PAINE'S CELESTIAL COMPOUND.

Most Famous Remedy in the World. It Makes People Well.

The nerves control and determine the health of every function of the brain and body.

More than nine-tenths of all diseases that are not infectious are known by every physician to be merely the local symptoms of a coming break-down of the nervous system.

In one person the diseased condition of the nerves manifests itself in insomnia, in another by indigestion; in another by rheumatism; some organ of the human body becomes affected, and refuses to perform its proper work.

When these symptoms begin to show themselves, medicine to-day knows but this one remedy, the famous discovery of Professor Edward E. Phelps, M. D., LL. D., whose wonderful achievement has spread the fame of one of this country's greatest universities. No other remedy was ever universally prescribed by physicians. It was by the advice of the most eminent practitioners in the country that this great remedy was first put within the reach of the public Paine's Celestial Compound is not in any way a patent medicine. It is so superior to all the so-called remedies, that no serious comparison can be made between them.

The formula of Paine's Celestial Compound has been freely furnished from the first to reputable physicians anywhere, and the thousands of authenticated cases that are reported yearly by physicians of every school have proved beyond question that in every case of dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, or other diseases, that imply impaired nerves, Paine's Celestial Compound invariably gives lasting relief.

It succeeds again and again in completely curing diseases where everything else has failed. It is the only prepared remedy in the world that is openly and publicly endorsed by medical journals. A single trial of Paine's Celestial Compound will convince any one that it accomplishes in every case all that it is claimed to do.

WASHINGTON

The house has passed the bill for the creation of a new reservation in Indian Territory. Governor Shaw has arrived and expects to be sworn in as secretary of the treasury to-day.

President Roosevelt has approved the plan for a joint building for the executive mansion and the departments of state and justice. Senator Patterson has introduced a bill providing for the union of Oklahoma and Indian Territory and their admission into the union as a state to be called Oklahoma.

If Miss Roosevelt attends the coronation and it is believed the president will consent and will rank with princesses of the blood, and was robe of crimson, or as it is called, royal purple.

While the ways and means committee was considering the war tax repeal proposition the democrats offered the Babcock bill as an amendment, but was defeated by a party vote, with the exception of Mr. Babcock, who voted with the democrats.

It is stated at the interior department that the case of Major Harding, former Indian agent at Yankton, S. D., is a closed incident. President Roosevelt has reviewed the case, and has sustained the action of Secretary Hitchcock in dismissing Harding.

Indian Commissioner Jones states that he will recommend to Secretary Hitchcock that a special agent be sent to Minnesota to treat with the Indians for the cession of the eleven townships on Red Lake reservation. The secretary will doubtless approve the recommendation.

Queer Case of Miss Johnson

Special to The Journal.

Fergus Falls, Minn., Jan. 31.—A strange story comes from the vicinity of Evansville, a young lady named Augusta Johnson having lately become subject to a kind of hypnotic spell, which comes on without warning, sometimes as often as two and three times a day. At such times she reads, sings and writes in a dozen different languages, several of which she knows nothing whatever about when in her normal mental condition. Rev. Mr. Lundin visited the family last week and secured some specimens of her writing. The case is arousing a great deal of interest in the neighborhood in which she resides.
