mueller would make a good half. He is a good guard and would be likely to create a panic in the line and the enemy if he were the right kind of a start once. If the guard position could be filled the arrangement might prove a very satisfactory one. It would settle the half back question and leave only that of tackle to be wrestled with. Schacht seems to be doing well there, however. It is said that Thorpe has been called home and may not return in time to play further this year.

**Iowans Hard at It.**

Iowa is making vigorous efforts to get into shape for the season's game, Oct. 26. Pessimistic stories continue to float northward from the Iowa seat of learning; still they are always accompanied with a note of hope which indicates that the Iowans will not be entirely dependent upon the leaders in western football.

Illinois also promises to be a hard nut to crack this year. From all accounts the Chicago team are very strong and are working as one man. The following notes on the practice show the feeling at some of the universities:

Behind the scenes, Knipe is working in his team hard, trying to get them into form. The gloom cast over the students by the game with Drake last Friday has caused a cooling down of the little enthusiasm that was shown two weeks ago. The team, however, will have a chance to-morrow with Ames, to show whether Iowa is entitled to play in faster company than that of the state teams. The general opinion is that Ames must defeat Ames by a score of 24 to 0 or there will be no hope of winning any of the "big nine" games. By comparing scores Ames shows a record as good as Iowa's, in the last two weeks. Iowa defeated Drake 8 and Grinnell and Ames played a tie game.

On the Mechanic Arts side, Marshall at end and Merrill at half—promise to hold it for another year. But the Mechanic Arts team are giving Central a hard rub for their position. ### Morgan-Hill Lawyers Get Around Combination Laws.

#### SUCH THE BELIEF, AT LEAST

Incorporation of the New Burlington Company Taken to Point to Triple Combine.

New York Sun Special Service Chicago, Oct. 17.—When George B. Harris and J. G. Peaseley, president and vice president respectively of the Burlington, returned from Burlington, Iowa, last night they declined to say anything about the meeting at Burlington or the significance of the new Burlington corporation. Their extreme reticence seemed to lend color to the theory that there is a new project on foot by which James J. Hill's proprietary company to take control of the Northern Pacific, Great Northern and Burlington and operate them under one management may be carried into execution without encountering legal obstacles.

Mr. Hill's original plan according to credible authority was to bring the Great Northern and Northern Pacific under single control, but this plan was abandoned because some of the states through which the roads run have laws prohibiting the combination of parallel lines. Hence the incorporation of the new organization at Burlington is interpreted to mean that the attorneys representing the Hill idea may possibly have found a way out of the difficulty raised by these laws. The supposition is that the new Burlington corporation is to be held next spring in the state of Illinois, while the new one of the Great Northern and Northern Pacific in such a manner as will admit of the practical execution of Mr. Hill's project.

This new corporation is legally and entirely separate from the Chicago, Burlington & Quincy Railroad company. The old company is incorporated under the laws of the state of Illinois, while the new one is controlled by the laws of the state of Iowa. There is but one change in the name of the company, the old is a "railroad company" and the new is a "railway company." The capital is \$10,000,000.

Wall street, according to dispatches, inclines to the belief that the completion of this plan is some distance ahead and that it must await the arrangement of certain details in the handling of the individual roads. Prominent New York banking authorities have said that while the publication of the plan was premature there was no doubt but that it would be brought to a successful issue.

The object of the corporation as set forth in the articles is to acquire the Burlington system and other roads. The lines owned by the Burlington and those

### Atwood Discovered to Be an Excellent Fullback.

New York Sun Special Service Chicago, Oct. 17.—The discovery of his system of trying out his candidates in all positions, Stagg yesterday discovered a fullback who, according to those who saw him, is the greatest yet seen in the maroon back field. His name is Atwood. Last night the scrubs lined up against the varsity for more than half an hour. Kennedy is laid out in bed with tonsillitis, accompanied by a high fever. He is under the care of Dr. Rycroft, who says he will be in Saturday's game without fail.

#### GAME WARDEN'S MISTAKE

He Returns Guns and Baggage to Chicago Sportsmen.

The hunting outfit sent from Harry B. Clow and A. B. Eaton, of Chicago, who were accused of slipping game out of the state, were returned to them to-day by order of Game Warden S. F. Fullerton. A letter from Mr. Eaton convinced the warden that no violation of the game laws was intended. Mr. Eaton explained that the party had secured non-resident hunters' licenses at South Dakota and did not know that game could not be shipped out of the state. No effort had been made to deceive them in that regard, and the local game warden had actually helped pack their trunk.

## TEXAS STANDARD OIL CO.

The Thrifty Prudent Man Gets Stock and Rejoices While the Careless Man Gets Left and Kicks about Hard Times.

We feel safe now in predicting that before Nov. 1 the Texas Standard Oil Company will have struck its gusher at Spindletop Heights, Texas. Do you know what that means?

It means that stock which we are now selling at 25 cents per share will be worth many times its cost. It means the Texas Standard Oil Company will be turning out oil worth over \$5,000,000 per year. It means that those who have been prudent and procured their stock, will rejoice and draw large dividends, and those people who put off buying till too late will have lost another great opportunity. The thrifty, active man gets rich, the indolent or careless man does not prosper. Many think an investment of \$5 or \$10 too small. Of course it will not pay as well as \$100 or \$1,000, but \$50 will buy 200 shares, and 200 shares ought to pay \$200 the first year and far more than that every year after.

Those who do not want to lose this great chance will call and procure stock at once.

The dilatory will wait too long and continue to kick about hard times. Telephone: Twin city, 1497; N. W., Main 1305 J. 1.

LAWRENCE & LITTLE, 208 Bank of Commerce Building, MINNEAPOLIS, MINN., Agents for TEXAS STANDARD OIL CO.

In Fargo working up some enthusiasm in local circles over the prospect of a local team will be sent to the northwestern tournament to be held next spring in the twin cities. Mr. Karpf, who is also manager of the New York team, may bring his aggregation through here about the last of January.

#### McGovern Losing His Sight.

Chicago, Oct. 17.—Terry McGovern's eyesight is so badly affected that he is now compelled to wear glasses when he wishes to read the newspapers or other print. The great little champion, who is regarded as the fistic marvel of the age, is not likely to remain a champion long, he has been told by prominent oculists, because his sight is fading fast and there seems to be no remedy for the weakness. In the hopes that his eyes will be strengthened by not appearing much in front of the footlights, Terry has cut out his acting part in the road show and is now doing only a light sparring act with his partner, Danny Dougherty.
