LANDS TO BE SAVED

Drainage Undertaking in Freeborn of Great Magnitude.

15,000 ACRES TO BE REDEEMED

Tract Was Deemed Worthless Thirty Years Ago—Three Towns Concerned.

DRINK PURE WATER

THE ROSE STANDARD WATER STILL CO.
MANKATO, MINN.

NOT THE LOWEST PRICED FAMILY STILL BUT IT DOES DO ALL THAT IS CLAIMED. SWEETENED, EFFERVESCENT, PURE. Send for Booklet.

Special to The Journal. Albert Lea, Minn., Oct. 18.—Twenty-five or thirty years ago, when land in Freeborn county was worth scarcely \$5 an acre, there was a vast acreage of what was denominated slough land. It was cropped the while because nothing was raised in the county save wheat, and farmers required dry land for that crop. Since stock raising and dairying have come to be so profitable and universally engaged in, the worthless land of a third or quarter of a century ago has come to be looked upon as too valuable to be allowed to remain idle and the result has been that many of the sloughs, in fact most of the smaller ones, have been drained and are now used for hay and pastures, and in many instances the land has been so thoroughly drained that it is plowed and cropped the while for other part of the county. Many thousands of acres have thus been added to the area of tillable land in Freeborn county and also to the tax rolls.

Special to The Journal. In the towns of Rice Lake, Moscow and Geneva, around Rice Lake and at the lower end of Geneva lake, there was a vast amount of land that gradually fell into the hands of speculators. At one time George B. Van Norman of Milwaukee owned several thousand acres of this tract and Hastings & McMillan, of Minneapolis, secured a large area, while L. D. Holmes, a farmer in Geneva township, now deceased, bought several hundred acres and used what was available for pasture but much of it was too low to be of any value. The Van Norman tract, a natural water way, which has long been nothing but a swamp, and many acres of surrounding slough, will be drained and made dry land. The drain or ditch will be an enlarging of the Turtle river, a natural water way, which has long been nothing but a swamp, and many acres of surrounding slough, will be drained and made dry land. The drain or ditch will be an enlarging of the Turtle river, a natural water way, which has long been nothing but a swamp, and many acres of surrounding slough, will be drained and made dry land.

RUNAWAY BOY KILLED

He Was Knocked From a Bridge and Drowned in the River.

Special to The Journal. Sioux City, Iowa, Oct. 18.—Two weeks ago Thomas Bieglin, aged 13, ran away from his home at Albia. He was traced as far as Sioux City, where the trail was lost. Last Sunday a body was found floating in the Missouri at Omaha, so badly decomposed that it must have been in the water a week. The father was called to Omaha yesterday, and he identified the body as that of his son. It is supposed the boy was knocked off a bridge by a railroad engine. The directors of the Sioux City Brewing company at their annual meeting yesterday ordered improvements in the brewery that will cost \$50,000. The annual report of President Baumgartner showed an annual product of 36,000 barrels.

Special to The Journal. A movement for the building of a new courthouse for Yankton county has been started and is likely to result in a definite shape before long. The present structure is old and no protection whatever from fire is afforded for the many valuable records in the various offices.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are caused by various causes, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potassium and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes red complexion, purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

SWIFT SPECIFIC COMPANY, ATLANTA, GA.

ANAL-MIDY

I need my Capsules are superior to Balsam of Capivi, Cubebs or Injections and CURE IN 48 HOURS the same diseases without inconvenience.

SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Special to The Journal. Permanent Headquarters of the Modern Brotherhood of America. Special to The Journal. Sioux Falls, S. D., Oct. 18.—Steps were taken at a special meeting of the city council last evening to prepare to meet the successful conclusion Sioux Falls headquarters for the permanent headquarters of the head offices of the Modern Brotherhood of America. The present headquarters of this organization is at Tipton, Iowa, but they are not satisfactory, and at a meeting of the grade lodge, which will be held at Sioux City in the near future, it is likely that decisive action will be taken.

An application for the organization of a new lodge of Elks at Lead, in the Black Hills, has been received by H. H. Keith of this city, district deputy exalted ruler for the Elks of South Dakota.

The probate court has just closed a case which has been pending for over twenty years. Peter Beggs was burned to death by a prairie fire in the summer of 1881. In the following October a son was born, and it was not possible to close the affairs of the estate until this son became of age. He was 21 years old this week, and the heirs appear before County Judge Bailey for a division of the estate.

Swimming Hole in the River

Every time a Minneapolis physician goes to St. Paul, he returns with an apprehension of the fact that although Minneapolis has about 75,000 more people than her twin brother down the river, she is a bit better. In other words, the little brother, St. Paul, Dr. O'Hara's public bath, has a cleaner face than Sister Minne.

Dr. F. A. Dunsmoor is one of the local physicians who takes a deep interest in the institutions known as public baths. With a river flowing through the town he cannot understand why it is that Minneapolis cannot provide bathing facilities as well as little St. Paul.

"Why not make a swimming park of the river for a long distance down stream?" inquires the doctor. "Accommodations for thousands of bathers could be established cheaply. The water would be free. Dressing rooms for the boys dug out of the sand rock would not be expensive. There is really no reason why the river could not be utilized by everybody, men and women alike. The objection that bathers in the water do not look nice, I might answer that there are a good many things in Minneapolis which do not look well in the city. The view, besides, what harm is there in children, or grown people, too, for that matter, bathing in the river, in decent attire? Bathing suits could be provided at trifling expense. The objection that it could be settled in short order if we would only take hold of it in the right spirit."

Dr. Dunsmoor as well as other prominent physicians, has heard about the Kimball Bros. natatorium, a swimming hole at Parsons, Kan., originally built by four boys for their own use. The institution has been in operation four years, and was the direct result of paternal interference.

NO ABSOLUTE RIGHT Father's Claim on Children Defined by Supreme Court.

provision of all streets and public grounds within their limits, invest the authorities with power to levy and collect taxes to keep and maintain the same repair and from this follows the duty and obligation to do so. The court takes judicial notice of this statutory duty and it is not necessary to plead or prove the statutes.

Second—It is held in this action, that it is not an absolute right, and in fact, the defendant was incorporated as a village under the general statutes of the state.

Third—To be effectual as a notice to the corporation, the incorporation must be given by the village recorder, as custodian of the records of the village, and the notice must be served upon that office, or place of business, the official business pertaining to its office. It is held in this case that the evidence is sufficient to justify a finding of a proper notice of this action, in effect, being served, it is immaterial, in so far as the right of recovery against the municipality is concerned, whether the notice was presented to the village council for their action, or not.

Fifth—Evidence examined and considered, and held to sustain the verdict of the jury. Order affirmed.—Brown, J.

Big Stone County.

S. W. Smith, respondent, vs. Bert Ricker, appellant.—Syllabus: At the beginning of the term this cause was set down for oral argument, at the date of which appellant properly submitted it upon briefs, but respondent failed to file or submit briefs and failed to appear. The order of the trial court is reversed for the reason that respondent has failed to comply with court rules.—Lewis, J.

FOR HALL OF FAME

Nomination of Genin Opposed by Bishop Shanley.

REASONS NOT YET MADE KNOWN

Controversy May Stir All Flickertaileds as the Pioneer Priest Has Friends.

Special to The Journal. Bismarck, N. D., Oct. 18.—Nominations for the hall of fame at the forthcoming St. Louis exposition are exciting much comment and some controversy through the state. Originally the names of former Governor and United States Senator Gilbert A. Pierce and Father J. M. B. Genin, of early Catholic priests, were sent in. Afterward the name of Pierce was withdrawn for the reason that he was not, strictly speaking, one of the pioneers, and the name of Colonel William Thompson, for 40 or 60 years a pioneer of Illinois, Iowa and Dakota was substituted. The name of Father Genin was allowed to stand.

On a recent trip to Bismarck, Bishop Shanley, head of the Catholic church in the state, gave out an interview stating that there were many and good reasons why Father Genin should not be honored in this manner. While nothing directly was said against Genin, the inference was that he was unworthy of the place.

Genin was an early Catholic missionary, and did long service among the Indian tribes. He has many friends who seek for him this recognition of what they claim he has deserved of the state through his pioneer work. When he died he left manuscript covering his work among the Indians, and it is the intention of his friends to have this published. What objections the head of the church in the state has to his preference are not known, but they are presumed to be based upon some ecclesiastical shortcomings, which his friends claim can be satisfactorily explained. An ardent controversy is looked for.

Other suggestions that have been made for the hall of fame are Bishop Marty, another Catholic pioneer, and Enoch Stutsman, a pioneer whom Stutsman county was named after.

THRESHING RESUMED

Not an Idle Man in the Jamestown, N. D., Country.

A KICK ON POPE

Several Bonds Said to Have Been Arbitrarily Rejected.

Special to The Journal. St. Cloud, Minn., Oct. 18.—Stearns county officials who come in contact with General Pope, public examiner, are losing patience. The latest evidence of his inclination to be a quibbler on minor points is his rejection because of technicalities of several of the bonds given by Stearns county banking institutions as security for public funds. The bonds which failed are identical copies of those which have been in use by the county for years and which have heretofore met with the approval of Deputy Examiner Koerner, who has all along had jurisdiction of Stearns county matters. New bonds can and probably will be furnished but it will impose a hardship on the bankers for which there appears to be no warrant.

Factory for Fergus Falls.

Special to The Journal. Fergus Falls, Minn., Oct. 18.—L. S. Blood arrived from St. Cloud with two car-loads of broom corn to-day and will open a broom factory in this city at once.—Papers were filed in the United States court in a case brought by the Industrial Trust company, of Providence, R. I., against the city of St. Cloud, for \$4,025, for water rentals. The plant is in the hands of a receiver, but the Industrial Trust company claims to be the legitimate successor of the St. Cloud Waterworks company, and as such claims the right to collect rentals.—Creditors of the Farmers' Elevator Association, of Sisseton, Minn., filed a petition in the United States court to-day, asking that the association be declared bankrupt and a receiver appointed. The petition alleges that the association owes debts to the extent of over \$11,600. The value of the assets is not stated.

DEADWOOD WAS EASY

Business Men Twice Swindled by a Female Imposter.

Special to The Journal. Deadwood, S. D., Oct. 18.—A few days ago a young woman giving her name as Miss Gill, and representing herself as a head nurse in the Boer hospital in Johannesburg, came to this city, and by her smooth tongue and nifty manners, succeeded in victimizing leading business men. To-day she is missing and the men who were "baited" are looking for her. It has been discovered she is the same woman who visited the Hills a few months ago and went by the name of Laura Carns, the Wyoming cattle queen. At that time she succeeded in getting possession of clothing and money and disappeared without having settled her bills. It was shown she was not the real Laura Carns, but an imposter, and it is believed that the "Boer nurse" is the same person.

Cane Which Recalls a Crime

Sioux Falls, S. D., Oct. 18.—W. H. Heiss, Sr., is the owner of a highly-prized memento. It is a cane, which was presented to him by Dr. Munn, of Virginia, which was arrested by the federal authorities after the assassination of President Lincoln because he dressed the injured leg of John Wilkes Booth while the assassin was attempting to escape. It will be remembered that Dr. Munn was sentenced to banishment on Dry Tortugas, and some years later, while Mr. Heiss was stationed in Florida, he became acquainted with the officers in charge of the prisoners at Tortugas, and Dr. Munn made him the cane, which he carries to this day. The doctor, who was pardoned when his innocence was established, has been dead several years.
