

CITY NEWS

WEATHER NOW AND THEN

Maximum Temperature To-day 83 Degrees; a Year Ago 70 Degrees.

Will Inspect New Works—The water works committee of the council, with the city engineer, will make an official inspection of operations at the new Northeast pumping station to-morrow.

Camp Meeting at Anoka—The annual camp meeting of the Advent Christian conference of Minnesota will be held at Anoka commencing Thursday evening, June 13, and continuing over Sunday, June 22. A boarding tent will be on the ground.

son of Officer James Flood was bitten by a vicious dog this morning. Some boys set the dog on the child in a park. The child was painfully injured. Officer Flood went out, a warrant for the arrest of the owner of the animal.

An Error in Date—The Journal was mistaken yesterday in the announcement that the corner stone of the memorial building to be erected by H. C. Akola, at the corner of Broadway and Hennepin, was laid Tuesday. As a matter of fact the ceremony will not take place until May 30. **Prof. Levy Severe**—The 8-year-old

Mr. Lowry Says Not—It is reported in St. Paul that the Twin City Rapid Transit company's scheme for a through service between Minneapolis and St. Paul has been revived, but that some of the directors are opposed to it. It is reported that the company is not considering the matter at present.

Wm. Noonan Made President—William Noonan of Minneapolis was elected president of the organized Chicago & North-Western Telegraph company at a meeting held yesterday at 11 P. M. at the headquarters of the company. The directors are J. McMichael, John B. Manning, George B. Manning and Thomas P. Scully.

Much Garbage Being Burned—Sixteen teams under the management of the health department are now engaged in collecting garbage, and they are collecting an average of 200 tons a day. The city will visit 14,000 places, giving a collection service of once a week or better, according to the individual necessities. One incinerator is doing the work of cremation. By July 1 it is expected that the department will be collecting twice the present amount of garbage and using 30 tons.

No Street to Obstruct—After spending several hours in listening to the arguments of the attorneys in the case against John A. McLeod, the city engineer has decided that Buchanan street by laying a railroad track across it. Judge Dickinson found for the defendant. The defense maintained that there really is no street known as Buchanan street on the tract in question, as the proceedings necessary for opening a street had never been completed.

Rev. J. S. Montgomery in Demand—Rev. J. S. Montgomery, pastor of Wesley M. E. church, is in great demand as a public speaker. He has engagements for the next few weeks as follows: Minneapolis, Central high school undergraduates, June 12; Evanston, Ill., May 23; St. Paul, Minn., June 29; Alexandria, Minn., June 2; Elk River, Minn., June 3; Zumbrota, Minn., June 4; Faribault, Minn., June 8; Mitchell, S. D., June 7; Winona, Minn., June 13; Baraboo, Wis., June 20.

Beardsley Wants an Orator—Wanted—A Memorial Day orator, at Beardsley, Minn. The city of Beardsley, Minn., yesterday, by Adjutant General Fowler, on receipt of a committee's request, looked for W. P. Freer, of Beardsley, asking for help. The letter had been originally addressed to Governor Van Sant, who was asked to give some comrade the assignment. The governor's eloquent friend was already engaged for May 20, and he accordingly turned the request over to Mr. Fowler. Any speaker who is willing to undertake the duty at Beardsley is urged to get in touch with that community.

Miss Ringberg is Here—Selma Ringberg of Carver, Minn., the girl who was dragged in San Francisco and committed to an insane hospital in Seattle, is in Minneapolis and is employed in a factory here. She has been stopping at the home of Carl Hurlig, 631 Glendale avenue, St. Anthony Park. Mrs. Hurlig says that Miss Ringberg is apparently suffering from consumption, which she believes to be caused by the action of the poison. She thinks the temporary insanity was occasioned by the position which was administered to prevent her from revealing certain information she possessed.

"Swift Water Bill" Here—"Bill" Gates, known in the Klondike country as "Swift Water," was in Minneapolis yesterday on route to Valdez, Alaska. Gates has located more pay dirt than any other man who has ever panned his grub over in the trail. The mining instinct has prevented the most of the most of his claims. Gates is the man who jumped into brief newspaper notoriety some years ago by correcting the error in Danvers in order to get even with a variety actress who had jilted him. She was extremely fond of eggs and Gates determined to deprive her of her fruit. Although the price jumped up to \$2.50 per egg, he finally cornered the bunch.

NECROLOGICAL
H. A. SMITH, for many years a resident and business man of Minneapolis, died suddenly at his home in Portland, Oregon, Sunday evening. His only daughter, Mrs. Frank Towle of this city, left for Portland Monday. Mr. Smith was prominently identified with the lumber and timber land business in Oregon for several years.

DR. CYGNUS SMITH—Members of the First Minnesota Volunteer Infantry association, are requested to meet at Johnson Landis' undertaking rooms, 56 Seventh street S., to attend the funeral of the late Dr. Cygnus Smith, Company C, First Minnesota Volunteer Infantry.

JAMES STAFFORD, a former resident of Minneapolis, died recently in Pasadena, Cal., after a lingering illness. Mr. Stafford was 70 years of age and spent his boyhood days in this city. A few years ago he went to California for his wife's health, but the change could not cure her and she died there in 1888. Besides his wife and one child, Mr. Stafford leaves but one relative, his grandmother, Mrs. Jane Hurdick of this city.

MRS. SOPHIE DITTENHOFER, aged 70 years, died of apoplexy at the residence of her daughter, 2305 Fourth street, yesterday. Mrs. Dittenhofen lived at Wazata and came to the city last week to visit her daughter. She is survived by two children.

Why, of Course.
Special to The Journal.
Escanaba, Mich., May 21.—Andrew Carnegie's offer to build a \$20,000 library for this city was accepted last night by the council.

ERWIN MOVES

Detectives' Attorney Alleges Prejudice Against Republican Judges.

W. W. Erwin, appearing for Detective Chris Norbeck and Special Officer Irwin A. Gardner, indicted for receiving bribes, filed this morning an affidavit of prejudice against the four republican judges on the district bench of Hennepin county, namely Judges Elliott, Stimpson, Harrison and McGee. Had only one judge been named, the proceeding would have been unusual enough to cause comment among lawyers, but the wholesale inclusion of four out of six members of the bench has astonished the bar, as it probably did the bench.

Mr. Erwin he said free, but as soon as he had taken such action but refused to discuss it in any way.

Ames Secures a Stay.
Superintendent of Police Ames was to have decided this morning whether or not he would demur to the indictment charging him with receiving a bribe, but the leave to demur was extended until next Saturday at his request.

CRUSHED AND MANGLED
AN EXPRESSMAN LIKELY TO DIE
After Being Crushed by an Elevator He Falls Down the Shaft.

George E. Nye, an expressman living at 32 Western avenue, was probably fatally injured in an elevator at the Northwestern building about noon to-day. He was taken to the city hospital where it was found that his breast bone was broken, the base of his skull fractured and he was injured internally.

Nye was loading mail sacks on the elevator at the fourth floor. He then started down, but for some reason the operator lost control of the elevator and it started up. At the top floor the operator jumped out while the cage passed momentarily before starting on its downward trip. Nye also attempted to get out, but was caught by the roof of the cage and crushed. In some way he got free, but as soon as the cage had passed the floor, he fell down the shaft, striking the roof of the cage three floors below. One of the tenants on the sixth floor saw the cage pass with the injured man on top and, opening the door, he stopped the machine before it reached the bottom of the shaft.

NEAR \$1,400 MARK
Park Music Fund Growing—More Rapid Increase Expected.

Subscriptions to the park music fund amount to almost \$1,400. Money is coming in slowly, much slower than the citizens' committee hoped or expected, although the returns are looked for later.

In to-day's list the committee reports a donation from Hermon Lodge, Knights of Pythias, the third fraternal organization to contribute. The public seems to think that the city should pay for music in the parks, and in this view the committee coincides; but the city is not in a position to do anything but to encourage it if Minneapols is to have free music before 1903, the citizens must pay for it out of their own pockets. The list follows:

Presidential reported.....\$1,346.25
Dr. P. A. Aarssen.....2.00
A. A. Cirkler, M. D.....2.00
W. W. C. Brown.....2.00
Walter L. Badger.....5.00
Browning, King & Co., and employes.....14.25
H. E. Gibson.....5.00
H. E. Gibson.....5.00
Hermon lodge, No. 15, Knights of Pythias.....1.00
Total.....\$1,388.00

TRADE IN FURNITURE
City Hall Commission Plans to Swap Old Goods.

W. J. Oker, superintendent of construction at the new city hall, is making an inventory of the furniture at the old city hall, to be sold to the city. The city turns over to it all the furniture in the old building in order that it may turn in the old furniture to the concern having the contract for the new, thereby realizing more than would be possible at an out-and-out sale. The commission will make every effort to save \$50,000 for work on the Fourth street entrance this year.

ENGINEER SCALDED
North-Western Passenger Train Ditched at Bluff Siding.

Winona, Minn., May 21.—The worst accident near here on account of the storm occurred at 2 o'clock this morning at Bluff Siding when the east-bound passenger train on the North-Western road was ditched by running into a trestle. Some of the passengers were hurt, but Engineer H. C. Brown was scalded and otherwise injured, and was brought here for treatment. Mall Clerk Walter Benson had a bad cold. Some of the other washout on the North-Western occurred between Rochester and Eyota.

MOLLER KILLED
He Had Taken Refuge in a Neighbor's House From the Storm.

Special to The Journal.
Winona, Minn., May 21.—The high wind which prevailed here yesterday did considerable damage at Lake Hazel, six miles north of Benson. The house of Christian Olson was blown into kindling wood and the granary was completely demolished. Mr. and Mrs. Anderson were injured and Amund Moller, a neighbor, who had taken refuge there from the storm, was killed. The wind was followed by a heavy rain.

AN ANTI-SPITTING "SCREAMER"

This placard, now being posted by Health Commissioner Hall, is about 14x16 inches, and the raised white letters appear on a black enamel background. The signs are of metal and are most durable.

A NEW WAREHOUSE TRIAL UNDER WAY

McKusick, Towle & Co. Buy Ground on North Dupont. Megaarden Testimony is Reminiscent of the Former Hearing.

FOR STORAGE AND STABLES MUCH EVIDENCE ALREADY IN

Factory May Be Erected There Later—Ample Room Secured.

McKusick, Towle & Co. have purchased several lots in North Minneapolis through Nickels & Smith. They will build a warehouse and stables. The lots are 21 to 24 inclusive, block 8, Menage's fourth lots 2, 3 and 10, block 7, Menage's fifth addition. They front on Dupont avenue N. Just off of Sixth avenue N. and are bounded on one side by Bassett's creek.

Not long ago the company leased the five-story building at 292-294 First avenue N. where the business is carried on. In the course of time it is probable that the management will decide to build a factory on the new site and be content with an office and a room down town. From the rental point of view this move would be economical. Although near enough to the center of the city for the distribution of its goods the factory would be far enough removed to make it profitable and economy would be further promoted by having the entire plant centered at one point.

Former Sheriff Phil T. Megaarden is now fairly on trial. The state has decided to prosecute under the indictment moved at the former trial and much testimony has already been taken. The indictment is based on the conveyance of six children—Selma Pillion, Mike Driscoll, Robert Idelowitz, William Schraymer, Harry Galt and Max Brooks—to the state public school at Red Wing in March, 1900. The children were all taken down at one time and, according to the county attorney, the expenses should not have exceeded \$14. Nevertheless, the bill rendered to the county commissioners specified that each of the children was taken to Red Wing on a different date and at an expense of \$11 for each, or \$99.98 for all. On this state of affairs the indictment for presenting a fraudulent bill to the county is based.

The witnesses examined to-day were Superintendent J. W. Brown of the training school, who testified to the arrival of the children at Red Wing at the same time in the custody of officer John B. Blichfeldt, who made out the bill; Charles S. Jolley, who O. K.'d the bill as attorney to the county board; John Wall, who took Sheriff Megaarden's acknowledgment of the bill; A. P. Erickson, who testified regarding the allowance of the bill by the county board and the drawing of the commission; warrant G. W. McMillan, who testified regarding the fares to Red Wing.

MEGAARDEN JURY
Twelve Men Who Sit in Present Trial.

After examining all candidates, the following twelve were found to be without bias either in favor or against the former Sheriff Megaarden.

William H. B. Dencker, H. H. Mix, Hans E. Isaacson, Livingstone B. Nickerson, Gilbert Hager, August Klund, August Klund, J. Edwin Luce, C. Colburn Lynn, George H. Duggitt, John C. Lund, Julius Dokken.

COPPERS ON MOTORS
A Scheme to Catch the Fast Driving Chauffeurs.

The Motor Cycle Corps, However, Could Handle the Situation With Ease.

Motorcycles with which to catch reckless automobilists. That is Chief of Police Fred Ames' plan for keeping the riding chauffeurs within bounds. The rapid increase of chauffeurs in Minneapolis and the persistence with which many of them break the fast driving ordinance, especially in the downtown streets and on the boulevards, has forced home to the police the necessity of regulating their speed. Mounted officers on each other and to the whole body of the police. He noted that the strenuous discussion had not impaired the work of the past year, but had rather increased it. It is the same way down town. Motor vehicles chase across the business district, apparently with no thought that horseless carriages come under the ordinance limiting speed to six miles an hour.

Occasionally a crossing "copper" rushes into the street and brandishes his club; but by that time the racing machines are half a block up the street, while the man with the visor cap laughs back derisively. The bicycle inspectors, having also reported their inability to keep pace with wheels and autos, Chief Ames says he may find it necessary to act on the suggestion of detecting "shorty" Wirtzenhohn and ring in "Rainmaker" Gus Hansen and his corps of fast flying motor cyclists to "deliver the goods."

"If I ever get after 'em I'll bring 'em in," said Hansen. "There ain't an automobile in Minneapolis that can keep away from me if I put on a full head of steam. Just watch my smoke," and he sped up the street like a comet.

The most reckless driving of motor vehicles has been on crowded Nicollet avenue, where fifteen miles an hour is the approved or rather unapproved rate of speed.

ANOTHER VACCINATION TALK
Dr. Clarke of Indianapolis to Speak Against the Treatment.

The Minneapolis Anti-Compulsory Vaccination society has secured the services of Dr. W. B. Clarke of Indianapolis for a talk at the Lyceum theater Sunday afternoon, and if anybody can be secured to appear against him there will be a hot debate like that in St. Paul last Sunday. Before he has been made get-Health Commissioner Hall to appear in the arena again, but he announces that his Sunday's engagement was positively his last.

Smallpox is likely to be a dead issue for some time any way. There are only five cases in the city now.

MEMORIAL DAY PROCLAIMED
Governor Van Sant Formally Designates the Soldiers' Day.

Governor Van Sant issued his Memorial day proclamation to-day, asking that all business be suspended May 30, and that the graves of the soldiers of '61 and '98 be remembered.

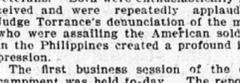

SOLDIERS PLEASSED

Fine Impression Made by Torrance and Van Sant in Iowa.

FIGHTING MEN IN P. I. UPHELD
Captain Merry Placed at Head of the Vicksburg Commission—5,000 Men on Parade.

Special to The Journal.
Des Moines, Iowa, May 21.—Governor Van Sant's address at the formal opening of the Iowa G. A. R. encampment and that of Commander-in-Chief Torrance made extremely favorable impressions with the veterans. Both were enthusiastically received and were repeatedly applauded. Judge Torrance's denunciation of the men who were assaulting the American soldier in the Philippines created a profound impression.

The first business session of the encampment was held to-day. The reports of Department Commander Metzger and

DR. G. A. NEWMAN OF CEDAR FALLS, Assistant adjutant general, who will be appointed for other term. Dr. Newman is also secretary of the state senate.

Adjutant General Newman were submitted. A falling off in membership is shown for 1901, there being 12,952 members at the outset of the year and 12,853 at the close. Commander Metzger's report showed the soldiers' home at Marshalltown and the soldiers' orphans' home at Des Moines in good condition.

The Vicksburg commission has organized by electing Captain J. F. Merry of Dubuque, president and Colonel H. H. Root secretary. The commission will visit the monuments at Washington and Gettysburg at the national encampment and later monuments on other battlefields and will then lay the plans for the Vicksburg monuments.

The grand parade held this afternoon was the largest ever seen at an Iowa encampment. It is estimated 5,000 troops

are in line and were reviewed by General Dodge, Governor Cummins and prominent men at the encampment. The report of Captain L. E. Cousins of Council Bluffs, department inspector, will be made Thursday and will show the condition of every post in the state. This is the regular report, many posts usually being delinquent. The report is for the year ending June 30, 1901. On that date there were 382 G. A. R. posts in Iowa, having 16,299 members.

SWAMP LAND GRANTS
A Bill by Which Northwestern States May Profit.

From The Journal Bureau, Room 45, Post Building, Washington.
Washington, May 21.—The house committee on public lands to-day ordered a favorable report on the bill to adjust the swamp land grants to the several states. It provides that the states shall be paid \$1.25 an acre for lands patented by the government on scrip and warrant locations. If the bill passes Minnesota, Wisconsin and Iowa will be benefited to the extent of several thousand dollars.

Amusement Rooms at Army Posts.
The house to-day passed a bill to allow the international committee of the Y. M. C. A. to erect suitable amusement rooms on military reservations in the discretion of the secretary of war. Donations have been made by wealthy persons for such buildings at eastern posts and this bill permit their erection there and also at Fort Snelling and other western posts.

HEMATITE ORE FIND
Diamond Drills Are Being Used on Attko-Kan Range.

Special to The Journal.
Duluth, Minn., May 21.—A find of soft hematite ore is reported from near the west end of the Attko-Kan range in Ontario, north of Minnesota. Four diamond drills are said to be at work there.
