The Plymouth

Clothing for Young Men.

The "Plymouth" is particularly a young man's store; the reason being that this is the particular age, the age when style and fit is understood.

We enjoy dealing with this critical age, for the more critical the more they appreciate fine clothing. Most clothiers neglect this difficult-to-fit age. They try to put Youths' Clothing on them or to fit them from their Men's Clothing stock. Either attempt results in failure, for Youths' Clothing is too gay in its fabrics, while Men's Clothing is too conservative in style.

Young Men's Suits, \$15.

At this price you get the highest grade of workmanship and the best possible fit in the most fashionable suits.

The fabrics so stylish this year are the rough effects in golden brown, olives and pastels, either with the invisible stripe or indistinct overplaid. These suits are hand tailored throughout. Price \$15.

The Plymouth Clothing House, Sixth and Nicollet.

Young Men's Overcoats, \$15.

This season the young men have adopted the long overcoat either with or without the yoke. Our "Fullmore" overcoat is cut 48 inches long and is very stylish in the fall flare of its skirt. At this price, \$15, we show a great many different lines of fancy fabrics in rough effects, also the plain grays and oxfords. These overcoats are hand tailored throughout. Price \$15.

FATE.

It is very convenient to attribute the disasters which overtake us to fate. But for the most part man is the arbiter of his own fortunes. Business men are struck down suddenly as by lightning. The verdict is generally "heart failure." His heart was weak. It was fate for him to meet this end. But if we went behind the "weak" heart we should find a "weak" stomach, probably, and back of the weak stomach is careless eating at irregular hours.

When the stomach is diseased the organs depending on the stomach for nutrition are starved. Starvation means weakness of the body and its organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. When these organs are cured, diseases of heart, liver, lungs and kidneys, caused by the diseased stomach, are cured also.

SULLY, S. D. OUTLAW

Professional Horse and Cattle Rustler and Occasional Murderer.

HE'S NOW FAST IN OACOMA JAIL

Failed to "fix" Pete Waugh, Who Thereupon Ambushed Him, With the Help of Officers.

Special to The Journal. Chamberlain, S. D., Nov. 21.—Jack Sully, for twenty years the most notorious outlaw of South Dakota, accused of murdering seven men, leader of the Lyman county gang of robbers, horse rustler, cattle stealer and squaw man, has been arrested after many unsuccessful efforts by United States marshals, sheriffs, constables, detectives and posse, and is in jail.

Sully came to South Dakota in the pioneer days, without a past. He never told where he came from and no one ever dared to ask him. He gathered about him some twenty or twenty-five confederates, and entrenched himself on the highest hill in all Gregory county. The other members of the gang were about him, and the most of them had telescopes. Approaching parties were seen and warning given when they were miles away, and when they came to Jack and his crew, it was invariably deserted. Smaller parties, even hunters, berry pickers and tourists, were warned by the ping of bullets in the grass before them and beat hasty retreat.

Sully and his gang stole cattle systematically, and posed as "gentlemen" thieves. Cattle were taken and sold through agents to third persons. The agent was furnished a commission, and Sully and his crowd pocketed the rest. They seldom took all of any one's cattle, unless they "made a fuss," when a second visit was invariably made, and every animal driven away. Sully protected himself by taking quick and deadly revenge upon all who attempted to interfere with him. It was in this way that he killed six different stock raisers about his territory, who tried to make trouble for him. His own father was killed in a quarrel over cattle. It is understood.

It is estimated that Sully and his gang have stolen 50,000 cattle and horses. He is dreaded and feared all over the southern part of South Dakota. He is 50 years of age, stance in build, irregular but resolute features. No one has ever dared to even talk about him for fear they would find their house in ashes, or else feel the clip of a bullet.

Sully made the mistake of his life when he swore vengeance on Pete Waugh. Waugh was instrumental in recovering cattle stolen by Sully and in the hands of an innocent purchaser, thus costing Sully his part of the profit. So he and a confederate, one Donkey, started a dance given by Waugh for the deliberate purpose of "fixin'" him. The shot took effect in Waugh's elbow, instead of his heart, and Waugh, in fear of his life, with the assistance of Sheriff Taylor and a deputy laid in wait for Sully and captured him.

On Monday, Blackbird, one of Sully's lieutenants, was captured. It has been always supposed that Blackbird was a half-breed, but now it is found he is a Norwegian. All his family was killed in the Spirit Lake massacre of 1852. A buck was about to brain the 2-year-old child, when a squaw, Tobacco Mouth, interfered and adopted him. The suns and snows of half a century darkened the visage of the Norwegian, and he was always supposed to be a half-breed.

The arrest of Sully and Blackbird, who were the brains of the gang, is expected to break it up. Sully is now hustling for bail, and there is little doubt that he will get it, and go to the rear of him. State's Attorney Milner says the evidence against Sully on the charge of attempting to kill Waugh, ought to send him to the penitentiary. But if not, there are piecemeal reports that he will keep him in jail the rest of his life.

SEEKING A DIVORCE, TOO

MRS. PAULINE CARTER IN S. DAK.

Cousin of Mrs. Harrison-Eastman and Taken for the Latter in Sioux City.

Special to The Journal. Sioux Falls, S. D., Nov. 21.—Mrs. Pauline G. Carter, formerly of Georgia, but more recently of New York city, who arrived a day or two ago from Hot Springs, S. D., was the victim of a peculiar case of mistaken identity. She is in South Dakota for a divorce, and as she had resided in the western part of the state for some months before coming to Sioux Falls, it is likely that the required six months' period of residence has nearly expired and that she will be obliged to return to her husband, Andrew Carter, will soon be filed here.

When Mrs. Carter passed through Sioux City, Iowa, en route to Sioux Falls, she was mistaken for Mrs. Sophie Harrison Eastman, sister of Mayor Carter Harrison of Chicago, who a little over a week ago was granted a divorce at Des Moines. Mrs. Harrison Eastman should come to Sioux Falls to be explained, and when the supposed sister of Mayor Harrison engaged rooms at a Sioux Falls hotel and registered at "Mrs. G. Carter and child," she thought she had acted a strong desire to conceal the object of her visit to Sioux Falls. Mrs. Carter is a cousin of Mayor Harrison, William Preston Harrison and Mrs. Eastman, and during the residence of the latter at Hot Springs, pending the termination of her divorce suit, was her constant companion.

AIMED AT OSTEOPATHY Old School Physicians in Iowa Move for Stringent Legislation.

Special to The Journal. Des Moines, Iowa, Nov. 21.—The state board of health has appointed a legislative committee which will have charge of all legislation sought by the board the coming winter. One of the principal matters which the board wants is a stringent measure to regulate the practice of osteopathy. In fact, the old school physicians would like to prohibit osteopathic practice altogether, but they hardly expect to accomplish this. They will be satisfied to make the requirements for a certificate to practice as an osteopathist as stringent as the requirements now are for regular physicians.

Pharmacists of the state are opposed to the present state law that permits graduates of pharmaceutical schools to obtain licenses without an examination and without putting in a term of years of actual work in drug stores. They have been agitating for a change in the law that will require all persons to be examined and that will call for the serving of a reasonable term in practical work in the drug store.

"I AM THY FATHER'S GHOST" Spirit Figuring in a St. Louis Divorce Case.

New York Sun Special Service. St. Louis, Nov. 21.—It has developed that the spirit of Mrs. Mollie L. Wood's father is at the bottom of a divorce granted Granville M. Woods here in the circuit court. According to the wife, her spirit father told her that the husband was a gas. Her lawyer and adviser told her to separate from him. Mr. Woods says that he tried to convince his wife that the spirits were not telling her the truth, but that she gave him the preference in regard and refused to believe his denials and protestations.

QUEEN KILLED

Conflicting and Unconfirmed Reports About Draga of Serbia.

Vienna, Nov. 21.—A report has reached Vienna that Queen Draga has been shot at in the streets of Belgrade.

The Neue Freie Presse and other Vienna papers publish various rumors, one declaring that the Serbian queen was assassinated, another that she was wounded, and a third that she committed suicide.

Reports from other sources deny the statement that Queen Draga was killed, and assert that the rumor of her death was caused by a hysterical scene with King Alexander.

There is no reliable information on the subject here, but it is generally believed that a serious crisis exists in Belgrade.

Paris, Nov. 21.—According to a dispatch from Vienna to the Echo de Paris, an attempt has been made to assassinate the Queen of Serbia, three shots having been fired at her while she was driving near Semlin.

A dispatch to the same paper from Belgrade gives a rumor that the queen attempted suicide at Semlin.

Vienna, Nov. 21.—An official Serbian statement declares there is absolutely no foundation in the reports that Queen Draga has been shot at or that she has committed suicide.

IT HELPS TRADE

Washington, Nov. 21.—The German view of American administration in the Philippines is set out in a circular recently issued by the German central bureau for the preparation of commercial treaties, a copy of which has been forwarded to the state department by Deputy Minister General Hanauer, at Frankfurt, under date of Oct. 26. The circular says:

"Although the pacification of the Philippine archipelago has not as yet been fully established, the accounts of its economic development are so favorable that it cannot be too strongly urged upon German exporters to give particular attention to this group of islands."

"The American occupation, so far as the economic betterment of the country is concerned, has already achieved extraordinary success."

"In 1894, which was the last year of peaceful condition while under Spanish rule, the Philippine imports reached \$28,500,000."

"Under American rule, in spite of the continued insurrection of the natives, the imports increased in 1899 to \$40,900,000, and in 1900 to \$55,500,000, and the exports to \$38,600,000 and \$33,400,000, respectively. Military supplies are not included in the figures."

Used a Noose of Barbed Wire

Special to The Journal. Milwaukee, Nov. 21.—Using a noose made of barbed wire, Joseph Regner, a Phillips, (Wis.), farmer committed suicide to-day by hanging himself in the woods west of Milwaukee. Regner had been a patient at McBride's sanatorium for six weeks, and was to have been discharged to-day by the authorities. He evaded his attendant, and his whereabouts were not discovered until his lifeless body was found by Christopher Ferdinand, who was walking through the woods in search of rabbits. Several years ago Regner suffered from an attack of sunstroke and became deranged, but his condition was not considered serious. He leaves a widow and family of six children.

Swim Through Geysers of Fire

New York Sun Special Service. Pittsburgh, Pa., Nov. 21.—Swimming through spouting flames of gas was the experience of twelve men and a woman on a small boat Vigilant, which was burned to the water's edge in the Monongahela river at Clairton. The boat was moored over a gas main which crosses the river at that point. A break in the main caused gas to bubble up through the water and ignite from the fires under the steamer's boiler. There was an explosion and the boat was enveloped in fire. The members of the crew and the woman jumped into the river and swam through the geysers of fire. All reached shore in safety, badly scorched or burned.
