

SICK AND WELL

It is established by the testimony of thousands of women, that Dr. Pierce's Favorite Prescription makes Weak Women Strong and Sick Women Well.

Science is the foe of sickness. It is fighting sickness in all its forms and conquering it. Wherever there is a widely prevalent disease of special malignancy science enters the field against it. It was the prevalence of womanly diseases which led Dr. Pierce to investigate the cause of ailments peculiar to women, and to seek a means of cure which might be put within the reach of every woman in the land. The result of Dr. Pierce's scientific studies and experiments was the production of Dr. Pierce's Favorite Prescription, a medicine with a record of cures of womanly ills which is without a parallel in the history of medical science. The fact of these cures is attested by hundreds of thousands of women. The permanence of the cures is proven by grateful women who after a lapse of years write in such terms as these: "It is now several years since I used Dr. Pierce's Favorite Prescription. I have had no return of my trouble. I am a healthy, happy woman, thanks to Dr. Pierce and his medicines." There are people who say that such cures are imaginary. The women who are cured don't think so. They know there was nothing imaginary about the backache, weakness and nervousness from which they suffered. They know that there was nothing imaginary about the scales which told constantly of a loss of flesh, nothing imaginary about the mirror which showed the hollowed cheek and dulled eyes. Above all they know that there was nothing imaginary about the bills they paid for medicines and doctors without receiving any benefit.

There is also nothing imaginary to them about the result of the use of "Favorite Prescription." No more pain, no more backache or headache. No more nervousness and sleeplessness. That's not imaginary. And there's one solid fact which there is no getting away from because it is written in solid flesh and can be weighed in ounces and pounds, and that is the gain of lost flesh which so commonly follows the use of "Favorite Prescription," together with the restoration of a clear complexion and a healthy color.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 828 East College Street, Jacksonville, Ills. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing-down pain, and such distress every month but now I never have a pain—all my own work, and am a strong and healthy woman."

"In the spring of 1900 I became very ill," writes Mrs. Alviens Scholtz, of Lake Washington, LeSueur Co., Minn.; "my back was very weak and ached so that I could do no work at all, so I was obliged to take to my bed. I wrote to Dr. Pierce and he sent me a very kind letter and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' I took six bottles of each and am a well woman now. I cannot say enough in favor of Dr. Pierce's medicines."

"I wrote to you for advice, February 4th, 1896," writes Mrs. Loma Halstead, of Claremore, Cherokee Nation, Indian Territory. "I was racking with pain from the back of my head down to my heels. Had hemorrhages for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicines, viz: Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and 'Pleasant Pellets,' also gave advice about injections, bath and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard work."

Dr. Pierce's Favorite Prescription is a scientific remedy for the cure of womanly ills. It restores regularity and dries the drains which weaken women. It heals inflammation and ulceration and cures female weakness. It is invaluable as a tonic for weak, worn-out, run-down women, restoring them to perfect health and strength.

Sick women are invited to consult Dr. Pierce by letter, free. All letters are held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

A FREE OFFER! Any woman who will send stamps, to pay expense of mailing ONLY, will receive a copy of Dr. Pierce's Common Sense Medical Adviser FREE. This great and valuable medical work contains more than 1000 large pages and over 700 illustrations. Send 31 one-cent stamps (expense of mailing ONLY) for the cloth-bound volume, or only 21 stamps for the book in paper covers.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

LAKE PEPIN OPENINGS

DATA TAKEN FROM OLD FILES
Boats First Through When It Counted for Something—Wonderfully Early Season in 1878.

Special to The Journal.
Lake City, Minn., March 14.—The following shows the name and date of the first boat to go through Lake Pepin in the spring from 1814 to 1878. There have been a great many statements made by persons speaking from memory, but this comes from the files of local papers and is good authority. It will be remembered by early settlers that the first boat to go through the lake in the spring and get to St. Paul had free wharfage for the entire season, and there were great chances taken and the excitement ran high in those days.

"BULLY FOR WALLER"

WHY FUNSTON SO EXUBERANT
Kansas General Not Quaking in His Sandals in View of a Reprimand.

Special to The Journal.
Chicago, March 14.—General Fred Funston is not at all alarmed by the report in his speech before the Marquette club, which was severely criticized by Americans who are not in sympathy with the operations of the United States soldiers in the Philippines, and has angered the war department. Yesterday General Funston called on General Elwell S. Otis, who, it is understood, was inclined to agree with Funston in what he has said. Said General Funston: "I don't care if I am reprimanded. I don't care if I am rebuked from the war department for what I said in New York or in Chicago. It is somewhat indiscreet for an army officer to speak publicly about army affairs at any time, and the two speeches I have made are the only ones I intend to make. When I said 'Bully for Waller,' who is to be tried for shooting niggers, I based my remark on the assumption that the press cables that Waller killed them because they were the supplies intended to feed his starving soldiers were correct."

BAD AS BENDERS

Victims of Texas Gang of Murderers Number Fifty.

New York Sun Special Service
Beaumont, Texas, March 14.—Developments in the murder case here indicate that it will exceed 50 that of the notorious Bender affair in Kansas thirty years ago. For months mysterious disappearances of people who have hocked here as a result of the excitement have been noted, and it is now believed number at least fifty. It is probable that a large majority of them have been murdered.

John Welch, a white man who has been implicated by allegation by Mattie Bennett, the negro leader of the gang of robbers, has been arrested at Beaumont, having been arrested at Houston on the strength of the woman's confession. Welch denies complicity in the murders. He was an iron molder employed in the foundry with Benjamin Pearson, one of the murdered men.

The great woman confessed everything except direct murder and went fully into the details of the plan pursued by the gang, she said.

The business has been going on for six months. The men went out to the saloons and street corners and found men that had money. They would bring them to my house, and I and the other women would give them beer with knock-out in it. Then the men would either beat them up there and rob them, or take them out into the hobo camp. I don't know how many men I've dragged into my room to remember, and all of them were robbed.

The Neches river, where five bodies were found, skirted the town of Beaumont. In one place a woman ran back, and threw into the swamps would be eaten by the alligators.

The officers are on the lookout for one Smith, who disappeared about monthly ago. Smith, when last seen, had nearly \$10,000 in cash on his person.

OATS CORNERED

James A. Patten Just the Man to Watch in Chicago.

New York Sun Special Service
Chicago, March 14.—James A. Patten, who has the May oat market "cornered," is daily being questioned by the board of trade men. There is no doubt in the minds of oat professionals about the May corner. Mr. Patten is said to have at least 5,000,000 bushels bought, and his position is strengthened by owning it is reported, the entire local stock. This local stock was given on the last inspection sheet as 42,000 bushels, and since then he has cornered out 25,000 bushels, with the ultimate intention of shipping the entire stock. Yesterday Patten sold a few "nives" to keep the market from running away. The prices, however, gained 3 cent at one time, the May selling at 47 cents, with July delivery 95 cents under it.

MINERS MAY STRIKE

Significant Notice Posted Through the Anthracite Region.

Philadelphia, March 14.—The following notice was posted to-day at all the collieries throughout the anthracite coal region of Pennsylvania:

Rate of wages now in effect will be continued until April 1, 1902, and thereafter subject to sixty days' notice. Local differences will be adjusted as heretofore.

At the recent national convention of the United Mine Workers of America it was voted to again ask the operators to grant the men several concessions. Among these were the recognition of the union and an eight-hour day. At the same time the national officers were instructed to seek a conference with the operators and did so. As far as is known the operators have refused to grant the miners the request for a meeting. The miners have called a convention to be held at Shamokin next Tuesday, at which the union will be represented, and which will question of whether or not to strike will either be finally decided or referred to the national officers with power to act.

U. S. MILLING COMPANY

Argument on the Order Setting a \$2,500,000 Price.

New York, March 14.—Argument was continued before Vice Chancellor Pitney in Jersey City in the case of the United States Flour Milling company. This is an action brought by the Central Trust company from foreclosure of a \$7,500,000 mortgage on the properties of the milling company. Wheeler H. Peckham, chairman of the reorganization committee spoke in opposition to the order of Vice Chancellor Pitney, who set at a price of \$2,500,000. Mr. Griggs, for the complainant, favored the order. The hearing was adjourned to March 24. The stay restraining the sale was continued.

RIDE IN A SEWER

New York Man Repeats the Experience of Jan Valjian.

New York, March 14.—Edward Boyle, a plumber's helper, is a hero of a trip through the sewers of New York which rivals the wanderings of Victor Hugo's Jean Valjean through the labyrinth under the streets of Paris. For three-quarters of a mile he was swept through the dark by a rush of water. He was thrown, dazed and bewildered, from the mouth of the sewer into the Great river. Men on a snow hauled him out. Half-an-hour later he refused the assistance of the ambulance surgeon and started on his way home, seemingly none the worse for his adventure.

BREAK WITH SPAIN

Minister Storer Starts for Home and May Not Return.

New York Sun Special Service
London, March 14.—The Madrid correspondent of the Daily Mail says that the negotiations for a treaty with the United States have completely fallen to the ground. Mr. Storer, the American minister, did his utmost to get the treaty accepted, but when one of the principal clauses was somewhat brusquely rejected he promptly dropped the negotiations and started for America. The general impression is that he will not come back. The rejected clause referred to Spanish property in Porto Rico.

WISCONSIN

HANCOCK—A new foundry will be built by Hancock capitalists at Ripley, on the shores of Portage lake, opposite Junction.

HOUGHTON—Warrants will be served by Sheriff Willis on eighteen saloon-keepers, charged with a violation of the liquor laws.

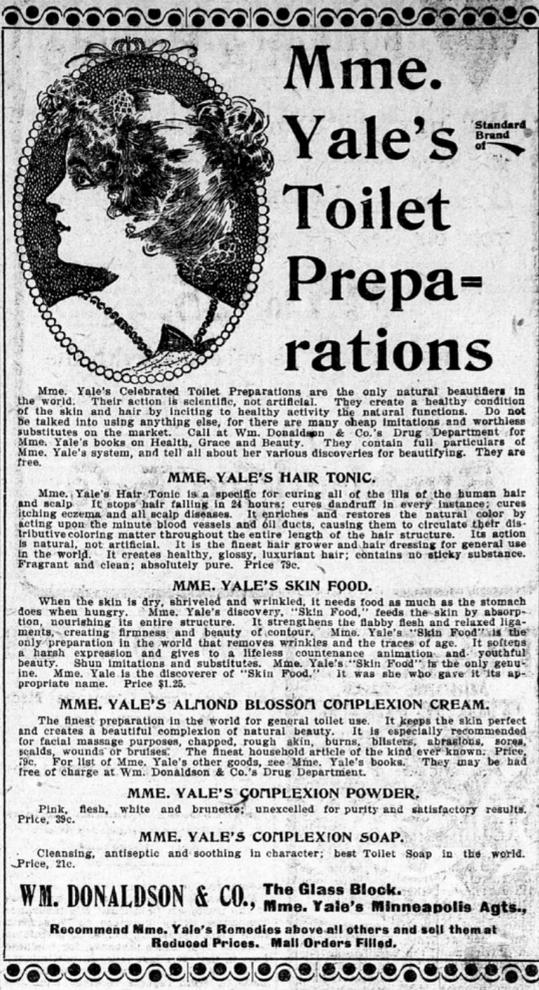

BRUCE—The second bank in the new county of Gates has been opened here, with a capital stock of \$5,000. William A. Blackburn is cashier.

CHAMPION—The trammere employed at the Champion mine walked out. The management announced a new wage rule which would bring the average pay of the trammers a little below what they have been earning, and all decided to quit.

WEST SUPERIOR—Judgment was taken in the superior court in the case of John Hanson against several insurance companies which held insurance upon his insured \$10,000. The judgment was for \$10,000. A judgment was entered for the plaintiff to the amount of \$18,000.

E. W. Grove.
This name may appear on every box of the famous Little's Bronchitis Tablets, the remedy that cures a cold in one day, 25 cents.

About Minnesota.
The first mill in Minnesota was erected at the Falls of St. Anthony in 1822. The first white child was born in 1838; the first dining cars between Minneapolis, St. Paul and Chicago were put in service by the famous North-Western line.

Mme. Yale's Toilet Preparations

MME. YALE'S HAIR TONIC.
Mme. Yale's Hair Tonic is a specific for curing all of the ills of the human hair and scalp. It stops hair falling in 24 hours; cures dandruff in every instance; cures itching eczema and all scalp diseases. It enriches and restores the natural color by acting upon the minute blood vessels and oil ducts, causing them to circulate their distributive coloring matter throughout the entire length of the hair structure. Its action is natural, not artificial. It is the finest hair grower and hair dressing for general use in the world. It creates healthy, glossy, luxuriant hair; contains no sticky substance. Fragrant and clean; absolutely pure. Price 75c.

MME. YALE'S SKIN FOOD.
When the skin is dry, shriveled and wrinkled, it keeps food as much as the stomach does when hungry. Mme. Yale's discovery, "Skin Food," feeds the skin by absorbing nourishment into its structure. It strengthens the fatty flesh and relaxed ligaments, creating firmness and beauty of contour. Mme. Yale's "Skin Food" is the only preparation in the world that removes wrinkles and the traces of age. It softens a harsh expression and gives to the face a pleasing countenance animation and youthful beauty. Shun imitations and substitutes. Mme. Yale's "Skin Food" is the only genuine. Mme. Yale is the discoverer of "Skin Food." It was she who gave it its appropriate name. Price \$1.25.

Jap Rose Soap

one-sixth pure glycerin, and containing vegetable oils, is transparent.

Carries the perfume of natural flowers. Most delightful for toilet.

A trial of it will convince you that nothing better can be made for use on skin or hair.

JAMES S. KIRK & COMPANY
RAIN WATER MAKER—SOFTENS THE HARDEST WATER
SEND TEN CENTS FOR SAMPLE

RIPANS

After eating I used to have a lump in my chest and I was so dizzy I would almost fall. I was constipated, had terrible dreams, bad taste in my mouth in the morning, and my heart would palpitate at the least exertion. One day a man gave me his box of Ripan Tablets with five Tablets in. I took them and got more. I used them three days and felt like a different person.

At druggists.

The five-cent packet is enough for an ordinary occasion. The family bottle, 60 cents, contains a supply for a year.

A WONDERFUL MEDICINE.
