

BANK IN FAR EAST

Large American Institution to Be Established. ENTRUSTED TO N. Y. CAPITALISTS

POLITICS IN HAWAII

Little Hope of Conflicting Interests Compromising. A DO-NOTHING LEGISLATIVE MEET

Special to The Journal. Chicago, Dec. 10.—A Washington special to the Tribune says: The establishment of a great American banking institution in the far east is about to be realized with the cordial co-operation of the government at Washington, so far as assistance can be given under existing laws and under legislation that is being urged upon the present congress.

New York Sun Special Service. Honolulu, Nov. 26.—The political situation of the people of the Hawaiian islands is peculiar at present, and there is little hope of compromise of the conflicting interests. The receipts for the year were not as large as expected, but the income law brought in enough to run the government for the rest of the present executive term.

The Guaranty Trust company, of New York has been selected by President Roosevelt's cabinet to undertake the responsibilities at Shanghai, Hongkong, and eventually at Manila and other eastern ports, and already officials of that corporation have been sent out to survey the field and to make preliminary arrangements for beginning business about the first of the year, when they will be called upon to receive the first installment of the Chinese indemnity at Shanghai.

The home rule or native party is still in the ascendant and there is little hope of the white republicans gaining control of the government. The democratic party is weak. The republican party proper is divided into two factions at present, one supporting the administration and the other fiercely fighting the policy of Governor Dole and his advisers.

The desirability of such a bank, capitalized and controlled by Americans, has long been apparent to the interests doing business with the orient. The Philippines came under the jurisdiction of the United States did the national government become aware of the great necessity, through being placed in the humiliating position of absolute dependence for banking facilities on two powerful English corporations and compelled to transact its business through them, including the handling of the large funds required by the army and navy.

The legislature, which is controlled by the home rulers, spent its time in the session in discussing a county government bill and a tax on female dogs and when that session expired by limitation it was found that nothing of real value had been accomplished, which is, in a large measure, responsible for the present difficulties of the government. For this reason Governor Dole has refused to call a special session, and now the enemies of the governor charge that he delays the calling of a special session in the interest of the speculators, who hope to profit by the stringency in the money market.

GOODIE WAS GULLIBLE

"WORKED" FOR IMMENSE SUMS. Liverpool Bank Clerk One of the Smoothest Propositions Crooks Ever Encountered.

New York Sun Special Service. London, Dec. 10.—In connection with the Liverpool bank robbery Crown Prosecutor Gill told an amusing story when Goodie, Burge and Kelly were brought up at the Bow street police court. He said: Goodie, though a competent bank clerk, was a most simple young man. In a railway carriage in October, 1900, he first met Kelly and a man named Styles, who is still wanted. The acquaintance ripened over a friendly game of cards. Kelly told Goodie he was in a position to get hold of good racing information, and Goodie bet according to the advice he received. The money was sent to Kelly, who shared it with Styles. Instead of carrying out their commission, these two men soon found out all about Goodie, and in twelve months the simpleton had paid the grain dealer, Burge, Manes and Marks, on learning how well Kelly and Styles were doing, thought they would like to follow such a good example. They got an introduction to Goodie and between Oct. 24 and Nov. 11 this year he paid them \$46,000.

GATHER AT SIOUX FALLS

IMPLEMENT MEN OF THREE STATES. Six Hundred Delegates Counted Upon—Cyrus McCormick to Be Present.

Special to The Journal. Sioux Falls, S. D., Dec. 10.—The annual meeting of the Implement Dealers' Association of South Dakota, southeastern Minnesota and Iowa and the annual convention of the South Dakota Retail Merchants' Association will open here this evening. It is expected that fully 600 delegates and others will be in attendance. Cyrus H. McCormick, of Chicago, has written General Manager Lamb of his intention to be present. Other prominent men will be here, among them W. S. Thomas, of Springfield, Ohio, president of the National Association of Agricultural Implement and Vehicle Manufacturers. The program is as follows: Tuesday Evening—Address of welcome by Mayor George W. Burnside; response by M. D. Thompson of Vermillion. Address by John Colvin of Mitchell, president of the association.

NEW CUBAN GOVERNMENT

Gov. Wood Will Urge Its Prompt Establishment. Washington, Dec. 10.—Governor General Leonard Wood has gone back to Cuba with the determination to urge upon the Cuban people the importance of prompt action in establishing an independent government. General Wood is an earnest advocate of tariff concessions to Cuba, but he was plainly told by members of the Cuban affairs committee that it would be useless to ask congress to enact any legislation of this sort in advance of the establishment of the Cuban republic, when a reciprocity treaty might possibly be negotiated.

RACES AT WAR

Finns and Americans at Hancock, Mich., Cannot Get Along. Houghton, Mich., Dec. 10.—A race war between Finns and English-speaking residents of Hancock is making work for the police of that town. James Hoag and William Kelsey were assaulted by six Finns in front of the Y. M. C. A. building, and not only were the Finns badly cut with knives as well. A lone Finn was assaulted by six men near the same place, and a few hours later several Finns were assaulted by a large party of young men in front of the Hancock city hall, and badly hurt by rocks and bricks. There have been several other desperate encounters.

NEW GERMAN TARIFF

Economic War With Russia Appears Inevitable. Berlin, Dec. 10.—There seems to be no doubt that the discussion of details of the tariff scheme in congress will be protracted until next summer and that the bill if passed at all will not leave the recharging before the following winter. The result of the tariff duties will be a tariff war with Russia. Germany might attempt to retaliate, but it is doubtful if she could do so successfully. Since the conclusion of the Russo-German commercial treaty, German exports to Russia have more than doubled, showing the seriousness of the interests of state.

Rev. C. E. Giddings Organizes a Company in the Hills. Lead, S. D., Dec. 10.—Another mammoth cyanide mill will be erected in the Ragged Top district. The Colorado-Dakota Mining and Milling company has plans made for a 300-ton plant and work will be commenced early in the spring. It will be located at Ross's springs, not far from the Burlington station at Crown Hill.

ELECTRIC CAR SPEED

English Passengers to Be Carried 47 Miles in 32 Minutes. London, Dec. 10.—Promoters of the London & Brighton electric railway make the announcement that they will convey passengers the forty-seven miles in thirty-two minutes. The suggested length of their tunneling is enormous. It is proposed that there shall be fourteen tunnels with a total length of 19 1/2 miles.

USES OF ALCOHOL

An Unequaled Muscle Food When Used Moderately. New York, Dec. 10.—Before the biological section of the New York Academy of Sciences at the Chemists' Club, Professor F. S. Lee of the College of Physicians and Surgeons, gave the result of his experiments on the action of alcohol on muscle. He had found, he said, as had Professor Atwater of Wesleyan university that in certain proportions alcohol was essentially a muscle food, and that with its aid greater results can be obtained than under normal conditions. Professor Lee conducted his experiments on frogs' legs, before amputation, so that the fluid might be evenly diffused by the blood.

MISCHIEF MAKER.

A Surprise in Brooklyn. An adult's food that can save a baby proves itself to be nourishing and easily digested and good for big and little folks. A Brooklyn man says: "When baby was about seven months old he began to grow thin and pale. This was, at first, attributed to the heat and the fact that his teeth were coming, but, in reality, the poor little thing was starving, his mother's milk not being sufficient nourishment. One day after he had cried bitterly for an hour, I suggested that my wife try him on Grape-Nuts. She soaked two teaspoonfuls in a saucer with a little sugar and warm milk. This baby ate so ravenously that she fixed a second when he likewise finished. It was not many days before he forgot all about being nursed, and has since lived almost exclusively on Grape-Nuts. To-day the baby is strong and robust, and as cute a mischief-maker as a thirteen-months-old baby is expected to be. We have put before him other foods, but he will have none of them, evidently preferring to stick to that which did him so much good in his time of need—his old friend Grape-Nuts. Use this letter any way you wish, for my wife and I can never praise Grape-Nuts enough after the brightness it has brought to our household. These statements can be verified by any one who wishes to make a visit to our home." F. F. McElroy, 236 E. Third street, Brooklyn, N. Y.

DOCK MEN STRIKE

Foreman at Gladstone, Mich., Lays Off Union Men. Gladstone, Mich., Dec. 10.—A strike was precipitated on the docks of the Pioneer Fuel company yesterday. The foreman laid off three union men and put non-union men in their places and the longshoremen's union ordered all work on the docks to be stopped.
