CHANGE OF LIFE.

Some Sensible Advice to Women by Mrs. E. Sailer.

"DEAR MRS. PINKHAM—When I passed through what is known as 'change of life,' I had two years' suffering—sudden heat, and as quick chill would pass over me; my appetite was variable and I never could tell for

MRS. E. SAILER, President German Relief Association, Los Angeles, Cal.

a day at a time how I would feel the next day. Five bottles of Lydia E. Pinkham's Vegetable Compound changed all that, my days became days of health, and I have enjoyed every day since—now six years.

"We have used considerable of your Vegetable Compound in our charitable work, as we find that to restore a poor mother to health so she can support herself and those dependent upon her, if such there be, is truer charity than to give other aid. You have my hearty endorsement, for you have proven yourself a true friend to suffering women."—Mrs. E. Sailer, 756 1/2 Hill St., Los Angeles, Cal.—\$5000 forfeit if above statement is not genuine.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for no other has had such great experience—her address is Lynn, Mass., and her advice free—if you are sick write her—you are foolish if you don't.

OUR DAILY BREAD

Valuable Suggestions for the Kitchen and Dining-room.

By KATHERINE KURTZ

WHAT CAN BE DONE WITH YOLKS OF EGGS

Many a careful cook often hesitates to use such recipes as call for the whites of eggs only; as she deprecates what she may consider the inevitable loss of the yolks unless she knows many convenient ways of utilizing them while they are in good condition.

In households where there is a variety of cooking done, there are so many demands for the yolks only that they are in more or less constant demand. The yolks, or yolks and yolks, are used in many ways. If but one yolk is left and there is any possibility of its being wasted, add it to any white sauce you are making; one more added will not make any difference in the taste, but it will make the sauce richer without materially affecting its proportions.

The yolk of one egg may be beaten and used for dipping small fish that are to be crumbed and rolled in meat, or beaten up with a little milk, used to brush the top of dishes to be browned in the oven.

Golden Sauce.

Beat the yolks of two eggs with one cup of sugar until creamy. Then set the saucepan over boiling water and beat rapidly and steadily while adding three tablespoons of boiling water. When the sauce is thick and foamy remove it from the fire and add the juice of one lemon and a little grated nutmeg. This sauce may be used for fish or a dessert.

Another Custard Sauce.

Put one pint of rich milk in a double boiler to scald. Beat four tablespoons of granulated sugar with the yolks of three eggs. When very light, pour the hot milk gradually into the sugar and eggs, beating constantly. This prevents the eggs curdling or flaking as they often do when they are poured into the hot cream or milk. Beat the mixture over the hot water until it thickens and will coat a silver knife. Remove at once from the fire, or the eggs will cook too long. When slightly cooled, add a teaspoonful of vanilla. Serve cold. A few whole cloves or a stick of cinnamon may be scalded in the milk to give a delicate and different flavor to the sauce. If you have only two egg yolks, use a tablespoon of corn starch to thicken with the egg and sugar. This sauce with the spice flavoring is nice served with apple desserts.

Chocolate Sauce.

Moisten four tablespoons of grated chocolate or breakfast cocoa in a little hot milk; then stir into half a pint of scalded milk. Add the yolks of two eggs, beat with a cup of sugar beaten together until smooth. Then add half a cup of good cream and whip briskly until the sauce is creamy and light. Add a teaspoonful of vanilla after the sauce has cooled. From the time the sauce is made had no opportunity of giving them—traces!

Bohemian Creams.

Disolve half of a package of gelatine in a cup of cold water. Whip one pint of good cream very stiff and drain. Put another pint of cream or rich milk into double boiler. Beat four level tablespoons of sugar with four egg yolks and add to the hot cream or milk. Beat the mixture and stir steadily over hot water until it begins to thicken. Take from the fire, and when slightly cool, flavor with a teaspoonful of vanilla extract. Set in ice-cold water or a pan of cracked ice and stir until the mixture begins to thicken; then stir the whipped cream in carefully. Turn into a wet mold and put at once in a very cold place to set.

Orange Iceing.

This is one of the delectable and most delicious icings and easily made.

Put the yolk of one egg into a bowl and beat until light colored; then add the strained liquid from one orange and mix thoroughly. Add granulated sugar, enough to make a stiff paste, and mix well. It will stand if it cannot be used at once; keep it covered until needed. As the icing is uncoked, except by the action of the acid in the orange juice, it will not keep as long as a boiled icing.

Snow Balls.

Put a quart of milk in a double boiler to scald, reserving half a cup; with this moisten half a cup of corn starch and add it to the hot milk with three egg yolks beaten light with one-third of a cup of granulated sugar and two level tablespoons of butter. Cook until it thickens, about five minutes, stirring all the time. Flavor with vanilla, orange juice and shredded coconut, thickly over them. Serve with sweet, flavored cream, made by putting the cream in double boiler; sweetening to taste and stirring until the sugar is dissolved and the cream thickly over them. Add any fruit juice desired when sauce is cold.

Potato Balls.

This is a nice way to warm over cold mashed potatoes. If the potatoes are quite dry and stiff add a few tablespoons of hot cream; place in a saucepan; add the beaten yolk of an egg, one to two cups of potato; work it so that it is all you have; whip the potatoes over the fire until the egg is thoroughly mixed and potatoes are hot. When cold

Coffee and Egg.
A nourishing drink may be made by adding one cup of strong coffee to half a cup of milk and a little sugar. Let it just come to boiling point, then pour over the well-beaten yolk of an egg. Serve at once.

Hard Boiled Eggs.
When these are left over, which is very seldom, as most people prefer their breakfast eggs soft, they can be used in many ways, especially for garnishing salads and adding to soups. For the former, either slice the yolks or separate whites and yolks, rub the yolks through a sieve and sprinkle over the salad, and shred the whites, using them for a border. In combination with cold greens they will make a very pretty dish.

A dish of crisp green peas may be made into a picture salad with the aid of one hard-boiled egg. When the peas are washed, picked over and dried, sprinkle it over well with a plain French dressing, cut a hard-boiled egg in half, remove the yolk without breaking the white; then cut the two divisions of the white to represent the petals of a water lily; arrange them in circles on top of the peas; rub the yolks through a sieve and sprinkle over the salad, and shred the whites, using them for a border. In combination with cold greens they will make a very pretty dish.

Special to The Journal.
Milwaukee, Nov. 20.—Theodore and Henry Kerstens, the bankrupt Chilton bankers, to-day filed in the United States district court their petition which provides for a settlement with their creditors on the basis of 90 cents on the dollar, 20 per cent of which is to be paid in cash and the remainder in payments ranging over a period of five years.

The petitioners offer to give their notes, bearing 3 per cent interest, and as security to execute a trust deed of all their property to E. J. Mooney of Chilton. They also agree to pay the expense arising out of litigation for the enforcement of the claims of the bank against its debtors.

SAY HE WAS FAITHLESS

THREE WOMEN MAKE CHARGES

Against Henry Peterson—He Won Their Love and Their Money.

They Say.

Henry Peterson, alias Harry Johnson, Anderson, etc., is charged by three women with faithlessness. According to his alleged victims it seems that Henry is quite a ladies' man, and besides securing the affections of a widow with four children and two other women, persuaded them to let him take charge of their money also.

He was up before Judge Dickinson of the municipal court on complaint of Hilte Carlén, who says Peterson secured \$100 from her under false pretenses. Waiving examination, Peterson was held to the grand jury, bail being fixed at \$500.

The widow in the case says Peterson stayed with her and her children for some time and represented to her that he had a farm near the city; that she let him have \$275 to fix up his place, and later received a check for \$100 which she asked Peterson to get cashed for her. He took the money, she says, and returned some days later, telling her that as she did not need the money he had used it to fix up his house, suggesting that they pack up her furniture and move it to the farm, after which they would get married. She says she acquiesced and they packed everything up but a small oil stove and a few bed clothes, Peterson taking charge of the moving and hauling the household goods away.

On a day or two, she says, he returned with a hand truck story to the effect that after he had the goods in his house the building caught fire and burned to the ground. The woman says she believed him, and Peterson secured the cash. All of the money belonged to her and the children the evening he returned, but she learned he had been deceiving her, and that he had no farm and had sold the furniture and appropriated the cash.

The children and now the poor woman is bereft of both money and household goods. She will assist Miss Carlén to prosecute. The third woman interested gave Peterson no money.

Abundance of Moisture Predicted.

Special to The Journal.
Miller, S. D., Nov. 20.—Salomon Cotton, local weather seer, has observed the movements of muskrats for twenty years, and has always found them accurate as weather guides. He takes his cue of future weather by the style and shape of the houses that the rats build in this time. This time they have erected tall dwellings, with windows or openings in the top, which is a sure sign of high water next spring, meaning, of course, much snow or rain in the meantime.

From the Pen of a Friend.

The following short poem, originally from Longfellow, was sent us by a friend in the southern part of the state, who evidently appreciates our efforts to help the "average man."

There is a rooper, whose name is Death,
And with his sickle keen,
He reaps the bearded grain at a breath
And the flowers that grow between;
But when he needs a seed or lass,
Whose eyes are calm and clear,
He says: "No use, the wretch, alas,
Drinks 'Golden Grain Belt' beer."

His men know from experience that "Golden Grain Belt" beer is pure and healthful. You will find that it rests the nerves and makes the blood pure and rich. If you haven't a case at home, telephone 456 Main to-day.

Consumption and all diseases of the throat and lungs. We have thousands of grateful patients who write us they have been cured after they were given up by the doctors.

After being given up by several of our best physicians, having lung trouble, and pronounced a case of incurable consumption, my sister started the use of Duffy's Pure Malt Whiskey. She has taken three bottles, and is so much improved in strength that she is going to the hospital.
