Sedgwick so that the stores should have the finest plate glass show fronts to be found anywhere, and the arrangements made by the firm for exhibiting goods in the windows will insure another magnificent addition to the already large expense for which Nicollet avenue is famous the country over.

Major McLaughlin, the veteran Indian inspector, who is related by marriage to an important element of the tribe, asserts positively, as within his own knowledge, that the Indians themselves are the cause of the trouble.

As pointed out in this correspondence, the plan was misconceived, of conditions there. The lease as now prepared requires lessees to find their timber elsewhere, and the title that is growing on the reservation will be reserved for the needs of the Indians themselves.

JONES' ORDER MEANS A RISING OF REDS

Reported Order Compelling Indians to Forswear Paint and Cut Their Hair Is Revolutionary.

This is the opinion of those who have been intimately associated with the Red Race.

If the government insists that the Indians in its charge shall cut off their long hair, abstain from the use of paint and the gaudy habiliments of savagery, the aborigines will dig up the hatchet and shed their blood in resisting so sudden a wiping out of racial characteristics.

This is the opinion of J. B. Bottineau, son of Pierre Bottineau, the northwestern pioneer and scout. Not only is Mr. Bottineau connected with the red race by ties of blood, but for years he has been counselor and attorney for the Turtle Mountain band of Indians. Nominally a resident of Minneapolis, he calls Washington his home, for his clients' business demands that much of his time be spent at the national capital.

Mr. Bottineau says an attempt at strict enforcement of Commissioner Jones' reported order means a revolution whatever happens.

An Arbitrary Order. Said Mr. Bottineau to-day: I think the order of Commissioner Jones, as reported in press dispatches, the most arbitrary and uncalled-for action that has been taken by the interior department in many years.
