## BAD BLOOD. BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis,
Mo., says: "My daughter was afflicted for years
with a disfiguring eruption on her face, which
resisted all treatment. She was taken to two
celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S., and by
the time the first bottle was finished the eruption
began to disappear. A dozen bottles cured her
completely and left her skin perfectly smooth.
She is now seventeen years old, and not a sign of
the embarrassing disease has ever returned."

### RACES ON THE ICE PATH

A LIVELY MATINEE TO-MORROW

linneapolis and St. Paul Horses Will Compete on Lake of the Isles.

The entries for to-morrow's Lake of the sles Driving Club meet are as follows: FREE-FOR-ALL PACE. Redstrath, Fred McKay. Removine, R. D. Eaton. Prince Stevens, W. B. MacLean. Mambrino Mack, W. C. Hobart. Elsie Ohso, William Allendorf. Dr. H., P. J. Alexander, St. Paul.

Olesa, William Ham, St. Paul. FREE-FOR-ALL TROT. Bedford Girl, William Ham, St. Paul. Lady Constantina, George C. Loomis, Min-

Rosebud, Nick Ronner. Hambert, S. S. Johnston. Robin Downs, Harry Downs. Blackfield, H. P. Watson.

The races will be called at 2 o'clock

sharp. The contests will be of extraor-dinary high order, as the crack horses from St. Paul and Minneapolis will come together for the first time this year to try conclusions for the supremacy in the free-for all division. Olesa is a famous ice mare, while Dr. H. has won most all his ice contests this season and has a phenomenal burst of speed for a quarter, and has gone to the half in 1:04. Bedford Girl recently defeated Robin Downs, a Minneapolis celebrity, who has shown up well in most all his races. Among the Minneapolis favorites is Elsic Ohso, who has not been defeated this season. Prince Stevens, the old time favorite, so far this winter has not been started, but Mr. Mac Lean assures the fact

that he is fit to make the race of his Redstrath is also looked on with some favor, having a dirt record of 2:13 to his credit and his consistent, bulldog race qualities are always in evidence. In the trot Hambert is touted to win hands down, having shown phenomenal flights of speed in the recent race which he won handily. Lady Constantina has not shown up in extraordinary good form so far, but more is expected of her than has heretofore been shown. Blackfield is close to the hearts of many of the "regulars" and is picked to give them a horse race after the second heat, as his re-nowned staying qualities have made him amous as an ice horse.

ILLINOIS AT MINNEAPOLIS

The Champaign Football Team Will Play Here Nov. S.

The University of Illinois football team vill play Minnesota at Minneapolis Nov. Oct. 25: and Iowa, at Champaign, Thanksgiving day. Arrangements are being com-pleted for the rest of Illinois' schedule, but nothing official has been announced as yet. The Illini will play baseball with Northwestern at Champaign, April 23; Michigan, at Champaign, April 12, May 12 and at Ann Arbor, May 22.

"BOB" KNEEBS DEAD

Man Who Punched the Nose of a German Prince.

Robert T. Hall, better known as "Bob" Kneebs, a horseman of international rep-utation, is dead at Sioux City, Iowa. Kneebs is the man who cleaned up the German race tracks with a string of American horses in 1994, was accused of 'ringing" by Prince Schmidt, and punched his higness' nose. The prince had Hall arrested for "ringing," thus involving the United States in an international incithe embarrassing disease has ever returned."

PLAY HOCKEY TO-NIGHT

Minneapolis and Portage Lake Clubs Will Get Together.

The Minneapolis Hockey club and the Portage Lake Hockey club, of Houghton, Mich., will meet in the first hockey game of the season in Minneapolis at Fourth avenue rink, Fourth avenue S and Eleventh street, this evening. The hockey enthusiasts of both cities have planned to see the game in force, and excitement over its outcome will run high. Portage Lake team is one of the strongest hockey teams in the country, and should have a decided advantage over the hastily organized Minneapolis team. The local players cannot be excelled for individual play and will probably make up in that regard what they lack in team work. Gordon Patterson, of the Virginia Hockey club, St. Paul, will referee. The Minneapolis lime-up: Goal, Cooper Haffield; point, George McBride; cover point, J. W. McIntosh; rover, F. B. Chapman; center forward, C. M. Fair-child; right forward, G. K. Labatt; left forward, Ambrose Raymond, spare men, J. M. Best and James Loudon.

NEGOTIATING FOR THE CAL.-N. W

Officials of the Northern Pacific Disclaim All Knowledge of Such a Deal. . . .

Special to The Journal.

New York, Jan. 24.—It is reported that the Northern Pacific is negotiating for for the California Northwestern railroad, lessee of the San Francisco and Northern Pacific line, to obtain entrance into San Francisco. Surveyors are in the field to extend the line from its present terminus, Willetts, Mendocino county, to Portland. Northern Pacific officials in New York disclaim any knowledge of such a deal.

Special to The Journal. Chamberlain, S. D., Jan. 24.—George F. Bidwell, general manager of the Fremont, Elkhorn & Missouri Valley railroad, has just made a tour through Gregory county, and at citizens meetings held at several points gave the positive assurance that his company would at once begin the work of extending a line into that county, and that the work of construction would be completed by Sept. 15 of the present year. Propositions made by him, and which were accepted by the citizens of Fairfax and Bonesteel, insure depots at those points on the line of extension. The pre-

liminary survey of the line is now being The South Dakota delegation in congress is also confident that the treaty made last summer by Major McLaughlin with the Rosebud Indians for the cession of that portion of their reservation lying in Gregory county will be ratified at the present session of congress, and that the lands, aggregating twenty townships, will be thrown upon the market during the coming summer.

THE MILWAUKEE DIVIDEND Little Probability That It Will Be Advanced.

Special to The Journal New York, Jan. 24.—There has been talk that the Milwaukee directors might advance the dividend rate in March. There not seem to be the slightest founds tion for this as the board is known to hold the view that 6 per cent is a very good rate of dividend and that whatever remains after paying it can better be employed in improvements than in increased rate of payment. The Milwaukee usually has a speculative advance a month or six weeks before the dividend meetings in the spring and fall. Doubtless the talk grows out of the comparative strength of the stock in the last few days, which is believed to be the result of buying by western houses.

ANOTHER ALASKAN ROAD astern and Foreign Money Is Ready for the Enterprise.

Seattle, Wash., Jan. 24.—The Alaska, Copper River & Yukon Railway company has been incorporated under the laws of Washington to build a railroad from Prince William's sound, in Alaska, through the Copper and Tanana river country to a point on the Yukon rive near Eagle.

The company designs, in addition, to operate a steamship line from Seattle to Prince William sound; to build and mainain a smelter and refinery in Alaska and to carry on general mining transactions. The capitalization is \$25,000,000, the entire amount of which, it is claimed, has been subscribed by eastern and foreign

capital.

The estimated cost of the railway is placed at \$10,000,000. The incorporators are E. D. Bannister, Alfred D. Iles and T. L. Parker.

Cancelled Its Tariffs.

The Chicago, Milwaukee & St. Paul road yesterday canceled its tariffs filed with the state railroad commission last week, increasing the mirimum on carload lots from 24,000 to 30,000 pounds, and announced that until further notice the old minimum would obtain. New \$40,000,000 Road.

Mexico City, Jan. 24.—D. Rogers of New York states that a new railway line, to cost \$40,000,000, will be built from a port on the Gulf of Mexico north of Tampleo, crossing the country to the Paolific coast, and then building up through the states of Sonora and Sinaloa, opening up rich mining regions. This line will have its terminus on the border at Eagle Pass.

M. & St. L.'s Expectations.

The Minneapolis & St. Louis road expects to have its new schedule to Chicago in operation by May 1. By this the time between the twin cities and Chicago will be shortened an hour. It was hoped that trains would be running on such a schedule before this, but delays in track improvements occasioned by the early cold weather, and the consequent suspension of work have made it advisable to delay attempts to operate on the new schedule until spring.

Homeseekers' Rates.

The Milwaukee has served notice that after March 1 it will resume the homeseekers' exmarch 1 it will resume the homeseekers' ex-cursions with the low rates which were de-clared off at the request of the Northern roads some time ago. The points affected are Minnesota, North and South Dakota, and the rates will continue through March, April and May. It is expected that other eastern lines will follow the Milwaukee's lead.

Railroad Notes.

Construction crews will begin work as soon as spring opens on further improvements to the Northern Pacific terminals in Duluth. The dock property owned by the company is to be extended in several places and a large amount of repair work will be done.

## Alabama Entrepot Becoming a Great Mart and Manufacturing Center.

By Charles Hallock. When the original prospectors of the Gulf coast struck this lotus-laden section with its aromatic magnolias and Her limpid spring water drawn fom adjawith, music, prayer, praise and thanksgiving for the comforts of living, and the substantial benefits received and enjoyed in the long interim. Blessings in a moderate degree have come to her people in erate degree have come to her people in a continuous stream all these years, and while the wide-spreading oaks which beautify Mobile, the state's chief entrepot, have been silently growing until they span the avenues and parks of the city, wealth has been gradually accumulating with steady increment, and associated. with steady increment, and associated speculators, they have been demonstrating a problem in human sociology which the gay world of fashion, the jeuness doice of the present day, would not recognize

and could not enjoy if they would. "Too deuced slow, don't you know?"

But now has suddenly come a great awakening. This sleepy old gulf port, which has "rested" for two centuries, is under the impetus of a tremendous headway, which is attracting the attention of the whole business world. It is a live the whole business world. It is a live topic. No less than sixteen newspaper correspondents and magazine writers have applied for data within the week since the New Year opened. Photographs for illustrations are in strenuous demand. Data are useful to establish and confirm impressions; but observers with half en eye can see that Mobile has gotten a move on her which is more or less astonmove on her which is more or less aston-ishing. It is worthy to be called a bulge. Isning. It is worthy to be called a bulge. Sewerage, waterworks, asphalt pavements (long needed) warehouses, wharves, factories, breweries, sawmills, (twenty-five of them) public buildings, big hotels, railroad extensions, all kinds of new industries, attract attention; the city corporation alone spending \$4,000,000 last year in public improvements, and \$5,000,000 are dock property owned by the company is to be extended in several places and a large amount of repair work will be done.

It was stated on good authority yesterday that negotintions are pending for the sale of the Chicago & Eastern Illinois to the Louisyille & Nashville road.

It is believed that the Pere Marquette road will soon acquire the Lake Erie & Detroit River railroad, better known as the Walker road.

H. B. Chamberlain has been appointed freight traffic manager of the Erie railroad and its operated and controlled lines.

It was made known yesterday that the Chicago & North-Western road had decided to baild a branch from Newton, Ill., to Janesville, Wis., by way of Rockford, a distance of something over 100 miles. The new branch will touch Sterling, Rockford, Winnebago and Janesville.

The Transcontinental Passenger Association completed its labors in New Orleans yesterday and will hold its next meeting at San Diego, Cal., in April. The interchangeable mileage ticket was left in the hands of a scommittee.

sleepy live oaks draped with pendent to moss, which scarcely swayed in the sea breeze, they snifted the golden atmosphere, closed their eyes and wrote it "Alabama"—here we rest! And they which will top the highest building save have been resting for 200 years come this one, the Biarville Hotel, which is an 22d day of January! at which date they eight-story sky scraper. Mobile has are to have a bicentennial celebration, erected 2,000 new buildings in twelve months. She has not had a business failure to exceed \$3,000 in twenty-five years She is a large timber and lumber center, employing 5,000 men in the shipment and manufacture; and her oak, poplar and pine timber squares larger than anything this side of Puget sound. When her Warior river water way is completed, she will be the only port in the United States through which coal mined within three miles of the sea coast can be floated to tide water. Texas oil producers look to with steady increment, and associated with contentment have made her citizens enviable among cosmopolitans. Pursuing the evn tenor of their way segregated in a measure by a shallow harbor from the commercial world, and overlooked by and salt deposits will measurably increase which is to be brought here in barges. The recent discovery of oil, cement, clay and salt deposits will measurably increase the number of manufactories of which there are three hundred already in operation, employing thousands of men who are domiciled, all of them, in most charming cottages. A system of steamboat naviga-tion embracing 2,000 miles of water way is a valuable auxiliary to development of trade, and increase of values. And with all her prosperity, Mobile is a Sabbath keeper. Her streets are orderly because her workingmen are busy. Satan finds mischief only for idlers. Perhaps more significant than any other enterprise is the location of a \$4,000,000 shipbuilding plant at Alabama Point near the city. It touches elbows with the expanding commerce and it is believed will prove as potential as Bremen Haven has been to Nothing is more significant of progress

Many preten-tious residences costing \$12,000 and upwards have already been erected, and the city suburbs have been greatly extended. In all this progress the Chamber of Com-merce, led by its unflagging secretary, E. E. England, has been foremost. Years ago Commander Maury said: "The Gulf of Mexico will some day be the focus of the world's trade," and that day is at hand. It is allowed that western men, chiefly from Chicago, started this boom six years ago; western men are invited to follow in the footsteps of their sagacious predecessors.
