

Mince Meat Comparison

NONE SUCH MINCE MEAT

- (1) Clean. Sold in air-tight, water-proof cardboard cartons. Tempts the appetite.
- (2) Economical. 10 cents a package, making 2 large pies. It equals 2 1/2 pounds of "wet" mince meat. Add the water yourself—don't pay for it.
- (3) Convenient. Being "compressed" it takes up very little room on the shelf, and is put up in exact pie proportions.
- (4) Reputation. Our name and 30 years' business standing is a guarantee.

SO-CALLED "WET" MINCE MEAT

- (1) Unclean. Sold from open pails and sloppy tubs. Think of it!
- (2) Expensive. Costs 8 cents to 15 cents a pound—by the weight is water. At this rate "None Such" should cost 20 cents to 40 cents a package instead of only 10 cents.
- (3) Clumsy. Has to be dished out in pans—takes up lots of room and you seldom have it on hand when wanted.
- (4) Unknown. Do you know who makes "wet" mince meat? Is it guaranteed?

Moral: Always buy "None Such"

Any good grocer will supply you. Don't be deceived or over-persuaded by "wet-goods." We can tell you a dealer that will supply you if you will not. Write us. Valuable premium list of 1847 Rogers Bros.' silverware in packages. Beware of packages imitating "None Such."

ROWAN A FREE MAN

Alleged Bearer of Bribes Cleared by a Milwaukee Jury.

HE RAN A MATRIMONIAL BUREAU

U. S. District Attorney Swore Out the Warrant-Clerk's Testimony Helpful to Defendant.

Special to The Journal.

Milwaukee, Jan. 23.—Charles H. Rowan, charged with offering a bribe to Charles McC. Anderson, assistant United States district attorney, was discharged last night, the jury in the United States court finding in a verdict of not guilty.

This is the third time that Rowan had been tried, but his first substantial victory was recorded last night. Four hours were required by the jury to reach their decision and five ballots taken.

The only witness on the stand yesterday was Mrs. Frank Krauser, who was employed by Rowan in the capacity of a clerk. She testified that the decoy letter sent by Mr. Anderson did not come through the mails and that she received letters for Rowan and opened them for him. On this testimony the case of the prosecution hinged, but the most rigorous cross examination failed to disturb her testimony.

Rowan will take up his residence in Chicago after visiting in Hartford, Wis., for a few days. The charge upon which he was tried was founded upon events which transpired three years ago when he was running a matrimonial bureau. At that time he was arrested for receiving a bribe to secure release from custody and also that the case be held.

LEFT ALL TO RELATIVES

WILL OF MILLIONAIRE PAPER MAN

Bulk of Patten's Fortune Will Go to Widow, Son-in-Law and Granddaughter.

Special to The Journal.

Appleton, Wis., Jan. 23.—The last will of the late A. W. Patten, the millionaire paper-maker, who died at his home in this city recently, was filed in the probate court yesterday, and besides his immediate relatives there are no beneficiaries. The stipulations of the document are as follows:

Mrs. Elizabeth Patten, widow of the decedent, the homestead and its effects; Miss Emma Patten, grand-daughter, Miss Barbara Patten, daughter and granddaughter, \$20,000; John McNaughton, son-in-law, \$20,000. The rest and residue, including all properties, both real and personal, to be divided equally between the son-in-law, John McNaughton; his grand-daughter, Miss Barbara McNaughton, and his wife, Mrs. Elizabeth Patten.

The inventory of the estate has not as yet been filed and the exact amount cannot yet be ascertained, but it is estimated at between \$1,000,000 and \$2,000,000.

CHAIN OF BANKS

New Morgan-Hill Community-Interest Enterprise.

New York, Jan. 23.—The First National bank stockholders of this city have acquired an important interest in the Commercial National Bank of Chicago. This means that the latter institution will become an important link in the chain of great banks which together form the community-of-interest plan through the efforts of J. P. Morgan and J. J. Hill. It is understood that President George F. Baker of the First National bank and several friends, the latter presumably including Morgan, Hill and James A. Blair, have purchased a large block of Commercial National bank stock.

It is said that Mr. Morgan and his friends have not acquired a controlling interest in the Commercial National, but the purchase of the stock will be enough to throw all the business they can to Mr. Eckels' bank.

NEBRASKAN SPEAKS AT MADISON

Some of the Issues Touched Upon—Ex-Senator Vilas Introduced Him.

Special to The Journal.

Madison, Wis., Jan. 23.—Colonel W. J. Bryan delivered his lecture, "A Conquering Nation," last night before an audience of townspeople and students, under the auspices of the Oratorical association.

The large gymnasium was filled to overflowing and for over two hours the eloquent Nebraskan held the attention of his listeners in a remarkable manner. His lecture, while not ostensibly partisan, touched upon the political issues of the day, money, expansion and the foreign policy of the country coming in for their share.

Mr. Bryan was introduced by ex-Senator Vilas in an appropriate speech in which he set forth the reason Wisconsin students should be especially pleased to listen to the silver-tongued talker. A few years ago Colonel Bryan gave a scholarship in oratory to the university and has since supported it.

BABCOCK BUSY

Preparing a Speech on His Tariff Revision Bill.

Washington, Jan. 23.—Representative Babcock of Wisconsin says that he has made no final decision as to his revising the steel schedules of the tariff to the attention of the committee on ways and means up to this time for several reasons. He is waiting for statistics which will be incorporated in the speech to be delivered in the house on the subject, and the figures he will use will not be completed by the treasury bureau of statistics until after February.

Mr. Babcock offered this explanation in response to the statement of Chairman Payne of the ways and means committee that the Wisconsin member has made no request in regard to the disposition of his bill by the committee. The ways and means committee will be busy during the next two weeks with daily hearings. Meanwhile Representative Babcock will prepare his material for an address to the house, which he believes will be instrumental in shaping sentiment in the house favorable to the consideration of his measure.

TEXAS FUEL OIL COMPANY

Lawrence & Little, Inc. Sole Agents

Texas Oil a Boon to Manufacturers.

The financial editor of the New York Press recently wrote to several of the large manufacturers of the country asking their opinion as to the future of Texas Oil. The following reply was received from the International Power Co., of Providence, Rhode Island. Financial Editor N. Y. Press.—Sir: We have your favor of the 14th inst. in regard to the possible effect of Texas oil upon the manufacturing industries of the country.

The most sweeping statement that can be made is that it would enable American industries to outclass at one step all foreign competitors; but this, of course, is assuming that the price remains down where it is at present.

The price can raise considerably without making oil as expensive as coal, and even at the same price its superiority over coal would still make its use universal, if the supply were sufficient.

One thing is certain, whether the price of oil goes up or not, there is a splendid margin in it for producers. It offers the greatest opportunity of the age for men to make money. Invest your capital in a conservative company like "The Texas Fuel Oil Company," do all you can to interest your friends in the proposition; it is on a basis as sound as a bank, and will be one of the big shippers of the world within a short time.

The Pipe Line to Port Arthur is progressing rapidly, the storage tanks are ready for the roof, and all this even before the first well is in.

If you are interested in the proposition, call or write for our prospectus. It will convince you that we have a splendid thing to do, and that you can't lose.
