## In Social Circles

The marriage of Miss Fannie May Wingate and Frank R. Hill of New York was solemnized at 5 o'clock this afternoon at the home of the bride's mother, Mrs. John H. Wingate, 1515 Dupont avenue N. About fifty guests gathered to witness the service, which was read by Rev. F. A. Sumner. The rooms were decorated with a profusion of spring blossoms, used with tinted ferns and similar to carry out a color scheme of white and pink. Carnations and tulips were in the parlors and roses and smilax were on the table, which was crossed with satin ribbons.

Miss Nellie Wingate and John Wingate played the march from Tannhauser on the piano and violin as the bride couple entered. Miss Ora Whinston sang Beethoven's "Ich Liebe Dich" just before the service. Ruth Wingate and Morris Wingate stretched the white satin ribbons from the stairway to the hall. The bride wore a gown of white mousseline de soie. The skirt had a shirred flounce and was trimmed with bands of applique. The bodice was shirred and applique outlined the shoulders. The bridal bouquet was of roses. A collection was served in the dining-room by Misses Wilkinson, McCrae, Nellie Wingate, St. Paul, Ethel and Alice Wingate, Richard, and Nellie Wingate of Minnesota. The bridesmaids were Misses Mrs. W. S. Lightbody and Mr. and Mrs. W. S. Wingate of West Superior and C. Wingate and family of St. Paul. Before Mr. and Mrs. Hill left for the train the quartet of Pilgrims Congregation sang Grigg's "I Love Thee." The bride has been director of the choir at the church for several years. Mr. Hill will take his bride to New York, where they will be at home at 1515 Dupont. One Hundred and Eleventh street. Mrs. Hill's traveling gown was of blue, with a hat to match.

Mrs. John McNaught entertained informally at luncheon this afternoon at her home on E. Fourteenth street.

## CLUBS AND CHARITIES

**Branch Club Entertainments.**  
The B. B. D. Club of the North Branch Y. W. C. A. had a special entertainment last evening, which was attended by twenty-two club members. Supper was served at an early hour and was followed by program given by Miss Blanche Stanford, club leader, who read a short story; Misses Madeline Traver and Eleanor Skinner, vocal; Miss Glenn Stockton, Miss Marie Voltaire, piano; and Miss Ruth Leonard, reading. This club is one of the newer organizations of the branch and is chiefly social in its aim, although part of each evening is spent in reading short stories.

The L. U. B. A. Club of the branch was entertained Friday night by its president, Miss Elaine Wells, at the home of her sister, Mrs. W. I. Gray, on Fifth avenue S. An old-fashioned spelling match furnished much amusement, and refreshments were served. A members' tea will be given this evening for the branch members who are enrolled in the various clubs.

**Pioneer Celebration Changed.**  
The Territorial Pioneer Women's club held a meeting at the Nicollet hotel yesterday afternoon and decided to change the date of the annual meeting, reunion and pioneer dinner from Monday, May 12, to Saturday, May 10. Pioneers' Day, May 11, falls on Sunday this year, and the change is necessary to enable more visitors to be present. Mrs. H. E. Hazzard will have charge of the dinner and the dining-room will be under the supervision of Mrs. Julia Hill, Minneapolis; Mrs. Emma Wurst and Mrs. L. D. Tubbs, Stillwater. One table will be presided over by Mrs. Harriet E. Reeves and Miss Carrie Stratton. Mrs. Hazzard and Mrs. C. E. Grant have a second and the two remaining tables have not yet been arranged for.

## MAKING CARNATIONS BLOOM.

Er-Senator Washburn, it is said, seldom leaves his home without wearing a carnation in his buttonhole. Thousands of other men wear them more or less. This flower is equally popular with the ladies. They flower freely in the garden as well as in greenhouses. Northrup, King & Co., seedsmen, are introducing the "Marguerite" carnation, which will bloom in four months after sowing. Seeds sown early in the year will have an abundance of flowers in July, or sown in May and kept pinched back, will flower freely until the hard frosts. Seven in autumn carnations bloom early in spring. Thus by planting at the right time you can have carnations grown out of doors from spring until late in the fall. There are many kinds of carnations, and each has its peculiar points of attractiveness. You can learn much about them and also about other flowers, as well as about vegetables, in the seed catalogue of the firm above named. Call at the store, 28 Hennepin avenue, and make your wants known, or, if not convenient, write, and the catalogue will be sent you free.

## LITERARY SECRET DIVULGED

Nature Books by Nym Crinkle's Wife Instead of Himself.

Winona, Minn., March 25.—A former Winona young lady, who spent her girlhood days here and was then known as Miss Jay Mowbray, has recently come into some literary prominence. After leaving here Miss Mowbray was married to Andrew Carpenter Wheeler, a well-known newspaper writer and critic whose favorite pseudonym is "Nym Crinkle." Recently two volumes have been published under the name of J. P. Mowbray which have been credited to Nym Crinkle, but it now develops that these were written by Mrs. Wheeler, formerly Miss Mowbray. They are entitled "The Making of a Country Home" and "A Journey to Nature." Both have received some flattering notices in the public press. The books have been presented to Mrs. Wheeler by the Winona Free public library.

Miss Anna K. Perkins, daughter of Mr. and Mrs. J. P. Perkins, and author of "Kismet," the first published novel, is the daughter of the First Baptist church. The service was followed by a wedding supper at the home of the bridegroom's brother, F. H. Kohn. Mr. and Mrs. Kohn will be at home after April 1 at Central avenue.

## MISS SEWELL'S LABOR DATA

Most interesting information expected on Southern Conditions.

From The Journal Bureau, Room 45, Post Office Building.

Washington, March 25.—Miss Hannah R. Sewall's article on "Woman and Child Labor in the United States" probably will not be ready for publication in the bulletin of the Bureau of Labor for about a year. That is the time set by officials of the bureau, who are familiar with the work. It is said that Miss Sewall is doing this work alone. During the past few months she has been working in New England and will gradually work her way through the other states of the union until she has been in all the industrial centers. It is expected that the most interesting data for her article will be gathered in the southern states. There are a great many women and children employed in southern mills and very little is about the conditions which surround them. No laws for the protection of labor for about a year.
