FOR MEMORIAL DAY

Commander-in-Chief Torrance Issues a Formal Order.

MOST SACRED DAY OF THE YEAR

G. A. R. Posts Throughout the Land Urged to Give It Devout Observance.

Commander Torrance, of the Grand Army of the Republic, has issued the following order regarding the proper observance of Memorial Day:

It is the nation's Easter, when the people are summoned to the patriot's tomb; not with power to stir the enshrouded dead, but "by the mystic chords of memory" to resurrect the virtues which adorned their lives.

It is the nation's Sabbath, when, at the shrine of patriotism, all creeds are forgotten and we receive into our hearts a new inspiration to duty—a benediction day to all who observe it in its true spirit and meaning.

No more beautiful or impressive scene could be witnessed than that of a redeemed nation, ceasing from its daily toil and gathering around the graves of its benefactors, bearing offerings of flowers, and giving suitable expression of the love and gratitude which a great people feel towards those who gave their lives in defense of their country.

Plutarch tells of witnessing the 600th memorial service in honor of the Athenians who died at Marathon. We are only in the youth of our race, but the memorial is so becoming, and has already been so fruitful in blessing, that it will surely continue to be observed as long as the republic endures.

Post commanders are requested to invite clergymen of every denomination to deliver appropriate addresses on the Sabbath preceding Memorial Day, and as far as practicable posts should attend divine service on that day.

Post commanders are requested to ask the schools in their respective localities to hold patriotic services immediately preceding Memorial Day, and co-operate with the teachers and parents in such services.

A beautiful ceremony of strewing with flowers the waters that run to the sea in memory of our sailor dead who fell in the cause of the republic is heartily commended.

President Lincoln's Gettysburg address is published herewith, and in accordance with the resolution of the thirtieth national convention of the Grand Army of the Republic.

Bids Opened Today for Stationery for County Auditor and Registrar of Deeds.

Bids for furnishing assessment blanks for the auditor's office and eight record books for the register of deeds, under the new law requiring the county commissioners to advertise or bid for such supplies, were opened by the county board yesterday.

The eight blank books were to be made from Bryan Westin paper and to contain 640 pages each, ruled, printed and bound in best manner. Five were to be ruled records with no printing, one ruled and printed with one deed to a page and two ruled and printed with two deeds on each page.

The county, under the old system of giving out the work as the commissioners thought best, paid \$23 for the ruled and printed books, and \$20 for the ruled records. Under the old method the eight books would probably have cost in the neighborhood of \$169, as compared with the present bid.

The other bids were for printing blanks used by the assessors, as follows: 4,000 assessment blanks, 7,000 notices of the amount assessed, 1,000 affidavits, 500 mortgages, 500 statements of credits and 20 notices of assessments. The bids on the whole work were as follows: Kosman & Murphy, \$123; Harrison & Smith, \$117.50; Harrison & Smith, \$98.75. Last year there were 11,000 less of assessment blanks, but the county paid something like \$173.20 under the old method of giving out printing, as compared with \$98.75 they are to pay under the new law.

Bids for furnishing awnings for the courthouse were opened, but were all over \$100 it was decided to advertise for bids as provided for by law.

County Surveyor Cooley made several recommendations, but were all contrary to the coming season, among which was an item of \$325 for the Lake street Minnesota cycle path, which should be placed in good condition once.

BOOSTED THE PRICE

Remarkable Appreciation of Realty in the Second Ward.

Two Years Ago It Sold for \$500—University Starts Condemnation Proceedings.

Condemnation proceedings were begun in the district court today to obtain a bit of land wanted for the extension of the University of Minnesota athletic field.

The proceedings, which are conducted in the name of the state, are directed against Joseph Islander, who owns lot 8, block 3, St. Anthony, or, more particularly, 13 Union street S.E.

The regents have secured one-half of the block opposite the present armory and athletic park, with the exception of Mr. Islander's lot, but, not being able to reach satisfactory terms will resort to condemnation proceedings.

The negotiations with Mr. Islander have been a sore trial to the persons conducting them on behalf of the university, though they have not been without amusing incidents. According to the records, the lot sold for \$500 two years ago. Since then its value has risen to be worth about \$5000 have been added.

According to a well-known man familiar with the affair from its inception, Mr. Islander was at first willing to sell for \$2,000, but receiving an inkling of what was going on, he promptly raised his price to \$2,500.

This was deemed a fair value and the terms made by Mr. Islander were accepted, but by this time the price was \$3,500.

Naturally this move caused surprise, but after some deliberation it was decided to pay the new figure. For a third time there was a remarkable appreciation in the value of the land, and the price of the lot in question became \$5,000, with notice that unless the terms were accepted before June the price would be \$10,000.

But Islander went out of the regents' eyes and Islander was not in the district court.

The university obtains possession of the lot, it is the intention of the council to vacate that portion of Union street extending from University avenue to the Northern Pacific tracks. It is only a narrow strip, but it is abruptly cut by a railway embankment. The only one benefited by it is Mr. Islander and with him out of the way there will be no further concern over being the central figure in a murder trial, and apparently did not follow the proceedings much more intently than the spectators.

Judge Simpson called up the Gallegher murder case yesterday. Herbert G. Gallegher, the prisoner, was in court, but was hurried out abruptly at the close of his work on his previous appearance in court, had been removed and he was generally spruced up. He was not at all cocky at the time, but he was busy with his kitchen work when Gallegher entered the kitchen and shot him.
