

Mme. Yale's Toilet Preparations

Mme. Yale's Celebrated Toilet Preparations are the only natural beautifiers in the world. Their action is scientific, not artificial. They create a healthy condition of the skin and hair by instilling into healthy activity the natural functions. Do not be talked into using many cheap imitations and worthless substitutes on the market. Call at Wm. Donaldson & Co.'s Drug Department for Mme. Yale's books on Health, Grace and Beauty. They contain full particulars of Mme. Yale's system, and tell all about her various discoveries for beautifying. They are free.

MME. YALE'S HAIR TONIC.
Mme. Yale's Hair Tonic is a specific for curing all of the ills of the human hair. It is a scalp cure, and falling out of every instance; cures itching eczema and all scalp diseases. It enriches and restores the natural color by setting upon the minute blood vessels and oil ducts, causing them to circulate their distributive coloring matter throughout the entire length of the hair. Its action is natural, not artificial. It is the finest hair grower and hair dressing for general use in the world. It creates healthy, glossy, luxuriant hair; contains no sticky substance. Fragrant and clean; absolutely pure. Price \$1.25.

MME. YALE'S SKIN FOOD.
When the skin is dry, shriveled and wrinkled, as much as the stomach does when hungry, Mme. Yale's discovery, "Skin Food," feeds the skin by absorption, nourishing its entire structure. It strengthens the flabby flesh and relaxed ligaments, creating a firm, elastic, supple, and healthy skin. It is the only preparation in the world that removes wrinkles and the traces of age. It softens a harsh expression and gives to a lifeless countenance animation and youthful beauty. Since its introduction, it has been the greatest discovery of the age. Mme. Yale is the discoverer of "Skin Food." It was she who gave it its appropriate name. Price \$1.25.

MME. YALE'S ALMOND BLOSSOM COMPLEXION CREAM.
The finest preparation in the world for general toilet use. It keeps the skin perfect and creates a beautiful complexion of natural beauty. It is especially recommended for facial massage, purging, chapping, rough, scalds, wounds or bruises. The finest household article of the kind ever known. Price, 25c. For list of other goods, see Mme. Yale's books. They may be had free of charge at Wm. Donaldson & Co.'s Drug Department.

MME. YALE'S COMPLEXION POWDER.
Pink, flesh, white and brunettes; unequalled for purity and satisfactory results. Price, 25c.

MME. YALE'S COMPLEXION SOAP.
Cleansing, antiseptic and soothing in character; best Toilet Soap in the world. Price, 25c.

INTERESTS OF WEST

Secretary Shaw on Its Commerce and Industries.

HOW THEY MAY BE EXTENDED

Senator Nelson Writes, Putting in Strong Words for New Department of Commerce.

Chicago, Feb. 28.—Secretary of the Treasury Shaw was the principal speaker at the banquet of the National Business League last night. His subject was "Commerce and Industries of the West," and his utterances were received with much attention.

He spoke of the gold mines of Colorado, the copper mines of Montana, the iron mines of the West, the lumber industry of Minnesota and Wisconsin, the great wheat-growing section of the northwest, and the wonderful progress of all kinds of industries. In connection therewith, it is easy to predict great things. It would be indeed pleasant pastime to picture the states that produce the lumber, manufacturing the same; the states that out the lumber, consuming it; and the states that grow wool, having, as they do, the purest water for its cleansing, coal abundance, and power in literal torrents, weaving the finest cloth, as well as hannels, for the clothing of a hundred million of our people and for the comfort of many nations beyond. But I am not so much interested in the particular location where this work shall be done as I am in the inauguration of such means and policies as shall open the way for increased American activities. The Pacific ocean is ours and the gulf is ours. Let these join hands, not across, nor over, but through the isthmus, and the Atlantic shall be ours. Discovery means for informing our people what distant portions of the world require and it will be produced. With the same fostering that other nations afford, American ships will carry the product of our mines and of our farms, our fields, our folds and our factories beneath all skies and under all governments and America will become the workshop of the world, where he who seeks to sell his labor shall find abundant employment, and he who employs labor shall find abundant means thereby contributing to the comfort and the contentment of all.

Word From Nelson.
Senator Knute Nelson, of Minnesota, sent a letter to regret, in which he said: "I am deeply interested in the development of our commerce and manufactures and feel that if the bill to establish the department of commerce, which has passed the senate, becomes a law, it will be a great benefit and service to the manufacturing and commercial interests of the country. Such a department will be able to save the time and expense of our farmers and manufacturers now served by the farmers of the country. With our immense and growing productive capacity, what we need more than anything else is to promote our success and prevent backsliding, are better and more extensive markets abroad; and no instrumentally can render so effective assistance as the creation of a department of commerce, well managed under a proper head."

A letter of regret from President Roosevelt was also read.

INDEPENDENT GRAIN MEN ASSOCIATION FORMED AT AUSTIN
Kansas Plan of Shipments May Be Followed—Many Farmers' Elevators Building.

Austin, Minn., Feb. 28.—A meeting of representatives of independent and farmers' elevators of Iowa and the Northwest, independent of the Farmers' Elevator association organized.

The object of this association is to establish more friendly relations between the independent elevators and the elevator operators by adjusting ruminous competition rights at local stations and the arrangement of a more equitable margin for handling of grain.

The association also designs organizing a co-operative commission company and secure membership on the boards of trade at Chicago, Minneapolis and St. Paul, New York. The meeting was presided over by National Vice President E. L. Ballou of Larabee, Iowa.

It was reported that the activity of the National Grain Growers' association had promoted fourteen new farmers' elevators in the last sixty days in the northwest, as follows: Six in North Dakota, six in Minnesota and two in South Dakota.

The Kansas plan, which the grain growers have in successful operation, in which they are shipping the grain of the members direct to Germany, without the aid of boards of trade or middlemen, gives some idea of the success of the plan, which can be gained when it is known that 800 cars of grain was shipped in one month by the Kansas association.

IOWA COMPLAINANTS
Chicago Financial Concern in the Hands of a Receiver.

Chicago, Feb. 28.—The Surety Guaranty and Trust company, a concern with an alleged capital of \$1,000,000, has gone into the hands of a receiver, following the filing of bankruptcy proceedings instituted before Judge Kohlsaat of the United States district court. Assets amounting to \$1,000,000 were found in the company, and M. M. Cook, gave a bond to cover that amount.

The petition was filed on behalf of John R. Prime, former adjutant general of Iowa and one of the most prominent republicans of that state; Richards & Bliz and N. H. Wilson, all of Des Moines. Their claims aggregate \$1,500,000. General Prime has been employed there since he was a boy.

Concerning the financial condition of the company, a recapitulation of the last statement issued covering the period between July 1, 1899, to Sept. 30, 1901, is as follows: Securities negotiated, \$2,800,000; commissions received on sales, \$280,235; commissions paid agents, \$124,600; trust company's expenses, \$26,256. The statement contains the information that the available assets for the protection of creditors amount to \$697,331, of which there are first mortgage loans on improved farm and city property aggregating \$372,800.

SHIPPING ON THE VOLGA
Americans Can Get Around a Restrictive Russian Law.

London, Feb. 28.—A dispatch to the Standard from Moscow, referring to the reported American scheme to buy all the steamships on the Volga and to reorganize the traffic of that immense commercial highway, says that the owners are alarmed and have appealed to the government, which has decided to interpose navigation laws a clause confining the ownership of the steamships to Russian subjects. The correspondent remarks, however, that the clause need not interfere with foreign enterprise, as it can easily be evaded by nominating a Russian to act in behalf of the foreign owners. It was thus that the enormous British interests in the Baku naphtha industry was originally acquired, and much of the traffic between Odessa and the far east, many of the vessels employed there, is being owned abroad, although they must sail under the Russian flag.

AUTHOR AND PHYSICIAN

Writes Interesting Tale.
The author of "Under Palmetto and Pine," "Norma Trist," "Four Years on Wheels," etc., Dr. J. W. Carhart of La Grange, Texas, is devoting his literary efforts to a hard working physician in general practice.

He writes interestingly of how his freedom from heart trouble was gained by leaving off coffee and using Postum in its place. "I drank coffee in the ordinary form for many years, and nervous trouble involving disturbance of the heart's action resulted.

On coming to Texas I fell into the habit of drinking coffee after hard, cold rides in my practice or when in camp or on trail. My heart trouble soon became exceedingly aggravating, resulting in frequent attacks of what was pronounced as engine pectoris, a severe agonizing pain over the heart extending to the back and sometimes down the left arm.

In some of these attacks, but for the timely administration of morphine injected hypodermically I could have survived but a short time.

At different times I abandoned the use of coffee, believing it the cause of my troubles, and invariably improved, but as I had nothing satisfactory to take its place in the way of a beverage, I returned to its use.

The literature of Postum Cereal Coffee came to my notice and I resolved to try it. The directions for preparation were strictly followed and I found it an agreeable, appetizing, invigorating table beverage. I continued its use in my family for the past year and a half or two years, during which time I have never had an attack of my old heart trouble, am capable now at the age of 67 years, and in weight from 134 pounds to 165 pounds.

The doctor further refers to the widespread prevalence of heart trouble from the use of coffee and tobacco, and speaks of the advantage gained by patients when they leave off coffee and take Postum.

It must also be added that the poison of the coffee does not affect the heart in some patients but shows its work in the stomach and bowels with one, perhaps in the eyes with another, and kidneys with another, and general nervous prostration with another.

KNOX REACHES OUT

Government to Prosecute a California Combine.

Los Angeles, Cal., Feb. 28.—The Express has received word from the U. S. Corporations in California whose combined capital is close to the billion dollar mark, and who are alleged to be operating in restraint of trade contrary to the terms of the Sherman anti-trust law, are to be proceeded against by the government. Joseph H. Cail, federal attorney, who has prosecuted the murder of John S. King, who was killed in the Sherman anti-trust law, has been instructed by Attorney General Knox, acting by order of President Roosevelt, to institute the proposed new litigation.
