

A Mighty Sale of Overcoats

\$22.00 for \$12.50.

Owing to the lateness of the season we have been offered the entire stock of fine Overcoats of Remick Ryan & Co., Boston; makers of fine clothing only. The Overcoats were of such great value and high grade of make that the unusual extremely low offer tempted us—and the Overcoats are here. Now a few words about quality and style—the goods are from the celebrated *Schnable Brothers' Overcoats*, considered by merchant tailors as the finest in the country—lined with Farr's best double warp serge, and last, but not least, they are cut 48 to 50 inches long, having that graceful sweep, and are all hand tailored—just the style so much in demand this season. We will not exaggerate the value of these coats, but can conscientiously state that they were not sold for less than \$22.00 in regular season. The Coats will tell the rest. Your choice, for..

\$12.50

Big reductions in all our Overcoats, Suits, Pants, Boys' Clothing, Furnishings, Hats and Shoes.

Nicollet Av. and Third St.

Heinrich's

MINNESOTA

HASTINGS—The remains of Miss Bessie A. Bean of Duluth, who died in Minneapolis, were buried in the cemetery at Castle Rock.

AKELBY—The new Odd Fellow's society building, which includes the Grand opera house, was formally opened to the public last evening.

CARLTON—W. I. Pierce, a single man employed by the Cloquet Electric company, was instantly killed while connecting wires. His father lives in Idaho.

FARIBAULT—Members of St. Lawrence German Catholic parish are petitioning President Roosevelt to use his influence in terminating the Boer war.

ANOKA—Two infant sons of William Gardner of Oak Grove died within two hours of malignant diphtheria. The mother is dangerously ill with the disease.

DULUTH—The burning of the boilers in the Sacred Heart Institute has been found to have been caused by the valves being closed so as to prevent the hot water from escaping into the pipes.

STILLWATER—William Rutherford, who served with Company K in the Philippines, continues in a critical condition and his death is only the question of a few days. He contracted his illness in Manila.

FOLEY—Judge Searle conferred an adjourned term of the district court. The most important case is that of August Walerstrom, the Wabab farmer, who shot and killed his wife. He asserts the killing was accidental.

ST. CLOUD—Dr. Shoemaker, superintendent of the St. Cloud public schools, is an active candidate for the presidency of the St. Cloud normal school, to succeed President Kleeberger, who has tendered his resignation. Andrew Toland, who served three years in the Third Infantry, has arrived from Manila.

Half Rates to Fargo Grain Growers' Convention.

The Great Northern Railway will sell half-rate excursion tickets to Fargo and return on Jan. 6, 7 and 8, 1902, good returning until Jan. 11. An attractive program of addresses and papers has been arranged.

IOWA

ELDORA—Mayor Robb received as a New Year gift a proposition from Andrew Carnegie to furnish \$10,000 for a library building for this city.

SIoux CITY—Superintendent H. E. Kratz has begun work to secure a big delegation of Iowa teachers to the National Educational convention at Minneapolis.

ROCKFORD—Fire destroyed the large livery barn of J. Jordan, together with the Star Hotel and two store buildings. The loss is \$10,000, without any insurance.

DUBUQUE—The board of directors of the Carnegie-Stout library announce that Andrew Carnegie has increased his gift to the association by \$10,000, which makes \$60,000.

GEDAR FALLS—The arrest of Edgar Charles, of Finchford, and Charles Bowe, at Vinton, it is believed, will lead to the breaking up of a gang of robbers that has scourged the country from Webster to Vinton.

AUDUBON—The deepest mystery surrounds the murder of Lars Axelson, a wealthy farmer. It appears he was struck from behind while going from the barn to the house, and fell about ten feet from the door-step.

LARABEE—A large barn on the Montgomery farm was destroyed by fire. Eight horses, twenty head of cattle, 2,000 bushels of grain, twenty tons of hay and a lot of machinery belonging to Mr. Langkin, tenant, were also burned.

Business Opportunities for All.

Locations in Iowa, Illinois, Minnesota and Missouri on the Chicago Great Western railway, the very best agricultural section of the United States, where farmers are prosperous, and business men successful. We have a demand for competent men with the necessary capital, for all branches of business. Some special opportunities for creamery men and millers. Good locations for general merchandise, hardware, harness, banks and stockbuyers. Correspondence solicited. Write for maps and map leaflets, W. J. Reed, Industrial Agent, 604 Endicott Building, St. Paul, Minn.

MAKES AN AIRSHIP

Inventor Is Appropriately Darius Green's Namesake.

SAYS HIS THUNDER WAS STOLEN

The Idea of His Invention Appropriated by Santos-Dumont, the Brazilian.

New York Sun Special Service.

St. Louis, Jan. 3.—J. E. Green of this city has presented Director of Works Taylor of the world's fair the plans and specifications for an air ship, the original drawings of which he claims were stolen from him nearly ten years ago by a Frenchman and taken to France, where he now claims they have been reproduced in the dirigible air craft made famous by M. Santos-Dumont.

Mr. Green, who has been a resident of the city for many years, says he is the inventor of the principle which has been used by the daring Brazilian in his flights around the Eiffel tower. He has requested Director Taylor to inspect his models and drawings with a view to building and equipping an air ship for experiments at the world's fair.

Several years ago the Green invention was written about in a St. Louis newspaper. This was before the Santos-Dumont achievement had been given to the world. Mr. Green exhibited the newspaper account of his discovery to the director of works at the exposition. An illustration of the Green air ship, which is lifted into space by horizontal propellers attached to the side of the passenger car, which is swung under the cigar-shaped balloon. Propellers at either end of the balloon drive it on its lateral flights. Similar propellers are fastened to the ends of the passenger car.

The resemblance to the photograph of the Santos-Dumont, No. 111, are sufficiently close to give some color to the claims made by Mr. Green. He points out that the Brazilian dreamer failed to keep his dirigible machine in the air against any strong current. The St. Louis inventor says that in this respect he is ahead of the Parisian dreamer. Green's scheme is to manufacture the gas for his balloon out of the elements of the atmosphere by a process which he says places his discovery before all others. Green is nearly 70 years of age. He is a mechanic, and says he has made the subject of the air ship the study of his life.

WIFE WAS HYPNOTIZED

WHITE AT LEAST IS SATISFIED

He Pounds the Man Who Was With Her—Scene in a Clinton, Iowa Hotel.

Clinton, Iowa, Jan. 3.—F. L. White, a St. Louis traveling man, while at a hotel in this city, saw his wife seated at the dining table with J. L. Jordan, a Chicago drummer. Going to the hotel register he saw written there the name of J. L. Jordan and wife. White was so enraged that he told the landlord to call for the police, otherwise he would kill Jordan.

The chief of police was summoned, but refused to arrest Jordan unless he also had a warrant for the woman. White objected to this, saying that he would settle with Jordan. He found the two in the parlor and administered such a beating that it was necessary for a physician to work on the man. White said he did not blame his wife for her actions, as Jordan was a hypnotist and had her under his evil influence.

LOEB BUT HALF WAY

British Scientist on the Life-Prolonging Theory.

London, Jan. 3.—Prof. Starling, professor of physiology at the University College of Nerve Specialists, being asked concerning the discoveries of Prof. Loeb, said: "Professor Loeb is a man whose opinion is great respect for, for he has accomplished great work in physiology. As to this particular theory I think little; it was a jump in the dark, one of those theories on the same subject, made up partly of a number of views already known to the world. The living cell or unit is a brick wall which physiologists have been unable to see through. We can tell what goes on outside the cell, but no more. Professor Loeb's theory is an attempt to see through the wall. One difficulty about this living thing is that it grows down; but up; it breaks down, then recovers itself, and theories like Loeb's explain half the process, the break-down, but fail to explain the recovery. The real problem is the power of building up after breaking down. If Loeb's theory be partly true it only explains part, the less important part, of the secret of living cells. This marks an advance, but not an epoch."

BIBLE STUDY

Important Step for Catholics Decided Upon.

London, Jan. 3.—The Tablet makes an announcement concerning Roman Catholics and the Bible which it describes as being of profound interest to the whole Christian world. It is that the pope has appointed a special pontifical commission for the consideration of all questions connected with Biblical studies. Catholic scholars all the world over will have the fullest opportunity of stating their views and difficulties and bringing them to the direct notice of the holy see. Cardinal Parocchi will act as president of the commission. Cardinals Segna and Cardinal Vives will be assessors, and Father David Fleming, secretary. There will be eleven consultors chosen from different countries.

CAUSE OF DOWNFALL

Everett-Moore Syndicate Unable to Sell Out.

New York, Jan. 3.—The troubles of the Everett-Moore syndicate, of Cleveland, did not come as a surprise to Wall street bankers. The syndicate's attempt to build a line parallel to the Lake Shore, a part of the New York Central system, from Cleveland to Toledo, led to the rumor that the New York Central management intended to buy out this opposition. It was asserted here, however, that failure to sell to the Lake Shore has caused the financial difficulties of the syndicate managers.

JUDGE ELLIOTT DEAD

Attacked With Heart Failure at the Milwaukee Whist League.

Milwaukee, Wis., Jan. 3.—Judge Eugene S. Elliott of the circuit court of Milwaukee county, died last night at the Milwaukee Whist league, where he was spending the evening. Mr. Elliott was 60 years of age and was well known throughout the state. He was a prominent Free Mason and was also known as the father of the National Whist league, which was organized ten years ago and of which he was the first president.

Next Monday, January 6th, The First Time This Season.

The Chicago and Florida Special through service will leave Chicago Union Station at 12 o'clock noon via Pennsylvania lines. Passengers for Atlanta, Macon, Jacksonville, St. Augustine and resorts in Florida and the South may go through to destination. Arrange for sleeping car reservations and tourist tickets in advance by applying to H. R. Dering, Jr., G. F. Agt., 248 South Clark street, Chicago.

Must not be confounded with common cathartic or purgative pills. Carter's Little Liver Pills are entirely unlike them in every respect. One trial will prove their superiority.

GERM SUICIDE

Novel Theory Advanced by a Wisconsin Scientist.

Chicago, Jan. 3.—According to bacteriologists of the American Society of Naturalists, some kinds of germs have such an antipathy for water that they actually commit suicide to escape the flood. At the meeting of the society it was proclaimed as an established fact that water is in itself an agent deadly to many kinds of germs and that milk also has destructive attributes with itself. The information was brought out by Professor H. L. Russell of the University of Wisconsin, who read a paper on "The Toxicity of Water Toward Certain Pathogenic Bacteria."

Notice of Removal.

Chicago, St. Paul, Minneapolis & Omaha Ry. Co., Office of Assistant General Freight Agent, Minneapolis, Minn., Jan. 5th, 1902. RIPANS

Ripans Tabules are the greatest medicine I know. When I would go to the table before I used Ripans I would have to loosen my clothes. Now I can eat heartily and take a Ripans after each meal and have no trouble. I am never troubled with constipation since using Ripans.

At druggists.

The five-cent packet is enough for an ordinary occasion. The family bottle, 60 cents, contains a supply for a year.

PIANOS

Christmas is over! We are catching our breath and steadying our nerves and muscles for fresh effort and another year of successful business. This is a fitting time—between the closing and opening years—to refer to the principles which underlie our business methods—a good time to announce our creed. We have persistently followed a settled policy for thirty-three years. We handle nothing shoddy. We follow no fads. We tolerate no misrepresentations. We play no tricks. We buy the best articles the world offers and are satisfied with a moderate margin of profit. We would rather lose a sale than to lose a friend. We would rather make a friend than to make a sale. We recognize the fact that to make and hold friends we must practice the golden rule! It's a matter of business as well as a matter of conscience. Now, then! If you like our creed and have confidence that our thirty odd years of experience counts for anything don't forget us this coming year. We will sell you the best and sell it right. We will tell you nothing but facts and treat you as we would hope to be treated if we were buying from you. Wishing our patrons a happy and prosperous new year and acknowledging past favors we beg to remain

Metropolitan Music Co. 41-43 S. 6th St. (Metropolitan Bldg.)
