PNEUMO-VIBRATION

A Positive and Permanent Cure for Deafness and Head Noise.

Another Cured Patient Tells Why People Should Treat with the Northwestern Infirmary's Specialists.

The success attending the treatment of all diseases of the eye, ear, nose, throat and respiratory organs by the Northwestern Infirmary's specialists is being heralded by the many patients they are successfully treating. Not being of the "surge-on" class, they have secured the confidence of the public, and their offices are thronged daily. It is a positive fact persons who have been afflicted, people who have "doctored" for years and who never received any benefit are being treated with the greatest success. Here is more evidence of their skillful and scientific treatment.

Hollis Putnam, residing with his parents at 3440 Colfax avenue, N. W., while working with his father, a millwright at the Pillsbury mill, contracted a trouble that had not been for a timely discovery, would in all probability have proved fatal, tells the readers of the Journal all about it. It is interesting. Here is his signed statement:

"I had been troubled with weak lungs for quite a while. Had a soreness over the chest, with sharp, shooting pains. Coughed quite often and hard, raising a great deal of mucus, which seemed to stick; it hurt me to raise it. My nose was also continually stopped up and I would blow scabs out of it that smelled bad. My breath was offensive. My appetite poor and food had to be very tender in order for me to relish it. Read in The Journal about the Northwestern Infirmary Specialists. I visited their offices, was examined and treated. Their medicines and treatment seemed to take right hold, and I began to improve at once. My appetite returned. The pains left my chest. The cough stopped and my nose is perfectly clear, so I can breathe through it freely. I believe better than ever before."

HOLLIS PUTNAM, 3440 Colfax av. N. W. Mr. Putnam was suffering from a severe case of bronchial catarrh, which would have eventually terminated in consumption. He is only one of a great many that are similarly affected. Mr. Putnam displayed good judgment in beginning treatment in time.

THEIR NEW TREATMENT
For the cure of deafness and head noises is original with them, and is not used by any other physician. Pneumo-Vibration is the greatest discovery in the advance of modern medical profession. It cures where everything else fails.

NO FAILURES
In the treatment of diseases of the eye. Their great absorption method cures cataracts, granulated lids, removes cataracts, films and restores weak and falling sight. Cross eyes cured without the use of the knife.

TREATMENT FOR CATARRH
In the treatment of all forms of catarrhal trouble the physicians of the Northwestern Infirmary have no equal. Their methods are far in advance of the usual. Their treatment is practical and scientific. Their appliances are modern and the first of the kind ever made.

REFERENCES.
We refer, by permission, to the following named gentlemen, who have been successfully treated: Iver I. Aker, 1500 E. Twentieth St.; Thomas Roberts, Soldiers' Home; Thomas Robinson, 17 Western Ave.

HOME TREATMENT.
No one is deprived of the benefits of the Northwestern Infirmary treatment because living at a distance from the office. The same uniform success attending treatment in their offices is found in their home treatment of patients by mail. If you live out of the city, write for symptom blank, etc. Chicago, Ill. Be careful attention as though you visited the Infirmary's physicians.
