

Mrs. Annie McKay, Chaplain Sons of Temperance, 326 Spadina Ave., Toronto, Cured of Severe Female Troubles by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Being a mother of five children I have had experience with the general troubles of my sex. I was lacerated when one of my children was born and from that hour I date all my afflictions. I found that within a few months my health was impaired, I had female weakness and serious inflammation and frequent flooding. I became weak and dizzy but kept on my feet, dragging through my work without life or pleasure. A neighbor who had been helped by taking Lydia E. Pinkham's Vegetable Compound insisted that I take at least one bottle. I did so and felt so much better that I kept on the treatment. For seven months I used the Compound faithfully and gladly do I say it, health and strength are mine once more. I know how to value it now when it was so nearly lost, and I appreciate how great a debt I owe you. The few dollars I spent for the medicine cannot begin to pay what it was worth to me. Yours very truly, MRS. ANNA MCKAY, Chaplain Sons of Temperance."

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE. No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

MRS. TAILOR IN S. D.

Daughter of the Late Pierre Lorillard Arrives in the West.

DIVORCE CIRCLES ARE AGITATED

Mission May Not Be Known, However, Until She Becomes a Dakotan.

Special to The Journal. Sioux Falls, S. D., Feb. 11.—Mrs. T. Sufferer Tailor of New York, accompanied by a woman friend, arrived here this afternoon. They have taken up quarters at the Cataract hotel, the leading hostelry of the city. Up to a late hour neither of them had placed their names on the public register, which was taken as an indication that they are endeavoring to keep the fact of their presence in Sioux Falls a secret.

From what Mrs. Tailor and her companion were heard to say while the train bearing them was entering Sioux Falls, the former has engaged the services of a local attorney.

Under the South Dakota statutes a person must reside here for a period of six months before he or she can file a divorce suit, and until that time unless Mrs. Tailor or her lawyers decide to make the matter public, nothing will be known as to the nature of the grounds upon which the suit will be based.

New York, Feb. 11.—Mrs. T. Sufferer Tailor was formerly Miss Maud Lorillard, youngest daughter of the late Pierre Lorillard, and has been identified with the fashionable doings here and in Tuxedo, as well as Newport. At the time of her marriage, in 1883, she was very young.

Mr. Tailor is the only son of Mr. and Mrs. E. N. Tailor of Washington square. Until recently he has had no business cares.

ADMIRAL SCHLEY RECEIVES GIFT

Costly Piano Comes From a Source That the Hero of Santiago Cannot Divine.

New York Sun Special Service. Washington, Feb. 11.—A mahogany piano stands in Admiral Schley's apartments, and the admiral and Mrs. Schley are wondering where it came from. In the admiral's desk is a receipted bill of \$1,000 for the instrument. Several days ago a man drew up in front of the Richmond and several men began to unload a piano, which they said was for Admiral Schley. The admiral came down stairs, protesting that he had ordered no piano. One of the men handed him the receipted bill for \$1,000 and also a short note. The note partially cleared up the situation. It concluded: "Please accept this gift from a sincere admirer, one who desires no notoriety, but who wishes to take this method of expressing his regard for you."

INSURANCE MEN SCARED

Big Fires Have Cut into Profits—Rates to Be Raised.

New York Sun Special Service. Chicago, Feb. 11.—Fire insurance men are in a state of panic over the abnormally heavy losses, coming with such rapidity, during the past few weeks. Three years of profitable business, and several companies are said to be dangerously near dissolution. Over a score of stock companies in the million dollar class. A half-dozen have gone already this year, among them two of the oldest fire insurance companies in the United States.

FATAL TO BOTH

Colorado Man Dies in Defense of Another.

Trinidad, Colo., Feb. 11.—Louis Chambers and Teleson Trujillo fought a duel with pistols in a saloon at Bowen. The latter was almost instantly killed and Chambers received a wound from which he died several hours later. Trujillo, who was a miner, was quarreling with a fellow workman when Chambers intervened. The latter was shot in the chest, and Trujillo responded with his revolver.

RALLY BY SAMPSON

Only Temporary, However, as the Admiral's Days Are Numbered.

New York Sun Special Service. Washington, Feb. 11.—Admiral Sampson last night seemed considerably better, but he is still in bed, and his physicians hope that he may be able to be dressed for a short time soon, although it is by no means certain. Of course the improvement is only temporary, but it is none the less gratifying to the watchers by his bedside. The admiral has apparently been oblivious to everything. He has done little more than breathe and has lain in a large, cheerful corner room with eyes staring into vacancy. He has recognized members of the family. The children of the dying admiral, who came to Washington to be near him at the end, are still here. For days she has watched him as she would a sick child. For months she has been in no better health than now. She is weak and pale, stricken with grief and yet brave and strong. The admiral lies on a bed in a large, cheerful corner room in the second story, where the southern and western sun comes in, but he is indifferent to his surroundings. Occasionally he mumbles a word or two, but his speech is so thick as to be unintelligible. Once in a while there is a flare of intelligence and recognition in the eyes and that it all no more can be hoped for before the end, even though death may delay its coming for days.

Palatial Dwelling Burned.

Fort Wadsworth, Ind., Feb. 11.—Brookside, the handsome country home of John H. Bass, head of the Bass car wheel foundries, was burned early today. The fire originated from increased gas pressure in the furnace. Loss, \$170,000; insurance, \$110,000.

Admiral Thrifty and Foxy

Victoria, B. C., Feb. 11.—At a meeting of the Pacific Exploration company, which recently sent an expedition to Coocoo island to search for buried treasure, the president stated that a letter had been received from Admiral Palliser, formerly in command of the British Pacific squadron, stating that if the present expedition was a failure he would divulge the hiding place of the treasure if he was given one-fourth the cost of the expedition. Admiral Palliser visited the island two years ago and made a search for the treasure. It was at the meeting that on the occasion the admiral located the treasure but decided to leave it where it was until he had retired from the navy, when he intended to recover it.

'MAKE OUT OF A JOB'

Alex. McKenzie Is Backing Him This Time.

AND MR. HILL IS NOT SO BITTER

Improved Chances of Landing—How the Merger Fight May Help the Editor.

Special to The Journal. Fargo, N. D., Feb. 11.—Major A. W. Edwards of the Fargo Forum is in Washington with Alexander McKenzie, national committeeman on a political mission. North Dakota politicians assert that the major is looking for a place under the Roosevelt administration. The press of the state shows great interest in the major's Washington trip and is speculating on the result.

Major Edwards has visited Washington several times in quest of a federal appointment, but this is the first time he has gone there without the active opposition of Jas. J. Hill, and for that reason better results are expected. He was in Washington at the time of McKinley's first inauguration as a candidate for assistant secretary of war, or something "equally as good." He failed to score and his own poor success as well as the failure of his partner, Plumley, candidate for the Fargo postoffice, was credited to Jas. J. Hill. Plumley is a great favorite among the newspaper men of the state and all were anxious to see him appointed.

While the friendly attitude of Major Edwards and the Forum toward the merger has become a personal matter between Hill and Major Edwards, it is believed to have done away with much of the opposition to Edwards and the Forum on the one hand, and the Northern. When Alex. McKenzie arranged his very clever compromise on Cass county federal appointments he was able to reserve the Fargo postoffice for Mr. Plumley. If the latter falls to land this time, it will not be on account of President Hill's opposition. Edwards is scanning the official list at Washington with the assurance of support from McKenzie.

The fight between Hill and Edwards over the Fargo Argus in early days is said by the Hill adherents to have resulted in no reconciliation between the two can be expected. It is related that when President Hill was informed that the major's paper was friendly to the merger, he gave his auditors to understand that it made no difference in his feelings toward Edwards.

On the other hand, Edwards has said that he still disagrees with Hill's ideas of running a railroad, but that the merger will result in extensions by other roads in the state, and as long as rates are reduced the Hill adherents will not object to the stock. Alex. McKenzie is understood to have the complete confidence of President Hill in all matters concerning North Dakota, and it is Alex's opinion that something is due the major for his efforts in the past in behalf of the republican cause. Consequently the Hill shadow no longer hangs over the major's prospects.

The impression is growing among local politicians that the influence of the Great Northern and Northern Pacific roads will be exerted in the campaign. The organization which the railroad representatives are preparing indicates that the sheep and the goats are to be separated early in the fight and the men who train with this organization must be "right." McKenzie did clever work in the last senatorial fight, and with the Hill adherents at his back he is considered better armed than during any campaign or senatorial fight in the history of the state.
