WOMEN

We Can Tell You How to Overcome Paleness and Weakness.

The question is often asked why it is that women of this generation suffer as they do.

Perhaps they are paying the penalty of indiscretions committed by their ancestors.

Undoubtedly such is the case, for there has never been an age when so much care has been exercised by women in general in regard to Hygiene and the care of themselves.

There is one thing that we do know and that is most women need more strength and more rosy cheeks.

They need to be built up, made physically strong, given a good appetite and especially see that their blood is made pure and red.

Nothing will do all this for women as well, or as quickly, as Vinol. It strengthens every organ of the body.

It above all tones up the stomach and enables this important organ to obtain all the nourishment necessary for the replacing of waste tissue and for the revivifying of the blood.

Especially have we had opportunity to note the benefits done by Vinol during convalescence from disease.

Not only do we know of nothing more valuable to nursing mothers, it does so much towards enabling the mother to gain strength for herself and the little one, from the food she eats.

Here is a letter bearing on this subject, written by W. J. Hamilton of 1708 Times Street, Keokuk, Iowa.

"My wife was left in a very much weakened condition with a severe cough. She had no appetite and had gotten down physically to the very bottom rung of the ladder.

I gave her Vinol and the cough disappeared, her appetite returned and now she is feeling first-class, is getting stronger and better and gaining in flesh every day."

Do not forget that we guarantee that Vinol will do all we claim for it and back our guarantee with our prompt refund policy.

MENELIK'S REPRESENTATIVE

He Dispel a Custom Inspector's Ignorance on One Point.

New York, Dec. 2.—Lieutenant Benito Sylva was one of the arrivals on La Gasconne.

He is aide-de-camp to the King of Abyssinia and is an active officer in the Abyssinian army.

Lieutenant landed at the pier in the full uniform of the Abyssinian army, carrying his sword in his hand.

He was astonished when the king's aide-de-camp informed him that he had never heard of the King of Abyssinia.

The lieutenant explained to the inspector that King Menelik was a great warrior, and had slaughtered 8,000 Italian soldiers in a single morning not many years ago, without losing a man on his own side.

Lieutenant Sylva said that was on his way to fight on an important mission and that he might visit other countries before his return home.
