BUCKS BRING A SUIT
They Want a Share of Chief Mon-si-moh's Estate.
LANDS AT THIEF RIVER FALLS
Innocent Purchasers Will Find Themselves Dispossessed If Claim is Substantiated.
Special to The Journal.
Pergus Falls, Minn., Oct. 30.—Papers were filed in the United States court in this city to-day in an action brought by Bucks, the son of Chief Mon-si-moh, against E. C. Eshelby, J. P. and Patrick Meehan and fifteen other defendants, to recover possession of 633 acres of land in the outskirts of Thief River Falls.
It seems that in 1862 the government made a treaty with Mon-si-moh, who was then chief of the Chippewas, guaranteeing him possession of this and other pieces of land. Mon-si-moh died about twenty-nine years ago and some years later his eldest son, Men-si-moh, Jr., sold the tract now in dispute to the Meehans and two or three others. The Meehans platted the tract and sold it in lots, several of which have been built upon and have become valuable. The plaintiffs in the present suit are younger sons of old Chief Mon-si-moh, who claim that their eldest brother had no more right to the property than they had, and demand that they be given five-sixths of it.
The Indians are not citizens of the United States, but are still governed by their tribal laws and customs, and the question to be decided in the present suit is whether the eldest son of a Chippewa chief was his sole heir, or whether, by tribal law, he was expected to divide with his brothers. There seems to be no lack of evidence to support both contentions, although a case, somewhat similar in nature, was carried to the supreme court some years ago and it was held that the eldest son was sole heir.
Halvor Stearnson of Crookston is bringing the present action, and the defendants are the Meehans and others who have entered into a "corrupt agreement with the Indians" whereby he is to have half of any land which he recovers.
FOUND DEAD IN BED
Cass Lake Man Was Apparently in Good Health When He Retired.
Special to The Journal.
Cass Lake, Minn., Oct. 30.—Levi Brouillette was found dead in his bed by his wife at 3 o'clock this morning. He was employed as a teamster at the Neils saw mill. He entertained visitors at his home till 10:30 in the evening, and his wife retiring shortly after that hour. Mrs. Brouillette awoke at about 3 in the morning and addressed her husband. Receiving no response, she arose, lit the lamp and found that her husband was cold in death. It will probably require an autopsy to ascertain the cause. Brouillette has not been ill of late, and retired in the best of health. He came here last spring with his family from Red Lake Falls.
A freight train on the Great Northern was wrecked at Selskie, the first station west of Postville, about 10 miles here, yesterday. No one was injured. Traffic is delayed.
MUST BE EXAMINED
New Insurance Companies Strike a Snag in South Dakota.
Special to The Journal.
Pierre, S. D., Oct. 30.—The indications are that under the ruling of Insurance Commissioner Johnson new insurance companies will secure authority to do business in this state. Applications are numerous, and all are informed they must be willing to stand the test of an examination of the condition of their finances before the desired authority can be granted. This has a deterring effect on many of the companies applying.
The city of Pierre has a few weeks ago a woman who registers as Mrs. Richardson of Minneapolis, but who claims to be "Calamity Jane" of old-time fame. She was a resident of this city about twenty years ago, and has wandered over about all the northwest since that time. While most of the old-time residents say she is the same woman who was the noted character of early days, others declare the original is dead, and that the woman who is here now is not the one of former days.
LOCKHART'S ESTATE
Will of the Late Fargona Filed for Probate.
Special to The Journal.
Fargo, N. D., Oct. 30.—The will of the late E. Lockhart has been filed for probate. The estate is valued at about \$50,000. Under the provisions of the will all the property was left to the widow, and Eliza Y. Egbert, who has been Mrs. Lockhart's confidential clerk for years, was made executrix without bonds. The only heirs are Mrs. Lockhart and her 10-month-old daughter. Mrs. Lockhart was formerly Mrs. Dr. Turner and her maiden name was Eastman. She is a graduate of the medical department of the Minnesota university and has relatives in Minneapolis, including a sister, Mrs. Varco. Anxiety is felt in some sections of the state over the small amount of flat plowing that has been done. Last summer there were evidences of grasshoppers in many sections, especially in the valley, and it is feared that the pests have deposited eggs which will hatch next summer and cause untold damage unless the eggs are plowed this fall and the eggs thrown up to the surface to be frozen.

There Is a Great Demand
For some practical means of educating the masses. Our public schools, colleges and universities are doing a great work, but nevertheless only four per cent of young people who enter the public school ever reach the high school, and less than two per cent of those who enter the high school ever receive a college or university training. These statistics are startling but true. They go to show, however, the necessity of some practical means of educating the masses that will not interfere with their bread-earning ability. The Journal, instead of publishing lengthy editorials upon the necessity of a more extended system of education, proposes to deal with the matter in a more practical way. It cannot send all who desire an education to colleges, but this is what it proposes to do. It proposes to send the college to the people in the form of "The Minneapolis Journal's Home University League."
Each course is in charge of a specialist, and the entire "HOME UNIVERSITY LEAGUE" is under the supervision of Prof. John N. Greer. This is the finest educational proposition ever offered in America, and is absolutely honest and fair in every particular.

ON HIS DOCTOR'S ADVICE
Mr. James Riley, When Seized with Grip, Took Duffy's Pure Malt Whiskey, Which Cured Him Years Before—It Cured the Grip Speedily.
Camden, N. J., April 10, 1901.
Gentlemen—Some years ago I used your Duffy's Pure Malt Whiskey for nervous dyspepsia with very beneficial results. It cured me completely and toned up my system. I gained forty pounds in a very short time, and felt vigorous and hearty.
Last winter I was taken with grip in its severest form. I took Duffy's Pure Malt Whiskey, which my physician said was the only remedy to use to regain my strength. I began to mend at once, and in a few days health and strength were fully recovered. Words fail me in which to express my gratitude for this sterling remedy.
I want to say to you that I shall be glad to tell those who are suffering from any disease or weakness that your medicine has done for me.
My wife has taken your medicine for dyspepsia with the best of results.
Yours truly,
—JAMES RILEY.
