O'Hare is the democratic candidate. NOT A REAL SNAKE Preacher Called "Atheistic" for Doubting Adam-Eve Story. New York Sun Special Service. McPherson, Kan., March 21.—The preaching of his belief that it was not real serpent that tempted Eve and that at the time of the happening in the Garden of Eden related in the Bible there were inhabitants of the world other than those therein mentioned as the first of the human family, forms the basis of charges of heresy which have been preferred against Rev. Granville Luther, D. D., pastor of a local Methodist church. Papers have been served upon the minister summoning him for trial before the southwest conference of his church at Arkansas City, Kan., March 28. Dr. Luther has been connected for years with the State Holiness association, and is preaching doctrines contrary to the teachings of the Methodist Episcopal church, and it is alleged that he is "atheistic and evolutionist."
