

REV. MR. NOLL DEAD

The Young Candidate Who Questioned Adam's Existence.

HIS REJECTION WORRIED HIM

The Secretary of the Faculty of Union Seminary Says Noll Was "Pounded."

New York Sun Special Service.

New York, May 14.—Refused a minister's license a month ago by the New York Presbytery because he questioned the existence of Adam, Vincent Noll, a young theological student, became ill, and early yesterday morning he died.

The presbytery had reversed its former action and decided to accept the young man but it was too late and Noll never learned of his success. He was dead when the morning papers containing the news reached his friends.

That young Noll's death was hastened if not actually brought about by his rejection is claimed by many. It is known that constant worry wrought upon him that he had not the ability to fight the disease which ended his life.

This death has reopened the old wound caused by allegations that the New York presbytery discriminated against candidates coming from Union Theological seminary.

"It is all part of a scheme," said the Rev. Charles Ripley Gillette, secretary of the faculty and professor of theological German in the Union Seminary, "to destroy this institution. And I may say that they have taken a pretty big contract upon their hands."

"It is impossible for any one to say that the action of the presbytery killed this young man, but the following are undeniable facts:

"This young man had studied hard. He was under the care of the New York presbytery, and had been so for many years.

"The candidate was examined privately and then was taken before the full presbytery of some 150 members—only about ten of whom he knew—and he was literally pounded. Questions were asked him from every side, and it was evident that the fact that he came from this seminary caused the examination to be far more rigid and severe than it otherwise would have been.

"They asked him if he believed that Adam was a historical personage, and, of course, he answered no. Any thinking man would have done the same thing. He simply followed the line of all advanced thought of to-day and proved that he himself was not an antediluvian. Every possible effort was made to trip him up."

According to Dr. Gillette the young Bohemian grew worse steadily after his appearance before the presbytery. He was taken to the hospital, but as he was stricken hopelessly with consumption he had to be removed to the home of his sister. His sister and brother-in-law had continually grieved about the presbytery's treatment of him in his delirium. She said that in his lucid moments he would never discuss the action of the presbytery.

It is stated that the principal reason why it was voted on Monday to admit to the academy the student without further delay was that it was represented to the Presbytery that he could live only a short time. It was thought he would probably never appear to take his license.

In the graduating exercises of the Union Theological seminary which were held in Brown, president of the seminary, John Crosby had been presented to the twenty-five graduates their diplomas, said:

"I have here the student of Vincent Noll. The faculty has voted to present to him his diploma as a precious remembrance of his here."

HE ATE IT

Mr. Boardman's Rejected Food Was All Right.

Washington, May 14.—After George J. Boardman of the Twentieth infantry and of senate committee on food yesterday and threw on the table of food salmon and the can of condensed food tablets which just before leaving the senate he had said he refused to eat because it was spoiled, Senator Dierckx of that committee sent two samples of food to the senate requesting that they be presented to the table. The canned salmon he had made into a salmon salad and the prepared food was used in the preparation of a soup. Mr. Boardman then was invited to luncheon by Senator Dierckx, Senator Beveridge being a second guest. The salmon salad and the soup made of the compound supplied to the army were both and both appeared in very tempting form when upon the table. The senators and soldier guest were all helped equally and heartily to both of them. Mr. Boardman did not know, nor has he yet been told the secret of his invitation to lunch with the two United States senators, nor what he was eating.

DATTOS SUSPICIOUS

Recent Lesson to the Moros Was a Valuable One.

Washington, May 14.—General Chaffee cables from Manila. From present indications, further hostilities will not be necessary unless provoked by the Moros. The Bayan affair caused most astonishment; was extremely necessary wholesome lesson, which do not think will have to be repeated. Some dattos very suspicious and on defensive. The lake country is beautiful and more suitable for the occupancy of Americans than any part of the archipelago. Elevation, soil, climate, and water supply, favorably with any valley of the Alleghenies.

COLEMAN HELD

South Dakota Man Charged With Murder of His Brother.

Faultless, S. D., May 14.—Joseph Coleman, charged with the murder of his brother Edward to secure \$10,000 insurance on the latter's life, has been held to the court without bail. The tragedy occurred on a ranch near Faulkton.

LIGHT "BOOZE"

Do You Drink It?

A minister's wife had quite a tussle with coffee and her experience is interesting. She says: "During the last year of my training as a nurse while on night duty I became addicted to coffee drinking, for between midnight and four in the morning, when the patients were asleep, there was little to do except make the rounds, and it was quite natural that I should want a good, hot cup of coffee about that time. It stimulated me and I could keep awake better."

"After three or four years of coffee drinking I became a nervous wreck and thought that I never would live without my coffee. All this time I was subject to frequent bilious attacks, sometimes so severe as to keep me in bed for several days."

"After being married, husband begged me to leave off coffee for he feared that it had already hurt me almost beyond repair, so I resolved to make an effort and release myself from the hurtful habit. I began by taking Postum Food Coffee and for a few days felt the languid, tired feeling from the lack of the stimulant, but I liked the taste of Postum and that answered for the breakfast beverage all right."

"Finally I began to feel clearer headed and had steadier nerves. After a year's use of Postum I now feel like a new woman. I have not had any bilious attacks since I left off coffee. This lady requests that her name be kept from public print. Name given by Postum Co., Battle Creek, Mich."

POTTER PALMER'S WILL

A PROPERTY OF \$8,000,000

Mrs. Palmer Will Now Assume the Direction of the Family's Affairs.

Special to The Journal.

Chicago, May 14.—The will of the late Potter Palmer has been filed in the probate court. The estate is conservatively estimated in the document at \$8,000,000, of which \$1,000,000 is in personal property.

The will clearly shows that it was Mr. Palmer's idea that his widow should take his place after death and assume the direction of family affairs. The residence and contents are left to Mrs. Palmer. For the maintenance of the home she is given permission to draw any amount from the income of the estate she may see fit. By a provision in the will the surplus of the income left in the hands of the trustees after prescribed deductions have been made, is to be divided into two equal funds, one of which is set aside for the use of the two sons, from which they may draw, subject to the approval of their mother. The other is at the disposal of the widow.

STEWART STABS SILVER

Question Dead for the Present—Honor Facetious Over Cuba.

We bring on, May 14.—While discussing the conference report on the Cuban diplomatic and consular bill in the senate yesterday, Mr. Stewart of Massachusetts inquired what title was given to the Cuban government in the bill.

"The Republic of Cuba," replied Mr. Cullom.

"And the American flag is taken down from the island?" inquired Mr. Stewart.

"I suppose so, of course," responded Mr. Cullom.

"I thought we had been told," facetiously remarked the Massachusetts senator, "that when the American flag once had been raised over territory, it always would 'stay put.'"

While discussing the proposed coinage of the silver dollar for the Philippines, Mr. Stewart declared that the silver question in this country was dead, at least for the present, on account of the large output of gold in this country.

JURORS EXCUSED

Criminal Calendar Put Over Because of Related Farm Work.

Special to The Journal, May 14.—On account of the busy season, Judge Pollock excused the district court jurors and put over the criminal cases till the next term. Farm work in the valley was so delayed that the most members of the jury would have been heavy losers.

In the case of the state vs. John Haas, in which Haas was charged, the defense filed a motion of prejudice against Judge Pollock and demanded a new judge. The case will be taken up at the next term.

Last fall John Nelson, a laborer on the Hazart farm in the southwestern part of the county, fell from a wagon and his back was broken. His only relative was James Nelson, a 39-year-old resident of Fargo, N. D., who was charged with his brother until he became insane; and has been committed to the asylum at Jameson.

TOO MUCH SVENGALI

Suicide of a Student Craved by Hypnotism.

St. Louis, Mo., May 14.—Craved by the study of hypnotism, George A. Busch, a pharmaceutical student aged 30 years, killed himself by swallowing poison. Before committing the deed Busch telephoned to a friend advising him of his intentions and asking him to bid goodbye to his friends. Busch then went to the Oxford Hotel, engaged a room and immediately retired. The clerk later found the young man unconscious. He was taken to the city hospital and antidotes administered. From the hospital he was taken to his mother's home, where he died.

BEWARE, YE RICH

Bishop Clark's Pastoral Letter—Christian Science Condemned.

New York, May 14.—Bishop Thomas M. Clark, head of the house of bishops of the Protestant Episcopal church in the United States, has issued at Providence, R. I., a pastoral letter dealing with several phases of American life. Dealing with the millionaires, he says that if they take advantage of the necessities and ignorance of those with whom they deal, if their existence is of no benefit, it would have been better had they never been born. Mormonism, he says, is a "ridiculous and oriental theory he called 'follies,' 'absurd delusions,' and 'wiles of Satan.'"

MURDER ON THE ROSEBUD

Walking Shield Killed a Squaw and Carried Off Her Daughter.

Rosebud, S. D., May 14.—Mrs. Sarah Ghostface has been shot and killed by Allen Walking Shield, an Indian of the Rosebud tribe. Fatty mites were of the place. After shooting the woman Shield forcibly carried off her 17-year-old daughter, who later escaped.

An Indian named Red Hair, who feared Shield would visit his house, armed himself with a shotgun, which he accidentally discharged, shooting off one of his legs.

World-Wide Reputation.

Major J. G. Pangborn, the traveler, was very much impressed with the wonderful reputation of the Milwaukee's Pioneer Limited, when he saw last year, occupying a "place of honor" in the office of one of the state's secretaries in the palace at St. Petersburg, a fine picture of this famous train, and a map of the C. M. & St. P. road. The major, who at one time was a westerner, felt at the sight of this familiar picture very much as every true American feels at the sight of our flag in a foreign land—thrilled.

The Pioneer Limited, running every day in the year between the Twin Cities and Chicago, is the famous train of the world.
