HARMONY AND PLUMS

Both Sought by North Dakotans Who Conferred in St. Paul

McKENZIE HAS A NICE PROBLEM

There Has Been Some Distrustance Among His Followers Which He Seeks to Adjust.

More harmony among republican politicians on the Missouri slope was one of the principal results sought in the conference of North Dakota republican workers at the Merchants' hotel in St. Paul yesterday. National Committeeman Alexander McKenzie had called to his country table the men who have rallied around his standard for years and through cementing the Missouri slope counties into one political unit have kept McKenzie's political prestige in North Dakota at par and enabled the slope to rule in North Dakota political conventions. Congressman Tom Marshall was in the party, but he took no part in the inner councils. He was the only way to Washington to attend the coming session of congress. The rest were old-time friends of McKenzie and men who have done good work under his standard in past years. State Senator George Little, M. H. Jewell, editor of the Bismarck Tribune and secretary of the state republican committee; A. C. McGilivray, receiver of the Bismarck land office; ex-Mayor Patterson of Bismarck and State Secretary A. Simpson of Dickinson, composed the party from the slope. United States Marshal John Haggart of Fargo and Harry Oliver of Lakota were also present. Mr. Haggart is one of the principal Cass county supporters of B. F. Spaulding of Fargo for congress. McKenzie and other slope politicians are making preparations for the next tests of next year. The task of uniting his quarring forces is the work confronting the big manager. Mayor Patterson on one side and Secretary Jewell and Senator Little on the other, have been measuring strength in Burling, the home county of McKenzie. This row has spread to the western counties and during the past two months the situation has been getting in shape for the waving of the olive branch. This was the object of the St. Paul gathering. All conferees were there to relate their troubles to the chief, with Haggart and Oliver as an advisory board. The conference was not intended to cover state convention matters beyond getting the slope in shape and during the usual united front in the state convention. Jud Lamour was not in evidence.

A McKenzie Situation.

McKenzie has an opportunity for some clever figuring in North Dakota political contests next year. His main object is to carry the senatorial election for some candidate of his own selection. The two men now in the race, Senator Hansbrough and State Senator C. B. Little, are both earnest allies of the national committee. It is believed that each is to the race to stay and that McKenzie, in order to pick the winner, must harmonize any differences that may exist between the supporters of Hansbrough and those of Little. Judge Cochrane of Grand Forks, the northern part of the state, while Little has been promised the support of several western counties. It was a general opinion that Lamour would be nominated for congress and that the contest for the other place on the congressional ticket would be between Marshall and Spaulding. The candidate Judge Cochrane of Grand Forks for the supreme judgeship was also discussed and the belief expressed that if he succeeded in getting the Grand Forks municipal election and would be made between Lamour, Spaulding and Cochrane, which would include the three big counties in the valley. Mr. Haggart is said to have a desire to keep the senatorial contest of all state convention deals. But he is anxious to keep the republican state organization in the hands of his friends.

Syrup of Figs

The Sale Annually of Millions of Bottles

of Syrup of Figs and the universal satisfaction which it has given attest the fact that it possesses the qualities which commend it to public favor. With the diffusion of knowledge of what a laxative should be and a general understanding of the fact that it should have a truly laxative and beneficial effect and be wholly free from every objectionable quality, or substance, the large and growing demand for

Syrup of Figs

shows that it is destined to supplant the old-time cathartics which were generally injurious and usually disagreeable as well. In Syrup of Figs one finds a true laxative, simple and pleasant to the taste, gentle in its action and beneficial in effect. In the process of manufacture figs are used as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. In order

HERDED AS BEASTS

No Hospital Service or Care for Tama, Iowa, Indians.

DR. LINN PAYS THEM A VISIT

Sick Rolled Up in Foul Blankets and Left to Die—Smallpox Spreading.

Special to The Journal.

Des Moines, Iowa, Nov. 26.—Dr. A. M. Linn, of Des Moines, who was appointed last Thursday by the state board of health as a committee of one to investigate the smallpox ravages among the Tama Indians and to take measures for their relief, made his report to-day. The report shows the Indians are in even worse condition than has hitherto been made known. Practically all of the members of the tribe have had the disease. The few remaining have at last consented to be vaccinated. Thirty-one deaths have taken place and more are expected. Thirty-one patients are dangerously ill, their cases not having reached the crisis. Dr. Linn describes the conditions as pitiable. The sick and well are herded together in poorly ventilated huts. The sick roll themselves in blankets, covering themselves from head to foot and breathing over and over again the foul, poisoned atmosphere.

Indian Agent Malin has vainly endeavored to secure from the federal government money for hospitals, better provisions and care. Up to this time the Indians have had no hospital service. To-day, by order of Governor Shaw, Adjutant General Byers shipped to the reservation two large tents to be used for hospitals. The state has no fund to aid the Indians, but surrounding whites will contribute. A committee has been named by Dr. Linn to look after the situation. The committee consists of the mayors of Tama, Mendota and Montour, with Indian Agent Malin as the chairman.

Smallpox conditions in other parts of the state are becoming alarming. Reports from Blackhawk county to-day showed there were twenty-six families in quarantine for the disease in Poyner township, and seven other cases in other parts of the county.

In Ida county the disease is raging. The Ida Grove schools have closed on account of it.

CAPT. THORPE HERE

Former Minneapolis Newspaper Man Now a Captain of Marines.

Captain George Thorpe of the United States marine corps, was in Minneapolis to-day on his way east. It is four years since Captain Thorpe was in Minneapolis, and the second time since he was falsely reported to have been killed in Greece. He passed through the Santiago campaign in command of the marines on the Yale and since then, except for the last six months he has been on duty at Cavite and along the Pasig bay, Philippine Islands. He is now spending his time at Newport and New York.

Captain Thorpe went to Annapolis in 1894 and was there three years. At the time of the war the president shortened the term for the last year men at Annapolis and Thorpe, with others, was sent into the campaign against Spain. He was brevetted captain in October, 1898, and became a regular captain July 23, 1900. He says that everyone who spends much time in the islands must pass through a fever, or become acclimated. At first the newcomers suffered from dengue, but since that has been eradicated, chills and fever have taken its place. The captain is now on sick leave and is recovering from the process of acclimatization.

Thorpe inquired for Captain Melville Shaw, of Minneapolis. He reports Tom French, formerly on the university football team, as now a lieutenant in the navy and on the Kearsarge at New York. Another football man was R. C. Dewey who is second lieutenant in the marine corps at present on duty in Washington.

MOVE FOR FILTERS

The Lighting Plant Opponents Have a New Scheme.

THEY'LL ASK \$500,000 IN BONDS

It is Their Evident Intention to Disorganize Lighting Forces and Kill the Plan.

Convinced that the movement to submit to the people at the next election the proposal to issue \$300,000 of bonds for the municipal electric lighting plant is pretty sure to be endorsed by the city council at Friday night's meeting, the opponents of the measure in the council have taken a new tack. They will try to head the movement off by pressing the importance of a water filtration system in Minneapolis and insisting that it take the precedence over the electric lighting matter. To that end, they have called a meeting of the special committee having the electric lighting subject in hand for next Friday afternoon for a discussion of bonds on this new account. This committee has charge of both matters.

The new measure calls for submitting to the people a proposal to issue \$500,000 in bonds for the purpose of installing some system of water filtration for the city. The distribution system. The champions of this movement assert that it is much more important that Minneapolis should have a pure water supply and a distribution system capable of getting the water all over the city at all times of the year than that it should embark in the electric lighting business. Now it is out of the question, they say, to expect that two bonding measures of such magnitude can pass at the same election. The water filtration measure is far more important than the other, they contend, inasmuch as it deals with the public health. It must, therefore, take precedence and the advocates of electric lighting must be content to put their project over for another two years.

Aldermen Lane and Peterson are active in the movement to head off the electric lighting plan, and the friends of the General Electric company in the council must be counted upon to rally in full force behind them.

With the water matter out of the question, there is hardly any doubt that the electric lighting plan will pass the council at Friday night's meeting. A careful investigation of the situation has assured its supporters of this fact. But with the new complications the issue is now certain. New combinations become possible, and aldermen who have stood strongly for inaugurating a movement that would tend to keep the city's electric lighting in the hands of the General Electric firm grip on the city lighting will now necessarily have to stop and weigh considerations carefully.

Some of the water filter advocates for municipal lighting are at the same time eager advocates of water filtration. As between the two measures, it will be very hard for them to make a choice. The new movement will therefore have a tendency to throw the electric lighting camp into confusion—which is undoubtedly just the result expected and desired.

MURDERED BY HIS PARTNER

G. Frank McLaughlin of Patterson, N. J., Killed in Wyoming.

Cheyenne, Wyo., Nov. 26.—A dispatch has been received from Sheridan, Wyo., saying that G. Frank McLaughlin was shot and instantly killed by Lew Hartsough, his partner in a lively stable there, after a quarrel concerning the management of the business. Hartsough is in custody.

McLaughlin was superintendent of the Nickel Mining & Milling company, which is operating at Clouds Peak, near Dayton, Wyo. He was 48 years of age and leaves a wife and two grown daughters, residents of Patterson, N. J. The body will be shipped to Patterson.

Aged Woman Hangs Herself.

Corning, Iowa, Nov. 26.—Mrs. Churchill, aged 75, committed suicide in this city by hanging herself at the home of her daughter, Mrs. J. J. Zeigler. Ill health was the cause.

Smallpox and Diphtheria.

Lake Preston, S. D., Nov. 26.—It is reported by traveling men that there are three cases of smallpox and several cases of diphtheria at Bryant, and that the schools have been closed.

A LINE TO THE EAST

Black Hills People Almost Despair of Getting It.

MOTORS OR AUTOS ACCEPTABLE

Until a Standard Gauge Road is Constructed, Hills Trade Will Go to Denver.

Special to The Journal.

Rapid City, S. D., Nov. 26.—Black Hills people are more than anxious to have communication of a direct route established between this or some other city and some point across the Missouri river. Whether it will be a telephone, a gas-lane motor line or a standard gauge railroad remains to be seen. The people have taken a great deal of interest in the report that a motor line, which would be started between this city and Pierre, would use the old state road. An attempt was made once before to get an automobile line across the reservation, but for some reason the effort failed. It is figured that a regular motor line would catch most of the Black Hills trade going to Pierre and places in the central part of the state.

When the time comes the Black Hills people will do all they can to get the long distance telephone company recently organized at Sioux City, to complete its line to the Black Hills. The dream of the people of the western part of the state has been for years to have a standard gauge road across the reservation, but it would seem that realization is as far away to-day as it was twenty years ago. With a motor line for the accommodation of passengers to the state capital from this city, and with the present efficient train service between Black Hills points and Denver by the Burlington route, the Black Hills people will be in a great extent satisfied, for Denver and the surrounding Colorado cities are already commencing to do what it was thought a railroad across the reservation could do for the Hills. The great bulk of the business of the Black Hills is bound to go to Denver from now on.

Commencing with Jan. 1, all of the large machine companies of the west, of Milwaukee, Chicago, St. Louis, Minneapolis or Kansas City, are to be restricted, making Denver their headquarters instead of the other cities. This will mean that the Black Hills people are going to order their machinery directly from Denver, instead of Chicago and the eastern places. The Burlington company is endeavoring to give a through freight service between Hills points and Denver, which will be much shorter than from Omaha to Deadwood. This will bring the tolls for products almost entirely. Already Colorado fruit has come to the Black Hills market to a great extent.

NO UNION SERVICE

Des Moines' Sixty Churches Will Give Thanks Separately.

Special to The Journal.

Des Moines, Iowa, Nov. 26.—Union church services in Des Moines were practically abandoned at Thanksgiving day the congregations of the sixty churches in the city will meet separately and give thanks for the year's bounty from separate houses of worship. No longer ago, Dr. J. E. Cathel of St. Paul's Episcopal church issued a statement to the press attacking the method of holding union services. The minister in question has acknowledged the criticisms were just.

DAM TO BE IMPROVED

Betterments Contemplated at Nevers for the Season of 1902.

Special to The Journal.

Stillwater, Minn., Nov. 26.—Superintendent Frawley of Nevers dam in the city to-day, and says extensive repairs will be made to the plant and several thousand dollars expended. The superstructure will be rebuilt in part and new sluice gates put in. All the improvements will be ready for the season of 1902.

Mrs. Michael Manthorpe, one of the oldest women in Washington county, was buried this forenoon from the Catholic church. The Rev. Amiel Bowling club met last night. Ed D'Amel made a high score, 200, also the highest average, 174.

The jury case of Johanna Matthews against H. H. Gillen, in which the plaintiff seeks to recover \$584, alleged to be an overcharge, is still on trial in circuit court.

The Stillwater high school football team will play a Macalester college team on Thanksgiving Day.

Teams representing Company K of this city and Battery B of Minneapolis will play basket ball here to-morrow night.

WHY VACATE IT?

Question Raised Regarding County Plat at Minnetonka.

Owners of land on Robinson's bay, Lake Minnetonka, and cottagers in the vicinity are making inquiries about the petition of the heirs of Sir Charles Gibson for the vacation of a tract of land on the lake shore dedicated by Mr. Gibson to the public for park purposes. The park appears as public property in the plat of the re-arrangement of a part of Minnetonka Central addition.

The tract has a frontage of 207 feet on Robinson's bay and runs back on a road, leading to the lake, a distance of 351 feet. In the opinion of several people it would be a wise thing for the county to retain the land even if there was no immediate opportunity to improve it. The county has not branched out as a founder of public parks and possibly may never take such work, but it is argued that valuable land should not be parted with. It would be manifestly improper and doubtless impossible for the county to dispose of the tract to private parties but in case the county does not care for the land it would naturally revert to the Gibson estate.

The petitioners for the vacation represent that the land has never been used as a park and never will be. It is not adapted for park or picnic purposes, they say, but the reason for this statement does not appear. Moreover, it is claimed that under present conditions the park stands in the way of certain improvements. The highway gives access to the lake without the park and it is not likely that anyone will be prevented from reaching the lake on account of the vacation of the park. The road, however, does not appear ever to have been dedicated to the public.

Cass County's Big Valuation.

Special to The Journal.

Fargo, N. D., Nov. 26.—The report from the county auditor's office shows that Cass county has an assessment valuation of \$1,788,827, upon which is a total tax levy of \$217,424. This county has between one-seventh and one-eighth of the total valuation of the state.

Delicious Mince Pies.

The best you ever ate, at Yerxa's.

FARMER CUT IN TWO

He May Have Been Robbed, Murdered and Left on Track.

Special to The Journal.

Des Moines, Iowa, Nov. 26.—Michael McCabe, one of the wealthy farmers of the northwestern part of this county, was cut in two by the Hill engine a mile west of the yards of the Milwaukee at North McGregor last night at 10 o'clock, death resulting instantly.

He had been to Chicago with a car of stock, and it is believed by some, was enticed to this place, murdered, robbed and placed across the tracks. Others claim it was an accident. Circumstances surrounding the case are peculiar and will be investigated by the authorities.

Thanksgiving Day Rates via Soo Line

Will be on sale Nov. 27 and 28 to all stations at fare not over one-third for the round trip. Limit returning Dec. 2. Soo Line ticket office, 118 3d St. S.

The Two Best Ways to California in Through Cars.

Temptation Tonic

The World's Greatest Nerve Tonic

Makes Weak Men and Women Strong.

Every Wineglassful a Dose of Health and Vigor.

Many women suffer untold torture through nerve debility, caused by disorders of the feminine organs, and drag along from day to day, getting worse all the time. They know their needs. But natural modesty makes them shrink from exposing themselves to the embarrassing questions and examinations of the family physician. In such cases as these a woman's future happiness or misery hangs on the selection of a remedy. If she gets the wrong medicine her trouble goes on growing worse and her hopes of finding relief become blighted. The chances are she will never make another effort to find relief as long as she lives. Her form rounds out and her step becomes sprightly, just as soon as TEMPTATION Tonic begins to manifest its subtle influence. The remedy is not a temporary stimulant. It effects gentle, permanent cures.

TEMPTATION Tonic is for sale everywhere. If your dealer does not have it, write us for full information and we will send you FREE, at no charge, our illustrated booklet. Correspondence answered and advice given in the strictest confidence by our medical staff free of charge.
