### In Social Circles

The largest affair of the afternoon was the reception given by Mrs. Volney S. Irey in her apartments in the Waldorf. The decorations were charming and a profusion of American Beauty roses were used throughout the parlors. The lights were shaded in red and the chandeliers were wreathed with white flowers. In the center of the table was a cluster of pink roses in a cut glass vase and above, from the green wreathed chandelier, hung a basket of roses and ferns. Pink shaded papers in crystal candlesticks encircled the centerpiece and cut glass dishes of confections added to the pretty effect. The buffet table was a masterpiece. In the center was a cluster of the roses. Mrs. Fred Dickson of St. Paul, and Mrs. Herbert L. Western of Chicago, were the guests of honor, assisted through the rooms by Mrs. N. W. Senator's Nephew Breaks Out

Wants President to Withdraw a Sword Presentation Because of "Affront" to Uncle.

Special to The Journal.

Washington, D. C., Feb. 27.—Lieutenant Governor James H. Tillman, who is a nephew of the senator and a son of the late Congressman George D. Tillman, has telegraphed President Roosevelt requesting that he withdraw his acceptance of the invitation to present a sword to Major Mich Jenkins, a gallant officer of the Rough Riders.

Jenkins is the son of a South Carolina brigadier general killed in the civil war. Tillman took a prominent part in getting up contributions for the sword, and he was given the privilege of conducting the matter. Who the contributors are is not known here. Young Tillman was lieutenant colonel of the First South Carolina regiment. He became noted soon after the regiment went into commission as a captain of the colored men. He wished to get out of the service. As a result of his efforts in taking the petition of the men to Washington, the regiment was mustered out. The colonel died while the regiment was being mustered out, and then the lieutenant colonel endeavored to believe that in the service whatever he did was given to the sword fund to ask that he withdraw said acceptance.

James H. Tillman, lieutenant colonel of the First South Carolina, is in the city.

Tillman states that the affront upon his uncle was seemingly upon those of South Carolina who contributed to the sword fund.

SMOKED ON A POWDER BOX

MINERS SAVED BY MERE CHANCE

Slept While a Fire Was Burning the Covering of 40 Pounds of Powder.

Special to The Journal.

Ironwood, Mich., Feb. 27.—By mere chance three miners were saved from being blown into bits a thousand feet underground in the Iron Belt mine. The men were employed on the night shift, and after eating their dinner went into a warm drift to smoke. Two boxes of powder had been placed on the steam pipes and formed convenient seats for two of the miners, and the other laid down beside them.

Later the skip-tender passed by and was startled to see that the filling of one of the boxes was on fire and that the men were asleep. He hastily alarmed the sleepers, and there was a wild scramble for the shaft, which was just reached by the powder-forty pounds, half dynamite—exploded.

The force of the explosion was terrific. The men were knocked down and bombarded by flying rock. One sustained a fractured shoulder and elbow and a dislocated hip; another will lose an eye, and the other miner and the skip-tender were cut about the face. The filling is supposed to have been set on fire by one of the smoker's pipes.

IN A SANATORIUM

Judge Noyes Recovering at Redlands, California.

Los Angeles, Feb. 27.—Arthur B. Noyes, who has been removed by President Roosevelt from his position as judge of the United States district of Alaska, is at a sanatorium near Redlands, where he expects to remain until his health improves.

No three commercial centers in the United States are connected by better railroad facilities than are the twin cities of Chicago. Six routes of lines intersect between these points, each running several daily passenger trains. First among these lines is the Milwaukee, which alone sends out five trains for Chicago daily—one in the morning, the afternoon and two in the early evening. A reporter detailed for duty at the Milwaukee station yesterday was struck with the pronounced popularity of the Milwaukee road with the traveling public, as evidenced by the rush to its trains.

When the splendid Pioneer Limited was called at 8 p. m. for Chicago and the east a good illustration was shown of the business this train is doing.

### A NEW TILLMAN SHOW

SENATOR'S NEPHEW BREAKS OUT HE COULD HAVE MADE \$10,000

Wants President to Withdraw a Sword Presentation Because of "Affront" to Uncle.

Special to The Journal.

Butte, Mont., Feb. 27.—In an effort to locate conspirators, a big job to Oakland the Butte pool rooms on the Oakland races became public today. The job was conceived in Butte, and engineered by a well known professional man.

The report on one of the races was delayed on the plea that there was trouble on the Frisco wires, and the result was then telephoned to Butte from Salt Lake. In order to make the job financially successful it was necessary to take some of Butte capitalist into the scheme, and the conspirators decided on Charles W. Clark, son of Senator Clark.

The young man is a game sport, but a square one, and the proposition staggered his sense of honor. He pretended to go into the scheme, however, and put up several thousand dollars in three horses that ran one, two, three in the race.

The conspirators put up several thousand more, and when Mr. Clark carried himself as promised by the conspirators, he expected to receive the money. The pool room proprietors and held down his bet. He had stood to win about \$10,000. The pool room men still hold the money of the conspirators.

James H. Tillman, lieutenant colonel of the First South Carolina, is in the city.

Tillman states that the affront upon his uncle was seemingly upon those of South Carolina who contributed to the sword fund.
